

UNIVERSAL REGISTRATION DOCUMENT 2025

**Universal Registration Document
including the Annual Financial Report
Financial year ended 31 décembre 2025**

The Universal Registration Document was filed on April 15, 2026 with the Autorité des Marchés Financiers (French Financial Markets Authority or AMF) as the competent authority under Regulation (EU) 2017/1129, without prior approval in accordance with Article 9 of said Regulation.

The Universal Registration Document may be used for the purpose of a public offering or the admission of securities to trading on a regulated market where accompanied by an offering circular and, as the case may be, a summary and all amendments made to the Universal Registration Document. All of this is approved by the AMF in accordance with Regulation (EU) no. 2017/1129.

Pursuant to Article 19 of Regulation (EU) 2017/1129 of June 14, 2017, the following information is incorporated by reference in this Universal Registration Document:

- the consolidated and parent company financial statements for the financial year ended December 31, 2024, prepared in accordance with IFRS and French GAAP, respectively, the corresponding Statutory Auditors' reports along with Sections 7 and 8, pages 196 to 206 of the 2024 Universal Registration Document: [Ipsos - 2024 Universal Registration Document](#) filed with the AMF on April 11, 2025 under number D.25-0247.
- the consolidated and parent company financial statements for the financial year ended December 31, 2023, prepared in accordance with IFRS and French GAAP, respectively, the corresponding Statutory Auditors' reports along with Sections 7 and 8, pages 142 to 153 of the 2023 Universal Registration Document: [Ipsos - 2023 Universal Registration Document](#) filed with the AMF on April 12, 2024 under number D.24-0283;

The sections of the 2023 Universal Registration Document and the 2024 Universal Registration Document not incorporated by reference are therefore either of no relevance to investors or covered elsewhere in this Universal Registration Document.

This Universal Registration Document is available from Ipsos SA, 35 rue du Val de Marne – 75013 Paris from the Ipsos website (www.ipsos.com) and the AMF website (www.amf-france.org).

1 Persons responsible

1.1 Details of the persons responsible

Mr Jean Laurent Poitou, Chief Executive Officer of Ipsos SA.

1.2 Statement by the persons responsible

I hereby confirm that the information in this Universal Registration Document is, to the best of my knowledge, correct and that there is no omission that would affect its meaning.

I certify that, to the best of my knowledge, the annual financial statements and the consolidated financial statements have been prepared in accordance with the applicable body of accounting standards and provide a true and fair presentation of the assets and liabilities, financial position, and profit or loss of the issuer and of all the companies included in the scope of consolidation, and that the Management Report, the content of which is specified in the cross-reference table in section 22 of this Universal Registration Document, provides an accurate overview of the development and results of the company and the financial position of the issuer and of all the companies included in the scope of consolidation, as well as a description of the main risks and uncertainties they face, and that it has been prepared in accordance with the applicable sustainability reporting standards.

Paris, on April 15, 2026

Jean Laurent Poitou

1.3 Expert statement or report

No expert report has been included by reference in this document.

1.4 Third-party confirmation

No third-party confirmation or information has been included by reference in this document.

1.5 Statement without prior approval

The Universal Registration Document was filed on April 15, 2026 with the Autorité des Marchés Financiers (French Financial Markets Authority or AMF) as the competent authority under Regulation (EU) 2017/1129, without prior approval in accordance with Article 9 of said Regulation.

The Universal Registration Document may be used for the purpose of a public offering or the admission of securities to trading on a regulated market where accompanied by an offering circular and, as the case may be, a summary and all amendments made to the Universal Registration Document. All of this is approved by the AMF in accordance with Regulation (EU) no. 2017/1129.

2 Statutory Auditors

2.1 Name and address

Forvis Mazars

Member of the Versailles and Centre Regional Institute of Statutory Auditors

Represented by Julien Madile

45, rue Kléber, 92300 Levallois-Perret

- First appointed: April 28, 2017 (replacing PricewaterhouseCoopers Audit, who resigned).
- Reappointed: General Meeting of May 17, 2022.
- Date of expiry of term of office: Ordinary General Meeting called to approve the financial statements for the financial year ended December 31, 2027.

Grant Thornton

Member of the Versailles and Centre Regional Institute of Statutory Auditors

Represented by Ms Virginie Palethorpe and Mr. Lionel Cudey

29 rue du Pont, 92200 Neuilly-sur-Seine

- First appointed: May 31, 2006.
- Reappointed: General Meeting of May 15, 2023.
- Date of expiry of term of office: Ordinary General Meeting called to approve the financial statements for the financial year ended December 31, 2028.

2.2 Resignation / non-reappointment

Not applicable. See 2.1 above.

3 Risk factors

3.1	Industry risks	14
3.1.1	Risk of disruptive innovation	14
3.1.2	Sensitivity to geographic and industry developments, including geopolitical risk	15
3.1.3	Competition risk	16
3.1.4	Risk of a decline in business volumes or loss of business with Ipsos clients	16
3.1.5	Risk of natural hazards and impact of a global pandemic on business continuity	16
3.2	Operational risks	16
3.2.1	Risk associated with the integration of new acquisitions	16
3.2.2	Risk of financial loss	16
3.2.3	Cyber risk	17
3.2.4	Risk related to ad hoc projects with complex execution	17
3.2.5	Risk of a lack of qualified staff	17
3.2.6	Risk associated with the quality of data collected from panelists	17
3.3	Regulatory risks	17
3.3.1	Data protection, information security and privacy risk	18
3.3.2	Risk of changes in labor law	18

Ipsos' business is subject to a range of risks.

These risks are specific to the Group's activities and are the ones that Ipsos considers likely to have a significant adverse effect on the Group, its activities, financial position and/or results and outlook.

At the end of 2025, the Group identified and updated the financial and non-financial risks to which it is exposed, based on their severity and likelihood of occurrence. This risk assessment process is renewed every three years, with over 500 key Group executives involved in the last assessment. This section features an up-to-date summary of the main risks without intending to be an exhaustive list.

These key risks are broken down into three categories:

- Industry risks;
- Operational risks;
- Regulatory risks.

Within each of these categories, the top risk is considered to be the most serious, while the subsequent risks are not ranked in descending order of importance.

The table below summarizes the key risks:

Category	Risk	Severity
Industry risks	Risk of disruptive innovation	High
	Sensitivity to geographic and industry developments, including geopolitical risk	High
	Competition risk	Material
	Risk of a decline in business volumes or loss of business with Ipsos clients	Medium
	Risk of natural hazards and impact of a global pandemic on business continuity	Medium
Operational risks	Risk associated with the integration of new acquisitions	Material
	Risk of financial loss linked to the departure of key managers	Material
	Cyber risk	Material
	Risk related to ad hoc projects with complex execution	Medium
	Risk of a lack of qualified staff	Medium
	Risk associated with the quality of data collected from panelists	Medium
Regulatory risks	Data protection, information security and privacy risk	Medium
	Risk of changes in labor law	Medium

3.1 Industry risks

3.1.1 Risk of disruptive innovation

Risk: high

Description of the risk: The market research sector has been impacted by constant technological developments since its inception. Data collection methods have evolved and expanded since the days of in-person data collection to include many additional, more automated tools (CATI, CAPI, online, etc.) incorporating active or passive methods. At the same time, data processing, analysis and delivery have also been automated and digitized.

Ipsos operates in an evolving market, facing significant technological developments and changing customer expectations.

These changes are paving the way for the emergence of new market segments such as online data analysis, social media tracking and DIY (Do It Yourself) solutions. These activities, where the tech

component is more prevalent, tend to outperform the traditional research market, which is still growing itself.

More recently, major advances in artificial intelligence, particularly generative AI, will impact Ipsos' activities. The foundation of Ipsos' business, i.e. collecting quantified information that does not yet exist and/or is not yet formulated, falls outside the scope of what generative AI can provide. In contrast, Ipsos sees strong opportunities for using generative AI to automate many internal tasks.

In today's environment of constantly evolving technology, Ipsos must stand out from the market in terms of innovation. Not innovating enough, in a timely manner or less effectively than the competition would ultimately have a negative impact on the Group's business, particularly in new market segments. Adapting to technological change requires Ipsos to control the development, introduction or marketing of new services, by controlling costs and investment.

Risk management and mitigation: To prevent this risk, Ipsos devotes significant and increasing resources to research and development for innovative market research methods and solutions (for capitalized development costs, see section 18.1.2.). The following list is not exhaustive:

- Ipsos is innovating through new services, leveraging platforms in new areas such as "ESG, Science & Data, Advisory". These new services include "Do-It-Yourself" (DIY) solutions, an AI offering and the use of data via social media.
- Ipsos invests in the Science Center, which carries out analytical R&D, to develop Ipsos technical solutions, to provide value added analytical services and advice directly to clients, using Big Data analytics.
- Generative AI is already used by 80% of our employees in a private environment called "Ipsos Facto", a tool that supports our entire value chain and improves efficiency.
- As part of the Horizons strategic plan launched in early 2026, Ipsos will invest more than a billion euros in transformation operations over the next five years, mainly through acquisitions and strategic investments.
- Moreover, Ipsos, through its brand, expertise and geographical presence, is an attractive partner for technology players, with whom it is able to establish cooperation arrangements, strengthening its capacity for innovation.

3.1.2 Sensitivity to geographic and industry developments, including geopolitical risk

Risk: high

Description of the risk: Ipsos operates in a wide number of markets and industries, all sensitive to changes in economic conditions and to local crises of any kind.

In particular, geopolitical crises have become increasingly prominent and are impacting the global economy and Ipsos' customers and may affect a Group operating in 90 countries.

Country risk can impact Ipsos' performance, as the Group considers the main long-term growth driver to be GDP growth in its countries of operation. This correlation notion also applies to business sectors where disappointing performance leads Ipsos clients to reduce their spending on market research.

For reference, Ipsos' main markets are the United States, the United Kingdom, France and China, each with revenue of over €100 million. The fact that the Group operates in close to 90 markets has the advantage of reducing the overall risk. The main business sectors are FMCG (Fast moving consumer goods), TMT (Telecom, Media and Technology) and health. In total, six sectors account for 5% or more of revenue.

Ipsos Group revenue comes from a mix of short-, medium- and long-term contracts. In the event that macro-economic conditions deteriorate and clients elect to reduce their variable costs, some short-term projects may be delayed or canceled and orders for new projects may be fewer than anticipated.

Risk management and mitigation: Historically, economic fluctuations have not had any long-lasting impact on the market research industry. In effect, economic uncertainty has the most often generated an increased need for information in the medium term. The Ipsos Group believes that, except in the event of a significant economic downturn in a major country, the combination of the geographic footprint of its operations and its multi-specialist positioning make it resilient to any deteriorating local economic situation.

3.1.3 Competition risk

Risk: material

Description of the risk: The research market is highly competitive (the top 10 represent less than a third), with the arrival of consulting firms and technology players expanding their offerings and increasing pressure on Ipsos.

This context may weigh on business volume and profitability, although the risk appears overall to be material yet manageable through adaptation of the offering, innovation and targeted partnerships.

3.1.4 Risk of a decline in business volumes or loss of business with Ipsos clients

Risk: medium

Description of the risk: Ipsos serves a diversified base of over 5,000 customers, with limited concentration (the top 10 representing approximately 14% of 2025 sales, the top 3%), but growth requires maintaining strong relationships and a competitive offering.

Gaps in quality, responsiveness or competitiveness could impact volumes and revenue, but the risk overall appears moderate and manageable thanks to monitoring and improvement systems (Global PartneRing, client organization, Client First, satisfaction surveys).

3.1.5 Risk of natural hazards and impact of a global pandemic on business continuity

Risk: medium

Description of the risk: Despite strong diversification (75 services, 5,000 clients on nearly 90 markets), major risks such as a pandemic can disrupt on-the-ground operations and demand, as occurred in 2020 with a 6.5% drop in revenue.

Overall, the risk appears moderate and manageable – assessed as “medium” in the event of lockdowns – thanks to the flexibility of Ipsos (tailored offerings, monitoring systems and scenarios), illustrated by the organic rebound of +17.9% in 2021.

3.2 Operational risks

3.2.1 Risk associated with the integration of new acquisitions

Risk: material

Description of the risk: External growth transactions, which are essential for Ipsos with over 100 acquisitions since its inception, involve financial risks (amounts, high valuations) and short-term integration risks, with post-acquisition uncertainties that could affect synergies and expected benefits.

Overall, the risk appears materially significant but manageable thanks to the Group’s experience and a robust framework (review of opportunities, approval of the Board of Directors, due diligence with specialist advisors, deferred payments/compensation such as earn-outs).

3.2.2 Risk of financial loss linked to the departure of key managers

Risk: material

Description of the risk: Dependence on client relationships maintained by certain executives exposes Ipsos to the risk of losing clients, project delays or a decline in activity in the event of key departures, particularly in the short term in a competitive environment.

Overall, the risk appears material but manageable thanks to continuity plans, the retention of talent through attractive compensation, bonuses and free shares, and the activation of non-competition/non-solicitation clauses.

3.2.3 Cyber risk

Risk: material

Description of the risk: The cyber risk at Ipsos concerns cyber attacks and errors that may cause the loss or unauthorized disclosure of data, as well as the unavailability of systems, which may lead to financial or reputational impacts.

This risk appears material overall but manageable through the use of leading-edge security equipment.

3.2.4 Risk related to ad hoc projects with complex execution

Risk: medium

Description of the risk: Ipsos carries out ad hoc studies, i.e., tailored to the specific needs of its clients, the complexity of which may entail budgetary and operational risks during implementation.

Overall, this risk appears moderate and manageable through the projects' budgetary procedures already in place.

3.2.5 Risk of a lack of qualified staff

Risk: medium

Description of the risk: Ipsos faces the challenge of a shortage of qualified staff, who are essential for serving clients and supporting the company's growth. In some countries, notably emerging economies, it can be difficult to retain qualified staff due to the mobility of younger generations. This challenge is also present in the areas of technology and innovation, which could affect the ability to deliver consistent and innovative service, and lead to pressure on wages due to strong demand for talent.

Overall, this risk appears to be moderate and manageable by the procedures in place, thanks in particular to the current recruitment processes and internal development plans.

3.2.6 Risk associated with the quality of data collected from panelists

Risk: medium

Description of the risk: Risks associated with the use of panels mainly include the risk of identity theft, over-solicitation of panelists or fraud, particularly for online studies where panelists are paid for the questionnaires completed.

Overall, this risk appears to be moderate and manageable through the control technologies used.

3.3 Regulatory risks

3.3.1 Data protection, information security and privacy risk

Risk: medium

Description of the risk: Ipsos is subject to various international and local regulations with regard to data protection, including the General Data Protection Regulation (GDPR). In the event of non-compliance, the Group could be held liable, and a financial penalty could also be imposed by the competent personal data protection authorities.

Overall, this risk appears moderate and manageable through the procedures already in place.

3.3.2 Risk of changes in labor law

Risk: medium

Description of the risk: The Ipsos Group employs a large number of non-permanent staff. A possible reclassification of these temporary workers as employees could lead to tax penalties and an economic risk if the resulting increase in labor costs is not offset by a proportional rise in Ipsos' rates.

This risk is generally moderate and affects all players in the sector.

4 Information about the issuer

4.1	Legal and trade name	20
4.2	The place of registration, its registration number and legal entity identifier (LEI)	20
4.3	Date of incorporation and duration	20
4.4	Registered office, legal form of the issuer, governing law, country of origin, address, telephone number of registered office and website	20
4.5	Shareholder structure	20
4.6	Ipsos and the Stock Exchange	22

4.1 Legal and trade name

The legal name is: Ipsos.

4.2 The place of registration, its registration number and legal entity identifier (LEI)

The Company is listed as number 304 555 634 in the Paris Trade and Companies Register (APE Code 7010Z – Head Office operations).

Its LEI is: 96950020Y2X35E9X8W87.

4.3 Date of incorporation and duration

The Company was incorporated on November 14, 1975. It was incorporated for a period of 99 years, from the date of its registration in the Trade and Companies Register, barring early dissolution or extension.

4.4 Registered office, legal form of the issuer, governing law, country of origin, address, telephone number of registered office and website

Registered office: 35 rue du Val de Marne – 75013 Paris.

Tel.: +33 1 41 98 90 00.

Ipsos is a French public limited company with a Board of Directors governed by French law, notably the provisions of the French Commercial Code applicable to trading companies, and the Company's articles of association.

Ipsos SA is registered with the Paris Trade and Companies Register under number 304 555 634.

The Company's website is: www.ipsos.com.

The information available on the website is not included in this Universal Registration Document.

4.5 Shareholder structure

In FY 2025, there were no major changes to the Company's shareholder structure.

In FY 2024, the limited partnership company LAC I SLP, registered with the Paris Trade and Companies Register under number 882 757 172 and headquartered at 6-8, Boulevard Haussmann, 75009 Paris ("**LAC I**

SLP”), represented by Bpifrance Investissement in its capacity as management company and manager (**“Bpifrance”**), actively crossed:

- the legal threshold of 5% of the voting rights of the Company as of October 10, 2024;
- the statutory threshold of 6% of the Company’s share capital as of October 11, 2024;
- the statutory threshold of 6% of the voting rights of the Company as of October 14, 2024;
- the statutory threshold of 7% of the Company’s share capital as of October 16, 2024.

These active threshold crossings result from the acquisition of shares in the Company by LAC I SLP, increasing its stake, as of October 16, 2024, to 7.10% of the share capital and 6.29% of the voting rights of the Company, corresponding to 3,071,428 shares and voting rights.

As Bpifrance has expressed its intention to be an active and engaged shareholder in support of Ipsos’ interests, concurrently with this increase in its stake, the General Meeting of 21 May 2025 decided to allocate a board seat to Bpifrance within Ipsos’ Board of Directors.

As at December 31, 2025, LAC I SLP, represented by Bpifrance, still held 3,071,428 shares and voting rights of the Company.

DT & Partners’ ownership interest

As a reminder, during the 2024 fiscal year, DT & Partners purchased Ipsos shares. As at December 31, 2024, DT & Partners held 4,921,422 Ipsos shares, representing 11.39% of the share capital, or 19.18% of the voting rights.

During the 2025 fiscal year, DT & Partners purchased Ipsos shares. As at December 31, 2025, DT & Partners held 4,923,000 Ipsos shares, representing 11.39% of the share capital, or 19.33% of the voting rights.

4.6 Ipsos and the Stock Exchange

Ipsos shares are listed on Euronext Paris (ISIN: FR0000073298, symbol name: IPS), in Compartment A (Large Cap). According to ICB classification, Ipsos falls within the Consumer Services industry and the Media sector. The shares are included in the following indices: SBF 120, CAC Mid 60, CAC Mid & Small, CAC Consumer Serv., CAC All-Tradable, CAC All Shares. They are eligible for the SRD deferred settlement system and the French Equity Savings Plan (PEA).

In early 2025, Ipsos carried out a €400 million rated bond issuance. This bond issue was also listed on Euronext Paris (ISIN: FR001400WRF6, symbol: IPSFP 3.75 01/22/30). Ipsos has long-term credit ratings of 'Baa3' with a stable outlook from Moody's, as well as 'BBB' with a stable outlook from Fitch.

The chart below shows Ipsos SA share price movements during 2025 (in euros).

5.1 Main activities

5.1.1 Nature of operations and main activities

Corporate purpose

Ipsos' vision is summed up in its corporate purpose:

“Deliver reliable information for a true understanding of Society, Markets and People to help the world make the right decisions.”

Main activities

Ipsos is one of the world's leading market research companies. The Group works with over 5,000 clients in all sectors, operating in 90 markets, making Ipsos one of the few market research firms that can respond globally and locally.

Ipsos' growth strategy is founded on a unique vision: to provide in-depth analysis of the individual, whether consumer, client, citizen or employee, in order to gain a deep understanding of Society, Markets and People. We are able to do this by offering more than 75 services which, often combined, allow us to carry out customized studies that meet our clients' needs as closely as possible. This positioning is strengthened by the independence and objectivity of our analyses produced by Ipsos.

In an environment characterized by profound transformations in businesses and institutions, Ipsos provides a complete solution, enhanced by the latest technologies and based on the **4S** principle: **Security, Simplicity, Speed and Substance.**

Faced with an explosion in data, clients more than ever need reliable information to take the right decisions quickly. To achieve this, Ipsos draws on its key strengths:

- Know-how developed over more than 50 years;
- Mastering the latest advances in science and technology, including artificial intelligence;
- And, above all, the skills of its nearly 19,000 employees, united around its values (Integrity, Curiosity, Collaboration, Client First, Entrepreneurial Spirit).

Ipsos covers the entire information production chain and is able to process all types of data, whether produced by the Group, supplied directly by the client or from external sources. Ipsos delivers accurate, simple, fast and comprehensive responses in the form of surveys and dashboards based on the most relevant samples, the use of appropriate methods, the integration of precise data sources, proprietary analysis, and customized recommendations.

Between 2018 and 2021 Ipsos implemented the Total Understanding plan to improve its competitive position and accelerate its growth in a cost-effective manner. In this context, the Group has revised its offering and organization to center them on 16 Service Lines, including over 75 services that confirm Ipsos' position as a global leader in its market segment, with the support of the Client Organization (see section 5.1.7 of the Universal Registration Document). In some cases, these services can be combined to offer clients even more added value.

This plan was accompanied by a dynamic acquisition policy aimed at developing the Group's offerings and expertise. Innovation remains a cross-functional strategic focus for Ipsos and is fully aligned with the Total Understanding initiative.

In 2022, during Investor Day, Ben Page, then Chairman and CEO, presented the Group's strategic vision and financial targets for the 2022-2025 period. This plan aimed to position Ipsos as the “heart of science and data.”

Following this strategic period, **Ben Page resigned on September 15, 2025.** He was replaced by **Jean Laurent Poitou**, appointed Group Chief Executive Officer.

In line with Ipsos' transformation and to support the rapid changes in the data and insights market, a **new development strategy entitled "Horizons"** was presented to the Group's stakeholders in **January 2026**. This strategy stems from a clear ambition: to make Ipsos the global leader in augmented insights through AI. The company, with its in-depth understanding of Society, Markets and Individuals, aims to assert its status as a global leader.

Our operating model, based on the interconnectedness between human expertise, technological capabilities and international presence, has demonstrated its resilience in recent years. Ipsos intends to continue capitalizing on these strengths in order to accelerate its growth, increase its market share, and strengthen its position in the market research sector.

Acquisitions policy

Since 2023, Ipsos ramped up its acquisition strategy in various regions, including the US, China, West Africa, Australia, Ireland and New Zealand, and in a variety of sectors (B2B, healthcare, audience measurement, public sector and automotive).

The Group made **11 acquisitions in 2023 and 2024**, including:

- **Xperiti**, a start-up specializing in business-to-business (B2B) studies, with operations in the United States, Israel, and the Philippines;
- **Shanghai Focus RX Research**, a company specializing in market research for prescription drugs, strengthening Ipsos' position in pharmaceutical research in China;
- **Omedia**, a leading agency in sub-Saharan West Africa carrying out marketing studies, audience measurements, and advertising monitoring for print and digital media;
- **Big Village Australia**, an acquisition aimed at strengthening Ipsos' public-sector and data collection capabilities;
- **New Vehicle Customer Study**, the largest and longest-running syndicated research program analyzing automotive buyer behavior in North America;
- **Behaviour & Attitudes**, the largest Irish agency specialized in opinion and social research studies, as well as market research;
- **CBG Health Research Ltd**, a major provider of research, surveys and telehealth services in New Zealand;
- **I&O Research**, the leading public sector research company in the Netherlands;
- **Jarmany**, a company specializing in data management and analysis in the UK;
- **Crownit**, a company providing a mobile and online platform for panels and data collection giving access to one of the largest consumer communities in India, spread across more than 40 cities;
- **Datasmoothie**, a company that has developed a platform to accelerate the processing and delivery of data collected.

The acquisition strategy continued in 2025, with several transactions aimed at strengthening the Group's expertise in strategic markets and sectors:

- **Infas**, a recognized player in Germany in social studies, opinion research and public sector studies;
- **Where to Research**, an Australian company specializing in public sector studies and public policy evaluation;
- **Ipec (Inteligência em Pesquisa e Consultoria)**, a Brazilian company recognized in opinion studies and the analysis of socio-political dynamics;
- **The BVA Family**, a leading European group in market research with a presence in France, the United Kingdom and Italy. This acquisition is one of the largest made by Ipsos since its acquisition of GfK's activities in 2018 (Customer Experience, Experience Innovation, Health and

Public Affairs). It provides complementary expertise, particularly in customer experience and behavioral sciences, and above all strengthens Ipsos' capabilities in the field of pack testing and analysis of consumer behavior at points of sale, thanks in particular to the expertise of PRS IN VIVO.

The acquisitions policy remains a key driver of Ipsos' development. It aims to strengthen the Group's sectoral expertise, accelerate technological innovation and expand its geographical presence in strategic markets.

Ipsos Group revenue (1999 – 2025)

Ipsos Group organic growth (1999 – 2025)

1999	2000	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010	2011
12.7%	13.0%	8.0%	8.0%	9.4%	7.5%	8.6%	6.5%	9.1%	7.8%	-3.8%	8.3%	4.6%

2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025
0.0%	0.8%	0.3%	-1.0%	3.0%	2.4%	0.7%	3.8%	-6.5%	17.9%	5.6%	3.0%	1.3%	0.6%

* For the first nine months of 2012, it was not possible to calculate organic growth in Ipsos' former scope of consolidation. This was because some existing or new services had been transferred, as of January 2012, to different legal entities within Ipsos' former scope of consolidation or within Synovate's former scope of consolidation, depending on the nature of the contracts.

5.1.2 Ipsos, a company with a presence throughout the information production chain

Ipsos covers the entire information production and analysis chain; from raw data collection to activation by the client. Ipsos stands out because of its commitment to innovate throughout this chain and at every stage in order to produce reliable information for its clients:

- 1- Definition of needs;
- 2- Data collection and production;
- 3- Data integration;
- 4- Data analysis;
- 5- Delivery of information;

6- Client support.

Data collection

Data sources have multiplied in recent years: behavioral data, social media data, client data from CRM systems or open data, i.e. data that anyone can access, free of charge.

For all these sources, Ipsos has its own collection methods, whether quantitative or qualitative. With the increase in digitization, we have developed our technological capabilities by strengthening the use of our various online research platforms such as Synthesio, which generates data from social research, as well as through our digital platform Ipsos.Digital, which provides a DIY study service, and more recently with Ipsos Facto, our generative AI platform.

The data collection stage consists of polling consumers, citizens, patients, clients, etc. either actively, by asking questions, or passively, by observing behaviors, in order to be able to respond to the issue examined.

Data processing and integration

Ipsos has the technological capacity to process and integrate large volumes of data. It can process all data types: numbers, texts, images, sounds, videos, etc. Our technology and data analysis solutions provide us with greater diversity, speed and proximity to meet the complex demands of our clients.

Data analysis

Ipsos' teams apply their expertise in science, technology and know-how to analyze the data they have collected. This expertise, combined with knowledge of the sector, category or local cultural context, is key to optimizing the quality and reliability of the conclusions drawn from data analysis. These conclusions should enable the client to make informed and relevant decisions.

For all these stages, it is also necessary to know how to store data in compliance with the standards of confidentiality and anonymization defined by our internal procedures as well as by local, regional or industry regulations (GDPR, Esomar Code, etc.).

Information delivery and presentation

Delivering relevant and actionable information to the client is one of the key steps in the market research industry. The effectiveness of how research results are communicated can be determined by what the client does with those results. To enable clients to make informed decisions, Ipsos staff are trained to present research results in the clearest possible way. For complex research results, Ipsos uses data visualization technologies.

Information activation

This last stage in the information production chain consists of consolidating and sharing the information generated through one or more research studies in order to maximize the benefits for clients. This activity, more akin to consulting, is integrated into most of the Group's work. Ipsos also provides specific consulting services, notably through its Strategy3 service line.

Innovation at Ipsos

Innovation is part of Ipsos' DNA. Ever since it was founded, the Group has endeavored to stay at the cutting edge of technological and scientific innovation to better serve its clients and position itself as a true agent of change.

From Artificial Intelligence to blockchain technologies and the latest advances in neuroscience and behavioral science, Ipsos' innovative spirit has been acclaimed by the Greenbook Research Industry GRIT Report, which, since 2019, has ranked the Group as the most innovative research company among the major international companies.

Key intangible resources

Ipsos relies on a set of intangible resources that are key to its business model and value creation.

These resources are mainly as follows:

- Our teams and their know-how, underpinned by constant training efforts, as well as continuous action aimed at attracting and retaining employees of the highest quality;
- Long-standing and sustained investment in the development of our methodologies and tools, in order to measure and analyze individuals, society and markets, using the latest scientific knowledge and technological solutions;
- Our relationships of trust with our clients, often established over an extended period, throughout our 50 years of existence, and reflected by the very positive results of the satisfaction studies we conduct with them annually;
- Our brand and reputation, rooted in our 90 countries and recognized by both professionals and the general public.

5.1.3 Value creation for all stakeholders associated with Ipsos' business

5.1.3.1 For clients

Ipsos' value creation for its clients consists in producing and analyzing reliable information in order to offer them a true understanding of Society, Markets and People. That corporate purpose is based on a rich service offering that focuses on client needs and enables them to make the right decisions quickly about the issues they face.

Ipsos is able to provide over 75 value-added services worldwide (90 markets) with a highly consistent rigor and service quality. These factors make Ipsos a world leader in the market research sector and lead to a high level of satisfaction among its 5,000 plus clients. Once again, in 2025, Ipsos recorded a very high level of client satisfaction. *The CSM (Client Satisfaction Monitor), which measures client satisfaction by survey, reached 9.1/10. The GCS (Global Client Survey), which measures the satisfaction of Ipsos' clients on a global and annual basis, remained at a high level in 2025, surpassing the pre-pandemic score and stable compared to 2024 (8.3/10).* Ipsos' contribution enables it to meet its clients' expectations, which may be linked to broader societal issues (environmental, opinions, health crisis, etc.).

5.1.3.2 For suppliers

The creation of value for Ipsos suppliers stems from a mutual requirement for quality, professionalism, and transparency. Suppliers are subject to a rigorous selection process based in particular on an invitation to tender process, thus ensuring the selection of the best partners in terms of expertise, technical quality, price, and ESG criteria. Ipsos also ensures that the selected suppliers share Ipsos' commitment to sustainable development and are able to demonstrate this. Of Ipsos' suppliers, which

accounted for 60% of expenditure in 2025, 37% of these suppliers (in terms of expenditure) adhere to the principles of the United Nations Global Compact and 22% are committed to the Science Based Targets initiative. All these commitments are set out in the supplier code of conduct.

5.1.3.3 For employees

The production and analysis of reliable information require know-how, skills and expertise combined with cutting-edge science and mastery of the latest technologies. These vital skills provide Ipsos employees with new opportunities to develop rich and varied career paths within the Group.

Ipsos values its employees in this corporate project and promotes their long-term development. This recognition translates into a career development plan for all employees.

There is also a training program to support the professional development of employees. Ipsos takes a very active role in training its teams, setting a minimum target of 2% of training hours out of the total hours worked. Ipsos has its own online training center, the "Ipsos Training Center", which is available to all its employees.

5.1.3.4 For the people that Ipsos interviews

It is vital the Company has the trust of the people it surveys to ensure quality in their responses to its questionnaires. This trust must extend to the protection, security and anonymization of their personal data.

Through its research, Ipsos is the voice of the consumer, the client, the patient and the citizen for many stakeholders.

5.1.3.5 For society as a whole

Ipsos wants to contribute positively to corporate, social and environmental progress in the world. This is achieved through its presence in almost 90 markets and partnerships with organizations, associations and governments with which it shares its values.

5.1.3.6 For shareholders

Growth in business and profitability at Ipsos, combined with generation of positive cash flows every year, has helped generate a dividend that has increased continuously since the initial public offering in 1999 (with the exception of 2020, due to the pandemic).

5.1.4 Operational structure

Group operations are divided into Service Lines and Regions.

The main focus of the Group's matrix structure is geographic.

A total of more than 75 services are divided into 16 service lines, each specializing in a given market segment:

- Audience Measurement;
- Automotive and Mobility Development;
- Brand Health Tracking;
- Channel Performance;
- Corporate Reputation;
- Creative Excellence;
- Customer Experience;
- Healthcare;
- Innovation;

- Ipsos MMA;
- Ipsos UU;
- Market Strategy and Understanding;
- Observer;
- Public Affairs;
- Ipsos Synthesio;
- Strategy3.

This organization is supplemented by the following cross-functional structures:

- Ipsos' operations (see 5.1.6 of the Universal Registration Document);
- The Client Organization (see 5.1.7 of the Universal Registration Document);
- Structures dedicated to knowledge (see Section 5.1.8 of the Universal Registration Document);
- The Global Headquarter Services (support functions: HR, Finance, Legal, Communications).

The Group operates in nearly 90 markets, which are grouped into three major regions:

- Americas;
- Europe, Middle East and Africa (EMEA);
- Asia-Pacific (APAC).

Certain major countries such as the United Kingdom, France, and China report directly to the Group CEO.

5.1.5 Description of Service Lines

Audience Measurement

Mission

The **Audience Measurement** service line provides a competitive intelligence service to media owners, media agencies and advertisers. Our solutions estimate the number of people exposed to specific media content and their profile. Our tools are designed to provide in-depth insights by platform (Digital, Out of Home, Print, Radio, TV including VOD and Cinema) as well as measure cross-media consumption habits.

Area of expertise

We use a range of both conventional and innovative approaches including survey research, passive detection, and advanced data science to analyze audiences for any type of media.

Our data helps to inform and shape media and marketing strategies. Media agencies and brands use it to plan their advertising campaigns whilst media owners gain a richer understanding of who is consuming their content and how that compares with their rivals.

Insights include:

- Demographic profiles;
- Media consumption;
- Product and brand usage;
- Attitudes, motivations, and beliefs;
- Business and consumer habits.

The **Audience Measurement** service line is divided into eight separate services:

- Digital audience research (Internet/Mobile web/Apps/Paid ads)

- Listening (Audio/Radio/Podcasts)
- Out-of-home (Billboards)
- Press (Newspapers/Magazines)
- Viewing (TV/Video including AVOD, BVOD, SVOD)
- Cross-media (Multi-media platforms)
- Media planning software (“CrossTab” solutions and “Reach & Frequency” planning tools);
- AdEx (Competitive intelligence on advertising expenses).

Automotive and Mobility Development

Mission

The **Automotive and Mobility Development** service line provides our clients a full suite of services spanning the entire vehicle life cycle – from concept evaluation to post-launch market tracking. The teams meet the needs of automotive and mobility clients as they seek client and expert feedback throughout the evolving phases of an industry undergoing increasingly rapid changes such as connected cars, self-driving cars, shared mobility and electrification.

Area of expertise

- *Pre-Launch studies*, including *Clinics*, support car manufacturers, suppliers, and mobility providers along the product inception and innovation cycle, helping them assess and enhance the potential for success and performance of their future models and services.
- *Quality, Buyer and Product Measurement* assesses the buying process, quality perception and overall “In-Market” product experience of customers with their vehicles. Our studies also provide strategic competitive benchmarking services used by manufacturers to measure and improve the performance of their current products, as well as for new developments, such as evaluation of *Over-the-Air (OTA)* vehicle updates.
- *Automotive User Experience* solutions are included at all stages of the vehicle lifecycle, assessing the usability of the vehicle, its features and all elements related to Human Machine Interfaces (HMI), all critical to develop the next generation of vehicles and associated services.
- *New Mobility* solutions guide automotive manufacturers, suppliers, and government entities in the identification of trends, behaviors and the driving forces of disruption in the market, helping redefine strategy, regulations, infrastructure needs, and public policies.

Brand Health Tracking

Mission

The **Brand Health Tracking (BHT)** service line helps top brand and marketing decision-makers understand how their brands are performing in their competitive environment. Its solutions integrate various sources of information including surveys, behavioral data and data drawn from online conversations (social data) that allow us to understand brand growth drivers.

Area of expertise

This service line draws on a range of expertise that combines knowledge of consumers, human decisions making, markets and data with an understanding of the various mechanisms explaining brand growth, particularly those related to consumer perceptions.

The teams determine and track the most relevant indicators to inform a brand’s strategic plans and define its priority actions (messaging & communication, media allocation, point-of-sale activation, etc.).

Brand Success

Mission

Ipsos' new brand management solution, called "**Brand Success**", enables marketers and brand owners to successfully develop their brands. It uses three levers to unlock brand growth: creating unique expectations for the brand, understanding context and acting with empathy.

Ipsos' various solutions draw on this approach, and all incorporate various sources of information, including surveys, behavioral data and social data, etc.

Area of expertise

Ipsos' brand management framework - **Brand Success** - offers a wide range of solutions to marketers to help establish and strengthen the emotional connection between their consumers and their brands, thus promoting loyalty and sustainability of relationships with their customers and, ultimately, increasing sales.

Ipsos' brand expertise encompasses the four key stages of brand building: exploring and understanding, building and developing strategies, creating and activating, measuring and evaluating.

Channel Performance

Mission

Channel Performance partners with clients to:

- Size channels and market share to inform the channel penetration and growth strategy;
- Optimize marketing and merchandising in the channel to increase buyer engagement and drive sales;
- Measure execution and experience to ensure compliance with brand principles
...to improve and increase sales conversion.

Area of expertise

Channel Performance comprises a suite of expert research services:

- *Channel Sizing*: sizing channel opportunities, calculating channel size and share by category/brand/product, and identifying locations to inform channel entry and growth strategies;
- *Channel Optimisation*: includes the types of buyers, their motivations, behaviors, journeys, missions, decisions, and touchpoints, in order to optimize the marketing return on investment; evaluates customer interactions at the point of sale, in the context of physical and digital environments, in order to "win" customers at the point of sale;
- *Channel Measurement*: measures the execution of the brand strategy to ensure its compliance: ensuring the right product, the right price, and the right promotion in the right place and at the right time; mystery surveys measure the achievement of the brand and service promises made to customers at each touchpoint, channel, and market, to ensure that the experience is successful and delivers the right results.

Our teams analyze the data gathered, integrate them with other research insights, and bring the information to life. Sophisticated technology platforms (enabling mobile data collection, image recognition, real-time feedback, best-in-class reporting and video feedback, as appropriate) form a key part of our offer, as do data integration, advanced analytics, and modeling, as well as analysis and advisory services.

Corporate Reputation

Mission

The **Corporate Reputation** service line is a global leader in reputation research. Thanks to its expertise and advice, it helps organizations build resilient reputations and stronger relationships with their key internal and external stakeholders.

Area of expertise

The service line works with its clients to identify issues and actions that shape the company's reputation; it designs studies that reveal and bridge perceived gaps between words and actions. This is because its approach is based on evidence that trust is at the heart of a company's reputation and the most trusted companies in the world are seen to deliver on the promises they make. A full range of research techniques are used, from traditional telephone interviews with high-level stakeholders to digital and smart social listening, leveraging Artificial Intelligence through its analysis platform: RISE.

Together with its clients, **Corporate Reputation** engages key stakeholders (both internal and external) on a wide variety of issues including business growth drivers, sustainability, ESG (Environment, Social, Governance) and crisis management. Based on the principle that strong corporate reputations build strong bottom lines – when stakeholders understand and support a company's mission, they are more likely to contribute to its success.

Creative Excellence

Mission

The **Creative Excellence** service line fuels brand growth by supporting advertisers throughout the entire ad creation process.

Area of expertise

This area of expertise is made up of communication and research experts who use their know-how, knowledge, and empathy to assist clients at every stage of the ad creation process and navigate an increasingly complex media environment. Incorporating the latest advances in generative AI and behavioral science, **Creative Excellence** solutions help clients win the attention, heart, and mind of their consumers through world-class advertising.

The service line focuses on three main areas in order to meet client needs:

- Creative Development helps clients to fine-tune and accelerate their communication strategy and develop strong creative ideas and stories early, i.e. before any ad creation is fully developed.
- Creative Assessment evaluates the potential of a creative to achieve short- and long-term effects for a brand, using the best of behavioral science, survey data and neuroscience to measure a range of thoughts, feelings, and emotions.
- Creative In-market tracks and assesses the impact of a campaign's performance after airing.

Customer Experience

*In 2023, Ipsos' Employee Experience (EX) offer, including Ipsos Karian and Box International (acquired in 2021), was transferred to the **Customer Experience (CX)** service line, bringing significant benefits to our clients and Ipsos. A brief overview of the two components of the offer is provided below.*

Mission

The **Customer Experience (CX)** service line is the world leader in the design, assessment and development of customer experience management programs at all stages of the customer experience measurement and management process.

Area of expertise

The team helps organizations drive increased customer retention, share of spend, advocacy and operational efficiency, to deliver a *Return on Customer Experience Investment (ROCXI)*.

It supports clients with all aspects of customer experience measurement and management, via a unique range of solutions based on research, technology, analytics, and advisory services.

The **Customer Experience** service line is divided into four activities:

- Mobilizing the organization around a shared vision of the customer experience;
- Listening to what the customer has to say across all touchpoints and channels, creating a single source of information;
- Taking the necessary measures to ensure the customer experience is designed and delivered to live up to the brand promise;
- Embedding the right culture and structure to support continuous improvement of the customer experience.

Ipsos' employee experience (EX) experts help organizations explore and act on every aspect of their employee experience; to uncover the truth about what is going on in their organization, what employees think, feel, and do. Ipsos helps clients harness these insights, to drive meaningful organizational change.

Areas of expertise include EX research, technology, analytics, and advisory services include research into engagement and all aspects of EX, including Diversity, Equity and Inclusion (DEI), wellbeing and leadership, and culture activation.

The combined CX/EX offer allows Ipsos clients to improve their employee experience, thereby positively impacting related business metrics, as well as customer experience and the company's overall financial performance.

Healthcare

Mission

The **Healthcare** service line is a global insight, analytics and advisory partner to the healthcare sector.

Area of expertise

Healthcare guides decision-making across the healthcare product lifecycle. Using the right combination of custom and syndicated research approaches, real-world data, modeled data and market access capabilities, the service line meets the needs of healthcare professionals, patients, payers, and other key stakeholders.

Clients include pharmaceutical and biotechnology companies, manufacturers of medical diagnostics and devices, technology companies, and more.

Innovation

Mission

The **Innovation** service line aims to enable clients drive growth by assisting them in identifying, qualifying, optimizing, and forecasting the business potential of innovations for consumer goods, durables, tech, and financial services.

Area of expertise

The service line's suite of agile solutions, powered by the latest advances in artificial intelligence, behavioral science and neuroscience, meets the commercial needs of clients across the entire innovation process. From helping clients navigate the initial stages of innovation, to forecasting and validation, through to product testing, pack testing, and user experience assessment.

The proven capacity to model and forecast sales volumes, extensive experience in product testing and packaging, and strong expertise in artificial intelligence, behavioral science and neuroscience ensures a comprehensive understanding of the real consumer decision-making journey at every stage:

- Front End Innovation uncovers clients' needs and estimates volumes
- Generating and testing the potential of ideas and concepts
- As the world's largest product testing advisor, the range of AI-improved solutions support product development at any stage of the product life cycle

- Vantis is powered by the world's largest service, technology and durable goods innovation database. With validated KPIs and diagnostic learning, clients can understand the potential of technology-led innovation and drive their long-term success
- User Experience (UX) research helps clients design the best and most frictionless interactions with products and services, by placing users at the heart of the design process.

Market Strategy & Understanding

Mission

Market Strategy & Understanding's strategic research team delivers contextual understanding to help clients navigate dynamic markets.

It helps clients understand the underlying logic behind consumer decisions, identify market opportunities, optimize brand positioning, target consumers, and place a priority on ESG initiatives. This area of expertise supports brands in their marketing strategy by collecting, analyzing, and modeling data to help them understand markets and consumers in order to identify growth opportunities. By using the latest AI technologies to power its solutions, the service line is able to provide in-depth insights into consumer attitudes and behaviors. **Market Strategy & Understanding** works in all sectors: consumer goods, industry, and services.

Area of expertise

It uses interactive techniques, combining various data sources, and leverages the latest methodologies (behavioral science applications, looking at how emotions affect decision-making, etc.) to help clients create powerful brands and enter new markets.

The service line is divided into eight areas of expertise:

- Behavioral measurement
- Consumer segmentation
- U&A (Usage & Attitudes)
- Market strategy
- Brand and portfolio strategy
- ESG strategy
- Foundation shopper research
- Syndicated Services

Marketing Management & Analytics

Mission

The **Marketing Management & Analytics (MMA)** service line enables companies to holistically measure, plan, and optimize their marketing and sales investments to generate confirmed incremental sales and measurable business growth.

Area of expertise

Ipsos MMA is the world leader in marketing mix modeling, unified marketing and sales measurement, and attribution solutions. Ipsos MMA's measurement offering is a consulting-led engagement model backed by deep data, analytic and technology capabilities. MMA provides a high-touch, always-on delivery model enabling clients to simulate and optimize marketing performance as well as drive broader business outcomes. MMA is a leader in automating data processing and harmonization, predictive analytics and in integrating outputs into planning and tracking activation SaaS and capabilities. MMA works closely with their clients and agency partners alike to develop the most effective marketing planning possible. MMA continues to extend its global coverage with its expertise, technology systems, and region-specific measurement approaches.

Ipsos Synthesio

Mission

The **Ipsos Synthesio** service line provides companies, brands, and agencies with the most complete, accurate, and actionable picture of their markets and buyers. Our offering includes best-in-class SaaS technology, the latest advancements in generative AI and data science, and a global team of social intelligence experts.

Area of expertise

Ipsos Synthesio collects and analyzes all available unstructured data (texts, images, videos, etc.) from various sources, including social, surveys, and search. It provides an unparalleled combination of human and artificial intelligence, with market-leading tech recognized by Forrester, data science models, and proven analytical frameworks. In 2023, **Ipsos Synthesio** introduced *Signals GenAI*, a revolutionary generative AI application specifically designed to instantly transform social data into operational insights.

The service line's solutions are divided into three key pillars:

- The Synthesio platform: a market-leading AI-enabled consumer intelligence platform with the world's broadest data coverage including 600+ million sources, 80+ languages, and operating in 195+ countries.
- Insight Services: Social Intelligence teams around the world provide an in-depth understanding of consumer-generated online content across categories, countries, and cultures.
- Data Science: Data Scientists, Data Engineers, and experts in Natural Language Processing (NLP) and Natural Language Understanding (NLU) apply the latest Artificial Intelligence techniques to harness the power of social media mining, big data integration, and modeling.

Observer

Mission

The **Observer** service line offers clients intelligent survey design and access to consumers, citizens and B2B audiences, locally or globally, by giving external clients direct access to the Ipsos data collection infrastructure and research expertise. This is a complex world for consumers to navigate but having a mode agnostic philosophy means that **Observer** offers virtually any available approach in almost any given market, making us equipped to deliver global resources aligned with local objectives. The experience gained by the **Observer** teams means they design and deliver data of the highest quality, handled with the utmost discipline, and packaged for immediate use. **Observer** is in the business of providing clients with the trust, assurance, and reliability they need and expect, with one simple aim: to make the data and delivery experience as seamless as possible for its diverse portfolio of clients.

Area of expertise

Observer designs and delivers high quality field studies at a competitive price.

- Data & Delivery services for any online and offline quantitative projects, from fast and simple ad-hoc studies to more sophisticated projects including multimode, multi-country, B2C and B2B targets.
- Fast Facts, Ipsos Do-It-Yourself (DIY) or Do-It-Together (DIT) solution for ad-hoc research that allows clients to launch projects at their convenience, allowing them to easily select their target of interest, build questionnaires and access results in 24 hours. The data is instantly available from a dashboard with many data exports and a convenient reporting tool.
- Omnibus, shared research vehicle to get quick and reliable insights from a robust national representative sample, ideal when speed, sample representativeness and cost efficiency are crucial. Results provided based on multiple socio demographic criteria. There are several data collection modes available namely Online, F2F, CATI and Multimode.

- Sample Only provides the client with a direct and fast access to Ipsos online sample network. It is the ideal solution for clients who are looking to partner with a reliable and high-quality online sample provider.

Public Affairs

Mission

This service line conducts opinion research on social, societal, public and political issues for clients in the public and private sectors and the media.

Area of expertise

Public Affairs examines the attitudes and behaviors of citizens, voters and consumers.

It offers a unique set of services:

- *Public Opinion Polling and Election Polling*, research and analysis for the media, public and private sectors;
- *Public Policy Improvement*, providing evidence-based data to help all level of governments design, evaluate, and communicate programs for its stakeholders;
- *Global Advisor*, a monthly opinion tracker on social trends and developments in 29+ countries, plus other large multi-client studies exploring common issues/themes;
- *International Social Research*, conducting a range of international development and public diplomacy program areas for public and private sectors, agencies, organizations and governments;
- *Advisory and Analytics*: providing understanding and context for data and assisting clients with options for incorporating research results into real-world solutions.

Ipsos UU

Mission

This service line, dedicated to qualitative studies, provides clients with a deep understanding of consumers, patients, and citizens. It does this through humanizing data, cultural intelligence, and cognitive empathy.

Ipsos UU believes in an immersive style of qualitative research, ensuring that clients can better understand and empathize with people. This enables them to develop more relevant products, communication, and services.

Area of expertise

Ipsos UU is a world leader in qualitative research, boasting the largest network of qualitative experts across the globe. It has a diverse team of specialist ethnographers, cultural experts, semioticians, human behavior specialists, anthropologists/sociologists, journalists, and filmmakers who, together, are culturally fluent in more than 80 markets.

Ipsos UU believes in the Power of One – individual stories that open our eyes – thanks to the Power of Many – the collective intelligence of Ipsos.

The service line is powered by the latest technology in terms of video interactions, content analysis and information management. It boasts extensive expertise in human understanding, qualitative facilitation, analysis and storytelling. These factors are combined in exclusive analytical frameworks designed to address each client issue (brand, exploration, positioning, innovation, creativity, etc.). Several methods are used:

- Ethnography
- Content curation
- Immersive research
- Multi-functional workshops
- Online communities

- Online qualitative
- Open exchanges
- Qualitative-quantitative labs

Strategy3

Mission

The **Strategy3** service line offers *advisory* expertise to help clients develop a relevant, impactful, and differentiated growth strategy based on insight. Each of its missions is built with a view towards activation and business impact. Leveraging the research capabilities and global reach of Ipsos, its multi-disciplinary team of expert strategists work together to answer the complex business questions of its clients on consumers, market, brand, innovation and business strategy to guarantee future growth and success.

Area of expertise

Strategy3's bespoke service helps clients address business questions in the following five areas:

- Customers: Who are the right customers for the brand to prioritize, and how do they behave?
- Business: What are the key markets for the business to target, and what channel dynamics need to be addressed in order to win in these markets?
- Brand: How can the brand be positioned to best resonate with customers and employees while still standing out from the competition?
- Innovation: How can a business build an innovation pipeline and find the next big thing to ensure continued growth?
- Future: How can businesses make sense of today's volatility, anticipate the future, and shape long-term success?

Strategy3 also has expert teams to deal with specific topics such as healthcare, sustainability and scenario planning. It aims to provide a roadmap of actions and tactics that spans the client's organization, using lessons learned from different countries, trend analysis, industry-specific inputs and lessons learned from past crises.

Other services:

Ipsos Online Communities & Panels

Mission

This service, dedicated to compelling online environments with consistently available useful information, allows clients to accelerate brand building, innovation and discovery by staying close to real people, in real time.

Ipsos' **online communities and panels** provide brands with a collaborative space to connect with an audience of consumers and stakeholders through multi-dimensional, engagement-focused studies designed to base their decisions on the human experience.

Area of expertise

Ipsos' **online communities and panels** offer solutions that combine rigorous research with world-class community engagement, unparalleled industry expertise and global reach.

The service line uses the latest technologies – video interviews, live chats, discussions, blogs, diaries, and surveys – to transform static, linear studies into an immersive experience for audiences of all shapes and sizes. With a robust suite of qualitative and quantitative research tools, communities are designed to meet specific research objectives, ranging from quick tests and explorations through pop-up communities to iterative learning through longitudinal communities and custom panels. The generative AI integrated into our ecosystem of communities and panels is combined with Ipsos' knowledge of the field and research expertise to provide impactful, human-centric information.

Clients can access their audience anytime, anywhere as part of an ongoing conversation and answer a range of business questions, from exploration to optimization and ideation.

Ipsos.Digital platform (<https://www.ipsos.digital/>)

Mission

Ipsos.Digital is Ipsos' *DIY* research service with direct access to fully automated proprietary solutions as well as the ability to carry out personalized studies, from order to delivery, for Ipsos clients and interviewers alike.

Area of expertise

The platform provides access to multiple proprietary tools in the fields of creative excellence, innovation, strategy, and market understanding, as well as a tool for personalized studies: FastFacts.

FastFacts, the Ipsos *Do-It-Yourself* (DIY) or *Do-It-Together* (DIT) solution for custom studies allows clients to launch projects at their convenience where they can easily select the target of interest, build questionnaires and access the results in just 24 hours, depending on the target and sample size. Data is instantly available in a dashboard, with multiple data export formats, and access to other data processing tools is also provided.

5.1.6 Operations

Ipsos develops the best tailor-made solutions to meet all clients' needs and uses online and offline tools. It applies device-agnostic methodologies, *programmatic sampling*, digital face-to-face interviews, and multi-mode, allowing respondents to choose their preferred method.

In order to align all data collection methods and ensure the same values, expertise and consistency for all data collected worldwide, **Ipsos Interactive Services** (online/mobile) and **Ipsos Operations** (offline) teams are organized together in the same department. This global configuration also covers quality and innovation and is based on a respondent-centered approach, thereby ensuring the engagement of respondents across different population profiles and countries.

Ipsos has both the scope and experience required to deliver industry-leading research with access to substantial in-house data collection resources in developed and developing markets alike, thereby meeting client needs no matter what the target and using the best mix of data collection methods.

Operations offers a global network of face-to-face and CATI interviewers in 150 countries spanning all continents, conducting several million interviews per year. Face-to-face interviews are conducted using *iField*, Ipsos' global F2F and mixed mode data collection tool.

Ipsos Interactive Services carries out several million yearly online interviews in 100 countries via mobile-friendly solutions that range across a broad suite of services from DIY solution to end-to end customized studies. With its people centric approach Ipsos Interactive Services focuses on seamless access to respondents wherever they are – at home, on the street or in stores – to guarantee efficiency, speed, engagement, broad coverage, and competitiveness.

They enable Ipsos to move beyond the conventional methods and get closer to consumers and citizens to assess their opinions and impressions.

5.1.7 Client Organization

Ipsos has over 5,000 clients worldwide including both companies and public institutions at national and international level.

Client Organization aims to unlock growth for Ipsos as well as its clients. It consists of two complementary bodies, Global and Local, and is staffed with senior people spending most of their time with clients, creating opportunities with new stakeholders, divisions, and new client companies to address their business questions and give access to the full range of Ipsos services.

Since 1999, each of Ipsos' largest key clients can count on a fully dedicated senior global leader who manages every aspect of the client relationship with the support of the Ipsos teams working for them around the world. These *Chief Client Directors* are part of the Ipsos **Global Client Organization**.

Additionally, since 2018 we have implemented a Local **Client Organization**. Led by a *Chief Client Officer* in each country, it comprises 200 of our top professionals globally, manages and develops the relationship with the most important clients active in each territory. The *Client Officer's* role is to identify opportunities for Ipsos services by expanding its client relationships, and also to access new clients in targeted sectors.

5.1.8 Structures dedicated to know-how and knowledge

Global Science Organization

Data Science and Artificial Intelligence

This scientific entity partners with academic experts and conducts exploratory research. It develops and provides analytical tools based on *data science*, *machine learning*, *big analytics* and modeling.

This scientific organization allows Ipsos to be at the forefront of several major areas such as AI ethics and algorithmic fairness, Bayesian network analysis, *data science-driven* segmentation, text, image and video analysis, data integration and fusion and *big analytics* mining platforms.

Missions

- Identify and create new solutions, including enhancing traditional scientific analysis tools in the marketing domain by developing new functionalities. This entity works to provide more *data science* services and implement them to address complex client issues;
- Develop, through AI and *machine learning*, *big analytics* to explore, exploit and segment models and extend Ipsos' expertise to new areas: analysis of behavioral data, unstructured data and *big data*, including images and Large Language Models as well as analysis of behavioral databases and customer data;
- Deepen understanding of the data ecosystem to leverage multiple types of data streams separately and together;

- Broaden understanding of ethical issues: from the explainability of methods to implications for accuracy and fairness.

Psychology, neuroscience and behavioral sciences

Psychology, behavioral science and neuroscience teams conduct scientific research to better understand human behaviors, changes in behavior and decision-making. They provide scientific support to Ipsos experts, ensuring that Ipsos solutions are grounded in solid science. The goal is to ultimately enhance existing and create new research offerings and solutions to increase the clients' ability to understand and predict human behavior, behavior change and the decision-making process as well as the responses of consumers and citizens in order to drive behavioral change or reinforce existing behaviors depending on the field.

By leveraging key academic partnerships, this unit explores fundamental research areas as well as their implications for new practical applications.

Missions

- Conduct fundamental studies with academic partners, develop methods and explore solutions to gain insight into the full range of factors essential to understanding consumer attitudes and behaviors by integrating, for example, neurophysiological and psychological measurements such as facial coding, reaction times, biometrics, eye-tracking, EEG, etc., or exploring psychological constructs such as anticipated regret or behavioral change;
- Develop a fundamental understanding of emotions in decision making and create analysis frameworks to best capture emotional responses; explore the consistency and differences across cultures as well as their ability to predict outcomes of interest to client business questions;
- Explore innovative ways to measure cognitive conflict to understand critical aspects of behavioral change such as who is likely to change, what interventions are most impactful, and how enduring change is likely to endure;
- Explore the latest in wearable devices, Internet of Things (IoT), and other technologies to better understand the potential of these new solutions in gaining consumers' and citizen insights in a scalable way;
- Support Ipsos' global service lines in piloting and validating novel methods, products, services, and partnerships (including hardware support, software, scientific and academic partnerships, new applications, analytical tools, methodologies, internal training, speeches, and research articles);
- Spread scientific knowledge throughout the company by activating global learning through knowledge sharing, training and communities.

Ipsos Knowledge Center

The **Knowledge Center** defines, organizes and shares Ipsos expertise with its teams and clients.

Mission

- Collate and curate the best knowledge and analysis from Ipsos' research and publications;
- Develop a community of Ipsos experts who contribute to, review and refresh the core content;
- Manage the **Ipsos Knowledge Center** portal, providing Ipsos teams with a go-to place to access the resources available;
- Apply knowledge management and governance techniques to ensure the content and information base follows a clear process, including validation of content and regular review;
- Create new content to inform and engage our clients, helping them make better decisions;
- *Internally*: share this content with Ipsos teams and encourage collaboration and exchange;
- *Externally*: provide a range of material for ready activation (i) direct to clients via our teams and (ii) to supply content for Ipsos' website and social media channels;

- Three content pillars:
 - The Ipsos Encyclopedia: a unique glossary of market research terms written by Ipsos experts;
 - *Ipsos Views*, our program of Points of View from Ipsos, powered by new research and expert analysis;
 - *Ipsos Update*, a monthly digest bringing together the “Best of Ipsos.”

5.1.9 New and/or major services

Ipsos.Digital is a self-service research platform that provides clients fast, simplified access to global research capabilities and insights in nearly 50 markets.

Its *do-it-yourself (DIY)* and *do-it-together (DIT)* models allow clients to quickly design and launch their own studies, or work with Ipsos’ network of local experts.

Today, **Ipsos.Digital** solutions include:

- **InnoTest:** Behavioral science tool that tests innovations, ranging from ideas to full concepts;
- **Duel:** Tests claims, variants, names, and visuals with fast screenings of simple marketing stimuli;
- **CreativeSpark:** Assessment solution helps advertisers and agencies learn, evaluate, and optimize creative;
- **CreativeSpark Digital:** Places creative in live digital platforms to learn, evaluate, and optimize in platform context;
- **FastFacts:** Ad-hoc solution allowing users to build and field their own surveys to answer virtually any business question.

The intuitive end-to-end platform provides access to Ipsos’ high-quality online samples and streamline the research process using Ipsos-proven methodologies, questionnaire templates, benchmarks, etc. Users can identify their sample, launch their study and receive automated reports in days rather than weeks.

5.1.10 Due diligence

A clearly established due diligence plan, in place for several years

Ipsos adheres to the provisions of the act of March 27, 2017 on the due diligence of parent companies and prime contractors. Due to the intellectual nature of the services it provides, the Group is only marginally directly exposed to the risks covered by this regulation, i.e. serious violations of human rights and fundamental freedoms, personal health and safety and the environment, potentially caused by its own activities.

Article 1 of the ICC/ESOMAR Code specifies the due diligence obligations of companies operating in the market research industry and the key steps to be taken in this respect. Research staff must ensure that data subjects do not suffer any direct harm as a result of their personal data being used for research. They should also exercise particular caution where the nature of the research is sensitive or where the circumstances in which the data was collected risk upsetting or disturbing the data subject. At the same time, they should bear in mind that the success of surveys depends on the public’s trust in the integrity of the research and the confidential processing of the information provided and should therefore remain diligent in maintaining the distinction between research and non-research activities. Therefore, where research staff engage in promotional or commercial activities directed at data subjects, they are required to clearly distinguish and separate these activities from the research activities. The ways in which data is secured and protected, and in particular the ways in which the GDPR regulations are being implemented are described in paragraphs 5.4.2.3.1.10 and 5.4.2.3.3.4.1.

In 2008, Ipsos made a further strong commitment to human rights and fundamental freedoms by joining the UN Global Compact and adopted a range of measures to prevent other violations of human rights and fundamental freedoms potentially arising from its activities.

Lastly, **the suppliers and subcontractors** with whom Ipsos has an established business relationship operate mainly in the IT or real estate sectors or are panel suppliers. Child labor, forced labor, health risks

and environmental risks are not considered as risks inherent to their activities (see Section “3.2 Employees in the value chain”).

However, since low direct or indirect exposure to the risks in question is not the same as “zero risk”, Ipsos has made a point of ensuring that these regulations are properly implemented, an approach that is fully in line with its broader commitment to CSR. Therefore, in 2019 and 2022, under the aegis of the Audit Committee, Ipsos carried out a detailed inventory and review of the risks that may exist in this area. The most recent **risk assessment survey** that was rolled out globally in 2022 contained a series of questions specific to due diligence recommendations and in connection with ESG issues. It has allowed us to ensure that all the measures required to prevent such risks are in place.

5.2 Main markets

5.2.1 Key figures in the global research market

ESOMAR, an international nonprofit association for marketing research professionals, analyzes the revenue figures of participating companies in a significant number of national markets each year. According to ESOMAR’s *2025 Global Market Research Report*, the global market represented revenue of US\$153 billion for 2024.

This figure consists of US\$56.1 billion (vs. US\$53.8 billion in 2023) from the core market, which includes *market research* activities such as quantitative research online, via mobiles, face-to-face, by phone, audience figures and ethnography.

The *Research Software* market research activity, which is supported by technology, is valued by ESOMAR at US\$62.2 billion (vs. US\$56.0 billion in 2023), including in particular analysis of digital data, listening to social media and communities, and DIY research platforms.

The rest of the market was valued at US\$35.1 billion (vs. US\$32.6 billion in 2023), including activities that are not in direct competition with Ipsos, such as vertical studies.

Size of the research market in which Ipsos operates:

In US\$ billions

The largest region remains the Americas with 58% of the global market, which includes the United States with 54%, followed by Europe with 24% and Asia-Pacific with 15%.

Regional share of the wider total research market:

In terms of national markets, after the United States, the top 5 countries are the United Kingdom, India, China and France, which together accounted for 65% of the global market in 2024.

Industry share of the global research market:

The largest sector in the global research market is Technology, Media & Telecom, which accounted for 25% in 2024. Consumer goods is second, accounting for 24% of the total market in 2024.

5.2.2 Underlying trends

One of the main underlying trends impacting our market, like many others, is the digitalization of activities and data. This digitalization is profoundly changing the way people buy, consume, interact with each other, express themselves on different subjects and engage with brands.

For research firms, this trend means that more data can be collected online (via the internet and mobile phones) and that more data sources are now available. It follows that an increasing share of a company's value lies in its ability to combine the data it collects itself with external data. In addition to the technological aspect of such need for integration, it also requires significant expertise in data analysis, as well as business acumen to ensure that the external data is reliable.

Another trend that has impacted the research market is the emergence of new technologies, particularly those related to Artificial Intelligence and *machine learning*. This technology has led to the automation of a number of processes such as the coding of text, images and video. Other technologies are changing the very nature of the studies carried out, such as virtual reality.

New technologies and their application in the market research sector have led to the emergence of lots of new competitors, who, generally speaking, have highly automated and ultra-specialized offerings in a particular market segment or a given region. The ultra-specialization of offerings is reinforced by increasing market and media fragmentation. It also encourages the rise of the "local" over the "global", recognizing that each national market is different. A brand's positioning, and more generally its marketing strategy, may differ from one market segment to another.

Finally, data security has become a major preoccupation for companies: as a result, data protection regulations have become increasingly stringent, notably through the application of the General Data Protection Regulation (GDPR). This represents a significant risk for companies whose business model is primarily based on the direct exploitation and resale of personal data. Market research firms analyze personal data to produce anonymized information tailored to the needs of their clients.

5.2.3 Regulatory framework

See Section 9 – Regulatory environment

5.3 Significant events in the development of the issuer's activities

Ipsos has a strong global footprint. The Group operates in 90 markets and currently has nearly 19,000 employees who work with over 5,000 clients worldwide. In 2025, it generated consolidated revenue of €2,525 million.

In July 2014, Ipsos launched the *New Way* program for 2015-2017. This was in response to new client needs in a volatile, fragmented and competitive market environment. Its aim was to position Ipsos as a preferred partner to support clients as they underwent changes. Ipsos thus updated its organization, tools and offerings based on the 4S principle (*Security, Simplicity, Speed, Substance*).

In 2018, Ipsos decided to set up the "*Total Understanding*" project to work on the offering and structure it into a large number of Service Lines: there are 16 in total, covering over 75 services. With *Total Understanding*, Ipsos services have since been grouped into Service Lines, which must be competitive in their market segment and which can be combined to address the various client needs. This project allowed for a compound annual growth rate of 4.6 % over the 2019 – 2021 period. It was then supplemented by a 2022 – 2025 plan "*The Heart of Science and Data*" fueled by investments in people and technology – "Best People and Best Technologies". In early 2026, Ipsos unveiled Horizons, its transformation and growth strategy to consolidate its global leadership, details of which are set out in section 5.4 Strategies and Objectives.

5.3.1 Contribution to consolidated revenue by geographic area

€m	2025	2024	2025/2024 Change	Organic growth
Europe, Middle East and Africa	1,245.2	1,112.3	12.0%	2.0%
Americas	887.2	918.7	(3.4)%	0.3%
Asia-Pacific	392.2	409.7	(4.3)%	(2.5)%
Annual revenue	2,524.7	2,440.8	3.4%	0.6%

5.3.2 Contribution to annual operating margin by region

In thousands of Euros	2025	2024	2023	2022
Europe, Middle East and Africa	128,329	131,363	131,658	115,701
Americas	147,024	155,966	143,263	144,936
Asia-Pacific	36,637	41,956	44,326	51,074
Others	(2,688)	(9,767)	(6,888)	2,987
Total operating margin	309,302	319,517	312,359	314,697

5.3.3 Different from the outset

In 1975, Didier Truchot founded Ipsos in Paris, bringing a fresh approach to the market research industry. His goal was to deliver high value-added information that was accurate, reliable and could be used immediately.

5.3.4 Rapid growth

In the 1980s, the Company experienced a phase of rapid growth. This period coincided with the arrival of Jean-Marc Lech, previously Chairman of IFOP [Institut Français d'Opinion Publique].

At that time the communication sector in France was really taking off so it was a good time for the Company. The advertising industry was booming, the professional press (business and trade publications) was growing, and the period of political changeover was accompanied by the emergence of political communication and image management concerns.

Ipsos soon acquired a reputation for excellence in media research, advertising research, opinion polls and social research. In 1989, Ipsos had revenue of 100 million francs (€15 million) and was the fifth largest market research company in France behind Nielsen, Secodip, Sofres and BVA.

However, large international companies wishing to expand in all major markets wanted to be able to work with the same research providers around the world in order to have homogeneous and comparable data. Sensing this trend, Ipsos' management team decided to expand the Group internationally.

5.3.5 Expansion in Europe

In the early 1990s, Ipsos set up operations in the major European zones (Southern Europe, Germany and the United Kingdom) and in Central Europe. The companies targeted had to meet certain criteria: they had to be open to selling their entire share capital, as Ipsos' goal was to form a truly integrated Group. They had to be a leading player in their market, i.e. in the top three or four. The management of these companies had to understand the Ipsos project and support it. The takeovers were friendly, with the executive officers expected to remain at the helm of the new subsidiaries. Lastly, the companies had to have a business activity that overlapped with at least one of Ipsos' business lines.

The Group was thus expanding rapidly, which meant that it had to raise significant amounts of capital and build up its equity base. Until then two thirds were owned by the Co-Chairmen and the remaining one third by the senior management, until in July 1992 Ipsos brought in several investors. They were replaced in September 1997 by the Artémis Group (François Pinault), through his Kurun fund and the Amstar Fund (Walter Butler).

5.3.6 The formation of a global Group and the IPO

In 1999, Ipsos turned to the market to raise the funds needed to build up a global group while staying independent.

Ipsos successfully floated on the Nouveau Marché of the Paris Stock Exchange on July 1, 1999.

A total of 2,539,533 Ipsos shares were made available to the market at a firm price of €33.50 per share (before the four-for-one stock split on July 4, 2006), as part of a guaranteed investment. The transaction was subscribed 12.6x. The success of this issue strengthened Ipsos' position with its international key clients compared with its already listed competitors.

Today, Ipsos is listed on Euronext Paris (Compartment A) and is included in the SBF 120 and Stoxx Europe 600 indices.

5.3.7 Ipsos ramps up its external growth policy

Ipsos aims to expand its expertise and strengthen its geographic coverage in all markets. The Group thus proceeded to make targeted acquisitions based on developments in the research market that were bringing new business segments to the fore and on technological developments that were transforming the industry and required significant investment.

The Group focuses its development on a combination of robust organic growth and an enhanced acquisition policy.

Ipsos has conducted major acquisitions since 2010, including:

- **In 2011, Synovate**, the Research division of the Aegis Group. The Group thus consolidated its position in the research market, becoming the world's third-largest player¹. This acquisition, the largest ever by Ipsos, enabled it to strengthen its presence in the Asia-Pacific region, North America and Northern Europe in particular, in both the main developed markets and emerging countries. It also enabled the Company to expand its capabilities and its commercial offering, adding new areas of expertise such as healthcare to its portfolio.
- **In 2018, Clintelica**, an information and communication technology group, founded by Andrei Postoaca. With this acquisition, Ipsos increased the use of digital technology in its areas of expertise by bringing in a team dedicated to developing an e-commerce platform for its clients and in-house teams. The acquisition of Clintelica and the creation of the new internal structure called Ipsos Digital are helping achieve the goals set out in the Total Understanding plan. In 2019, this acquisition was rounded out by the inclusion of the Ipsos.Digital platform in the Ipsos service offering (see Section 5.1 of this Registration Document).
- **In 2018, GfK Custom Research's four global divisions of customized research solutions:** "Customer Experience"; "Experience Innovation"; "Health" and "Public Affairs." This acquisition contributed to the process of implementing the Total Understanding plan, making Ipsos a brand that stands for excellence, providing companies and institutions with a better understanding of Society, Markets and People. The four global divisions of GfK Custom Research have been consolidated since October 1, 2018.
- **In 2020, Askia:** acquisition of a majority stake. Askia is a provider of research technologies, founded in 1996 and operating in France, the UK, Germany and the US. This acquisition meant Ipsos could offer its clients a next-generation data collection platform and survey tool, by combining its expertise and know-how with the software developed by Askia.

¹ Source ESOMAR (see Section 5.6 of this Registration Document)

5.3.8 Acquisitions since 2023

Ipsos has accelerated its external growth policy since 2023 through 11 acquisitions in 2023 and 2024:

Xperiti

In February 2023, Ipsos bought a start-up specializing in business-to-business (B2B) studies, with operations in the United States, Israel, and the Philippines. Xperiti's online platform leverages artificial intelligence to recruit professionals in 130 countries and over 90 industries in real time, allowing users to easily and quickly access industry experts.

Shanghai Focus RX Research

In May 2023, Ipsos announced the acquisition of Shanghai Focus RX Research, significantly strengthening the Group's expertise in pharmaceutical research in China and creating a supportive environment for the company's Healthcare business. The company specializes in RX (prescription treatments) market research, with studies on regulatory and environmental constraints, pharmaceutical market development, product strategies, marketing mix, and performance assessment.

Big Village Australia

In July 2023, Ipsos acquired Big Village Australia's Insights business, which covers public-sector market research, employee satisfaction surveys and customer experience measurement. This acquisition improves Ipsos' position in the Australian market and strengthens its capabilities in government and social studies, and in customer and employee experience.

Omedia (Mediametrie Group)

In July 2023, Ipsos acquired a multi-specialist research firm with operations in Senegal, Côte d'Ivoire and Mali and a leader in West Sub-Saharan Africa. It carries out a wide range of marketing studies, audience measurement, and ad watches in press and digital media.

New Vehicle Customer Study

In October 2023, Ipsos acquired the largest and oldest syndicated automotive research company in North America. Its offering focuses on the behavior of car buyers in the US and Canada, providing key players in the industry with detailed information and analysis on consumer habits and preferences.

Behaviour & Attitudes (B&A)

In October 2023, Ipsos bought the largest Irish agency specializing in opinion and social research studies, as well as market research. It serves a wide range of public- and private-sector clients. Renowned for its expertise in quantitative and qualitative research, B&A does big business in the production and analysis of data using its consumer panels. Ipsos in Ireland and B&A have become a new organization, called Ipsos B&A.

CBG Health Research Ltd (CBG)

In October 2023, Ipsos bought the key provider of research, study and telemedicine services in New Zealand from Reach Aotearoa. Strengthening Ipsos' strong presence in public-sector research, CBG's large-scale population surveys provide critical evidence to industry clients, particularly on key issues such as education, public health, transportation, and social considerations. Thanks to its online and offline data collection capabilities, CBG has developed long-term relationships with governments and recurring contracts.

I&O Research

In January 2024, Ipsos announced the acquisition of I&O Research, the largest public sector research company in the Netherlands. Founded in 1996, I&O Research has established strong relationships with clients at all levels of government, institutions, and NGOs. Renowned for its expertise in social and political surveys, the company has extensive data production and analysis capabilities, as well as a large panel.

Jarmany

In January 2024, the Group acquired Jarmany, a company recognized in the United Kingdom for its expertise in data analysis and strategy. Founded in 2008, the company supports several international companies in their operational, financial and strategic decisions. Its expertise is based on data aggregation, analysis, and visualization, using artificial intelligence in particular.

Crownit

In May 2024, Ipsos announced the acquisition of Crownit. The company provides a mobile and online platform for panels and data collection giving access to the largest consumer community in India, across 40 cities. Crownit's *mobile-first* strategy enables Ipsos to digitize much of its offline research capabilities, leveraging the growing mobile penetration in India to reach a wider range of socio-economic groups.

Datasmoothie

In June 2024, the Group accelerated the pace of data delivery with the Datasmoothie platform. Datasmoothie is a young team developing an automated cloud platform that simplifies and accelerates data compilation and processing. Its modular system allows large-scale projects to be managed.

infas

In August 2024, Ipsos launched a friendly takeover bid for Infas, a major player in market research and social research in Germany, to acquire the leader in German public sector research. Infas carries out research for businesses, public bodies, and political parties. Its range of services includes tailored national and international studies, including on labor market, education and transport.

In December 2024, Ipsos received the approval of the competition authorities for this transaction, which was **finalized in January 2025**, enabling the Group to strengthen its presence in the German market and expand its expertise in social studies and public policy studies.

In line with its external growth strategy, Ipsos continued to develop its expertise and geographical presence in 2025, with the finalization of certain transactions initiated in 2024 and the completion of new targeted acquisitions.

Acquisitions made in 2025

The acquisition strategy continued in 2025, with several transactions aimed at strengthening the Group's expertise in strategic markets and sectors:

- **Infas**, the acquisition of which was completed in January 2025, enabling Ipsos to strengthen its presence in Germany and develop its expertise in social studies and research for the public sector.
- **Where to Research**, an Australian company specializing in studies for the public sector and the evaluation of public policies, which consolidates Ipsos' presence in Australia and strengthens its capacities to analyze and support public institutions.
- **Ipec (Inteligência em Pesquisa e Consultoria)**, a Brazilian company recognized in opinion studies and the analysis of socio-political dynamics, enabling Ipsos to strengthen its presence in Latin America and expand its expertise in public opinion research.
- **The BVA Family**, a leading European group in market research with a presence in France, the United Kingdom and Italy. This acquisition, one of the largest made by Ipsos since the acquisition of the activities of **GfK** in 2018, significantly strengthens the Group's presence in several key European markets. It also provides complementary expertise in several areas, including

customer experience, behavioral sciences and studies for public institutions. Above all, it strengthens Ipsos' capabilities in the field of pack testing and analysis of consumer behavior at points of sale, thanks in particular to the expertise developed by **PRS IN VIVO**, the world leader in this field, and thus contributes to expanding this offering in markets where Ipsos already has a strong presence.

5.4 Strategy and targets

5.4.1 Financial and non-financial strategies and targets

In January 2026, during its Investor Day, Ipsos unveiled its strategic plan, the aim of which is to return to a sustained pace of growth.

This strategy, led by Chief Executive Officer Jean Laurent Poitou and approved by the entire Board of Directors, sets out the company's new ambitions and its execution plan. The annual organic growth rate is expected to reach 5% or more by 2028, accompanied by an improvement in the operating margin, which in the same year is expected to reach a record level of 13.5%.

Ipsos' strategy is based on six pillars:

1. Harness the full potential of its wide range of services

Ipsos' multi-specialist model enables it to provide coverage of the information needs of many clients across various topics and multiple geographies. Ipsos will actively manage these services, particularly those with the greatest potential.

2. Strengthen its ability to operate globally with a strong local footprint

Present in 90 countries, Ipsos combines extensive international reach with in-depth knowledge of local markets. Ipsos will accelerate the development and adoption of global platforms and services and develop the expertise of local teams to ensure the relevance of the information provided.

3. Deliver faster, with the same reliability

Ipsos will upgrade its platforms and processes to significantly accelerate the production of its work. In the long run, the information produced and analyzed will be communicated in real time for some and within 48 hours for most others.

4. Capitalize on its mastery of AI as a lever for differentiation

Ipsos will step up its investments in artificial intelligence to improve speed, agility and productivity, without compromising on data quality and the relevance of analyses.

5. Expand development of its proprietary panels to ensure reliability

Access to real respondents is a key differentiator and competitive advantage for Ipsos. It enables detection of behavioral changes in real time and is a prerequisite for the effective use of synthetic data generated through AI.

6. Facilitate decision-making with high value-added information

By transforming data into relevant and actionable information, Ipsos wants to position itself as the indispensable partner of its clients at times when they need to make quick, informed, and value-creating decisions.

These strategic pillars stem from a clear ambition: to make Ipsos the world leader in augmented insights through AI. The company, with its in-depth understanding of Society, Markets and Individuals, aims to

assert its status as a global leader. It aims to champion the production and dissemination of actionable, high-impact insights.

This ambition is based on two growth areas: firstly, reinvent our services by utilizing AI to transform our working methods and deliver faster; secondly, enrich our portfolio by maximizing the adoption of our high-potential services and exploring new growth drivers.

The implementation of this plan will be based on:

- **A robust investment program in technology, AI and data:** Over the next five years, Ipsos will invest over €1 billion in transformation operations, mainly through acquisitions and strategic investments. The investment plan will be financed primarily through free cash flow. Of course, the acquisitions will accelerate and strengthen the development of Ipsos' operational capabilities and its deployment in the data management and analytics market.
- **In addition, the company plans to enhance the training of its teams** to ensure they have the skills to carry out Ipsos' operational capacity improvement programs and the development of its analytical capabilities.

Outlook specifically associated with 2025-2026:

The 2025 financial year took place in an uncertain macroeconomic and political environment, impacting our Public Affairs business. While the operating margin once again showed resilience, organic growth, which remained insufficient, highlights the need for a rapid deployment of the Horizons plan, Ipsos' growth strategy presented at Investor Day on January 22 this year.

The ambition is clear: to make Ipsos the world leader in actionable, high-impact insights through AI. This ambition is based on two growth areas: firstly, reinvent our services by utilizing AI to transform our working methods and deliver faster; secondly, enrich our portfolio by maximizing the adoption of our high-potential services and exploring new growth drivers.

To achieve this, Ipsos relies on solid strengths: its position as a global, independent leader; a diverse range of offerings; access to real respondents; long-term relationships with clients whose satisfaction levels are very high; strong employee commitment; and a robust financial structure that enables it to execute its strategy.

From the beginning of the 2026 financial year, Ipsos is actively deploying the priorities of its strategic roadmap:

- In particular, the Group is accelerating the development of Globally Managed Services (GMS), whose penetration remains limited in many countries and which offer strong growth potential. A first wave of six hypermarkets and supermarkets was identified as a priority in 2026, grouped into three categories: Innovation, Creative Excellence and Behavioral Measurement. This acceleration is based on targeted investments as well as the establishment of a dedicated organization, managed at the global level.
- At the same time, Ipsos.Digital, which already supports some supermarkets and hypermarkets, is an additional growth driver and will enhance its offering with new services starting in 2026.
- Ipsos has also reorganized its management team to align it with the priorities of its strategic plan, particularly in its offerings, as well as in technology and artificial intelligence.
- Finally, commercial initiatives have been launched, including strengthening the accountability of executive officers at various levels for the development and oversight of key accounts, with the aim of improving commercial execution and supporting growth.

2026 is the first step in a recovery in the Group's growth momentum, aiming for average organic growth of 3% to 4% over the 2026-2028 period. This dynamic is based on the rapid deployment of strategic priorities. The initiatives undertaken in 2026 will gradually gain momentum.

For fiscal year 2026, Ipsos expects organic growth of between 2% and 3%, with an operating margin equivalent to that of 2025. Capital allocation priorities remain unchanged, with the continuation of a targeted acquisition strategy and increased investment in technology.

Given the Group's financial strength and in accordance with the capital allocation policy presented at Investor Day, the Board of Directors will propose the payment of a dividend of €2.00 per share, up by more than 8%, at the General Meeting on May 20, 2026, corresponding to a payout ratio of 36% of adjusted diluted net income per share. The ex-dividend date will be July 1, 2026.

In addition, the Board of Directors today decided on a buyback of shares program for cancellation purposes, amounting to approximately €100 million in 2026, which will be executed as soon as possible. The implementation of this plan will be covered in a specific press release.

The non-financial targets are detailed comprehensively in the Sustainability Report (presented in [5.4.2](#)). Looking forward to 2026, seven key targets, divided into three segments, have been identified.

Employment:

- Employee engagement level equal to "RED" (*Representative Employee Data*) thresholds for the business services sector;
- Percentage of women among Level 1 on the Leadership Team at 42%;
- Percentage of women among Level 2 on the Leadership Team at 50%;
- Turnover rate below 12% (excluding employees with less than 3 years' seniority);

Governance:

- Share of employees trained on data protection and security risks and on the risks of corruption with respect to clients and suppliers at 95%.

Environment:

- Greenhouse gas emissions 2 (in metric tons of CO₂e) - scopes 1 + 2: -42% compared to 2019 and scope 3 (excluding fixed assets) -19% compared to 2019
- Share of renewable energies in total energy consumption at 35%.

Ipsos

in brief

Our “Corporate Purpose”

*Deliver reliable information for a true understanding
of Society, Markets and Individuals
to help the world make better decisions.*

In an ever-changing world, the need for **reliable information** to make decisions with confidence has never been greater. Faced with false information and alternative truths, **companies and public organizations need reliable and verified data.**

Ipsos uses all available data sources combined with the expertise of its teams:

- **from face-to-face interviews to satellite imaging**
- **from social media listening to laboratory tests**
- **from online surveys to drone images**

Message from the Chair

It is with immense emotion that I assumed the chairmanship of the Ipsos group on March 1, 2026, taking over from its founder, Didier Truchot. I am extremely proud of what the Ipsos teams have achieved over the last 50 years and of the ESG initiatives we have taken since 2008. Today, I am pleased to preface this second Ipsos Sustainability Report.

Sustainability and the notion of positive impact on the world and society have always been at the heart of Ipsos' action and my conception of the company. Our corporate purpose is to deliver reliable information, bringing a true understanding of society, markets and individuals – so that the world can make better decisions. That is what drives thousands of clients around the world to turn to Ipsos every day.

Over the past year, we have continued to build on our achievements in the areas of environment, social initiatives, and governance. This report provides an overview. We continued to reduce our carbon emissions. We continued to roll out various initiatives in favor of our employees, including training them in artificial intelligence, continuing to increase female representation in our management teams, and pursuing our diversity policies. We preserved and strengthened our governance, notably with the appointment in early 2026 of a Lead Director on our Board of Directors, which is composed equally of seven women and seven men and a majority of independent directors.

As Chair of this Board, I intend to enable the Company to continue its ESG efforts, which I believe in and which are expected by our clients, our employees and our shareholders.

Laurence Stoclet

Chair of the Board of Directors

Message from the Chief Executive Officer

Since taking office in September 2025, I have seen how essential Ipsos' role with its stakeholders is. At a time when companies must make decisions ever more quickly in an uncertain environment, where the landscape is constantly being reshaped – including on environmental, social and governance issues – our fundamental mission is to provide informed insight based on reliable data and rigorous methodologies. Our new strategic plan, Horizons, confirms this ambition.

I am proud to lead a company whose 19,000 employees, of extremely diverse nationalities and identities, present in 90 markets, work together every day to serve our private and public clients by transforming data into decisions, anticipating trends, and measuring the impact of their actions. Their expertise, independence and professional ethics, supported by our Code of Conduct, bring clarity and trust to our clients – whom we support in the implementation of their business projects as well as their ESG roadmaps through dedicated service offerings.

2025 marked an important step for Ipsos in terms of sustainability: continuing to roll out our Net Zero plan, increasing the percentage of women on our management teams, increasing client and employee satisfaction, etc. Meanwhile, the Ipsos Foundation continued to support new initiatives for disadvantaged children around the world.

We also pursued extremely important initiatives, such as the responsible use of Artificial Intelligence, developing AI in our offerings and processes, while reaffirming our commitment to data integrity, methodological transparency, and ethical technology use.

In 2025, our Board of Directors established an ESG Committee, separate from the Strategy Committee [and chaired by an independent director, Eliane Rouyer-Chevalier]. This new body will make it possible to raise the profile of these themes at the highest level of Ipsos governance.

More than ever, we remain true to our social commitments to equity and inclusion. We take action to broaden our employees' access to new opportunities within the company, develop their skills, foster diversity of talent at all levels and ensure a respectful and safe working environment. These efforts are recognized: 88% of our colleagues say they are proud to work for Ipsos.

Through all these commitments and initiatives, we pursue a constant ambition: to combine scientific rigor, innovation and impact to contribute to a sustainable future.

Jean Laurent Poitou

Chief Executive Officer

1. General information (ESRS 2)

1.1 Introduction

1.1.1 Preliminary information on the sustainability report

This report on sustainability information forming an integral part of the group management report, as required by article L.233-28-4 of the French Commercial Code (hereinafter the "Sustainability Report"), has been prepared and drafted in accordance with the normative requirements set by the *European Sustainability Reporting Standards* (ESRS), firstly, and article 8 of Regulation (EU) 2020/852 regarding taxonomy information, secondly, which are applicable as of its date of preparation.

This report was drawn up taking into account the information and knowledge available as of the date of its preparation and the provisions relating to the (EU) directive known as the CSRD.

In this context, based on evolving market practices and recommendations, the Group may need to review certain estimates that may be refined during future reporting periods. Certain estimation methods may also be modified or adapted in line with changes in practices usually recognized by the market.

In addition, the level of robustness of the information collection process will continue to increase as the exercises take place.

The Group's internal control systems related to the preparation of sustainability information will be gradually strengthened based on the experience gained during the first reporting periods.

The Group is therefore committed to a continuous improvement approach in this reporting and communication exercise, taking into account peer publishing best practices, the publication of new EFRAG guides, or the implementation of additional standards.

1.1.2 Basis of preparation (BP-1)

1.1.2.1 Sustainability statement

The Ipsos Group publishes this sustainability report in accordance with the *European Sustainability Reporting Standards* (ESRS) – European standards for the publication of non-financial information relating to environmental, social, and governance (ESG) issues.

This sustainability report is based on a double materiality analysis that takes into account, firstly, Ipsos' impact on the environment and society and, secondly, the influence of environmental, social, and governance issues on the Group's performance. This approach aims to ensure that the report is relevant with respect to the company's activity and the various stakeholders (employees, investors, clients, suppliers, etc.). The results of the double materiality analysis carried out as part of the first year of publication of the sustainability report were confirmed by the results of the risk assessment process carried out at the end of 2025. Therefore, the scope of data points published in this report remains the same as in last year's report.

Data collection and indicator monitoring were carried out jointly by the central teams and local teams in each of the Group's countries of operation throughout the year.

Data points from the ESRS that benefit from transitional measures are not systematically included in this report. However, some non-mandatory data points were presented voluntarily.

The Group ESG Director involves all stakeholders in ESG work and projects. Each of Ipsos' markets has appointed an ESG Manager, who is involved in promoting actions and communicating progress to employees.

1.1.2.2 Scope

This report covers all of the nearly 90 markets in which Ipsos has offices, with the exception of a few immaterial exclusions detailed below for environmental indicators. Aside from these exclusions, this scope is identical to that of the financial statements. The list of companies included in the consolidation

scope is presented in the notes to the Group's consolidated financial statements (Section [18.1.2.2.6](#) of the Universal Registration Document).

Sustainability data relating to entities acquired, which are fully consolidated in the Group's financial statements, is included in this report from the year of acquisition and for the period between the acquisition and the year-end date.

Quantitative data points related to the 2025 acquisitions were measured according to the following periods:

- Infas (Germany): January 1 to December 31, 2025
- Whereto Research (Australia): February 1 to December 31, 2025
- IPEC (Brazil): March 1 to December 31, 2025
- BVA Family (France, United Kingdom, Italy, Singapore, China, etc.): July 1 to December 31, 2025
- InMoment Healthcare (Germany): July 1 to December 31, 2025

In the event of disposal, sustainability data is excluded for the entire period.

This report also includes upstream value chain information identified as material during the double materiality analysis (see Section [5.4.2.1.4](#)).

The non-significant Ipsos Group entities excluded from the scope of environmental indicators, particularly greenhouse gas emissions, are as follows:

- Legal entities consolidated in the financial statements using the equity method (see list of entities accounted for using the equity method in Section [18.1.2](#))
- Legal entities that do not represent significant transactions and/or with no employees (Bolivia, Honduras and Nicaragua).
- Holding company legal entities (Luxembourg, Cyprus)

1.1.3 Specific circumstances related to the preparation of the sustainability report (BP-2)

1.1.3.1 Definition of time horizons

The period covered by this report is from January 1 to December 31, 2025.

This report presents a description of Ipsos' business model, the material ESG issues for Ipsos, and the objectives for future years.

It addresses three main time horizons:

- the short term is defined as a period of no more than one year, which is that of the budget cycle;
- the medium term covers a period of between two and six years, i.e. by 2030, which is that of the company's future strategic plan;
- the long term covers the period beyond the strategic plan, i.e. more than six years (beyond 2030).

1.1.3.2 Changes in the presentation of the revised sustainability information and comparative periods.

The 2025 report does not include revised comparative data for the 2024 financial year.

1.1.3.3 Estimates

Indicators relating to Ipsos' own activities

Data related to greenhouse gas emissions provided by subsidiaries (energy consumption, business travel, waste, etc.) **may be estimated** based on data from the previous year or emissions from similar assets e.g. use of data related to the energy consumption of an office with identical characteristics).

The main indicators linked to the value chain are our suppliers' greenhouse gas emissions. To measure them, Ipsos uses **estimates based on the amounts spent on them** (*spend-based method*). This is still a common practice and is fully accepted by the various stakeholders involved in the fight against climate change. In order to limit, over time, the use of estimates and replace them as soon as possible with actual emissions data, Ipsos has begun collecting primary data (specific emission factors) from suppliers using databases such as the CDP.

1.1.3.4 Uncertainty in estimating certain indicators

Uncertainties may arise from the quality of the data calculated for the value chain (such as greenhouse gas emissions) as well as from forward-looking information, which is by definition uncertain. The methodology for collecting information is specified in Section [5.4.2.2.1.3](#).

1.1.3.5 Use of declarative elements

Some indicators provided in this report were derived from declarative data from the annual *Responsible Business Survey (RBS)*, to which all local country management responded.

These are the following indicators:

- the percentage of employees covered by collective bargaining and formal social dialogue bodies;
- the percentage of employees covered by an occupational health and safety management system;
- the number of accidents at work, occupational illnesses, days of absence and hours worked

1.1.3.6 Incorporation by reference in connection with sections of the Management Report

References to information in other sections of the Universal Registration Document other than this Sustainability Report are specified in the cross-reference table in Section [5.4.2.5.1](#).

1.2 Ipsos' Strategy & Business Model

1.2.1 Deliver reliable information for a true understanding of society, markets, and people (SBM-1)

The Ipsos business model is detailed in Section 5.1 of the Universal Registration Document. It is summarized below.

The impacts of Impacts, Risks and Opportunities –"IRO" (location in the value chain, time horizon, etc.) on the business model are indicated in the descriptive tables of the IROs for each of the ESRS in Section 5.4.2.1.2.3.

OUR OPERATIONAL EXCELLENCE

PRODUCING RELIABLE INFORMATION FOR OUR CLIENTS

ENSURING THE QUALITY OF OUR STUDIES

We combine the know-how of our experts with the best science & technology

OUR GROWTH STRATEGY

INCREASE INVESTMENTS IN TECHNOLOGY AND DATA ANALYTICS

KEEP PEOPLE AT THE HEART OF OUR STRATEGY

FOCUS ON KEY GEOGRAPHIES AND SERVICES

SMART ACQUISITIONS

ENABLERS

GROWTH DRIVERS

PILLARS

STRONG LOCAL PRESENCE

- P&L responsibility sits in countries
- 90 markets

SENIOR CLIENT OFFICERS

- 240 Senior Client Officers
- x12 since 2018

BEST-IN-CLASS SERVICES

- 75 specialised services
- Global Service Lines lead innovation & ensure competitiveness

GLOBAL TEAMS

- Technology
- Science
- Knowledge
- Operations
- Support functions

Bring us closer to clients, locally and globally

Drive investment in technology and knowledge for the benefit of the whole group

OUR VALUE CREATION

FOR OUR 5,000 CLIENTS

- Deliver reliable information to enable them to make the right decisions
- ± 80,000 projects per year
- 9.1/10 client satisfaction score in 2025

FOR OUR EMPLOYEES

- ± 500 in-house training courses available
- High employee engagement rate 76% in 2025
- ± 5,000 graduates recruited in Generation Ipsos program since launch

FOR SOCIETY

- ± 120 studies published to disseminate our know-how and provide a better understanding of societal issues
- ± 100 refugees to be recruited by 2026
- 100% of environmental and societal objectives met in 2023
- ± 160 projects supported by our Foundation in 50 countries
- Near-term and Net Zero targets validated by the SBTi

FOR OUR SHAREHOLDERS

- Continued increase in dividends since the IPO in 1999
- €1.85 in dividends paid in 2024
- €1.85 in dividends paid in 2025

FOR OUR SUPPLIERS

- Among our category A suppliers spend, 37% are adhering to the UN global compact and 22% are committed to SBTi
- A relationship of trust with our suppliers, governed by our supplier Code of Conduct and our internal Code of Conduct and Ethics

1.2.2 Ongoing dialogue with all our stakeholders (SBM-2)

1.2.2.1 Clients, suppliers, employees, respondents: Ipsos at the heart of an ecosystem of stakeholders

A relationship of trust with our more than 5,000 clients worldwide

Ipsos' value creation for its clients consists of producing and reliable information and analyzing it, in order to offer them a true understanding of Society, Markets and People. That corporate purpose is based on a rich service offering that focuses on client needs and enables them to make the right decisions quickly about the issues they face.

Ipsos is able to provide over 75 services worldwide (90 markets) with a highly consistent rigor and service quality. These factors make Ipsos a world leader in the market research sector and lead to a high level of satisfaction among its 5,000-plus clients.

In 2025, the CSM (Client Satisfaction Monitor), which measures **client satisfaction survey by survey, reached almost 9.1/10**. The latest GCS (Global Client Survey), conducted in 2025, which measures the overall satisfaction of Ipsos' clients, remains at a high level of 8.3/10, higher than before the pandemic and stable compared to 2024.

A mutual commitment to sustainability with our suppliers

Ipsos' relationship with its suppliers is based on a mutual commitment to quality, professionalism and transparency. Suppliers are subject to a rigorous selection process, based in particular on an invitation to tender process to ensure the selection of the best partners in terms of expertise, technical quality, price, and ESG criteria.

Ipsos also ensures that the selected suppliers share Ipsos' commitment to sustainable development and are able to demonstrate this. Of Ipsos' top-tier suppliers, which accounted for 60% of expenditure in 2025, 37% of these suppliers (in terms of expenditure) adhere to the principles of the United Nations Global Compact and 22% are committed to the Science Based Targets initiative. All these commitments are set out in the supplier code of conduct.

Nearly 19,000 employees committed to the group's success and their own development

Ipsos' primary resource is the know-how and commitment of its approximately 19,000 employees worldwide.

The production and analysis of reliable information requires skills and expertise in a variety of fields, from statistics and data analysis to social sciences, psychology and behavioral sciences, the latest technological innovations such as artificial intelligence and many other fields.

Ipsos maintains and develops these skills through research, training and employee mobility. The business plan values the long-term development of the teams. There is a training program to support the professional development of employees. Ipsos has its own online training center, the *Ipsos Training Center* (ITC), which is available to all employees.

Millions of people surveyed every year in over 100 countries

The trust of the people interviewed by Ipsos is key to the achievement of our mission, as well as to ensuring the quality of our study results. This trust notably involves the protection and security of their personal data.

Through its studies, Ipsos also acts as the voice of the consumer, the customer, the citizen and the patient with respect to businesses, public organizations, and society at large.

A positive impact on society through our studies and our philanthropy initiatives

Ipsos aims to contribute positively to social, societal, and environmental progress worldwide.

It does this first through its studies by helping to understand social and economic phenomena, health, and citizens' expectations.

Furthermore, as a committed company, Ipsos, through its Foundation, its charitable and voluntary actions, intends to have a positive impact on the communities in which our teams live and work. Employees are encouraged to volunteer for a charitable cause they care about.

A fair return for our shareholders

Ipsos' business growth and profitability, combined with solid annual cash flow generation, has enabled it to distribute a continuously rising dividend since the company's IPO in 1999 (with the exception of 2020, due to the Covid-19 pandemic).

1.2.2.2 Our stakeholders expect Ipsos to produce reliable information, solid financial results, pay attention to the rights and well-being of its employees, and treat its respondents and suppliers fairly (SBM-2)

Ipsos has set up a set of communication channels with its stakeholders. These are summarized in the table below. The information collected informs the due diligence processes (Section [5.4.2.1.3.6](#)) and the double materiality analysis (Section [5.4.1.4](#)).

These dialogue mechanisms are guided by principles of openness, transparency, and integrity and are framed by international standards and codes to which Ipsos adheres, including the United Nations Guiding Principles on Business and Human Rights, and the United Nations Declaration on the Rights of Indigenous Peoples.

Stakeholders	Means of dialogue	Their expectations
Clients 	- Customer satisfaction surveys, both annually (Global Client Survey) and at the end of each project (external Customer Satisfaction Monitor, eCSM), including an alert system in case of dissatisfaction - Presence of a Client Organization, dedicated to dialogue with them, both at group level and in the countries - Regular meetings between Ipsos senior teams and global clients - Ongoing dialogue with clients	- Access to the Ipsos ESG analysis library - Access to public Ipsos data on ESG issues: e.g. Earth Day report, International Women's Day, Equality Index. - Specific solutions to address clients' ESG challenges and enable them to make strategic business decisions on these topics. - Be assured of the security and confidentiality of the business information they share with Ipsos and the data that Ipsos provides to them - Ipsos' commitment to a plan to reduce greenhouse gas emissions in line with the client's own objectives
Society 	- Partnerships with universities, public bodies and non-governmental organizations - Website and publications - Ipsos surveys of citizens, consumers, patients, and voters, etc. - Media (newspapers, television, social media)	- Reliable, accurate, and independent data. - Provide the world with essential information to help public and private organizations and society at large make the right decisions, contributing to progress on ESG.
People surveyed by Ipsos 	- Face-to-face, telephone, and online surveys, newsletters and portal dedicated to our panel members. - Possibility for respondents to send us comments, remarks, or suggestions, during or after the survey.	- Make their opinion known to have an impact on society; - Be able to express their opinion freely, in response to impartial questions; - Receive regular invitations to participate in relevant and interesting surveys; - Receive regular communications on survey results; - Have a seamless user experience on survey platforms; - Benefit from transparent and clear communication; - Receive surveys expressed in appropriate language and with inclusive response options; - Benefit from fair and rapid compensation; - Be listened to and supported, particularly in case of difficulties; - Be assured of the confidentiality and security of their data. - Conduct surveys with an awareness of the carbon emissions generated by our business and strive to minimize them. - Especially for face-to-face and telephone interviews, approach sensitive topics with tact and attention (this may include gender, sexuality, etc.) and be transparent about who we are, what we do and provide the means for respondents to verify our identity and credibility.
Employees 	- Annual employee satisfaction survey: "Pulse" - "Town Hall" meetings - Ability to submit questions/remarks directly to the country directors - Whistleblowing system - HR assessment platform, used to build an individual development plan and allowing employees to provide feedback on their manager as part of 360-degree assessments - Ipsos Belong and employee networks - Network for gender equality, Pride and Embrace.	- Have a good work-life balance - Foster a culture where everyone can be themselves at work - Promote an inclusive culture - Promote and encourage diversity among staff
Suppliers 	- Invitation to tender process - Monitoring of contracts - Product presentation - Annual survey - Supplier engagement program	- Have a clear vision of Ipsos' expectations - Receive support and guidance to help them achieve their Net Zero ambitions in line with Ipsos' expectations of them - Have an ESG point of contact - Have quarterly monitoring of the progress in their actions
Shareholders and investors 	- Q&A during official communications & financial events (Presentation of results, General Meetings) - ESG questionnaires submitted by shareholders and investors - Dialogue with proxy advisory firms - Roadshows	- Assess the company's efforts, commitments and actions on ESG issues from an investment perspective - Identify possible areas for improvement on ESG aspects and be proactive - Check Ipsos' eligibility for labeled funds (Label France, ESG, etc.) - Check that Ipsos, as a people business, ensures the commitment and satisfaction of its teams, remains able to detect, develop, and retain its talents, and offers an optimal working environment for its interviewers. - Ensure compliance with good governance practices: Gender equality and independence on the Board of Directors, transparency of executive compensation and integration of qualitative criteria, etc.

1.2.3 The double materiality analysis identified a set of material impacts, risks, and opportunities for Ipsos (SBM-3)

A double materiality analysis was performed in 2023, in preparation for the implementation of the CSRD (Section 5.4.2.1.4). It supplemented the risk assessment carried out every three years by the Internal Audit Department and covered both Ipsos' own activities and its value chain.

The material impacts, risks and opportunities (IRO) – i.e. significant for Ipsos – that this analysis identified are presented in the table below.

Ipsos' strategy and business model (see Section 5.1) make it possible to manage them. The Group continuously monitors and assesses its performance against these impacts and risks and works to seize identified opportunities that align with its strategic objectives.

ESRS E1

Climate change

		Impact, risk, or opportunity (IRO)	Description	Physical risk	Entity-specific?	Actual / Potential	Time horizon	IRO location	Policies and actions implemented to address the negative impact and risk
Climate change adaptation									
●	Negative impact	Greenhouse gas emissions	Greenhouse gas emissions related to the group's activities (scopes 1 and 2) and the value chain (scope 3) – these emissions will contribute to climate impacts on a global scale, which will require additional adaptation.	N/A	No	Actual	Long term	Own activities and upstream value chain	Climate transition plan entitled Net Zero Plan in connection with the SBTi (Section 2.1.2.2). The resulting policies and actions are described in 2.1.2.3 and 2.1.2.4)
●	Risk	Supply chain disruption	Climate-related disruptions, such as extreme weather events or resource scarcity, can impact Ipsos' supply chain.	Yes	No	Potential	Medium term	Upstream value chain	Climate resilience analysis (Section 2.1.2.5)
Climate change mitigation									
●	Risk	Market risk	Failure to meet customer criteria and requirements for emissions levels (risks of transition to a lower greenhouse gas emissions economy).	No	No	Actual	Short term	Downstream value chain	Climate transition plan entitled Net Zero Plan in connection with the SBTi (Section 2.1.2.2). The resulting policies and actions are described in 2.1.2.3 and 2.1.2.4)
●	Opportunity	New services	Development of new products and services related to climate change.	N/A	No	Actual	Long term	Own activities and downstream value chain	
Energy									
●	Risk	Market risk	Increase in energy costs.	No	No	Actual	Short term	Own activities and upstream value chain	Climate transition plan entitled Net Zero Plan in connection with the SBTi (Section 2.1.2.2). The resulting policies and actions are described in 2.1.2.3 and 2.1.2.4)

ESRS S1

Own workforce

		Impact, risk, or opportunity (IRO)	Description	Entity-specific?	Actual / Potential	Time horizon	IRO location	Policies and actions implemented to address the negative impact and risk
Working time and work-life balance								
🟢	Positive impact	Work-life balance of employees	Guarantee employees' well-being by giving them the opportunity to reconcile their work and private life	No	Actual	Short term	Own activities	
🟡	Negative impact	Talent retention and health	Loss of talent and mental health issues	No	Potential	Short term	Own activities	Ipsos Cares program launched in 2024, which supports employees in their physical, psychological, and social well-being; as well as homeworking and flexible work policies tailored to each country (see Section 3.1.5).
🟡	Risk	Employee engagement	Employee disengagement due to excessive workload	No	Actual	Short term	Own activities	Pulse: action plan according to the results of each country, BU, age category, tenure, etc. (see Section 3.1.2)
🟡	Opportunity	Attracting talent	Attract employees and recent graduates	No	Actual	Short term	Own activities	
Decent wages								
🟢	Positive impact	Standard of living	Ensure a comfortable standard of living	No	Actual	Short term	Own activities	
🟡	Risk	Attracting talent	Lack of attractive wages	No	Actual	Short term	Own activities	Compensation strategy that takes into account inflation and the market benchmark (see Section 3.1.3)
Social dialogue, freedom of association, and collective bargaining								
🟡	Risk	Quality of relationship with employees	Breakdown in communication with employees	No	Actual	Short term	Own activities	Local HR management and annual employee satisfaction survey (see Section 3.1.1.2)
Health and safety								
🟡	Risk	Health and safety	Risks related to personal safety and job security	No	Actual	Short term	Own activities	See policies and actions in Section 3.1.5
Gender equality and equal pay for work of equal value and diversity and inclusion (employment and inclusion of people with disabilities)								
🟢	Positive impact	Promote gender equality	Contribute to the recognition of gender equality	No	Actual	Short term	Own activities	
🟡	Risk	Lack of gender equality	Breaches of the gender equality policy	No	Actual	Short term	Own activities	Network for the promotion of gender equality. Monitoring of gender pay gaps. Goal of equality in executive positions (see Section 3.1.6) and diversity and inclusion policy (see Section 3.1.7)
			Gender discrimination	No	Actual	Short term	Own activities	
			Failure to attract, develop, and retain talent and key leaders	No	Actual	Short term	Own activities	
Training and skills development								
🟢	Positive impact	Employability of employees	Improve the employability of employees	No	Actual	Short term	Own activities	
🟡	Negative impact	Employability of employees	No improvement in the employability of employees	No	Potential	Short term	Own activities	Performance evaluation mechanism and provision of technical, business, and personal development training (see Section 3.1.8)
🟡	Risk	Upskilling of employees	Insufficient development and maintenance of skills	No	Actual	Short term	Own activities	Performance evaluation mechanism and provision of technical, business, and personal development training (see Section 3.1.8)
🟡	Opportunity	Attracting talent	Attract employees and recent graduates	No	Actual	Short term	Own activities	
Measures to combat violence and harassment in the workplace								
🟡	Risk	Reputational risk and talent retention risk	Psychological and sexual harassment	No	Actual	Short term	Own activities	Whistleblowing system available to all and anonymous (see Section 3.1.9)
Protection of privacy								
🟡	Risk	Reputational and data privacy risk	Failure of data protection	No	Actual	Short term	Own operations	GDPR rules strictly applied and employees trained (see Section 3.1.10)

ESRS S2

Workers in the value chain

Impact, risk, or opportunity (IRO)			Description	Entity-specific?	Actual / Potential	Time horizon	IRO location	Policies and actions implemented to address the negative impact and risk
Working time and work-life balance								
	Risk	Work-life imbalance and excessive working time	It may be that a supplier engages in excessive working hours, which is detrimental to the work-life balance and well-being of its teams.	No	Potential	Medium term	Upstream value chain	- Supplier code of conduct (notably Section 3.2), specifying the latter's obligations in particular with regard to workers' rights - Request for suppliers to adhere to the principles of the United Nations Global Compact - Possibility of audits and termination of the commercial relationship in the event of a breach - Whistleblowing system, open to supplier employees
Equal pay for work of equal value								
	Negative impact	Potential lack of a fair compensation system at suppliers	There is always a risk that some suppliers may not offer their employees sufficiently fair compensation, i.e. equal pay for equal work. The Ipsos Supplier Code of Conduct and the contractual conditions are there to remedy this.	No	Actual	Long term	Upstream value chain	- Supplier code of conduct (notably Section 3.2), specifying the latter's obligations in particular with regard to workers' rights - Request for suppliers to adhere to the principles of the United Nations Global Compact - Possibility of audits and termination of the commercial relationship in the event of a breach - Whistleblowing system, open to supplier employees
	Risk	Wage inequality among freelancers	The absence of a sufficiently robust policy on gender equality and the compensation of freelancers could open the door to unequal compensation practices.	No	Potential	Medium term	Upstream value chain	- Supplier code of conduct (notably Section 3.2), specifying the latter's obligations in particular with regard to workers' rights - Request for suppliers to adhere to the principles of the United Nations Global Compact - Possibility of audits and termination of the commercial relationship in the event of a breach - Whistleblowing system, open to supplier employees
		Wage inequality between men and women in certain supplier organizations	Significant costs and the risk of loss of capacity in some markets by requiring compliance with this standard could weaken some suppliers' commitment to equal pay for work of equal value.	No	Potential	Medium term	Upstream value chain	
Social dialogue, freedom of association, and collective bargaining								
	Risk	Weak social dialogue within supplier organizations, leading to poor service delivery and loss of reputation	Failure to meet company expectations leads to sub-optimal services and actions from suppliers.	No	Actual	Medium term	Upstream value chain	- Supplier code of conduct (notably Section 3.2), specifying the latter's obligations in particular with regard to workers' rights - Request for suppliers to adhere to the principles of the United Nations Global Compact - Possibility of audits and termination of the commercial relationship in the event of a breach - Whistleblowing system, open to supplier employees
Measures to combat violence and harassment in the workplace								
	Risk	Ipsos suppliers that do not act decisively enough against violence and harassment	Despite the Ipsos Supplier Code of Conduct, some suppliers may apply insufficient measures against violence and harassment.	No	Actual	Medium term	Upstream value chain	- Supplier code of conduct (notably Section 3.2), specifying the latter's obligations in particular with regard to workers' rights - Request for suppliers to adhere to the principles of the United Nations Global Compact - Possibility of audits and termination of the commercial relationship in the event of a breach - Whistleblowing system, open to supplier employees
Forced and child labor								
	Risk	Ipsos suppliers using forced and child labor	Despite the Ipsos Supplier Code of Conduct and although Ipsos' core business is not subject to child labor, there is a risk that some suppliers may use forced and child labor.	No	Potential	Medium term	Upstream value chain	- Supplier code of conduct (notably Section 3.2), specifying the latter's obligations in particular with regard to workers' rights - Request for suppliers to adhere to the principles of the United Nations Global Compact - Possibility of audits and termination of the commercial relationship in the event of a breach - Whistleblowing system, open to supplier employees

ESRS S4

Consumers and end users

		Impact, risk, or opportunity (IRO)	Description	Entity-specific?	Actual / Potential	Time horizon	IRO location	Policies and actions implemented to address the negative impact and risk
Protection of privacy								
●	Risk	Data protection	A major data security breach could have financial and reputational consequences for Ipsos.	Yes	Potential	Short term	Downstream value chain	- Exacting privacy and data protection policy, set out in the Book of Policies & Procedures - Robust and continuously refined information security management system (ISMS) - Comprehensive network of Data Protection Officers (DPOs) across the entire group - Deployment of the ISO 27001 standard - Mandatory training and awareness for all employees and annual assessment
Freedom of expression								
●	Risk	Misrepresentation of respondents' opinions	Distortion of data and results of Ipsos surveys by clients, in particular Do-It-Yourself surveys carried out by clients themselves on our DIY platform.	Yes	Actual	Short term	Downstream value chain	- Need to obtain Ipsos' agreement before any publication of study results (systematic contractual clause) - Check of questionnaires submitted by clients on the Ipsos Digital DIY platform - Public communication by Ipsos in the event of a misrepresentation of the results of one of its studies
Access to (quality) information								
●	Risk	Errors in Ipsos study results	Errors in the results of Ipsos studies could lead clients to make poor decisions and impact their products and services.	Yes	Actual	Short term	Downstream value chain	- Rigorous internal control procedures and review of study reports - Quality certifications (ISO and internal certifications)
Responsible marketing practices								
●	Positive impact	Deliver quality insights to the world	IPSOS can have a positive impact on people if it provides its clients and end users with relevant, transparent, and clear marketing and advertising studies. This allows consumers and end-users to make better-informed decisions.	Yes	Actual	Medium term	Downstream value chain	
●	Risk	Incorrect public communication on the results of Ipsos studies	Miscommunication of Ipsos study results could lead clients to make poor decisions and impact their products and services.	Yes	Actual	Short term	Downstream value chain	- Need to obtain Ipsos' agreement before any publication of study results (systematic contractual clause) - Public communication by Ipsos in the event of a misrepresentation of the results of one of its studies

Business conduct

		Impact, risk, or opportunity (IRO)	Description	Entity-specific?	Actual / Potential	Time horizon	IRO location	Policies and actions implemented to address the negative impact and risk
Corporate culture								
●	Positive impact	High ethical standards	Thanks to its corporate culture, the group disseminates its high ethical standards on local markets and in society.	No	Actual	Long term	Own activities and value chain	
●	Risk	Reputational damage	An incident caused by unethical conduct by entities or individuals under the control of the group, or by those with whom the group has business relationships, could seriously damage the group's reputation and create a negative image for stakeholders.	No	Potential	Long term	Own activities and value chain	- Five Ipsos values, formalized in a Code of Conduct, which require mandatory annual training - Book of Policies & Procedures, reflecting these values and principles - Whistleblowing system, open to all (employees, suppliers, clients, etc.)
Protection of whistleblowers								
●	Risk	Reputational damage	Failure to protect the identity of whistleblowers and address issues raised by this system.	No	Potential	Short term	Own activities and value chain	- Processing of alerts via a third-party platform (EthicsPoint) - Management of alerts by the Internal Audit Department, in complete confidentiality
Political engagement								
●	Risk	Damage to reputation / loss of public confidence	Controversies suggesting political bias can have a financial impact and lead to loss of business.	No	Potential	Medium term	Own activities and value chain	- Refusal in principle of any political position - Guidelines on communication, public expression and social media, distributed to employees and included in the mandatory annual training
Management of suppliers, including payment practices								
●	Positive impact	Reputational improvement	Ensure appropriate behavior within our supply chain, notably through the commitment of our Supplier Code of Conduct.	No	Actual	Short term	Upstream value chain	
●	Negative impact	Unsatisfactory payment practices	Failure to comply with conditions results in late payments by Ipsos suppliers, which negatively impacts their own cash flow.	No	Actual	Short term	Upstream value chain	- Standardized payment policy at Group level - Gradual roll-out of the iBuy tool for monitoring invoices and their payment
●	Risk	Unsatisfactory payment practices	Potential penalties due to legal proceedings initiated by suppliers in case of non-payment	No	Actual	Short term	Upstream value chain	- Standardized payment policy at Group level - Gradual roll-out of the iBuy tool for monitoring invoices and their payment
Corruption and bribery								
●	Risk	Reputational damage	Risk of controversies (loss of business) and legal proceedings financial impact (penalties and/or fines) related to corruption and bribery cases within the group	No	Actual	Short term	Own activities and value chain	- Practices explicitly prohibited by the Code of Conduct - Mandatory annual employee training - Whistleblowing system - Regular and whistleblower-driven audits conducted by the Internal Audit Department

1.2.4 Twenty-six material ESG issues identified (IRO-2)

In total and based on these impacts, risks, and opportunities, the analysis identified 26 material ESG issues for Ipsos. The actions taken and the results achieved on each of these topics are the subject of this report.

Ipsos double materiality analysis results

1.3 Strong governance, which also applies to sustainability issues

1.3.1 Governance and management bodies mobilized on sustainability issues (GOV-1)

1.3.1.1 A diversified Board of Directors and Executive Committee committed to sustainability issues

The Board of Directors

Ipsos ensures the diversity and competence of its Board of Directors, particularly in terms of sustainability. The composition of the Board is defined in accordance with the recommendations of the AFEP-MEDEF Code, and according to the following principles and elements:

- Composition:
 - 14 members, including 8 independent directors (67%) and 2 directors representing employees, appointed by the trade unions.
 - The sole executive member, Chief Executive Officer Jean Laurent Poitou. Note that one non-executive member is not considered independent due to his significant tenure within the Board of Directors (Mr. Patrick Artus).
 - 7 women sit on the Board, i.e. 50%.
 - The Board includes 3 different nationalities.
 - It brings together a variety of skills (see Section [5.4.1.3.1.2](#) below and Section [12.1.1.2](#) of the Universal Registration Document).

In terms of sustainability, the Board of Directors is responsible in particular for:

- Ensuring and monitoring the implementation of ESG policies;
- Ensuring that shareholders and investors receive relevant, balanced and educational information on the company's strategy, business model, growth plan, and the consideration of material ESG issues;

Composition of the Board of Directors as at December 31, 2025

 Didier Truchot Chairman of the Board		 Jean Laurent Poitou Chief Executive Officer

Board Committees

The Strategy Committee

This committee is specifically dedicated to defining the corporate strategy. It stems from the decision of the Board of Directors, effective at the end of the first half of 2025, to split the previously existing Strategy & ESG Committee into two separate committees, one now dedicated to Strategy and the other to ESG.

The Strategy Committee is made up of four directors, two of whom are independent, including its Chairman, Mr. Filippo Lo Franco.

The Chairman of the Board of Directors attends meetings of this Committee, as does the Chief Executive Officer of the company.

In 2025, the Committee met eight times (including three times in the first half of 2025 in the previous form of the Strategy & ESG Committee).

The Audit Committee

The Audit Committee oversees the proper implementation of new regulations and requirements in terms of non-financial reporting, as well as the reliability of the information presented in the sustainability report. It examines the reliability of the process for preparing and monitoring published sustainability information.

This committee notably supervises the production of the sustainability report, in accordance with the requirements of the European Corporate Sustainability Reporting Directive (CSRD).

It is made up of three directors, two of whom are independent, including its Chair, Ms. Virginie Calmels.

In 2025, it met six times.

Appointments and Compensation Committee

In terms of sustainability, the Appointments and Compensation Committee ensures that ESG criteria are properly integrated into the Chief Executive Officer's annual variable compensation.

This committee is made up of three directors, two of whom are independent, including its Chair, Ms. Anne-Marie Couderc, and one director representing employees.

In 2025, it met seven times.

The ESG Committee

This committee is specifically dedicated to reviewing ESG policies, processes and objectives.

It is made up of two directors: one independent director, its chairwoman, Ms. Eliane Rouyer-Chevalier, and one director representing employees.

The Chairman of the Board of Directors may attend meetings of this Committee, as does the Chief Executive Officer of the company.

In 2025, the Committee met six times (including three times in the first half of 2025 in the previous form of the Strategy & ESG Committee).

Management bodies

The Executive Committee (ExCo)

The Executive Committee is made up of six members representing the main transversal functions of Ipsos. All report to the Chief Executive Officer, who is a member of this Committee and chairs it.

At its weekly meetings, the Executive Committee addresses sustainability issues, as required. In particular, it has fully committed to the development of skills, employee training, and the setting of ambitious greenhouse gas emission reduction targets.

Details of the composition of the Executive Committee are presented in Chapter [12.1.3.1](#) of the 2025 Universal Registration Document, which includes this sustainability report.

In terms of sustainability, the Executive Committee is responsible for overseeing the implementation of the various policies outlined in this report.

Group Management Committee (GMC)

The *Group Management Committee* (GMC) is made up of the Group’s main executive officers and senior managers, who assist the Chief Executive Officer with the operational management of Ipsos.

The latter chairs the GMC, which is made up of 18 members.

The ESG Director, Sue Phillips, is a member of the GMC, as is the Corporate Secretary, Pierre Gaudin, who oversees ESG activities and the Ipsos Foundation in particular. The ESG Director reports directly to the Corporate Secretary.

At its monthly meetings, the GMC regularly addresses sustainability issues, as required.

Details of the composition of the GMC are provided in Chapter [12.1.3.2](#) of the Universal Registration Document.

1.3.1.2 Several functional departments involved, at head office and in the markets

The Group’s functional departments

Several of the Group’s functional departments – Human Resources Department, Finance Department, ESG Department, Legal Department – manage components of the ESG roadmap according to their area of expertise and steer the corresponding initiatives.

The Group ESG Director coordinates this and is responsible for the operational implementation of the strategy, including the action plan to reduce greenhouse gas emissions.

ESG initiatives are the subject of action plans and are integrated into each entity's management process. Progress is measured on a regular basis, at least annually.

ESG managers in each Ipsos country and contact points within each Service Line

For the roll-out of local initiatives, the Group ESG Director draws on ESG managers in each country and ESG contact points in each of the Service Lines.

1.3.1.3 Diversity of profiles and skills within the Board of Directors

The Board of Directors, acting on the recommendation of the Appointments and Compensation Committee, pays particular attention to the selection of its members. It ensures that new directors are proposed to the General Meeting, chosen to maintain a good gender balance, as well as a variety and diversity of skills and experience.

Strategic and ESG issues are at the heart of this selection process, as well as knowledge of the Group's activities and the expertise needed to oversee its activity.

The Board of Directors includes skills and expertise in the following areas: corporate and economic analysis ; senior management of international companies; professional services sector; finance, audit and risk; technologies, IT and cybersecurity; data, digital; ESG; human resources and compensation.

Each director's expertise is detailed in Section [12.1.1.2](#) of the 2025 Universal Registration Document.

1.3.2 Regular communication of sustainability issues to the governance bodies (GOV-2)

1.3.2.1 The Board has regularly focused on sustainability and the implementation of the CSRD

Each year, a meeting of the ESG Committee is dedicated to monitoring and updating the Group's ESG roadmap. It allows for the review of performance indicators linked to each of the goals set by the Group, the reason for any non-achievement, if applicable, and the action plans designed to address any underperformance. To comment on these performance, managers from the Functional Divisions (Human Resources, ESG, Finance, etc.) may be invited to participate in the ESG Committee.

This session is reported to the Board of Directors.

In 2023, 2024 and 2025, regular progress reports on the implementation of the CSRD were presented to the Audit Committee, which is responsible for steering the preparation of this first sustainability report.

Sustainability issues addressed in 2025 by the Strategy & ESG Committee, then the ESG Committee

- Review of Ipsos' ESG policy
- Responsible use of artificial intelligence
- Review of the Ipsos Net Zero plan
- Production of the 2025 sustainability report, including the double materiality analysis
- Review of greenhouse gas emissions targets

Sustainability issues addressed in 2025 by the Audit Committee

- Production of the 2024 and 2025 sustainability reports, including a double materiality analysis

1.3.2.2 Management Committees: Executive Committee (ExCo) and Group Management Committee (GMC)

In 2025, the Executive Committee and the *Group Management Committee* notably discussed the following topics relating to the Net Zero plan:

- Overall review of the 7 decarbonization pillars that make up the plan
- Carbon emissions results
- Costs related to projects to install solar panels on buildings
- Request for proposals for a global and shared travel agency for the Group's main markets.

1.3.3 Ipsos ESG roadmap 2024-2026

In 2023, Ipsos defined six ESG performance indicators associated with targets set for 2026 and covering the three pillars of Environment, Social and Governance.

The quality of our research and services to clients depends on the efficiency of our organization and the skills of our employees. This is why two of these targets cover talent, through accelerating the access of women to management positions within the Company and the employee engagement score.

Two key objectives and indicators aim to monitor the progress of reducing our carbon footprint – in line with the reduction targets approved by the SBTi in December 2024 – and protection of the environment through the energy consumption initiatives implemented in our offices.

Lastly, another objective of Ipsos is to ensure that all employees are trained in corruption risks. Another indicator is the share of employees trained on data protection and security risks and on the risks of corruption with respect to clients and suppliers.

Area	Indicator No.	Name of indicator	2024 value (or other baseline year)	2026 target	31/12/2025
Social	1	Level of employee engagement	72% (benchmark 2025)	Employee engagement level at least equal to "RED" (Representative Employee Data) benchmark for the business services sector	76%
	2	Proportion of women among Level 1 of the Leadership Team	40%	42%	41%
		Proportion of women among Level 2 of the Leadership Team	50%	50%	49%
	3	Staff turnover rate for voluntary departures	6.5%	Turnover rate below 12% (excluding employees with under three years' seniority)	5.5%
Governance	4	Share of employees trained on data protection and security risks and on risks of corruption with respect to clients and suppliers. *	48%	95%	85%
Environment	5	Greenhouse gas emissions per employee (in metric tons of CO2e)	2019 (baseline year): Scope 1 + 2: 16,885 tCO2e*	Scopes 1 + 2: -42% compared to 2019	Scope 1 + 2: 9,291 tCO2e (-45% vs. 2019) Scope 3 **: 117,111 tCO2e (-27% vs. 2019)
			Scope 3 **: 160,375 tCO2e**	Scope 3 **: -19% compared to 2019	
	6	Share of renewable energies in total energy consumption	21%	35%	27%

* Values of the baseline year for the GHG emission reduction pathway approved by the Science-Based Targets Initiative (SBTi)

**excluding fixed assets (see Section [5.4.2.2.1.2.2](#))

1.3.4 A roadmap within the framework of the United Nations Global Compact and the Sustainable Development Goals

The UN Global Compact was established in 2000. Its objective is to create a platform for exchange and collective action to engage companies, civil society and United Nations bodies around ten principles of responsible business conduct. These principles cover human rights, employee rights, the environment, and the fight against corruption.

Ipsos has also identified actions through which it can contribute to the achievement of the Sustainable Development Goals (SDGs), which are also annual assessment criteria of the United Nations Global Compact.

Sustainable Development Goal (SDG)	Ipsos contribution
	Ipsos believes that access to education is a pathway out of poverty. Since 2014, the Ipsos Foundation has been funding educational projects for underprivileged children and teenagers around the world.
	Ipsos is committed to providing healthcare insurance for all its employees worldwide. A growing number of Ipsos entities have also set up activities designed to promote well-being in the workplace.
	Ipsos employees are given the opportunity to follow comprehensive training programs designed to develop their skills throughout their careers. The Ipsos Training Center is at the heart of this initiative.

Ipsos opposes all forms of discrimination and promotes gender equality within its teams. The advancement of women and equal pay are a priority for the Gender Balance Network, which works within Ipsos to support women in their career development.

Ipsos aims to pursue its development in a sustainable and responsible manner, with a sustained effort to promote equal opportunities and respect for human rights. Ipsos is committed to providing a safe working environment and to looking after the health of its employees. It encourages dialogue between its management and employees. Ipsos has also adopted a responsible purchasing policy to prevent the risk of human rights violations occurring anywhere in its value chain.

Ipsos promotes diversity and respect for human rights. Since 2008, it has been a signatory to the United Nations Global Compact. Ipsos renewed its commitment by signing the United Nations Principles for LGBTI people in 2018, and then in 2019, the seven major actions in favor of women (UN Women). It is also a member of the coalition for refugees set up by the United Nations High Commissioner for Refugees (UNHCR).

Ipsos raises employee awareness of environmental issues and supports them advance towards more sustainable and responsible consumption. Ipsos has implemented a policy of recycling and reducing the use of paper, alongside the elimination of single-use plastic in its offices. We also support our clients in their own sustainable development projects, particularly in the design of their products and services and their packaging.

Ipsos measures the CO2 emissions linked to its activity. In 2024, the Science Based Targets initiative (SBTi) validated the greenhouse gas emission reduction targets submitted by Ipsos. Ipsos has committed to reducing its scope 1 and 2 emissions by 49.9% and scope 3 emissions (excluding fixed assets) by 27.5% by 2030 compared to 2019. The Science Based Targets initiative also validated the net zero target to be achieved by 2050. This validation by the SBTi is an important step, aligned with Ipsos' commitment to follow a CO2 emissions reduction pathway in line with the ambition of the Paris Climate Agreement.

Ipsos adheres to the Esomar International Code on Market, Opinion and Social Research and Data Analytics and has its own Code of Conduct. We are particularly concerned with preventing corruption, fraud, and conflicts of interest and with upholding human rights and personal freedoms. All new Ipsos employees undergo mandatory Code of Conduct training, which covers these topics.

In each country where Ipsos operates, it cooperates with various public and private organizations to put its expertise and knowledge of markets, society and individuals to good use in the community. Ipsos has joined the Tent Partnership for Refugees and recruited more than 100 refugees to its teams worldwide. The Group regularly produces research designed to provide a better understanding of the ways in which refugees are integrated into and accepted by the populations of their host countries.

1.3.5 Non-financial criteria represent 40% of the Chief Executive Officer's annual bonus (GOV-3 & E1-GOV3)

The Chief Executive Officer's variable compensation scheme includes performance indicators related to sustainability. The aim is to align compensation with the Group's strategy, of which ESG is an integral part.

This approach applies to short-term variable compensation schemes (annual bonus), through targets linked to environmental, social and governance objectives: greenhouse gas emissions and diversity.

For the 2025 financial year, the performance criteria set by the Board of Directors include four non-financial criteria, two of which are related to the ESG roadmap. The other three criteria are quantitative in nature and related to financial performance.

The criteria and their weighting are specified in Section [13.1.3](#) of the Universal Registration Document.

Each year, the Appointments and Compensation Committee assesses the achievement of all financial and non-financial criteria and presents the results in the form of recommendations to the Board of Directors for a decision.

1.3.6 Due diligence has been deployed on sustainability issues (GOV-4)

Due diligence refers to the obligation for companies to put in place processes and procedures to assess, prevent, and mitigate the potential negative impacts of their business on ESG issues.

As part of the preparation of its sustainability report, Ipsos implemented a due diligence procedure, in connection with the double materiality analysis and the identification of material IROs (see Section 1.4). The results of this procedure are shared with the management and governance bodies.

The information included in this procedure is summarized in the following table:

Main components of the due diligence process	Sustainability report sections
a) Integrate due diligence into governance, strategy and the business model	1.2.1: Strategy and business model 1.3.1.1: Composition, roles and responsibilities (of the supervisory bodies)
b) Collaborate with relevant stakeholders at all stages of due diligence	1.2.2.2: Stakeholder expectations
c) Identify and assess adverse impacts	1.2.3: Material IROs and their interaction with strategy and business model 1.4.1.3: Identification of IROs
d) Take action to address these adverse impacts	1.2.3: Material IROs and their interaction with strategy and business model and adverse impact remediation procedures (Ipsos policies and initiatives)
e) Monitor the effectiveness of these efforts and communicate	1.3.1: Composition, role, and responsibilities of the supervisory bodies 2.1 to 4.1 6.2: Thematic sections

1.3.7 A risk management and internal control system oversees sustainability issues (GOV-5)

1.3.7.1 A comprehensive approach to internal control on sustainability

The Ipsos Group has set up an internal control and risk management system based on regulations and the recommendations of the Autorité des Marchés Financiers (French Financial Markets Authority or AMF). The purpose of this system is to ensure compliance with laws and regulations and to ensure effective internal procedures, the safeguarding of corporate assets, and the reliability of information in the financial and sustainability reports.

This system is designed to proactively anticipate and control risks associated with business activities, errors, fraud, and sustainability. This involves identifying, measuring, and implementing actions to mitigate these risks. Regular risk assessments are carried out, involving the company's main managers. Identified risks are classified according to their probability and potential impact, thus allowing prioritization of mitigation efforts.

Clear roles and responsibilities have been established, for the various departments involved in internal control, including the Finance Department, the Legal Department, the IT Department, Human Resources, and Internal Audit. The *Group Management Committee* (GMC) oversees these functions. Each department plays a specific role, ranging from policy development to ensuring compliance with laws and policies, and reviewing measurement processes, all contributing to an overall control environment.

Ipsos continuously improves its internal control system. This is based on regular risk assessments, internal audits, manager self-assessments, and dialogue with external auditors. This process ensures that the system remains effective and adapts to new challenges and evolving risks. The department in charge of audit, quality, and compliance carries out audits on both the subsidiaries and on cross-functional topics, including sustainability information.

1.3.7.2 The main uncertainties regarding sustainability reporting have been identified and addressed

ESRS	Key uncertainties identified in connection with the preparation of the sustainability report	Remediation of uncertainties
E1 Climate Change	Quality of data collection across markets and entities	• Reporting guidelines and protocols • Review by internal audit of data entered locally
S1 Own Workforce	Missing information in <i>reporting</i> and non-compliance	• Training of all staff on Group policy and procedures • Results of the whistleblower platform analyzed by internal audit • Targeted review by internal audit
S2 Workers in the value chain	Missing information in <i>reporting</i> and non-compliance	• Supplier Code of Conduct • Supplier qualification process • Results of the whistleblower platform analyzed by internal audit
S4 Consumers and End-users	Capture of all audiences directly or indirectly exposed to Ipsos services	• Results of the whistleblower platform analyzed by internal audit • Certified quality standards
G1 Business Conduct	Confirmation of compliance with Group policy	• Training of all staff on Group policy and procedures • Supplier Code of Conduct • Supplier qualification process • Results of the whistleblower platform analyzed by internal audit

1.3.6.3 A system combining a global vision and local adaptations

Ipsos has implemented a global internal control and risk management system. Group rules and procedures are disseminated uniformly in all countries to ensure overall consistency.

At the same time, Ipsos allows country-level adaptations, in order to meet specific local needs and regulations.

This approach ensures the relevance and efficiency of the system across all Group activities.

1.4 Double materiality analysis

1.4.1 Description of the double materiality analysis process (IRO-1)

1.4.1.1 Introduction & definition

The objective of the double materiality analysis is to determine the ESG issues to be considered material, with regard to Ipsos' activity.

Ipsos carried out this double materiality analysis in 2023, based on the ESRS and the EFRAG recommendations.

The analysis consisted of determining whether or not sustainability issues are material from two perspectives:

- An impact perspective (positive and/or negative) of Ipsos' activities on people, society and the environment (**impact materiality**). Ipsos considered the positive and negative impacts, real or potential, associated with the various sustainability issues applicable to its direct activities, as well as its upstream and downstream value chain;
- A perspective of the risks and/or opportunities associated with the sustainability issues applicable to Ipsos' business (**financial materiality**) and which may have a positive or negative impact on Ipsos' business model, development, performance, and position, in the short, medium, or long term, and consequently create or erode the value of the Group. Where possible, Ipsos quantified the financial effects of material risks and opportunities.

The upstream and downstream value chain was taken into account in the double materiality analysis by organizing a stakeholder consultation to obtain their opinions on the selection of ESG issues considered material with regard to Ipsos' activity (see Section [5.4.2.1.4.1.5](#)).

At the end of 2025, Ipsos conducted a risk assessment – with a representative panel of internal stakeholders – including the main negative impacts and material risks as identified in section [5.4.2.1.2.3](#). The results of this risk assessment confirm that the material nature of these negative impacts and risks, as well as the resulting ESG issues, is not called into question (see section [5.4.2.1.2.4](#)).

The following sections provide detailed information on the results of the double materiality analysis that was conducted and the methodology used.

1.4.1.2 Scope of analysis and justification for the exclusion of certain issues from the scope

Prior to performing a double materiality analysis, a pre-materiality analysis defined the scope of analysis. This involved cross-referencing the list of all the topics provided by ESRS 1 (AR 16: Sustainability matters to be included in the materiality assessment) with the following criteria:

- A benchmark of comparable companies
- Stakeholder expectations
- Sector standards (SASB, etc.) specific to the Ipsos business sector

This step makes it possible to identify the range of topics that must be covered by the double materiality analysis, and to exclude certain subjects without subjecting them to this analysis:

Exclusions from the scope of the double materiality analysis

ESRS 1			Raised by				Pre-materiality conclusion (Yes or No)	Comments and specific issues
N°	Topic	Sub-topic	Benchmark	Stakeholders expectations (1)	SASB	Specific sector context		
ESRS E1	E1 - Climate change	Climate change adaptation	X	X		X	Yes	Entire value chain (including impact of data centers - scope 3)
ESRS E1	E1 - Climate change	Climate change mitigation	X	X		X	Yes	Entire value chain (including impact of data centers - scope 3)
ESRS E1	E1 - Climate change	Energy	X	X		X	Yes	Entire value chain (including impact of data centers - scope 3)
ESRS E2	E2 - Pollution	Pollution of air					No	GHG emissions are covered in the "climate change" topic. The other types of air pollution (NOx, SOx, etc.) are not relevant to IPSOS's activities. See "Other specific reasons" below regarding ESRS E2
ESRS E2	E2 - Pollution	Pollution of water					No	Not relevant to IPSOS' activities. See "Other specific reasons" below regarding ESRS E2
ESRS E2	E2 - Pollution	Pollution of soil					No	Not relevant to IPSOS' activities. See "Other specific reasons" below regarding ESRS E2
ESRS E2	E2 - Pollution	Pollution of living organisms and food resources					No	Not relevant to IPSOS' activities
ESRS E2	E2 - Pollution	Substances of concern					No	Not relevant to IPSOS' activities
ESRS E2	E2 - Pollution	Substances of very high concern					No	Not relevant to IPSOS' activities
ESRS E2	E2 - Pollution	Microplastics					No	Not relevant to IPSOS' activities
ESRS E3	E3 - Water and marine resources	Water and marine resources					No	Not relevant to IPSOS' activities. Does not concern IPSOS activities, only the value chain (datacenter suppliers). See "Other specific reasons" below for ESRS E3
ESRS E4	E4 - Biodiversity and ecosystems	Direct impact drivers of biodiversity loss					No	Not relevant to IPSOS' activities
ESRS E4	E4 - Biodiversity and ecosystems	Impacts on the state of species					No	Not relevant to IPSOS' activities
ESRS E4	E4 - Biodiversity and ecosystems	Impacts on the extent and condition of ecosystems					No	Not relevant to IPSOS' activities
ESRS E4	E4 - Biodiversity and ecosystems	Impacts and dependencies on ecosystem services					No	Not relevant to IPSOS' activities
ESRS E5	E5 - Circular economy	Resources inflows, including resource use	X			X	No	Not relevant to IPSOS' activities
ESRS E5	E5 - Circular economy	Resource outflows related to products and services					No	Not relevant to IPSOS' activities
ESRS E5	E5 - Circular economy	Waste					Yes	Ipso's own operation
ESRS S1	S1 - Own workforce	Working conditions	X	X		X	Yes	Ipso's own operation
ESRS S1	S1 - Own workforce	Equal treatment and opportunities for all	X	X	X	X	Yes	Ipso's own operation
ESRS S1	S1 - Own workforce	Other work-related rights	X	X		X	Yes	Ipso's own operation
ESRS S2	S2 - Workers in the value chain	Working conditions	X	X		X	Yes	Value chain
ESRS S2	S2 - Workers in the value chain	Equal treatment and opportunities for all	X	X		X	Yes	Value chain
ESRS S2	S2 - Workers in the value chain	Other work-related rights	X	X		X	Yes	Value chain
ESRS S3	S3 - Affected communities	Communities' economic, social and cultural rights					No	Not relevant to IPSOS' activities
ESRS S3	S3 - Affected communities	Communities' civil and political rights					No	Not relevant to IPSOS' activities
ESRS S3	S3 - Affected communities	Rights of indigenous peoples					No	Not relevant to IPSOS' activities
ESRS S4	S4 - Consumers and end users	Information-related impacts for consumers and/ or end-users	X		X		Yes	Downstream value chain
ESRS S4	S4 - Consumers and end users	Personal safety of consumers and/ or end-users					No	Not relevant to IPSOS' activities
ESRS S4	S4 - Consumers and end users	Social inclusion of consumers and/ or end-users					Yes	Downstream value chain
ESRS G1	G1 - Business conduct	Corporate culture	X	X	X	X	Yes	Entire value chain
ESRS G1	G1 - Business conduct	Protection of whistle-blowers	X	X		X	Yes	Entire value chain
ESRS G1	G1 - Business conduct	Animal welfare					No	Not relevant to IPSOS' activities
ESRS G1	G1 - Business conduct	Political engagement and lobbying activities					Yes	Entire value chain
ESRS G1	G1 - Business conduct	Management of relationships with suppliers including payment practices					Yes	Entire value chain
ESRS G1	G1 - Business conduct	Corruption and bribery	X	X	X	X	Yes	Entire value chain

(1) Based on professional judgement and banks and investors, non-financial rating agencies, NGOs expectations

Additional reasons justifying exclusions from the scope of the double materiality analysis:

ESRS E2 – Pollution:

The topics covered in this standard mainly concern agricultural and industrial pollution of soil, air, and water, and therefore do not involve Ipsos' activities. In particular, the standard covers the release of pollutants, i.e. toxic substances:

- In the air: industrial emissions (e.g. NO_x, SO_x, VOC)
- In water: aqueous industrial discharges (e.g. suspended particles, Chemical Oxygen Demand (COD), Biochemical Oxygen Demand (BOD), etc.)
- In soils: industrial pollution (e.g. hydrocarbons, heavy metals, etc.) or agricultural pollution (e.g. pesticides, insecticides, etc.)

ESRS E3 – Water and marine resources:

Water withdrawals and discharges are not key elements in Ipsos' operations. However, the Group is aware that data collection requires the subcontracting of data storage center suppliers, which could have negative impacts on water withdrawals and discharges. The main data storage center providers used by Ipsos manage water resources according to some of the following characteristics:

- Limited water stress due to the location of these data centers mainly in regions with little water stress.
- Efficient cooling technologies (i.e. in closed circuits in some cases)
- Sustainable water supply (use of recycled water and seawater, thus reducing the use of fresh water resources).
- Responsible water use practices: with relatively low *water usage effectiveness* levels for cooling.

Furthermore, Ipsos' offices are generally not located in areas with high water stress, so the risk of water scarcity is low.

In addition, this topic of cooling data centers, which could have an impact in terms of water collection and the quality of the water discharged, is indirectly covered by the topic "Management of supplier relationships" included in the ESRS – G1 standard, through Ipsos' responsible purchasing policy when choosing its suppliers.

Lastly, the results of the risk assessment carried out with internal stakeholders confirmed the non-materiality of this issue.

ESRS E4 – Biodiversity and Ecosystem:

Overall, tertiary activities will not highlight this standard in their double materiality matrix, as they have no impact on species and their ecosystem.

Ipsos' service activity as described in its business model (see Section [5.1](#) of the URD) has no direct impact on biodiversity, the survival of protected species, and ecosystems.

Our impact on biodiversity, as well as our contribution to its preservation, is indirect and involves our greenhouse gas emissions and our actions to reduce them.

1.4.1.3 Description of the method

Each issue from the list of topics, sub-topics and sub-sub-topics provided by ESRS 1 ("AR 16: Sustainability matters to be included in the materiality assessment") and in connection with the selected themes was broken down into Impact and/or Risk and/or Opportunity (IROs), which were then analyzed according to the two impact and financial materialities.

Process to identify, assess, and prioritize potential impacts, risks, and opportunities related to sustainability issues

Ipsos drew on an internal collective approach, with a working group bringing together the skills and knowledge of the business divisions (ESG Division, Finance Division, Internal Audit Division, Human Resources Division, service lines working on ESG themes) from different geographical areas and benefiting from the support of a specialized external firm.

The impacts, risks, and opportunities (IROs) related to sustainability issues included in the scope of analysis were defined by these experts grouped into sub-working groups. The IROs defined were then shared with the external firm in charge of conducting a critical review of these IROs and validating what should be retained.

Every three years, Ipsos' internal stakeholders are interviewed as part of the risk identification process and therefore on the materiality of the ESG topics selected by the company. The new issues identified in connection with the IROs will now be incorporated into this three-year risk analysis process.

1.4.1.4 IRO rating method

The rating method used as part of the double materiality analysis conducted by Ipsos follows the requirements set out in *ESRS 1 – General Requirements*, and in particular the rating criteria used.

For impact materiality: Severity, scale, irremediable character (for negative impacts only), likelihood of occurrence, time horizon and nature of impact (actual or potential).

For financial materiality: the probability of occurrence*, the intensity of the financial impact (negative in case of risk and positive in case of opportunities) *, the time horizon, and the nature of the risk and/or opportunity (actual or potential).

Regarding financial materiality, the Group has ensured that there is consistency in the rating scales used between the criteria of the double materiality analysis meeting the requirements of the CSRD and the Risk analysis carried out every three years by the Internal Audit Department (criteria marked with a ^{"**"}).

For each of the two materiality analyses (impact and financial) carried out on the identified IROs, rating scales consisting of combinations of criteria were predefined to then determine whether an IRO is material or not.

1.4.1.5 Stakeholder consultation

Which stakeholders?

As part of this double materiality analysis, Ipsos engaged several internal and external stakeholders including employees, suppliers, clients, and investors.

Internal and external stakeholders were selected to ensure representativeness and diversity in terms of department (for internal stakeholders), activity, size (for external stakeholders), and geographical location.

Why consult with stakeholders?

The impacts, risks, and opportunities identified by Ipsos and related to its activity may affect certain stakeholders in a direct or indirect commercial relationship with Ipsos.

In addition, the assessment of material ESG issues as required in the double materiality analysis must involve the Ipsos value chain, hence the importance of consulting external stakeholders to present the comprehensiveness of the results of the analysis conducted.

Lastly, some stakeholders require our sustainability information.

Consultation process

These stakeholders were consulted by organizing webinars for employees and one-on-one interviews for external stakeholders.

Sharing feedback from consultations with governance bodies

A summary of the feedback from internal and external stakeholders was presented to the Audit Committee members in June 2024.

1.4.2 Update of the ratings of risks and negative impacts as part of the risk assessment

At the end of 2025, Ipsos conducted a risk assessment – with a representative panel of internal stakeholders – including the main negative impacts and material risks as identified in section [5.4.2.1.2.3](#), as part of the double materiality analysis.

These negative impacts and risks were rated in accordance with the rating criteria used for the financial materiality of the double materiality analysis (probability of occurrence and intensity of financial impact).

The results of this risk assessment confirm that the material nature of these negative impacts and risks, as well as the resulting ESG issues, is not called into question (see section [5.4.2.1.2.4](#)).

2 A strong climate and environmental commitment

Although Ipsos' activities have only a limited impact on the environment, our Company has been committed to protecting the planet for many years. In 2012, the Group measured its greenhouse gas emissions and set ambitious reduction targets.

Ipsos has been committed to limiting its environmental impact for 15 years. The Group has voluntarily joined various initiatives such as the Carbon Disclosure Project (CDP) and the Science Based Targets initiative (SBTi).

In December 2024, Ipsos received SBTi approval for its 2030 and 2050 emission reduction targets for scopes 1, 2, and 3. SBTi is an organization resulting from a partnership between the CDP, the United Nations Global Compact, the WRI (World Resources Institute), and the WWF (World Wide Fund for Nature) and aims in particular to provide companies that commit to it with independent validation of their emission reduction targets. These targets must be compatible with the Paris Agreement target of 1.5°C maximum global warming by 2050.

2.1 Climate change (ESRS E1)

2.1.1 Strategy

2.1.1.1 Material Impacts, Risks and Opportunities related to strategy and business model (ESRS 2 – SMB-3)

Material impacts, risks and opportunities are described in Section [5.4.2.1.2.3](#) "Material Impacts, Risks and Opportunities and their interaction with strategy and business model (SBM-3) and adverse impact remediation procedures (Ipsos policies and initiatives)."

2.1.1.2 Details of environmental material impacts, risks, and opportunities

None of the impacts, risks, and opportunities identified during the double materiality process and in connection with the climate change theme are specific to Ipsos' activity. However, the activities of the Group and its value chain can have significant impacts on climate change. Conversely, Ipsos' performance may be negatively or positively affected by risks and opportunities arising from climate change. Details of the impacts, risks, and opportunities identified are detailed below:

Impacts: greenhouse gas emissions generated by Ipsos

Given Ipsos' services business, the Group is not one of the largest carbon emitters. However, emissions related to its activities (scopes 1 and 2) and its value chain (scope 3) contribute to climate impacts on a global scale, requiring additional adaptation. This negative impact is spread across the entire value chain. The main sources of greenhouse gas emissions are:

- Scopes 1 and 2: fossil energy consumption related to offices, including electricity, refrigerant gas leaks from offices, and travel by company cars;
- Scope 3: all indirect emissions other than purchased electricity and which mainly concern the purchase of goods and services, business travel by employees and *interviewers*, commuting by employees, and waste treatment.

The breakdown of each of the scopes in Ipsos' total emissions is detailed in Section [5.4.2.1.3.3](#).

Climate-related risks: customer requirement, energy cost, and supply chain disruption

Market and transition risk

The market risk associated with the inability to meet client criteria and requirements in terms of emissions levels arises mainly in the context of the transition to a low greenhouse gas emissions

economy. This transition risk could affect Ipsos' order book. If the adaptation of our services to comply with the environmental standards demanded by our clients is not rapid enough, Ipsos could suffer a loss of competitiveness, leading to a loss of clients concerned about reducing their carbon footprint and a damaged reputation on the market.

To strengthen its position, Ipsos has implemented initiatives aimed at reducing its carbon footprint and meeting our clients' environmental expectations. For example, Ipsos actively participates in supplier engagement plans initiated by its clients and has implemented analysis tools aimed at measuring the environmental impact of the services offered. These actions demonstrate our commitment to remain competitive in a rapidly changing market and to strengthen our reputation as a responsible player in the services industry.

The increase in energy costs linked to climate change also represents a significant transition risk. Higher energy costs would lead to higher operating expenses, which could reduce the company's profitability and affect its ability to invest in innovation and growth.

To mitigate this risk, Ipsos is focusing on energy optimization of its infrastructure and the use of renewable energy. Ipsos has implemented initiatives to improve the energy efficiency of its offices and has invested – where possible – in renewable energy sources to power its operations. These efforts aim to reduce long-term energy costs and minimize the company's environmental impact, while supporting its sustainable growth.

Operational risk

Ipsos may also face supply chain disruptions due to the effects of climate change, which are physical risks. These risks manifest through extreme weather events, such as floods, droughts, or storms, which can disrupt the upstream value chain. These events can lead to delays, shortages, or cost increases, affecting the company's ability to deliver its services on time and in a cost-effective manner.

To mitigate these risks, Ipsos has implemented supply chain management strategies, such as supplier diversification and improving infrastructure resilience. These measures are aimed at ensuring business continuity and minimizing the impact of extreme weather events on Ipsos' operations.

Opportunities: development of the offering in line with the theme of climate change

The increase in demand for services and research related to climate change, as well as the implementation of new regulations encouraging businesses to expand the information provided to investors, employees and clients, are leading to the development of new markets for Ipsos. Ipsos is working with a growing number of clients on their ESG issues to help them showcase their own sustainability initiatives.

2.1.2 Management of impacts, risks and opportunities

2.1.2.1 Description of the process for identifying climate change impacts, risks, and opportunities (ESRS 2 IRO-1)

The process for identifying climate change impacts, risks, and opportunities is described in Section [5.4.2.1.4.1](#).

2.1.2.2 The Ipsos Net Zero plan (E1-1)

2.1.2.2.1 A plan to achieve the targets approved by the Science Based Targets Initiative (SBTi)

Aware of the impact of climate change on its activities as well as its own impact on the environment, in 2023 Ipsos committed to the Science Based Targets initiative (SBTi) to achieve the Net Zero target by 2050, in line with the Paris Agreement, which aims to limit global warming to +1.5°C above pre-industrial levels.

In December 2024, the carbon reduction targets were approved by the SBTi. With the launch of its transition plan – the Ipsos Net Zero plan – directly steered by the ESG Department and presented to the Executive Committee for approval, Ipsos remains committed to identifying and providing solutions contributing to the resolution of this global challenge.

Our net zero transition plan is consistent with Ipsos' business development strategy:

- Our clients have ambitious carbon reduction plans for their suppliers and Ipsos is a significant supplier for many. Clients are demanding a transition to renewable energy and a reduction in greenhouse gas emissions in line with Net Zero targets.
- In particular, data and technology providers are key to our ability to provide services to our clients. Purchases made from suppliers account for nearly 60% of our emissions. Reducing their carbon footprint is therefore a crucial part of meeting our clients' expectations.
- Growth and profitability are both critical to our commercial success as an organization. Reductions in carbon emissions will lead in part to cost reductions, strengthening our business model.

Aware that a responsible and sustainable approach to environmental issues is a key driver for employee engagement, Ipsos, through the Net Zero plan, enables employees worldwide to commit to a topic that is relevant to them and demonstrates that it is a resolutely responsible company.

These commitments reflect Ipsos' commitment to play an active role in the fight against climate change, while strengthening its position as a responsible leader in the service sector.

Investment goods relating to offices, company vehicles, and IT equipment (scope 3.2 – around 6% of total emissions in 2025) are excluded from scope 3 for the 2030 and 2050 objectives. This exclusion is justified by the volatility in the level of emissions associated with this category, from one year to the next, as well as by its weighting of less than 10% of the overall emissions base.

The resources dedicated to executing actions supporting the climate transition plan are the responsibility of the Group's operational teams (General Services, Operations, service lines, etc.) and support departments (Finance, ESG, IT). The actions that represent a decarbonization lever under the transition plan are presented below. Each action is linked to a policy that itself aims to remedy an identified negative impact or risk (see Section [5.4.2.2.1.2.3](#)).

Decarbonization is based on four main levers:

-Engage suppliers (see associated policy detailed in Section [5.4.2.2.1.2.3](#)) – estimated savings of -89,515 metric tons of CO2e in 2030 compared to 2019:

Collaborate with partners committed to sustainable practices to reduce emissions across the value chain by communicating with key suppliers to encourage them to set their own emission reduction targets and commit to carbon neutrality by 2050. This includes sending questionnaires, organizing webinars, and incorporating climate criteria into supplier selection processes. The goal is that by 2030, 80% of the main suppliers will be committed to a Net Zero approach by 2050 for all their scopes 1, 2, and 3.

-Reduce employees' business travel (see associated policy detailed in Section [5.4.2.2.1.2.3](#)) – estimated savings of -20,018 metric tons of CO2e in 2030 compared to 2019 for air travel:

Continue to reduce travel budgets to reduce emissions from employee travel. To this end, it is planned to:

- Promote low-carbon modes of transport such as rail, the use of soft mobility, and encourage videoconferencing.
- Determine travel-related emission reduction targets by country.
- Measure and report monthly travel-related emissions
- Promote workplace flexibility to optimize energy consumption based on office occupancy days.

-Reduce energy consumption – estimated savings of -12,448 metric tons of CO2e in 2030 compared to 2019:

To this end, Ipsos wishes to implement the following measures:

- Streamline unused spaces by monitoring the office space per employee indicator
- Install smart building management systems: Optimization of heating, ventilation and air conditioning (HVAC) systems, as well as the adoption of low-energy lighting technologies.
- Selection of offices with high energy performance by including a ratio of primary energy consumption per square meter as a criterion for selecting new offices (see associated policy detailed in Section [5.4.2.2.1.2.3](#)).

-Favor the use of renewable energies – estimated savings of -5,236 metric tons of CO₂e in 2030 compared to 2019:

To this end, Ipsos wishes to implement the following measures:

- Favor contracts for electricity and other types of energy based on renewable sources (wind, solar, hydraulic, etc.).
- Develop on-site renewable energy production by, for example, installing solar panels in regions with appropriate weather conditions.

The goal is to achieve 35% renewable energy (acquired or produced) by 2026 and 80% by 2030.

The quantified CO₂e savings for each of these four levers are shown in the following graph:

(1) The long-term average annual growth assumptions for our business defined in March 2023 as part of our SBTi commitments were as follows: Revenue growth of close to 4%, EBITDA growth of around 5%, workforce growth of less than 3%.

Other actions carried out or planned, which are not quantified, but which reduce emissions are as follows:

Reduction of emissions related to offline operations:

- Reduce the mileage travelled by interviewers and field employees by optimizing routes and switching to less carbon-intensive modes of transport such as public transport where possible

Reduction of emissions related to IT:

- Conduct audits to identify energy efficiency opportunities
- Migrate software and data to efficient cloud-based systems
- Extend the lifespan of laptops
- Optimize data storage.

Implementation, monitoring and communication:

- Break down targets at country level
- Monitor emissions on a dashboard to be shared with all countries
- Launch an internal communication campaign.

These initiatives demonstrate Ipsos' commitment to reducing its carbon footprint and actively contributing to the transition to a more sustainable economy.

To achieve these objectives, in 2023, Ipsos incorporated short-term "climate" objectives into its ESG roadmap for the 2024-2026 period (see [5.4.2.1.3.3](#)), including a 2026 target for reducing greenhouse gas emissions in line with the 2030 and 2050 target pathways approved by the Science Based Target Initiative (SBTi). In 2024, this 2024-2026 ESG roadmap was reviewed by the Strategy and ESG Committee and presented to the Board of Directors for approval.

In addition, the actions decided as part of the transition plan are integrated into the Group's strategy and submitted to the Executive Committee and the Group Management Committee (GMC).

Aside from the investments relating to buildings and the vehicle fleet presented in the Taxonomy note (see [5.4.2.2.2](#)) and meeting the decarbonization levers "Reduce energy consumption" and "Reduce employees' business travel", the other actions related to the climate transition plan – the Ipsos Net Zero plan – did not require any significant investment in respect of the 2025 financial year.

In the longer term, Ipsos has committed to the SBTi to become Net Zero by 2050 across its entire value chain. This objective will be achieved by reducing the Group's greenhouse gas emissions by 90% in Scopes 1, 2, and 3 (excluding capitalized assets), for all the Group's emissions and its value chain compared to the 2019 baseline year, and by carbon offsetting projects for the remaining 10% of emissions by 2050. The Ipsos Group's Net Zero target is part of a desire to limit global warming to 1.5°C in accordance with the 2015 Paris Agreement.

2.1.2.2.1 Concrete implementation of the Ipsos Net Zero plan in our main markets

The Ipsos Net Zero plan is a collective effort involving Ipsos' 25 main markets ranked by greenhouse gas emissions.

Initially implemented in 2024 through global and cross-functional working groups (building energy consumption, suppliers, IT, business travel and operations), the Ipsos Net Zero plan is also rolled out in the 25 main markets. Each of these markets is represented by a Net Zero leader who is responsible for establishing a local Net Zero plan – approved by the country's CEO) – including initiatives related to the categories of emissions that directly concern local management and their teams:

- Energy consumption of buildings
- Employee business travel
- Employee commuting between home and the workplace.

In order to ensure regular dialogue between the Group and the 25 key markets, the global ESG team held quarterly meetings in 2025 bringing together all the Net Zero Leaders of these 25 key markets in order to share:

- useful information and data (benchmark on energy consumption per m² per region of the world, details on renewable energy solutions such as EAC and PPA, identified in each country, costs and return on investment indicators related to solar panels, etc.)
- The best practices already established in some markets.

In 2025, the Net Zero leaders of the 25 leading markets took the following actions:

- Discussion with global teams to understand the main decarbonization driver identified for the Group
- Completion of a *self-assessment* rated questionnaire to assess their maturity on energy consumption issues and business travel.
- Identification of initiatives to reduce emissions specific to their market
- Presentation of their local Net Zero plan to the central team
- Active participation in quarterly Ipsos Net Zero meetings
- Quantification of the expenditures required to support their local plan and to be included in the 2026 budget.

2.1.2.2.2 Concrete actions and results: the impact of the Ipsos Net Zero plan on greenhouse gas emissions.

A description of the progress made to date, as well as the metrics associated with the transition plan, can be found in Section [5.4.4.2.1.2.4](#) "Actions and resources implemented under climate change policies" and [5.4.2.2.1.3](#) "Climate change objectives and metrics."

2.1.2.3 Policies implemented in relation to climate change mitigation and adaptation (E1-2)

- *Net Zero commitment with the Science Based Targets initiative*

The policy to limit the negative impact of greenhouse gas emissions generated by Ipsos takes the form of a transition plan called Net Zero, and a commitment to the Science Based Targets Initiative, whose targets were approved in December 2024. Through its transition plan, Ipsos aims to achieve a Net Zero target by 2050, as well as intermediate targets to be achieved by 2030. The scope of the Net Zero plan covers all greenhouse gas emissions scopes related to our own emissions and our upstream value chain (scopes 1, 2, and 3), the values of which have been approved by the SBTi. The entities excluded from the plan are the same as the greenhouse gas emission exclusions presented in Section [5.4.2.2.1.3.3](#).

- *Employee business travel policy*

Business travel, by land, and air accounts for a significant share of Ipsos' greenhouse gas emissions. To address this major issue, a new travel policy was defined in the summer of 2023. This policy is applied by all our countries, with local supplements in three quarters of them.

- *Company car policy*

In November 2022, Ipsos approved a new company car policy aimed at significantly reducing the number of vehicles by 2025 and prioritizing hybrid and electric vehicles.

In particular, in the case of vehicle renewal, it is required that vehicles with a renewal date up to December 31, 2025 have emissions below 50 grams of CO₂ per kilometer. Vehicles with a renewal date after 31 December 2025 must have emissions equal to 0 grams of CO₂ per kilometer.

- *Policy for the selection and validation of offices occupied by local Ipsos teams*

When renewing or signing new lease contracts for our offices, the Group asks local management to provide an analysis presenting different options. The information to be included in this analysis is specified in the *Real Estates Guidelines* of the Book of Policies & Procedures made available to all employees on the Ipsos global intranet.

In September 2024, these *Real Estate Guidelines* were updated and now include a benchmark primary energy consumption value of 140 kWh per square meter, in line with the consumption value recommended at the time by the sustainable real estate observatory.

Local management teams are asked to present in their analysis several office options, whose primary energy consumption needs to be close to this target value.

- Waste reduction policy

In 2021, the Ipsos Group launched its Zero Single-Use Plastic plan with the aim of eliminating single-use plastics and replacing them with more environmentally friendly products. This initiative is part of a broader strategy to reduce waste and make recycling a standard. By promoting the use of recyclable materials, Ipsos aims to minimize the need for final waste disposal. These efforts are coordinated with our local teams to identify the best solutions and partners, supporting the circular economy and daily employee engagement.

- Purchasing policy including ESG selection criteria

To reduce the environmental impacts associated with its supply chain, in March 2024 Ipsos launched a new global purchasing policy including the implementation of ESG criteria in the supplier selection process. This policy aims in particular to identify suppliers with environmentally friendly initiatives, and more specifically those with a commitment to contribute to achieving Net Zero by 2050, preferably approved by the Science Based Targets initiative (SBTi).

All Ipsos strategic partners are also invited to sign the "Ipsos Supplier Code of Conduct", formalizing Ipsos' expectations of the supply chain, which must adhere to the same ESG standards that Ipsos implements in its own activities.

Of Ipsos' suppliers, which accounted for 60% of expenditure in 2025, 37% of these suppliers (in terms of expenditure) adhere to the principles of the United Nations Global Compact and 22% are committed to the Science Based Targets initiative.

- Policy relating to the commercial development of ESG offerings:

Ipsos develops ESG-related services and products within the various service lines.

- Policies initiated by Ipsos Tech (IT)

The various achievements and projects of Ipsos Tech, carried out under the responsibility of the IT Director (Infrastructure & Security) and the people who report directly to him, contribute significantly to the company's overall sustainability strategy. These initiatives and the technology supply chain are detailed below in the context of the company's technology development strategy, the transition of services to third parties, the consolidation of IT services, and efforts to promote a greener IT culture.

Ipsos is committed to conducting its business in an environmentally responsible manner, recognizing the significant impact of IT operations on climate change. Ipsos Tech has implemented initiatives to limit the negative environmental impacts of their IT infrastructure, and address the associated risks as defined in section [5.4.2.1.2.3](#).

The policies, Actions, objectives, and indicators currently defined or planned to be designed in 2025 to address these negative impacts and risks are described below and in Sections [5.4.2.2.1.2.4](#) and [5.4.2.2.1.3](#).

Responsible IT purchasing & selection of IT suppliers

In 2021, sustainability was introduced as a criterion in the Ipsos IT supplier selection process. Ipsos aims to increase transparency throughout its supply chain to manage and reduce greenhouse gas emissions (particularly scope 3 emissions). The company favors suppliers with good environmental practices (such as using renewable energy), that track and share their carbon accounting, have strategies to reduce their footprint, and can provide their customers with their consumption data. Ipsos has also generalized environmental clauses in contracts concluded with the main IT suppliers (including future renewals), defining sustainability principles such as:

- Minimize waste and promote the principles of the circular economy.

- Use resources more sustainably and efficiently.
- Seek opportunities for innovation with suppliers to reduce carbon greenhouse gas emissions and climate impact.

E-waste recycling and management

In its quest for sustainability, Ipsos Tech implements robust e-waste management strategies and focuses on better monitoring of obsolete equipment. The company actively promotes recycling, refurbishment, and donation initiatives.

Ipsos Tech encourages the reuse of machines for end users rather than their destruction. In 2026, the company plans to integrate a dedicated component of electronic waste management into its IT asset management policy. This approach will include:

- Prioritizing the repair and refurbishment of IT equipment to extend its lifespan;
- Using third-party software (e.g. Blancco) to securely erase device data instead of physically destroying it;
- Forming partnerships with certified electronic waste recyclers to ensure environmentally-friendly disposal of end-of-life equipment;
- Application of data security protocols for devices prior to disposal or recycling.

These measures complement the existing IT asset management policy. In addition, in 2026, Ipsos Tech will consider acquiring an IT asset management (ITAM) solution for workstations and servers, as well as the ability to track the carbon footprint of these devices.

The associated actions are described in Section [5.4.2.2.1.2.4](#).

Information storage and hosting – Improved data management and storage virtualization projects

The Ipsos Information Management Policy provides a governance framework for secure and sustainable data management practices. It covers the use, retention and destruction of data and is based on the following principles:

- Information should only be retained for a defined period of time, thus reducing unnecessary data storage
- Information must be regularly destroyed at the end of the retention period in accordance with the Information Destruction Policy using certified methods.

The associated actions are described in Section [5.4.2.2.1.2.4](#).

Move to the cloud and promote a clean cloud

Ipsos has adopted a multi-cloud strategy, using several providers (Google Cloud Platform, Amazon Web Services and Microsoft Azure). One of the key objectives is to reduce the company's carbon footprint, by minimizing resource consumption and optimizing energy use, while capitalizing on the efficiency gains offered by cloud technologies.

Under this "cloud first" approach, all new IT applications and workloads are evaluated for cloud solutions, avoiding a significant expansion of on-premises infrastructure.

In addition, most major cloud providers have ambitious sustainability targets (some aim for carbon neutrality and 100% renewable energy in their operations). To complement these efforts, Ipsos has implemented an energy efficiency policy in order to minimize the energy consumption of IT operations.

The actions associated with this policy are described in Section [5.4.2.2.1.2.4](#).

2.1.2.4 Actions and resources implemented under climate change policies (E1-3)

Emissions related to the energy consumption of buildings mainly concern scope 1 and scope 2 (see details of emissions by scope in Section [5.4.2.2.1.3.3](#)).

These emissions can be reduced by acting on:

- The consumption (in value terms) of buildings;
- The energy mix of this consumption by favoring energy from renewable sources.
- Reduce energy consumption

In order to reduce consumption, the actions implemented or planned are:

- The monitoring of a floor space ratio (in m²) per employee across the entire real estate portfolio by defining a reference value at the Group level and for each region. This ratio is notably monitored as part of the analyses carried out by the finance function for any new office lease or renewal (Action already implemented).
 - The determination of a repository of real estate labels to be used as a benchmark (Action to be initiated from 2025).
 - The monitoring of an energy consumption ratio (in kWh) per m² across the entire real estate portfolio by defining a reference value at Group level close to the value of the technical criterion used for assessing the alignment of individually eligible CAPEX with the Taxonomy (see Section [5.4.2.2.2](#)). This ratio is notably monitored as part of the analyses carried out by the finance function for any new office lease or renewal following the introduction of a benchmark value in the Book of Policies & Procedures (Action already implemented).
- Improve the energy efficiency of buildings

The actions to promote the share of energy consumption from renewable sources are:

- The installation of solar panels on the roof of buildings and car parks rented by Ipsos, where possible. As of the end of 2025, four Ipsos countries have installed solar panels on offices. The possibility of extending this practice to other offices located in relevant geographical areas will continue to be explored in 2026.
 - The renegotiation of energy contracts including access to green tariffs and obtaining guarantee of origin certificates. At the end of 2025, 27% of the Group's total building energy consumption came from renewable sources.
- Launch of a supplier engagement program

This action is part of the transition plan – the Ipsos Net Zero plan (see Section [5.4.2.2.1.2.2](#)).

In the coming years, the supplier engagement program will focus on the following initiatives:

- Launch a series of webinars and one-on-one interviews for our main suppliers to raise their awareness of global climate issues and the need to measure their greenhouse gas emissions (scope 1, 2 and 3) and define science-based emission reduction targets.
- Initiate a questionnaire to collect accurate information, directly from our suppliers, about:

- o Their emissions across scopes 1, 2 and 3, thus improving the accuracy of Ipsos' emissions estimates related to purchases of goods and services;
- o Their climate commitments and initiatives, as well as their possible science-based emissions reduction targets.

Against this backdrop, in July 2024 Ipsos launched a questionnaire on these topics for its 100 main suppliers (in terms of expenses).

- *Development of offers related to climate change*

Ipsos is strongly committed to taking advantage of business opportunities related to climate change. The offering is tailored through the definition of an ESG client needs framework, a case study library and a playbook that have been launched to support this initiative. To keep the world informed about the state of public opinion and the desire to act on ESG, Ipsos is updating its strategy around People, Planet, Prosperity and True Understanding in order to improve its visibility, through a series of webinars and communication materials.

- *Reduce and rethink employee and interviewer business travel*

Employees

Business travel (by land or air) by Ipsos employees accounts for a significant proportion of the company's greenhouse gas emissions, representing 8%. This is a major challenge for Ipsos, whose business and global presence inevitably necessitates travel.

Ipsos is working with its employees and clients to use alternatives to carbon-intensive travel, and to use virtual communication tools (MS Teams in particular). In addition, the new company car policy favors low-emission vehicles such as electric and hybrid. This new policy is accompanied by a validation process for company vehicles selected by the countries, which includes the theoretical emissions criterion (in metric tons of CO₂) per kilometer. At the end of 2025, nearly two-thirds of Ipsos' fleet consisted up of low-emission vehicles (electric, hybrid and plug-in hybrid vehicles).

Initiatives related to the Ipsos Net Zero plan will be launched and widely communicated to all employees, raising their awareness of the commitments made by the Group. A sustainability training course will also be launched for all employees to show them what they can do to reduce emissions. Since 2024, employees have also been encouraged to use online tools (carbon calculators) and consider emissions data provided by travel agencies when planning travel, to help them make a complete assessment of their environmental impact. Homeworking, based on Group policies, will contribute to this drive. Homeworking is managed locally, country by country, according to the type of job, local practices and the individual situation of the employee.

Interviewers

Face-to-face (F2F) and computer-assisted telephone interview (CATI) interviewers, working on behalf of Ipsos, travel nearly 70 million kilometers per year by car, train, bus, plane, boat and other modes of transport. This involves traveling between their home and the place where the surveys are conducted (face-to-face or in the CATI center). This travel allows Ipsos to conduct more than 20 million off-line interviews on behalf of its clients. As part of its commitment to reduce carbon emissions in line with the targets approved by the SBTi in December 2024, Ipsos will launch in 2025 a program of initiatives to reduce emissions from interviewer travel. These initiatives are coordinated by the Operations team at a global level and implemented at the regional and country levels.

Actions launched in 2025:

In January 2025, all Ipsos Operations teams worldwide were set specific targets for reducing travel and greenhouse gas emissions in their countries, in line with Ipsos' global commitments.

A global network of Net Zero Operations champions was established to support and promote best practices in reducing greenhouse gas emissions.

A new dashboard was also put in place to improve the monitoring of business travel and related greenhouse gas emissions.

Action plans were implemented in each country, covering areas such as:

- Redesign surveys to reduce geographic coverage and travel while still meeting clients' needs in terms of representing their target audience.
- Encourage interviewer teams to use low-carbon means of transport, including public transport, bicycles and electric vehicles.
- Focus on hybrid approaches, i.e. asking interviewers to travel only when strictly necessary, replacing face-to-face investigation steps with online methods where possible.

The issues identified and objectives for 2026:

Reducing emissions from interviewer travel will remain a complex and long-term issue, as it would require rethinking how we collect high-quality survey data and where we collect it.

Measures planned or proposed for 2026 include:

- The development of a new mixed-mode data collection offering (ModeConnect) that will simplify access to this method, thereby reducing the number of face-to-face interviews required for such surveys. Currently, projects that can be carried out in mixed mode (online and face-to-face data collection) require two separate setup and implementation processes at Ipsos. This adds costs, time and complexity, which means that these projects are often carried out face-to-face for the entire sample, increasing emissions from interviewer travel. The initiative to simplify the mixed process through a single configuration and delivery process (called ModeConnect) is being implemented in 2026.
- The implementation of new AI tools in our quality control processes for face-to-face data collection. This should improve the quality of the interviews conducted and reduce the level of over-sampling (additional interviews replacing those with insufficient quality) required. This is an active development and implementation project for 2026.

In addition, an initiative is under discussion and could possibly be implemented in 2026. This is an inter-company initiative that would involve local management and global heads of service/product lines, which would consist of offering "green" surveys designed to minimize carbon emissions while meeting client requirements. This could include the following:

- o Reconsider the geographical coverage of face-to-face surveys.
- o Adopt the "ModeConnect" solution where possible
- o Adapt the approach to sample size and meeting quotas to take into account carbon emissions.

- *Actions carried out by Ipsos Tech (IT)*

Responsible IT purchasing & selection of IT suppliers

Ipsos has added annual reporting obligations for its suppliers on greenhouse gas emissions and environmental impact, as well as regular reviews of their progress on sustainable development plans. In addition, to oversee IT procurement that meets sustainable development criteria, Ipsos verifies the EPEAT (Electronic Product Environmental Assessment Tool) ratings of purchased device models (particularly computers and monitors) and encourages buying devices certified by eco-labels (EPEAT, Energy Star, TCO).

From 2025, there will be no more non-EPEAT-compliant devices at Ipsos' two main workstation suppliers (Dell and HP). The objectives and indicators used to measure the effectiveness of these actions are detailed in Section [5.4.2.2.1.3](#).

E-waste recycling and management

In 2022, Ipsos added an asset scrapping procedure (covering end-of-life management of IT and electronic devices and the use of certified providers for recycling, refurbishment or donation) to its global IT asset management policy, improving the monitoring of obsolete equipment.

In 2025, Ipsos Tech continued to implement initiatives aimed at managing electronic waste, such as quantifying obsolete equipment and monitoring its disposal (see the related actions in [Section 5.4.2.2.1.2.4](#)). For example, Ipsos Tech renegotiated the license fee for hard disk data-erasure software (Blancco) that securely erases data, preventing hard drives from ending up in landfill. The Blancco application tracks the amount of waste (kg) diverted from landfill and the CO2 avoided (kg). A few years ago, physical destruction of a hard drive was less expensive than secure erasure; today, the cost of using this software is lower than the cost of physical destruction. As a result, Ipsos Tech plans to roll out this software across all IT services and infrastructure teams in 2026. Ipsos Tech will launch a new version of the asset management policy, which will be finalized by March 2026 and will be expanded to include specific clauses on e-waste management (instead of creating a separate e-waste management policy).

The objectives and indicators used to measure the effectiveness of these actions are detailed in [Section 5.4.2.2.1.3](#).

Information storage and hosting – Improved data management and storage virtualization projects

In 2025, Ipsos migrated file shares from several countries to Microsoft Azure cloud storage. Local IT teams received guidance through budget instructions and monthly IT service team meetings. Countries in the process of migrating local server infrastructure to cloud services include, among others, the Netherlands, Japan, Malaysia, Germany, Norway, and Denmark. The current goal is to migrate at least 5% of the data from on-premises file servers to cloud services (see the section below) by leveraging energy-efficient data centers and renewable energies.

Data relating to migrated data volumes is currently being collected.

One of the difficulties was to determine a baseline, given the limited information on the total volume of data stored on local servers. In 2026, Ipsos will explore options for establishing a baseline for data from local file servers to better measure migration progress.

The objectives and indicators used to measure the effectiveness of these actions are detailed in [Section 5.4.2.2.1.3](#).

Move to the cloud and promote a clean cloud

In 2025, Ipsos Tech set itself the goal of developing an energy efficiency policy aimed at reducing the energy consumption of IT operations. This work is ongoing and includes several initiatives:

- Implementation of energy-saving settings on devices (e.g., enabling standby mode and other power-management functions).
- Optimize data center operations through increased virtualization, more efficient cooling systems and better server utilization.
- On-premise footprint reduction: in 2025, the goal of reducing the number of servers by 5% through virtualization and cloud migration was achieved. The main platforms (Sample One, Sampling, Dojo [Recruitment] and Dimensions Multimode) have been migrated to the cloud, and the corresponding infrastructure in the Rackspace data center has been decommissioned. (The team is currently collecting performance data to quantify the benefits of this migration).
- Continued migration to the cloud: as part of its global hosting strategy, Ipsos Tech will continue to move systems to a multicloud environment, further reducing the energy consumption of on-premises infrastructure.

- Adopt virtualization and containerization (including autoscaling capabilities) to optimize resource efficiency and eliminate unnecessary use of IT resources, thereby reducing overall environmental impact.

The objectives and indicators used to measure the effectiveness of these actions are detailed in Section [5.4.2.2.1.3](#). Based on the lessons learned from these efforts, Ipsos Tech will formalize its energy efficiency policy in 2026 to further reduce energy consumption in its IT operations.

2.1.2.5 Climate resilience analysis

The assessment of Ipsos' climate resilience by examining Ipsos' climate transition and physical risks is considered in our overall corporate risk mapping process (see details in the "Risk Management" section below).

Meanwhile, opportunities are not subject to periodic review (see details in the "Identified opportunities" section)

Identified opportunities

The incorporation of climate risks into our business model also makes it possible to identify a number of opportunities resulting from action to tackle climate change, including:

- The development of new products and services through R&D and innovation and the increase in associated revenues;
- Our clients' desire to work with companies that are taking responsible action against climate change. Through its long-standing commitment, and recent ESG initiatives, Ipsos is well positioned in such a market;
- The reduction of our expenses: our goal is to reduce our direct paper purchases, and to continue to reduce our business travel, particularly through the use of online communication tools. These measures will have a direct impact on reducing our costs;
- Lastly, Ipsos continues to leverage its unique expertise to provide its clients and the public with information and analysis on the impact of climate change and sustainable development.

Risk Management

Every three years, the Quality and Audit Director updates this mapping, particularly on non-financial risks, including climate risks. The last assessment was carried out at the end of 2025. This risk mapping process is conducted under the supervision of the Audit Committee.

The teams surveyed in this mapping represent all functions of the company, including functions that have direct links to our upstream and downstream value chain.

For 2025, climate risks were incorporated into the risk analysis to assess their respective impact on the company. This assessment includes analyses of risks related to the green transition (political and legal risks), as well as a review of physical risks. The latter consists of asking the various stakeholders about their perception of physical risks in their own country, but does not constitute a quantitative analysis based on different climate scenarios.

This climate risk assessment carried out in 2025 demonstrated the low exposure of Ipsos' business and its various offices to climate risks.

Indeed, the exposure of our sites in nearly 90 countries to physical climate risks is very low in terms of sea level rise, water and heat stress, exposure to cyclones and frequency of extreme rainfall.

With respect to transition risks, our assessment is as follows:

- Technological changes: the operational performance of Ipsos is linked in particular to the efficiency of data processing and storage. The level of risk identified is low. Nevertheless, Ipsos will

continue to encourage its entities to use data center providers located in geographic areas with low climate risk and to use renewable energy sources. Ipsos has identified a risk of increased costs for data processing services, which will be integrated into long-term climate scenarios.

- Reputational risk: the climate risk identification process concluded that we have a low level of reputational risk. Furthermore, as one of the world's leading market research companies, Ipsos is committed to disseminating its research on sustainable development and the impact of climate change on the planet, society and the economy, in order to inform and mobilize individuals and contribute to collective decision-making.
- Revenue impact risk: as clients' activity may potentially be impacted by climate change, it is possible that in the medium term, there may be a shift in their budget towards more appropriate investments in the medium term, at the expense of market research spending, which could result in a decrease in revenue.

A quantification of the financial impacts of the various scenarios related to climate change-linked risks and opportunities will be prepared by Ipsos in order to present the results during the publication of the sustainability report for the 2030 financial year, as required by the ESRs standards.

2.1.3 Targets and metrics related to climate change

The internal method used to measure greenhouse gas emissions is based on the Bilan Carbone® methodology and Scopes 1, 2 and 3 are defined according to the rules of the GHG Protocol. Ipsos' greenhouse gas emissions report now covers all countries and all Scope 3 emissions (until 2022, Ipsos' reporting focused on Scopes 1, 2 and emissions due to employee travel included in Scope 3).

As part of the commitment to the SBTi, at the end of 2022 the Group launched a project to quantify all scope 3 emissions, in particular the following items:

- Purchases of goods and services;
 - Fixed assets (offices, company vehicles and IT equipment);
 - Business travel by interviewers, most of whom are not Ipsos employees but who are involved in the conduct of research;
 - Travel by Ipsos employees between home and work.
- Scope 1: These are emissions generated directly by activities controlled by the Company, i.e. they come from sources owned or controlled by Ipsos (natural gas consumption and refrigerant leaks in particular).
 - Scope 2: This covers indirect greenhouse gas emissions generated by the energy consumed to manufacture a product. For example, the consumption of electricity to power factories during the manufacture of a product constitutes an indirect emission insofar as the production of this electricity generates greenhouse gas emissions, even though the electricity consumption itself does not produce any emissions. All these emissions resulting from secondary energy consumption are accounted for in Scope 2.
 - Scope 3: This covers all other greenhouse gas emissions that are not directly linked to the manufacture of the product, but to other stages in the product's life cycle (supply, transportation, use, end of life, etc.). These are called "other indirect emissions".

Scope 3 emissions include those related to purchases made from suppliers. To date, these emissions were calculated based on emission factors provided by the French government environment agency (ADEME). In the future, the measurement of these emissions will be fine-tuned by using emission factors that are better differentiated by country and type of expenditure or by collecting emissions data directly from these suppliers.

Scope 3 emissions are currently calculated on the basis of expenditure, to which emission factors by category are applied. This method provides a high level of visibility but lacks the granularity required for strategic use.

Furthermore, due to Ipsos' activity, the indirect greenhouse gas emissions measured in scope 3 do not include indirect emissions related to upstream (raw material supply) and downstream (client delivery) transport.

2.1.3.1 Targets related to climate change (E1-4)

The Ipsos Group's 2030 targets involve an overall reduction of 30% compared to the 2019 baseline year. 2019 was chosen as the baseline year as it is the most recent year prior to the Covid-19 pandemic and therefore the most representative of our emissions related to our operations and our upstream value chain. The selected baseline year and targets were approved by the Science Based Targets initiative (SBTi).

The quantification of decarbonization levers is presented in Section 2.1.2.2 "Transition plan", while their implementation is detailed in Section 2.1.2.3 "Actions and resources implemented under climate change policies".

The 2030 targets for scopes 1 and 2 of the Ipsos Group have been approved by the Science Based Targets initiative (SBTi). This involves a 49.9% reduction by 2030 compared to the 2019 baseline year.

As for the Ipsos Group's 2030 scope 3 targets, they were also approved by the SBTi. This involves a 27.5% reduction by 2030 compared to the 2019 baseline year.

	2019	2030	2050
	-49,9% du scope 1&2		-90%
Scope 1 + 2 greenhouse gas emissions reduction target based on 2019 as the baseline year	16,886	8,467	1,689
	-27.5% of scope 3		-90%
Scope 3 greenhouse gas emissions reduction target based on 2019 as the baseline year	160,375	116,272	16,037

At the end of 2025, Ipsos had already achieved a 29% reduction compared to 2019, the baseline year, with a 45% reduction for Scopes 1 and 2, and 27% for Scope 3* (excluding capital goods).

2.1.3.2 Energy consumption and mix (E1-5)

Most of Ipsos' energy consumption comes from the electricity used in its buildings (lighting, heating, air conditioning and IT systems) for its business services activity.

In 2025, total electricity consumption for all markets was 18,169 MWh, a 5.3% decrease compared to the 19,178 MWh consumed in 2024.

The share of electricity consumption from renewable energy sources was 6,888 MWh in 2025, i.e. 38% of Ipsos' total electricity consumption worldwide for all countries. This is an increase on the figure for 2024 (around 29%).

In general, Ipsos aims to increase the share of energy consumption (including electricity) from renewable sources. In 2025, the Group stepped up its use of renewable energies, the share of which rose from 21% in 2024 to 27% in 2025.

The data concerning the consumption of the different types of energy (electricity, heat network, steam, cooling network, etc.) from the different sources of energy (fossil, nuclear, renewable, etc.) are summarized in the following table:

Energy consumption and mix	2024	2025	% current / previous year
Total fossil energy consumption (in MWh) (calculated as the sum of rows 1 to 5)	20,427	17,512	-14%
Fossil fuel share of total energy consumption (%)	75%	68%	
Consumption from nuclear sources (in MWh)	1,151	1,418	23%
Share of consumption from nuclear sources in total energy consumption (%)	4%	5%	
Consumption of electricity, heat network, steam and cooling network purchased or acquired from renewable sources (in MWh)	5,529	6,892	24%
Consumption of self-produced renewable energy (in MWh)	73	65	-1%
Total renewable energy consumption (in MWh) (calculated as the sum of rows 8 to 10)	5,602	6,957	24%
Renewable sources share of total energy consumption (in %)	21%	27%	
Total energy consumption (in MWh) (calculated as the sum of rows 6 and 11)	27,180	25,887	-5%

2.1.3.3 Greenhouse gas emissions (scope 1, 2 and 3) (E1-6 including MDR-M)

The Scope 1, 2 and 3 emissions measured by Ipsos amounted to 133,775 metric tons of CO₂e for all markets in 2025, compared with 154,957 metric tons of CO₂e in 2024. This represents a decrease of 13.7% compared to 2024.

Excluding base effects (change in scope, change in the emission factor values used), 2025 emissions show a decrease of 2.5% compared with 2024.

This decrease is mainly due to the following causes:

- the 23% decrease in scope 1 emissions (fossil energy consumption by offices, business travel and commuting using company vehicles, emissions related to refrigerant leaks from air conditioning systems).
- the decrease in electricity consumption included in Scope 2 (-12% compared with 2024)
- the 3% decrease in commuting

In addition, employees' business travel is up 1%.

Note that compared with the SBTi target, the baseline year for which is 2019, emissions were down 28%.

	Retrospective data				Milestones and target years		
in tCO2e	Baseline year: 2019	2024	2025	% 2025 / 2024	2026 (ESG roadmap)	2030	2050 (Net Zero SBTi)
Scope 1 GHG emissions	7,981	5,300	4,375	-17.4%			
Gross scope 1 GHG emissions Emissions [tCO2e]	7,981	5,300	4,375	-17.4%			
Percentage of scope 1 GHG emissions from regulated emissions trading schemes (%)	—%	—%	—%	n.a			
Scope 2 GHG emissions	8,904	5,612	4,916	-12.4%			
Location-based gross scope 2 GHG emissions (tCO2e)	8,904	6,676	6,392	-4.2%			
Market-based gross scope 2 GHG emissions (tCO2e)	8,904	5,612	4,916	-12.4%			
Scope 1+2 GHG emissions (market based)	16,886	10,912	9,291	-14.9%	9,794	8,467	1,689
Significant scope 3 GHG emissions	167,925	144,045	124,483	-13.6%	136,019	116,272	16,792
Total indirect gross GHG emissions (scope 3) (tCO2e)	167,925	144,045	124,483	-13.6%			
1 Goods and services purchased	117,153	116,107	95,155	-18.0%			
2 Capital goods	7,550	8,381	7,372	-12.0%			
3 Activities in the fuel and energy sectors (not included in scopes 1 and 2)	3,744	2,247	2,128	-5.3%			
5 Waste produced during operations	453	115	129	12.1%			
6 Business travel	27,688	8,976	10,821	20.6%			
7 Employee commuting	11,336	8,219	8,877	8.0%			
Total GHG emissions	184,810	154,957	133,775	-13.7%	145,813	124,739	18,481
Total GHG emissions (location-based) (tCO2e)	184,810	156,020	135,251	-13.3%			
Total GHG emissions (market-based) (tCO2e)	184,810	154,957	133,775	-13.7%			

The share of scope 3 emissions calculated from primary data represents 22% in 2025.

The Group's carbon footprint includes all consolidated financial entities, with the exception of a few entities whose total weighting is below materiality thresholds:

- Legal entities consolidated in the financial statements using the equity method;
- Legal entities that do not represent significant transactions and/or with no employees (Bolivia, Honduras and Nicaragua).
- Holding company legal entities with no operational activity (Luxembourg, Cyprus).

Some emission items were determined using primary data, the determination of which required the use of assumption-based estimates.

- Energy consumption of Ipsos offices:

- o Collection of data over the calendar year when the information is available and, failing that, over a rolling 12-month period;
- o Proportion of the areas occupied by Ipsos in relation to the total surface area of a building, based on invoices directly provided by the building landlord for the total consumption of all areas;
- o Extrapolation for months with missing invoices (i.e. 11 months of actual data up to the end of November, with December estimated).
- Commuting:
 - o Use of the results of an internal survey conducted in 2024 and extrapolated by considering the change in the full-time equivalent workforce by country between 2024 and 2025.

Scopes 1, 2 and 3 relative to revenue:

GHG intensity (in metric tons of CO2t per €k)	Baseline year: 2019	2024	2025	% 2025 / 2024
Total GHG emissions (location-based) per net product (in tCO2 eq/€k)	0.09	0.06	0.05	-16.2%
Total GHG emissions (market-based) per net product (in tCO2 eq/€k)	0.09	0.06	0.05	-16.5%

The revenue used for the calculation is expressed in €k @average rate. 2025 revenue is published in the Group's consolidated financial statements in Section [18.12.1.1](#)

2.1.3.4 Environmental indicators related to policies and actions initiated by Ipsos Tech

Responsible IT purchasing & selection of IT suppliers

Ipsos Tech aims to ensure that over 90% of its IT hardware purchases (e.g., computers and monitors) carry recognized efficiency labels (EPEAT Gold, Energy Star, or TCO Certification).

As of December 31, 2024, 90% of purchased computers met EPEAT Gold, Energy Star or TCO standards, and 90% of purchased monitors were EPEAT Gold certified. By the end of 2025, all devices purchased from Ipsos' two main workstation providers (Dell and HP) were EPEAT compliant.

For existing equipment, Ipsos Tech will study in 2026 the acquisition of an asset management tool to track past purchases and verify their compliance with the EPEAT standard. In addition, the regular renewal cycle of old devices will naturally eliminate all non-compliant devices, ensuring that all assets meet standards.

E-waste recycling and management

Ipsos Tech measures its efforts in the area of electronic waste. For example, Ipsos Tech has set itself the goal of achieving a recycling rate of 95% for electronic waste. This target is measured based on the volume of electronic waste (in metric tons) collected and recycled by certified partners, particularly in its main markets.

However, recycling regulations differ by region and there is not yet a unified formal process for all recycling activities. Ipsos Tech will consider measures in 2026 to better align electronic waste management practices and processes across regions. In 2026, if the acquisition of an asset management tool is effective, Ipsos Tech will be able to track the lifecycle of all IT assets (including equipment used in face-to-face studies) from purchase through to recycling via certified partners that will monitor the same indicators as Ipsos Tech. 2026 will be an opportunity to measure Ipsos Tech's position with respect to the 95% target.

Information storage and hosting – Improved data management and storage virtualization projects

Ipsos Tech aims to increase the use of storage virtualization to consolidate resources and improve energy efficiency.

The main objectives are as follows:

- Migrate 20% of eligible data to cloud services over the next two years.
- Reduce physical data storage needs by 15% over the next two years through data optimization and virtualization initiatives.

As at December 31, 2025, approximately 15% of eligible data has been successfully migrated to cloud services.

In 2025, Ipsos Tech prepared a first draft of a data storage optimization policy aimed at reducing energy consumption and carbon footprint. This policy is expected to be finalized and published in 2026.

Move to the cloud and understand and promote a clean cloud

Ipsos Tech has set a target to migrate 10% of eligible on-premises infrastructure to cloud platforms by 2025 and will continue this transition in the following years.

To track progress and impact, the following indicators will be monitored:

- Adoption of cloud services: the percentage of infrastructure successfully migrated to the cloud, highlighting sustainability benefits (such as reduced energy consumption) due to lower reliance on on-premises hosted infrastructure.
- Transparency of greenhouse gas emissions: greenhouse gas emissions associated with cloud providers will be monitored and reported to ensure Ipsos' transparency and accountability in the use of the cloud.

2.1.3.5 Carbon offsetting project (E1-7)

From 2021, Ipsos invested in offsetting programs based on projects that are certified and compliant with international standards, particularly in France and the United Kingdom.

Under the Ipsos Net Zero plan, the current focus is on reducing emissions over the next few years.

Carbon offsetting plans will be explored in the future to neutralize residual emissions (maximum 10% of emissions in 2050).

2.1.3.6 Internal carbon price (E1-8)

Due to the specific characteristics of its business, Ipsos has not yet defined an internal carbon price. Indeed, its core business is mainly based on the provision of intellectual and analytical services, which are inherently less carbon intensive compared to manufacturing or extractive industries. This means that the direct impact of carbon emissions on day-to-day operations remains relatively limited.

2.2 European Green Taxonomy

2.2.1 Ipsos in the regulatory framework of the European Green Taxonomy

In accordance with European Regulation 2020/852 of June 18, 2020 on the establishment of a framework to encourage sustainable investment within the European Union (EU), Ipsos is required to disclose the proportion of its revenue, capital expenditure and operating expenditure derived from products or services associated with economic activities that can be considered environmentally sustainable. This classification system, called the European Taxonomy for Sustainable Activities or Green Taxonomy, establishes a list of economic activities considered environmentally sustainable on the basis of ambitious and transparent scientific criteria, in line with the EU's environmental objectives, including carbon neutrality and the Paris Agreements.

Activities eligible for the environmental objectives of the European Taxonomy are identified in the Climate Delegated Act (for climate change mitigation and adaptation objectives) issued in April 2021 and the Environmental Delegated Act (for the four other environmental objectives) adopted in June 2023. Such activities shall be recognized as eligible where they make a substantial contribution to the environmental objectives of the European taxonomy.

Eligible activities are considered aligned and therefore sustainable when they meet the following conditions:

- Meet the technical screening criteria (setting thresholds for environmental performance);
- Do not cause significant harm to any of the other five environmental objectives of the taxonomy (DNSH [*Do No Significant Harm*] analysis);
- Are carried out in compliance with the OECD, UN and ILO guidelines on human rights (analysis of minimum safeguards).

For the 2025 financial year, Ipsos is subject to the obligation to declare the eligible portion and the aligned portion of its revenue, capital expenditure and operating expenditure with regard to the six environmental objectives detailed in the taxonomy delegated acts.

2.2.2 Analysis of the eligibility and alignment of Ipsos' activities with the objectives of the European Green Taxonomy

2.2.2.1 Proportion of revenue-generating activities in 2025 eligible for the environmental objectives of the European taxonomy

The analysis of the eligibility of Ipsos' activities for the environmental objectives of the European Taxonomy was carried out using a methodological framework that included:

- An analysis based on the Statistical Classification of Economic Activities in the European Community;
- A detailed analysis of the Ipsos Group's activities based on its business model.

Analysis based on the Statistical Classification of Economic Activities in the European Community

Ipsos' activity falls under NACE code 73.2 "Market Research and Public Opinion Polling" of the Statistical Classification of Economic Activities in the European Community. This activity is not included in the respective Annexes to the two Delegated Acts (Climate Delegated Act and Environmental Delegated Act relating to the other four environmental objectives) defining the technical screening criteria.

Therefore, an initial analysis of Ipsos' business in relation to the Statistical Classification of Economic Activities in the European Community could lead to the conclusion that Ipsos' activities are not eligible for the European Green Taxonomy.

A more in-depth analysis of the various stages in the information production chain presented in the Ipsos business model was carried out to ascertain whether certain activities or investments might fall within the scope of the European Green Taxonomy.

Detailed analysis of Ipsos Group's activities based on its business model.

Ipsos, a company with a presence throughout the information production chain

Ipsos covers the entire information production and analysis chain; from raw data collection to activation by the client. Ipsos stands out because of its commitment to innovation throughout this chain and at each of its stages:

Data collection

The data collection stage, which consists of polling consumers, citizens, patients, clients, etc., either actively, by asking questions, or passively, by observing behaviors, is not eligible under the Green Taxonomy because it does not directly contribute to the achievement of environmental objectives.

In our production process, all data collection costs are mainly direct and variable costs recorded in our operating margin under direct costs - between Ipsos Group's revenue and gross margin.

Data processing, integration and analysis

For Ipsos, all of these stages may require the storage of collected data. This is a necessary step in our production process. This data storage activity is *outsourced* to selected and controlled *hosting* providers. The use of these storage resources is ensured by means of *hosting* contracts, the related expenses of which are included in the general operating expenses of Ipsos' income statement (note that there are no external tangible assets associated with this *hosting*). These *hosting* costs are not included in the definition of operating expenses (OPEX) as defined in the Taxonomy (see below).

Furthermore, it should be stressed that this data storage step cannot be "diverted" into our revenue, as Ipsos sells a comprehensive service to its clients to help them in their decision-making. This service as a whole, as well as the way it is invoiced, cannot be broken down into different parts and different types of costs (whether for collection, processing, storage, analysis, etc.).

Delivery, presentation and activation of information

Delivering information in a form that is relevant and usable by the client is one of the main stages in the market research industry. How well a client activates the results of research depends on how well Ipsos shares those results. To enable clients to make informed decisions, Ipsos staff are trained to present research results in the clearest possible way.

All the steps mentioned above are essential to the preparation of the Ipsos service and require the work of our researchers.

Each step requires the intervention of our teams of researchers, especially since the majority of our studies are ad hoc studies, specifically tailored to the client's needs. Our staff are therefore our main

asset and our main cost item. All our teams' personnel costs appear on a separate line in our income statement.

In conclusion, none of the services provided by our teams are eligible under the Taxonomy because they do not contribute directly to the environmental objectives of the European Taxonomy.

In view of the detailed analyses carried out and described above, the Group therefore considers that the proportion of revenue from activities that are eligible for the objectives of the European Green Taxonomy was equal to 0% in 2025. As a result, the share of activities aligned with the six environmental objectives detailed in the delegated acts of the taxonomy is 0%.

2.2.2.2 Indicators of eligibility and alignment of revenue-generating activities in 2025

The Taxonomy indicator table for eligibility and alignment of revenue-generating activities in 2025 is presented in the annexes in Section [5.4.2.5.1](#).

2.2.2.3 Share of capital expenditure (CAPEX) for 2025 eligible for the environmental objectives of the European Taxonomy

Ipsos does not have any eligible revenue-generating activities and has therefore conducted an analysis of its CAPEX to determine the proportion of CAPEX that individually contributes to one or more of the Taxonomy activities as described in the Annexes to the two Delegated Acts (Climate Delegated Act and Environmental Delegated Act on the four other objectives). To determine the CAPEX individually eligible for the Green Taxonomy, the Group has therefore compared the nature of its various current assets with the list of activities eligible for the Green Taxonomy as described in the Annexes to the two Delegated Acts (Climate Delegated Act and Environmental Delegated Act on the four other objectives).

After analysis, the Group considers that certain CAPEX is linked to eligible activities included in the Climate Delegated Act in connection with the climate change mitigation objective. In 2025, this expenditure comprised transport (activity 6.5 of the Climate Delegated Act), for €2.5 million, and buildings (activity 7.7 of the Climate Delegated Act) for €74.9 million (mainly rights of use within the meaning of IFRS 16). No investments related to activities eligible under the other five objectives have been identified.

The amount of capital expenditure considered eligible for the climate change mitigation objective is therefore €77.4 million, or 39.9% of the capital expenditure retained for the Taxonomy for financial year 2025.

2.2.2.4 Share of 2025 capital expenditure (CAPEX) aligned with the climate change mitigation objective

Individually eligible CAPEX related to buildings

Analysis of technical screening criteria

2025 CAPEX related to buildings amounted to €74.9 million at the end of December and was examined as part of the alignment analysis with regard to the technical screening criteria.

The technical criterion used by the Group is the following market practice based on the latest report of the OID [Observatoire de l'immobilier durable – sustainable real estate observatory]:

- If the annual primary energy consumption of an office subject to CAPEX in 2025 was less than 140 kWh/m², that office meets the technical screening criterion and the asset can undergo the additional alignment analyses (DNSH analysis and minimum safeguards analysis);
- If the annual primary energy consumption of an office subject to CAPEX in 2025 was greater than 140 kWh/m², that office does not meet the technical screening criterion and therefore cannot be considered aligned or sustainable.

The energy consumption data was provided by the local management of each of the countries having 2025 CAPEX for buildings. The energy consumption data provided reflects final energy consumption to which a coefficient of 2.3x was applied in order to determine the primary energy consumption.

The data relating to surface areas in m² was retrieved from our database for leases (offices and vehicles) used to document contract data and calculate IFRS 16 impacts since this standard was implemented on January 1, 2019.

Of the **€74.9 million** of **2025 CAPEX for buildings analyzed, €9.8 million meet the technical screening criterion**. This CAPEX represented 5.1% of the total 2025 capital expenditure of €194.0 million.

DNSH and minimum safeguards analysis

In the absence of climate risk maps for each of the assets underlying these expenditures, Ipsos has thus far not been able to demonstrate that this capital expenditure does no significant harm (DNSH) with respect to the climate change adaptation objective. As a result, the share of 2025 capital expenditure related to buildings aligned with the climate change mitigation target is 0%.

Individually eligible CAPEX related to vehicles

Analysis of technical screening criteria

2025 CAPEX for vehicles amounted to €2.5 million at the end of December, of which €2.2 million relating to leases and €0.3 million to owned vehicles.

The Group adopted the technical screening criterion as detailed in the Climate Delegated Act for the climate change mitigation objective of the Taxonomy Regulation:

- If a vehicle has an emission level of less than 50 grams of CO₂ per kilometer, it meets the technical screening criterion and will be subject to further analysis with regard to its alignment: DNSH analysis and minimum safeguards analysis (see below);
- If a vehicle has an emission level of more than 50 grams of CO₂ per kilometer, that vehicle does not meet the technical screening criterion and therefore cannot be considered aligned or sustainable.

The data on the CO₂ emissions (in grams per kilometer) was provided by the local management of each of the countries having CAPEX for vehicles in 2025.

The conclusions of the Group's analyses are as follows:

- Share of vehicles meeting the technical screening criteria: €1.6 million (all leased), i.e. 64.5%;
- Share of vehicles not meeting the technical screening criteria: €0.9 million (of which €0.6 million leased and €0.3 million owned), i.e. 35.5%.

DNSH analysis

Vehicles that meet the technical inspection criteria are considered aligned – i.e., to meet DNSH criteria – if:

- The vehicles are put into service in the European Union or are made by manufacturers based in the EU.
- The related new tires comply with rolling noise requirements (in the highest energy-efficiency class) and rolling resistance coefficient requirements (in the two highest energy-efficiency classes). Conformity should be verified using the European Product Registry for Energy Labelling (EPREL) database.

Some of the vehicles meeting the technical screening criteria are registered in European Union countries and/or are from a manufacturer originating in the European Union. However, the verification of criteria relating to tires requires particularly complex analyses (including an inventory), which are very time- and resource-intensive and have not been carried out with regard to the share of eligible CAPEX linked to vehicles (1.3%).

As a result, the share of 2025 capital expenditure related to vehicles aligned with the climate change mitigation target is 0%.

Reconciliation with the financial statements

CAPEX within the meaning of the Taxonomy corresponds to:

- Acquisitions of property, plant and equipment and intangible assets (excluding goodwill).
- Acquisitions following business combinations.

For the KPI denominator, the amounts of the “Increase” and “Change in scope” flows for intangible assets (excluding goodwill) and property, plant and equipment were used. These flows partly comprise the tables showing changes in fixed assets published in Sections [18.1.2.2.4.2](#) and [18.1.2.2.4.3](#).

2.2.2.5 2025 Capital expenditure eligibility and alignment indicators

The table of Taxonomy indicators related to eligibility and alignment of 2025 CAPEX is presented in the appendices in Section [5.4.2.5.1](#).

2.2.2.6 Share of 2025 operating expenses (OPEX) eligible for the environmental objectives of the European Taxonomy Regulation

OPEX relate to the activities identified:

- Either OPEX related to revenue-generating business activities; which is not the case for Ipsos Group;
- Or to individually eligible CAPEX (see above).

The operating expenses to be retained under the Taxonomy are defined according to a restrictive list that includes the following direct non-capitalized costs:

- Research and development costs;
- Building renovation costs;
- Short-term leases;
- Maintenance/upkeep and repair costs;

- Any other direct expenditure incurred in connection with the day-to-day maintenance of tangible assets by the Group or by the third party to whom these activities are outsourced, which is necessary for the continued proper functioning of these assets.

A complete analysis of these operating expenses (direct costs and general operating expenses, also known as GENEX) incurred in financial year 2025 was carried out by comparing these operating expenses with the definition of the costs included in OPEX as defined in the Taxonomy (see above). Costs relating to short-term leases and building maintenance costs were therefore identified. These totaled €7.7 million in 2025 (KPI numerator), which was not considered significant in relation to total operating expenses (composed of direct costs, payroll costs and general operating expenses [GENEX]) of €2,198.4 billion in 2025 (KPI denominator), **or 0.4%. Eligible operating expenses, as defined according to the restrictive list above, are therefore not significant in Ipsos' business model.**

The Group has therefore concluded that the expenses covered by the definition of OPEX within the meaning of the Taxonomy are not material and that it is therefore not relevant to determine the eligible proportion.

2.2.2.7 2025 Operating expenses (OPEX) eligibility and alignment indicators

The share of 2025 aligned operating expenses (OPEX) is 0% due to the exemption of these costs, which were deemed immaterial in the eligibility analysis.

The table of Taxonomy indicators related to eligibility and alignment of 2025 operating expenses is presented in the appendices in Section [5.4.2.5.1](#).

2.2.2.8 Conclusion from the eligibility and alignment analyses of Ipsos Group's activities for the two climate objectives of the European Green Taxonomy

Activities eligible for the environmental objectives of the European taxonomy represent:

- 0% of the Group's 2025 revenue – ratio stable compared to 2023 (0%);
- 39.9% of 2025 capital expenditure (CAPEX) considered under the Taxonomy – eligible under the climate change mitigation objective – down slightly by 0.3pt compared with 2024 (40.2%);
- A non-material amount of the total operating expenses (OPEX) in 2025 (and thus exempt from our eligibility analysis) in the same way as in 2024.

Activities aligned with the environmental objectives of the European taxonomy represent:

- 0% of the Group's 2025 revenue – ratio stable compared to 2024 (0%);
- 0% of total 2025 capital expenditure (CAPEX) considered under the Taxonomy – with respect to the climate change mitigation objective – down 0.5pt compared with 2024 (0.5%) due to the inclusion of an additional DNSH criterion related to vehicle tire performance, the analysis of which could not be carried out in 2025.
- A non-material amount of the total operating expenses (OPEX) in 2025 (and thus exempt from our alignment analysis).

3 A socially responsible and committed company

Reminders:

- The process used to identify the material impacts, risks and opportunities covered in this section is described in Section [5.4.2.2.4.1](#) "Description of the double materiality analysis process". The results of this analysis are presented in Section [5.4.2.1.2.3](#) "Material Impacts, Risks and Opportunities and their interaction with strategy and business model (SBM-3) and adverse impact remediation procedures (Ipsos policies and initiatives)";
- The composition, role and responsibility of the supervisory bodies are detailed in Section [5.4.2.1.3.1](#) of this Sustainability Report (ESRS 2 – GOV-1);
- The expectations of our various internal and external stakeholders are set out in the first part, ["5.4.2.1 – General information"](#), of this report.

3.1 Our employees, Ipsos' main asset (ESRS S1)

3.1.1 Management of impacts, risks and opportunities

3.1.1.1 General policies implemented (S1-1)

The Group's social initiatives are based on compliance with the following principles:

- The Universal Declaration of Human Rights;
- International Labor Organization (ILO) conventions and the ILO Declaration on Fundamental Principles and Rights at Work;
- The Ten Principles of the United Nations Global Compact;
- The provisions relating to due diligence resulting from the French Act No. 2017-399 of March 27, 2017;
- The General Data Protection Regulation (No. 2016/679);
- French Order No. 2012-1180 of July 19, 2017 and Decree No. 2017-1265 of August 9, 2017, which transpose the European Directive of October 22, 2014 on the disclosure of non-financial information;
- The ICC/Esomar International Code on Market, Opinion and Social Research and Data Analytics;
- The recommendations published in 2017 by the TCFD (Task Force on Climate-related Financial Disclosures), an initiative in which Ipsos has chosen to voluntarily join since 2021.
- Our Professional Code of Conduct and Ethics, available on the Ipsos website.

These initiatives and programs are detailed in the following sections of this document and apply to all Ipsos employees.

The Group's human resources strategy therefore consists of **attracting**, **developing** and **engaging** the best talent. This strategy is implemented through the following principles:

- An offering of safe and sustainable jobs;
- A diverse workforce, an inclusive culture and the fight against all forms of discrimination;
- Continuous training and career development;
- A strong employee commitment;
- A fulfilling work environment that guarantees health and safety;
- Respect for human rights, including social rights and the fight against forced and child labor.

Responsibility for the initiatives, as well as all dialogue mechanisms and actions enabling their implementation, lies with the Human Resources Director, who is also a member of the Executive Committee. This is rolled out across the Group's entities and implemented by local human resources and management teams, while the management of executive officers' careers and compensation remains centralized.

To manage the impacts, risks and opportunities for its staff, the Group has designed and deployed a human resources strategy based on three pillars:

1° ATTRACT: We attract skilled people who embrace our values and contribute positively to the company's performance and societal impact.

2° DEVELOP: We cultivate long-term success by identifying potential and supporting the development of our employees and executive officers.

3° ENGAGE: We provide a stimulating environment where every employee can flourish, make their voice heard and develop their skills, in one where diversity is valued as a strength.

3.1.1.2 Processes for engaging with own workers and workers' representatives about impacts (S1-2)

The legal framework and legislation define the rules and organization of social dialogue in each country. Ipsos implements appropriate consultation procedures accessible to each employee in each of its subsidiaries, in accordance with local legislation and Principle 3 of the United Nations Global Compact. In addition, ad hoc bodies for social dialogue have been set up in over 25 countries in accordance with applicable legislation.

This dialogue with employees is conducted through works councils, if the size of the entity allows it. Otherwise, dialogue is established through monthly meetings with employee representatives or employee meetings with executive officers.

As at December 31, 2025, 80 agreements were in force within the Group. Many of these agreements relate to the work-life balance of employees (flexible working hours, homeworking arrangements, etc.), and to the diversity and inclusion policy, and the benefits in kind that employees may receive (additional insurance, luncheon or transport vouchers, etc.). The Group believes that all these measures improve employee retention and therefore the Company's performance.

In 2008, Ipsos was the first global market research company to join the United Nations Global Compact. Ipsos has implemented a proactive and structured ESG approach, monitored through the annual *Taking Responsibility* program. This program, now called *Responsible Business*, is deployed in all Ipsos entities around the world and is structured around three areas: *Society, People, Environment*. It is regularly monitored by the Ipsos Board of Directors' Strategy and ESG Committee.

Environmental, corporate and social data is collected every year from all Ipsos entities. This survey, the *Responsible Business Survey*, meets the requirements of the United Nations Global Compact's Communication on Progress (CoP) and the standards set by the GRI (*Global Reporting Initiative*).

Pulse: the annual employee engagement and satisfaction survey

Ipsos aims to support the development of its employees throughout their careers and ensure they remain committed to the Company. Ipsos is therefore attentive to the social climate and the level of employee engagement. Each year, an internal survey is conducted with all employees to give them the opportunity to share their concerns and expectations with senior management.

First conducted in 2003 by a team of Ipsos experts, the Ipsos Pulse survey has become a key annual event for employees worldwide and a valuable HR management tool. In 2025, the survey was translated into 29 languages.

It offers all Group employees a valuable opportunity to express their views on the working environment, management and the Group’s organization. It was a real success in terms of interest, with an 88% employee participation rate this year, giving us a representative overview, reliable results and enabling us to define our action plans for 2026.

In the various economic and social contexts of the countries in which Ipsos operates, our overall engagement rate is high, at 76%. In addition, 88% of our employees are proud to be part of the organization and 85% share our values. Employees feel valued and respected (91%), regardless of their origin, gender or identity. 80% recommend Ipsos as a great place to work.

In addition, 75% of employees consider that their work gives them a sense of personal fulfillment, reflecting the satisfaction and achievement they feel in their role in the organization.

ENGAGEMENT SCORE

Your engagement score = Average score for the 9 questions in the engagement index

Engagement score = 9 questions

- I like Ipsos' culture and values
- Overall, I am satisfied with my job at present
- I am confident about my own future within Ipsos
- My job gives me a sense of personal fulfilment
- I feel motivated in my current job
- I am proud to say that I work at Ipsos
- I would recommend Ipsos as a good place to work
- I endorse Ipsos' strategy and direction
- I have confidence in the decisions made by the senior management of Ipsos in my country and/or part of business

3.1.1.3 Processes to remediate negative impacts and channels for own workforce to raise concerns (S1-3)

In the interest of continuous improvement, the results and observations of the 2025 Ipsos Pulse survey are rigorously studied and analyzed to identify the main priorities (for confidentiality reasons, no results below 10 respondents are communicated).

These elements are then presented at plenary meetings at the various levels, starting with the Executive Committee and the GMC (Group Management Committee). This results in the development of specific action plans and initiatives dedicated to the well-being and development of employees and their good understanding of the company’s values and strategy, such as:

- The well-being and health program "**Ipsos Cares**" launched in early 2024 in all countries, comprising three pillars: mental health, physical health, and social health (see section [3.1.5.1](#));
- The global "**Onboarding**" program launched at the end of 2024 to enable all countries to benefit from the same resources for employee integration. It is now available online for an enhanced employee experience (see section [3.1.8.1](#));

-The **Opportunity Marketplace**, an internal platform that centralizes all vacant positions worldwide, offering employees full visibility over career opportunities within the group and enabling them to record their preferences for lateral or international mobility and apply for positions (see section [3.1.8.1](#)).

The "Ipsos Pulse" survey allows each entity with a significant workforce (more than 10 respondents) to access the results for its scope and analyze changes from one year to the next. The aim is to provide managers with as detailed feedback from employees as possible. Based on the issues identified via the survey, action plans are prepared, discussed with the teams and then implemented.

The *whistleblowing* system also serves as a mode of communication between Ipsos and its employees. The characteristics of this system and the 2025 results are presented in the Governance section of the sustainability report and more specifically in section [5.4.2.4.3](#).

3.1.1.4 Taking action and setting objectives on material impacts on own workforce, and approaches to managing material risks and pursuing material opportunities related to own workforce (S1-4)

Each of the actions related to the material social issues of the Ipsos Group are detailed in Sections [5.4.2.3.1.2](#) to [5.4.2.3.1.10](#) and accompanied by targets and metrics, where these are available, which make it possible to measure the effectiveness of these actions.

The objectives are detailed in each of the sections on material issues specific to Ipsos employees (sections [5.4.2.3.1.2](#) to [5.4.2.3.1.10](#)).

The resources responsible for these actions and objectives are mainly the HR teams.

3.1.1.5 Ipsos employees: scope and main characteristics

As at December 31, 2025, the Group had 18,925 employees worldwide (including employees relating to acquisitions) excluding the *Standard Contractors* (i.e. external or independent service providers) and *Intern/Student Paid* contract categories, compared with 18,639 in 2024, a 1.5% increase.

The staff turnover rate is based on the headcount excluding *contractors standard* and excluding intern/student paid. The definition of Ipsos' permanent workforce is a broad one that encompasses all steadily employed and permanent employees, whether on permanent or fixed-term contracts.

The turnover rate is calculated annually, taking into account the number of employees who have left the Group divided by the average headcount. This methodology is consistent with previous years.

Voluntary departures include resignations, terminations of fixed-term contracts, retirements, deaths and job cancellations recorded one month after the month of employment. Involuntary departures include all non-voluntary departures and relate to dismissals, end of probationary periods and refused work permits.

As at December 31, 2025, the Group recorded a turnover rate of 15.0% for a total of 2,835 employees who had left the Group (15.6% in 2024) and a voluntary departure turnover rate of 11.9% (12.9% in 2024), including 5.5% for employees with more than three years' tenure. These three rates have been steadily decreasing since 2021.

3.1.1.6 Characteristics of non-employees (S1-7)

In 2025, Ipsos' workforce of 18,925 employees ("Permanent Regular" and "Permanent Term Contract"), detailed in section [5.4.2.3.1.1.5](#), excludes the Contractor - Standard and Intern/Student paid categories (2,124 as at December 31, 2025).

2025		2024	
Total number of salaried non-employees	Of which self-employed workers	Total number of salaried non-employees	Of which self-employed workers
2,124	1,900 (89%)	1,793	1,591 (89%)

In addition, the characteristics of external workers, some of whom come from our value chain and are not part of the company's own workforce (such as freelancers and independents), will be covered in Section [5.4.2.3.2](#).

3.1.2 Work-life balance and working hours

3.1.2.1 Related policies and actions

At Ipsos, time spent together in the office is a factor that fosters career development, collaboration, creativity, informal interactions and a sense of belonging, all of which are essential to the success of the Group.

In addition, employees benefit from a certain degree of flexibility thanks to common "hybrid" working rules, tailored to the context of each country of operation. These principles allow, in most countries, up to two days of homeworking per week on average. In addition, when employees are not in the office, they may visit clients, thus strengthening the direct and close relations that Ipsos maintains with its partners.

This method of organization promotes flexibility, team performance, and proximity to clients. These rules, which are distributed to all employees, are reviewed periodically to remain in line with organizational changes.

As the majority of our employees have now opted for a hybrid work model, this combination of office presence and homeworking can sometimes make it difficult to distinguish between working and private life. Our employees are therefore strongly encouraged to take breaks and their statutory leave in order to disconnect. They also benefit from global or local initiatives (seminars, mobile applications, training, etc.) that support them in finding this work-life balance. Three examples:

- In Romania, the "Nature Walks" event brings together employees to recharge their batteries and strengthen team ties during walks in a natural setting. Combining physical activity and shared moments, this initiative highlights the importance of balance, well-being and collaboration beyond the professional setting.

- In Asia-Pacific, employee well-being is continuously supported – 24 hours a day, 7 days a week – through the Employee Assistance Program (EAP) and the Employee Listens initiative, ensuring timely support and actionable feedback.

Contact Us...
Anytime, Anywhere

No-cost, confidential solutions to life's challenges.

Confidential Emotional Support
Our highly trained, local clinicians will listen to your concerns and help you and your family members with any issues, including:

- Anxiety, depression, stress
- Grief, loss, life adjustments
- Relationship/partner conflicts

Legal Guidance
Talk to a local legal expert for practical assistance with your most pressing issues. Our experts offer a free half-hour consultation per issue per year on almost any legal topic, including:

- Divorce, adoption, family law
- Wills and trusts
- Landlord or tenant issues, and more

Financial Information
Our financial experts can assist with a wide range of issues. They offer a free half-hour consultation per issue per year for:

- Retirement planning, taxes
- Relocation, mortgages, insurance
- Budgeting, debt, bankruptcy and more

Your ComPsych® GuidanceResources® programme offers someone to talk to and resources to consult whenever and wherever you need them.

Call: See phone list below for your local number

Your programme phone number gives you direct, 24/7 access to a GuidanceConsultant™, who is a trained clinician who can support you and offer referrals for ongoing assistance with a local expert.

24/7 Support, Resources & Information

- At a global level, the Ipsos Training Center (ITC) offers a training course on time management to help all Group employees better manage their workload. This course provides tools and concrete resources to help staff identify priorities, plan their day and manage emergencies so they can allocate time to priority tasks. This training is fully available to Group employees. The ITC is a platform that hosts training modules available to employees on a permanent basis.

To address the varied economic and social contexts of the countries where Ipsos operates and to guard against psycho-social risks that may lead to complex personal situations, Ipsos has implemented a range of prevention and support services that provide listening support, guidance, and resources to help preserve each individual's personal balance and flexibility, such as:

- Online training, available on the internal platform, the Ipsos Training Center, to help all Group managers manage teams working under a hybrid model, as well as resources to manage stress

and develop employee resilience and well-being. These courses are accessible to all employees at all times.

- In France, a leave donation scheme allows employees who are caregivers to benefit from additional days to be present with their loved ones in need of support, thus creating a genuine community of support within the company. Since its launch, 174 days – including 33.5 in 2025 – have been offered, and 40 days were taken that same year. France has also created a specific network for “Caregivers”, creating a more inclusive and supportive working environment for employees supporting loved ones who are losing their autonomy. A psychosocial risk prevention system provided by workplace psychologists in person and remotely, entirely confidential and free of charge, is also offered to employees who wish to use it.
- In Canada, the “Returnity” program supports the return to work after parental leave. It offers affected employees the opportunity to work four days a week during their first month back while receiving their usual full-time compensation. This program promotes a gradual and caring transition, supporting both the well-being of parents and their harmonious reintegration into the team.
- In the UK, all employees have access to an online GP through the “My Bupa” app, at no additional cost. The “Bupa Well+ Silver” program, aimed at employees in levels 6 to 8, offers wellness and mental health services, including online fitness, coaching and remote physiotherapy, illustrating the Group’s commitment to the health and well-being of its employees.
- In Romania, two initiatives have been deployed to promote the physical and mental health of employees: educational webinars on stress reduction, emotional resilience, and mindfulness, as well as interactive “Health Day” events focused on sleep quality, managing chronic fatigue, immune system strengthening, and corrective exercises. These actions have fostered awareness and encouraged the adoption of healthy and sustainable lifestyles.

3.1.2.2 Non-work commitments

Regarding the commitments of employees who are members of the military reserve force, Ipsos ensures that local regulations are respected. For example, in France, Ipsos follows the Labor Code and accepts that a reservist may honor their commitment by approving the employee’s request for leave.

3.1.2.3 Targets and metrics (S1-5 & S1-15)

Regarding the work-life balance, all employees have access to resources that help maintain it, and these are demonstrated at a minimum by the following two measures:

- The implementation in each country where the company is established of agreements and policies allowing employees to benefit from a certain number of homeworking days if they so wish;
- The right to family leave and flexible working hours. This leave is monitored by countries without consolidation at Group level.

All company employees are entitled to paid and unpaid family leave for maternity leave, paternity leave, parental leave, etc.

No additional targets on this subject have been defined to date. The main upcoming action is for the Group to collect information on the number of days of family leave taken per country, in order to ensure that this right to family leave is effectively implemented in all the countries where Ipsos operates.

3.1.3 Employee compensation

3.1.3.1 Policy and actions related to employee compensation

The Group's compensation strategy is tailored to the labor market and employment legislation of each country. It aims to attract and retain talent and recognize performance while complying with applicable local legislation.

Salary analyses are carried out by the countries with the largest workforce to ensure they maintain a competitive positioning to attract the right candidates, retain talent, and remunerate employees in line with their level of performance in their position.

Every year, Ipsos acquires salary studies in the countries in which it operates. This covers over 80 countries for which Ipsos compares its budgets, salary increase forecasts, and other internal criteria such as activity levels with external data such as inflation rates and wage benchmarks. This data is collected from recognized service providers (e.g. Mercer GCPR report).

In order to be able to compare its different professions, Ipsos classifies them through a job library in which nearly 200 types of positions are listed. These jobs are classified according to four types of function that reflect Ipsos' main business activities: Research and Science, Operations and Platforms, Key Account Management and Support Functions.

This system of classification is used by human resources to provide a common reference framework for talent acquisition, workforce management, training and employee development.

Classifications

Ipsos has implemented an internal classification of positions with three objectives:

- Standardize jobs across multiple regions and service lines;
- Ensure internal fairness globally and the consistency of HR policies and practices;
- Implement a global approach to talent management.

This classification framework is used worldwide and consists of seven levels: from 1 to 7.

Levels 5, 6 and 7 correspond to the first stages of a career and represent 69.2% of the Group's workforce. For these levels, compensation is generally just a fixed salary, which increases according to the responsibilities entrusted to the employee, their command of the job and their individual performance.

Levels 3 and 4 correspond to middle management and represent 26.1% of the Group's workforce. At these levels, in addition to their fixed annual salary, employees may receive an annual bonus based on the financial results of their scope of work and their individual performance. They may also receive free shares under the Group's annual plan.

Levels 1 and 2 correspond to senior management positions, which account for 4.7% of the Group's workforce. Their compensation package is made up of three parts:

- A fixed annual salary reflecting the responsibilities entrusted;
- An annual bonus based on the Group financial objectives, individual financial objectives and personal objectives;
- The allocation of free shares as part of an annual plan that reflects the Group's performance and is intended to provide compensation over a medium-to-long-term period (three-year vesting period).

The overall compensation of these senior executive officers (salary, bonuses, and free shares) are reviewed at Group level to ensure consistency of compensation amounts and respect for gender equality.

3.1.3.2 Targets and metrics (S1-5, S1-10 & S1-16)

Ipsos complies with the legislation in the countries in which its companies and subsidiaries are located, particularly regarding the local minimum wage. The CSRD's objective of adequate pay consists of ensuring that companies adopt fair pay practices, guaranteeing a level of compensation that meets the basic needs of employees and their families, while respecting local standards of living.

Ipsos will define the most appropriate methodology taking into account the family unit while respecting the confidentiality of its employees' personal information.

The collection mechanisms are now standardized to ensure quality information from a single source; all compensation information will be provided by iTalent. As the gap identified in 2024 was less than 5%, no specific measure was implemented.

Conversely, during the compensation review cycle, each country conducts its comparative checks to ensure a proper balance between women and men in the awarding of salary increases.

To date, Ipsos measures two types of gap:

- The pay gap percentage between its female and male employees. This gap was less than 4% in 2025;
- The ratio of the total annual compensation of the highest paid employee in the Group to the median total annual compensation of all other employees is 41.

These two indicators are part of the external publication elements and contribute to developing and strengthening the culture of transparency and fair compensation.

Adequate compensation

In accordance with the reporting guidelines and taking into account its practices, Ipsos ensures that its employees receive a salary at least equal to or above the national minimum wage in the countries where the applicable information is available. As a fundamental element of its compensation strategy, the Group recognizes the importance of remaining *at least* aligned with legal requirements and compliance with national minimum wage standards.

All employees receive a salary that is in line with or above the minimum wage set by national legislation or collective bargaining in the countries where Ipsos operates. However, the Group also recognizes the importance of complying with international references and standards regarding living wage (or adequate wage), including those of organizations such as the Sustainable Trade Initiative (IDH), the Wage Indicator Foundation and the Fair Wage Network.

The objective will be to take into account the approach of these methodologies and gradually adopt these practices published by these organizations or similar standards. This will ensure that all employees, depending on their place of work, receive an adequate and decent salary in line with benchmark standards.

Gender pay gap

Methodology for calculating the gender pay gap

The gender pay gap is calculated according to the following principles:

- Gender pay gaps **in each country** take into account **currencies** and **local compensation practices**;
- In each country, determination of gender pay gaps **according to the internal classification by level** (see "[Classifications](#)" in the same section);
- The salaries taken into account in the calculation are annualized amounts.

Certain **exclusions** have been applied to maintain the accuracy and relevance of the analysis conducted:

- Inactive or suspended employees, as well as employees whose number of weekly hours is less than eight;
- Employees in organizations with 10 employees or fewer for whom comparisons between women and men are not possible, for example when they are in the same classification.

These exclusions represent in total less than 1% of the total workforce.

Results on the gender pay gap

In 2025, the pay gap between Ipsos' female and male employees was less than 4%.

Annual total compensation ratio

The annual total compensation ratio covers all employees of the Ipsos Group.

Methodology for calculating the annual total compensation ratio

The calculation of the total annual compensation ratio compares the compensation of the CEO (including fixed salary, bonuses, long-term profit sharing and benefits in kind) to the median compensation of all Group employees.

The compensation components included in the determination of this median compensation are:

- Fixed compensation paid in 2025;
- Variable compensation (bonuses, incentives, profit sharing) paid in 2025;
- The various benefits in kind granted in 2025 (e.g. company cars, supplementary pensions, etc.);
- The allocation of free share plans in 2025.

Annual total compensation ratio results

In 2025, the annual total compensation ratio, which compares the compensation of the Group CEO to the median compensation of other employees, is 41.

This result should be viewed in the context of a multinational operating in nearly 87 countries, where the CEO, based in France, is compared to all international employees, all of whom are part of the value chain.

The interpretation of this ratio requires consideration of the specifics of international compensation standards, exchange rate fluctuations, cost of living levels and regional variations in compensation practices.

3.1.4 Social dialogue, freedom of association and collective bargaining

3.1.4.1 Policies and actions

Ipsos Group respects freedom of association and the right to collective bargaining, as defined by Principle 3 of the United Nations Global Compact.

In all countries of operation, the Group ensures that this principle is respected unconditionally. All Ipsos employees are therefore free to join trade unions.

The local legal framework and national legislation define the rules and organization of labor relations in each country, and Ipsos implements appropriate consultation procedures accessible to each employee in each of its subsidiaries. Ad hoc bodies for labor-management dialogue have been set up in over 25 countries in accordance with applicable legislation.

This dialogue with employees is conducted through employee representative committees, if the entity is large enough to have one, through monthly meetings with employee representatives, or via meetings of employees with managers. As at December 31, 2025, 80 agreements were in force within our entities. Many of these agreements relate to the work-life balance of employees (flexible working hours, homeworking arrangements, etc.), and to diversity and inclusion, and also provide employees with additional benefits in kind (additional insurance, luncheon or transport vouchers, etc.). Ipsos believes that all these measures improve employee retention and therefore the Company's performance.

3.1.4.2 Targets and metrics (S1-5, S1-8, S1-11)

In order to continuously improve the working environment, the Group coordinates and communicates the results of collective bargaining. These negotiations, led by HR managers in each country and/or region, led to the signing of collective agreements in many countries (see below). In accordance with local regulations and the ILO's fundamental conventions (no. 87 and 98), the Group respects and promotes freedom of association, the right to collective bargaining and the right of its employees to form or join a trade union.

Collective bargaining coverage

As at December 31, 2025, 24% of the group's employees (excluding *contractors* and interns) were covered by collective agreements.

Social dialogue

In the European Economic Area (EEA), the United Kingdom is considered to be the only country in which Ipsos operates with a large workforce, since employees in the United Kingdom total over 50 employees and over 10% of the Group's total employees.

	Collective bargaining coverage		Social dialogue
Coverage rate	Employees – EEA (for countries with > 50 employees representing > 10% of total employees)	Employees – non-EEA (for countries with > 50 employees representing > 10% of total employees)	Percentage of employees covered by employee representatives (EEA only) (for countries with > 50 employees representing > 10% of total employees)
0 - 19%	United Kingdom (0%)	N/A	United Kingdom (0%)
20 - 39%	N/A	N/A	N/A
40 - 59%	N/A	N/A	N/A
60 - 79%	N/A	N/A	N/A
80 - 100%	N/A	N/A	N/A

The Group has not set an overall target regarding employee coverage by labor representatives, as this matter is handled locally in each market.

Social protection

To date, Ipsos does not measure the social protection coverage of its employees against the major life risks (illness, unemployment, workplace accident, disability, parental leave, retirement, etc.). However, Ipsos measures, via the *Responsible Business Survey*, the rate of employee coverage by an occupational health and safety management system. As at December 31, 2025, the rate was 94% (excluding *contractors* and interns).

3.1.5 Health, safety and well-being of Ipsos employees

3.1.5.1 Policies and actions

Ipsos is fully committed to the health and safety of its employees, a fundamental principle enshrined in its Code of Conduct and Ethics. Detailed policies and procedures, tailored to local specifics, are available on request in the nearly 90 countries and 250 cities where Ipsos operates. Ipsos does not have a comprehensive policy for the prevention of workplace accidents, as its field results in very few workplace accidents (0.9 accidents per 1,000,000 hours worked). Nevertheless, mindful of the well-being of everyone (employees, visitors, field workers, etc.), in 2025 Ipsos trained nearly 5,668 people in health and safety procedures, and around 1,000 employees are specifically dedicated to this subject, leading numerous initiatives. In an uncertain global context, Ipsos also launched the “Ipsos Cares” global program in 2024, aimed at promoting the well-being and health of its teams.

This program is based on three fundamental pillars:

- Mental health: “Ipsos Cares” aims to help employees strike a balance between the company's goals and their personal well-being, particularly mental well-being, by promoting better management of their working and private lives:
 - Flexibility in the arrangement of arrival and departure times and hybrid work model;
 - Access to a wide range of learning that addresses key areas such as time management, stress management and personal resilience, and the promotion of inclusion and diversity;

- Ipsos Facto, the internal artificial intelligence tool, is available to all employees, saving them time and allowing them to focus more on strategic and creative tasks. In 2025, around 2,900 new employees were certified to support sustainable employment and contribute to economic stability.
- Access to a support platform or psychological hotline depending on the country;
- And many other initiatives to promote work-life balance, the content of which is available in the Ipsos Cares booklet accessible to everyone via the intranet.
- Physical well-being: By promoting physical well-being, Ipsos Cares contributes to improving employees' working lives, and optimizing their performance and productivity, thereby creating a healthier working environment.
 - Depending on the country, Ipsos offers its employees access to an internal gym or participation in external gyms, wellness programs, etc.
 - In 2024, Ipsos rolled out the United Heroes app globally for all its employees, supporting the three pillars of the program, with more details below.
- Social well-being: Ipsos Cares promotes a positive, diverse and collaborative working environment, conducive to the social development of everyone. By encouraging social interaction, strengthening team cohesion, actively participating in the service of our various networks and fostering cross-functional collaboration, Ipsos builds an inclusive and respectful workplace where each individual feels valued and respected.
 - Our employee networks are essential. They are led and run by employees and help to make Ipsos a diverse and inclusive workplace, creating a sense of belonging for all. In the UK, the "Senior" network supports experienced employees in their career developments and transitions. The "Caregiver Community" network in several countries helps create a more inclusive and supportive working environment for employees caring for a loved one who is losing their autonomy. The "Pride" network supports the inclusion of LGBTQI+ people, prevents discrimination, raises awareness, and opens up discussions. The "Gender Balance" network aims to support and inspire women to advance their careers at Ipsos.
 - Since July 2023, each employee has received two paid days per year dedicated to volunteering, which they can carry out alone or with their colleagues, thus illustrating the company's commitment to mutual assistance, community support and social relations. This is an initiative deployed in all Ipsos subsidiaries. In 2025, 13,168 hours were devoted to volunteering.

The Group's ambition is to be the best place to work in the market research industry, a place where everyone can be themselves, flourish and develop professionally.

This well-being and health program is accessible to all employees via the intranet site.

The United Heroes app, which supports Ipsos Cares, is available in 13 languages. This app supports the three pillars of the program by providing access to a wide variety of content (articles, videos, coaching), sports and ESG challenges, as well as an online space that allows employees from around the world to connect and reinforce their sense of belonging to one company. More than 5,300 of our employees have been using it since launch. Since September 2025, a new feature allows our employees to donate the points they earn during their activities each month to various associations (selected by United Heroes), thereby reinforcing the app's social and community impact while highlighting the concrete commitment and generosity of our teams.

- This global program is also supported by regional and local initiatives, such as in Asia Pacific, where a wellness week was organized. It covered a variety of topics, including cancer, offering practical and evidence-based advice to reduce risks, as well as content on mental health.

IPSOS CARES
OCTOBER
WELLNESS WEEK
6 - 17 October 2025

Physical Wellness
The Power of Prevention:
How Can You Reduce Your Cancer Risk?

6 October 2025, Monday
3:00 pm - 4:00 pm
Teams Meeting

Given all the alarming headlines in the news about increasing cancer rates and a growing list of supposed causes of cancer, it is easy to get overwhelmed. In this talk, Pieter will share with you practical, evidence-backed advice on steps you can take to reduce your cancer risk. From diet to exercise, from stress to sleep and more, Pieter will share the data and concrete facts behind the often confusing headlines, drawing on his two decades of experience in this field.

- In France, Ipsos bva is continuing its commitment to employee well-being with a psychosocial risk prevention system. This program offers two complementary formats, completely confidential, anonymous, and free: on-site sessions at all locations, provided by specialist consultants from USIDE, and remote meetings with an occupational psychologist, accessible via videoconference on a smartphone or computer.

- In the MENA region, mental health and wellness programs have been implemented, including webinars, health check-ups and yoga/fitness days, to promote employee well-being across the region's offices.

3.1.5.2 Targets and metrics (H1-5 including MDR-T & MDR-M & S1-14 & S1-17)

Health, safety and well-being at work

Ipsos measures the rate of employee coverage by an occupational health and safety management system. As at December 31, 2025, the rate was 94% (excluding *contractors* and interns).

In 2025, no deaths were recorded due to an occupational accident or illness. There were 28 accidents at work and 35 cases of occupational illnesses, resulting in 525 calendar days of absence.

The ratio between the number of workplace accidents (with and without lost time) and the number of hours worked is 0.9 workplace accidents per 1 million reported hours worked.

These indicators only concern employees of the company, with no monitoring currently being carried out for other workers in the value chain.

No health and safety targets were set for 2025. Ipsos will ensure that all indicators of physical, psychological and social health listed in the Pulse survey demonstrate the overall good health of employees and that ad-hoc measures are taken when necessary. Ipsos is committed to supporting the health and well-being of its employees.

- In Belgium, Ipsos was once again named by "Sports Flanders" for the prestigious "Best Sports Company Awards" and won the "Best Sports Tip" trophy, in recognition of the commitment to develop numerous initiatives under the "Energy" program (sports and wellness) by mobilizing internal resources. Employees' energy and talent are valued, in an environment that encourages their sharing and practical application among colleagues.
- In North America, the Ipsos Cares Wellness program offered a variety of virtual wellness activities, including 20 events focused on self-care, fitness and webinars, with 786 participants.
- In Argentina and Brazil, the EAP program provides nutritional, legal, financial, and psychological support, with a platform utilization rate of 14%. Among sports initiatives, the Avon Breast Cancer Walk and the UNICEF Run, along with other events, involve an average of 20% of employees in physical activities.

In 2025, Ipsos received several awards that reflect its commitment to the well-being and professional fulfillment of its employees around the world.

Ipsos was officially certified by Great Place to Work as one of the best places to work in Mexico and Peru. In Brazil, Ipsos obtained "Incredible Places to Work (LIPT)" certification and was recognized as one of the top 150 companies to work for in the country. In the United States, the group was recognized by Forbes and Statista as one of "America's Best Employers for Women 2025". Lastly, in China, Ipsos received the HR Asia 2025 "Best Companies to Work for in Asia" award for the fourth consecutive year, celebrating the excellence of its HR practices in the region. In addition, Ipsos obtained the "Best Family-Friendly Management" certification in Korea and "Eruboshi Certification" in Japan, demonstrating its commitment to inclusion, diversity and work-life balance. In Canada, Ipsos was honored with the "Waterstone's Canada's Most Admired Corporate Cultures" award, which highlights the joint commitment of our executive officers and teams to living our values and creating an environment where everyone can fully contribute.

Working time, absenteeism rate

The absenteeism rate (sick leave, maternity leave and workplace accidents) was 1.26% in 2025, up slightly compared to 2024 (1.2%).

This absenteeism rate is defined as the number of hours absent from work relative to the number of hours worked without absences. The number of hours of absence includes sick leave, maternity leave and work-related accidents.

This rate, historically monitored in France for legal reasons, has now been monitored by country within the Ipsos Group since 2018, including analyses of the causes and local action plans.

Incidents relating to discrimination, harassment, working conditions and labor law

Ipsos measures incidents related to discrimination, harassment and other issues (working conditions, working hours, wages, workers' rights, gender equality, diversity, child labor, forced labor, etc.) through its *whistleblowing* system detailed in section [5.4.2.4.3](#).

In 2025, 23 cases of discrimination or harassment and 11 incidents related to employment conditions and rights were confirmed. Most of these cases did not result in follow-up. The total amount of fines, sanctions and compensation related to these cases amounts to €7,000, an amount not material in relation to the financial statements as at 12/31/2025.

	2025	2024
Total number of incidents of discrimination, including harassment, reported during the baseline period	23	14
<i>including incidents reviewed by Ipsos</i>	23	14
<i>including the redress plans currently being implemented</i>	2	2
<i>including the redress plans that have been implemented, the results of which have been reviewed as part of the regular internal management review procedures</i>	2	4
<i>including incidents no longer the subject of action</i>	15	8
Number of incidents relating to working conditions and labor law affecting the company's workforce during the baseline period	11	10
Number of serious human rights incidents affecting the company's workforce during the baseline period	0	0
<i>in which Ipsos played a role in obtaining redress for those affected</i>	0	0

3.1.6 Gender equality

3.1.6.1 Policies and actions

Like the market research sector, which is predominantly female, Ipsos has 60% women and 40% men in its workforce, with a proportion of 65% in research-related functions and 51% in support functions.

Ipsos applies the principle of equal pay for women and men in compliance with local regulations. This commitment is reflected in concrete terms in the promotion of equal opportunities and wages, fairness in promotion and career development, and the creation of working conditions that promote a work-life balance.

In 2019, Ipsos launched the "Women in Ipsos" program to ensure equal opportunities for women and men in terms of salary, career progression and treatment.

This international program, based on mentoring, training and organizing events, aims to support women in their professional development and to break the glass ceiling.

In 2020, the program was renamed the Gender Balance Network to bring together not only women but also men, so that they can make a commitment together on an equal footing.

Each country then adapted the program to its local context.

Examples of the Gender Balance Network's impact around the world

A long-standing advocate in the fight against discrimination, Ipsos is a signatory of the United Nations Women's Empowerment Principles (WEPs). These seven principles guide companies in promoting women's empowerment, ranging from high-level leadership to community initiatives and transparent reporting.

- The Gender Balance Network has been in existence for eight years and remains a very influential voice within the company, ensuring that gender parity is respected. At the local level, the Gender Balance Network has focused on extending support to caregivers, regardless of gender. Policies to improve quality, return rates and reintegration after parental leave have been developed (e.g. accreditation of Korea for its family-friendly policy and culture), as well as measures to support employees during difficult times in their lives (e.g. support for women in menopause in markets such as the US, South Africa and Poland). Sue Phillips, Global Head of ESG and Executive Sponsor of Ipsos Belong (a program that promotes inclusion and diversity), says: "It is important to maintain momentum in support of our Gender Balance Network. Our surveys consistently indicate that for two out of three respondents (68%), gender equality is a personally important topic. Conversely, far fewer (42 %) believe they will see significant progress on gender equality in the next five years."
- In Kenya, Ipsos launched the Sister and Men Talk Circle, which provides a platform for open dialogue on issues that affect both men and women, fostering understanding and collaboration between the genders.

At a global level, Ipsos is also working to ensure that women are well represented at senior management levels. Thus, in 2025:

- 41% of the executive officers in Level 1 of the leadership team were women (in 2024: 40%). This level comprises Ipsos' 197 top executive officers and experts, most of whom are shareholders of the Group;
- 49% of the executives in Level 2 of the leadership team were women: a more than promising pool of candidates to take over from the above Level 1 managers (in 2024: 50%). This level comprises nearly 683 executive officers and additional experts.

3.1.6.2 Targets and metrics (S1-5 & S1-6)

Ipsos is committed to professional and wage equality for women and men.

Breakdown of workforce by gender, type of contract and distinction between full-time and part-time employees

2025				
	Female	Male	Undeclared	Total
Number of employees (headcount/FTE)	11,336 (59.9%)	7,589 (40.1%)	N/A	18,925 (100%)

(*) Gender as specified by the employees themselves.

Breakdown of end-of-period and average workforce by gender

Gender	2025		2024	
	Number of employees (workforce at the end of the period)	Average number over the period	Number of employees (workforce at the end of the period)	Average number over the period
Male	7,589 (40.1%)	7,563 (40.1%)	7,445 (39.9%)	7,360 (39.9%)
Female	11,336 (59.9%)	11,309 (59.9%)	11,150 (59.9%)	11,075 (60.0%)
Undeclared	N/A	N/A	44 (0.2%)	24 (0.1%)
Total employees	18,925 (100%)	18,870 (100%)	18,639 (100%)	18,459 (100%)

Number of employees in countries where the company has at least 50 employees representing at least 10% of its total number of employees

Country	2025	2024
	Number of employees (workforce)	Number of employees (workforce)
UK	2,042 (10.8%)	2,003 (10.7%)
USA	1,804 (9.5%)	1,909 (10.2%)
Other countries (representing less than 10% of the total)	15,079 (79.7%)	14,727 (79.1%)
Total	18,925 (100%)	18,639 (100%)

3.1.7 Employee diversity and inclusion

3.1.7.1 Policies and actions

Ipsos' commitment to equality and non-discrimination is enshrined in its Professional Code of Conduct and Ethics.

In accordance with Principle 3 of the United Nations Global Compact, Ipsos respects non-discrimination in all its countries of operation. Recognizing diversity as a source of progress and performance, Ipsos is committed to ensuring employment equity and creating a respectful and dignified work environment. The Group promotes equal opportunities for all employees and candidates, with HR policies encouraging responsible behavior in line with best practices in terms of human rights, diversity and disability.

Ipsos' employment policies comply with legal and regulatory requirements, as well as the highest international standards.

Ipsos is actively committed to inclusion and diversity with its "Belong" global initiative, which aims to create a work environment where everyone feels valued.

"Belong" works on several fronts, including improving the representation of women and minorities in leadership positions, narrowing the gender pay gap, promoting a safe environment for LGBTQ+ employees, and reforming recruitment and promotion practices for profiles that are more representative of the national population.

In concrete terms, Ipsos has set up various employee networks (*ERG - Employees Resources Groups*), such as "Gender Balance Network", "OUT@Ipsos", "BRIDGE" (*"Being Racially Inclusive and Diverse Is Good for Everyone"*) and "Women's Network", to support under-represented groups and promote inclusion. The Group also participates in global events such as International Women's Day to raise awareness and promote gender equality.

The "Belong" committee is also working to meet Group clients' expectations through three main areas:

- Clearly communicating Ipsos' Inclusion and Diversity policy and commitments;
- Improving the representativeness of panels;
- Contributing to a global reflection on Inclusion and Diversity by providing the general public with forums, articles and studies on these themes.

Some of the actions carried out under the "Belong" initiative:

- In 2024, Ipsos developed a guide entitled “How to Belong”, accessible to all via our intranet. This guide presents best practices and covers all aspects, from understanding the “why” of belonging to practical tips for setting up employee networks and accessing resources. It is aimed at anyone who wants to further their knowledge of diversity, equity, and inclusion at Ipsos;

- According to our Pulse 2025 survey, 9 out of 10 employees say they feel free to be themselves at work, regardless of background, gender or identity. This global result reflects the impact of local BELONG initiatives and employee networks, which integrate inclusion, diversity and empathy into everyday life at Ipsos.

In 2025, BELONG actions were rolled out globally:

- In Germany, the new “Experience Matters” network supports employees aged 50 and over through mentoring and professional development.
- In New Zealand, Ipsos’ values were translated into “te reo Māori” and celebrated through a cultural mural symbolizing visible inclusion.
- In Korea, Ipsos obtained Family-Friendly certification for its flexible and caring policies.
- In Brazil, male executive officers participated in workshops on gender inclusion, fostering allyship and awareness.
- In Canada, the Neurodiversity Network and the Ipsos Charity Trust raised more than \$5.5 million for mental health initiatives.
- In the United Kingdom, the Pride Network and Human Resources have launched a “Transitioning at Work” policy to strengthen the inclusion of trans people.
- In Mexico, the “Voices of Belonging” initiative is reflected in a series of podcasts featuring interviews with employees, in order to share their professional and personal experiences and strengthen authentic ties between teams. Launched locally, the initiative now extends to other regions, offering a better understanding of employees’ passions, motivations and experiences within and outside Ipsos.

In this context, EMBRACE, launched in 2025, plays a central role as an Employee Resource Group celebrating cultural diversity (Many Cultures, One Love). EMBRACE promotes cultural understanding, equity and representation through mentoring, intercultural dialogue and community engagement. Its values – Empowerment, Mentorship, Belonging, Respect, Allyship, Community and Equity – guide actions that foster connection and shared growth in all regions.

Together, BELONG and EMBRACE promote equal opportunities, employee well-being, and inclusive governance. They illustrate our conviction that a culture of belonging not only strengthens our employees, but also fosters sustainable, responsible and human-centered growth.

3.1.7.2 Targets and metrics (S1-9 & S1-12)

Ipsos has three main targets in terms of diversity and inclusion:

- Increase the representation of women in management positions: Currently, women represent 40.6% of the level 1 workforce (2025 target set at 41%) and 48.9% of the level 2 workforce (2025 target of 50%). Women represent 47.0% of the workforce at levels 1 & 2 combined. The target is to have at least 42% women in the level 1 workforce and at least 50% in the level 2 workforce by 2026. These targets were submitted for approval by the Board of Directors after presentation to the Compensation Committee;
- Reduce the gender pay gap: The current gap is less than 4%. The target is to keep the gap below 4% in 2025.
- Ensure access to the diversity and inclusion networks for all employees: The target is for 100% of the workforce to have access to networks such as Pride and Belong, as mentioned above, as well as to the awareness and training actions offered by these networks or by the ITC.

Moreover, for more than five years, the ratio of women in executive officer positions (levels 1 and 2) has been a bonus criterion for the CEO, weighted at 10%, and the 2025 target has not been met (40.6% women in L1 and 48.9% women in L2).

For 2026, at constant scope, the target was set at 42% of women in L1 and 50% of women in L2.

Breakdown by gender in number and percentage at senior management level

	2025		2024	
	Number of employees at senior management level (Level 1 & Level 2)	Percentage of employees at senior management level (Level 1 & Level 2)	Number of employees at senior management level (Level 1 & Level 2)	Percentage of employees at senior management level (Level 1 & Level 2)

Total	100%	100%	100%	100%	100%	100%

3.1.8 Training and talent development

3.1.8.1 Policies and actions

Ipsos aims to create an environment where everyone can find meaning in their contribution, be involved in a rewarding collective process and develop both personally and professionally. To achieve this, Ipsos pays particular attention to the integration, training and development of employees.

Employees need to be trained to respond effectively to clients' needs, but also to increase their skills, develop their careers and grow professionally. Training is key to the growth and commercial success of Ipsos. The way in which Ipsos develops and delivers its training has evolved to be more innovative, maximize technology and AI, and make the best use of in-house experts.

Ipsos implements various training programs, which are conducted either face-to-face, remotely or online via the Ipsos Training Center (ITC), Ipsos' dedicated platform.

Training: focus on the Ipsos Training Center (ITC)

The Ipsos Training Center (ITC) is the department in charge of designing and delivering online training to all employees.

Available from the iTalent platform, ITC provides the latest online learning solutions and plays a major role in developing skills within the organization.

The ITC serves as a single, centralized portal for all Ipsos global training offerings. It is accessible on mobile and even works offline, making learning more flexible and easily accessible for employees.

In 2025, 84% of Ipsos employees used the ITC to complete at least one training activity. This demonstrates its high level of adoption and its impact on all employees.

The ITC provides training on a wide range of topics related to Ipsos' solutions and methodologies as well as on technical and soft skills.

The ITC currently offers 523 e-learning courses for employees, classified according to six skill types:

- **Client First:** improve client interactions and business development to become a trusted partner for them.
- **Leadership and Soft Skills:** bolster personal effectiveness and the ability to manage a team.
- **Onboarding and Support:** equip employees with the fundamental knowledge needed to collaborate effectively within Ipsos.
- **Market research:** strengthen expertise in market research.
- **Service Lines:** deepen understanding of Ipsos service lines, tools and methodologies.

- **Technical Skills:** develop proficiency in current and emerging technologies, including AI.

In 2025, 75 new courses were added to the ITC catalogue, expanding the learning opportunities available to employees.

The ITC also offers four accreditation programs for certain service lines:

- Innovation;
- Brand Health Tracking;
- Healthcare Compliance;
- Experience Academy.

In addition, the Fundamentals of People Management certification helps new managers and those aspiring to become managers to develop essential leadership skills. The “Total Operations Academy,” launched in 2025, promotes the development of interpersonal and professional demeanor skills. The ITC also contributes to talent development through the “Generation Ipsos” training program that aims to develop young talents.

Course content is regularly reviewed and updated in collaboration with subject matter experts. This ensures their relevance and suitability to the needs of the business, new Ipsos solutions and skills gaps.

In response to the rapid evolution of AI and employees’ training needs, the ITC developed several online training courses in this area. These training courses include content on dedicated tools, such as Ipsos Facto, as well as inspiring videos and speeches from Ipsos experts. In 2024, an AI certification was developed to strengthen everyone's skills in this area.

In response to the rapid evolution of AI and the changing needs of employees, the ITC has launched several new training courses in this area. GenAI certification remains in high demand and in addition, a new series of “AI Everyday” micro-courses was launched in 2025. These are short and practical modules to help employees integrate AI into their day-to-day tasks. For example, teams can learn how to leverage AI to analyze client briefs, generate executive summaries, or receive coaching on their presentations so that they capture attention and drive action.

Welcoming new employees

Ipsos deploys a procedure for welcoming new employees in all regions, ensuring a consistent experience for each newcomer. This initiative is crucial to providing a quick immersion in the company’s values, history, organization, and processes.

In 2023, Ipsos conducted an audit of the integration processes in each country.

In 2024, an online process was launched through the HRIS iTalent platform, enabling each new employee, wherever they are, to access the same information and training.

In 2025, we enriched this process by integrating local specifics to ensure a fully online and consistent experience for all employees.

In 2024, Ipsos strengthened its mandatory training programs (10 hours of training compared with 6 previously). These programs aim to develop an in-depth understanding of the company's functions and internal dynamics. The training sessions focus on three main areas: Working Together, Essential Principles of the Researcher's Profession and Engagement with Ipsos. These courses are now shorter to be more effective, including topics such as financial awareness, data security/privacy, code of conduct and generative artificial intelligence (GenAI).

We are proud to see the positive effects of our new global onboarding program, which helps strengthen the consistency and quality of the employee experience from day one. Successful integration lays the foundation for sustainable engagement, allowing our employees to feel connected, informed and motivated as soon as they arrive.

One year after the program was launched, we have seen a decrease in the turnover rate of new employees in their first year, from 26% to 19%, a reduction of around one quarter. While this improvement is also due

to other factors, such as the global economic environment, our analyses show that the onboarding program has clearly contributed to this positive momentum. The qualitative results of our internal surveys confirm this interpretation: 83 % of new employees say they fully understand the mission, vision, culture, and values of Ipsos after one month, 85% consider the onboarding program relevant and effective after three months, and 86% feel they made the right decision by joining the company in their first month.

These indicators demonstrate that a clear, consistent and engaging onboarding experience fosters a lasting sense of belonging and trust – a critical step in building strong beginnings and supporting talent retention within Ipsos.

“I’m very impressed by how thorough the onboarding process at Ipsos is, it’s the best onboarding experience I have had in my working life!” Channel Performance, US

The Country Managers School

Specific training is given each year to new Ipsos country director.

This training is designed to help them understand the different aspects of their new role and their main responsibilities. It is delivered by senior Ipsos experts and covers a wide range of areas: finance, legal, communication, management, client management, and corporate and environmental governance.

The Country Managers School makes the country directors aware of the expectations linked to their new position and enables them to be more efficient and effective more quickly.

In June 2025, the Country Manager School brought together 14 participants for a full-day meeting in Paris. Prospective talents likely to become country managers were also invited, in addition to the new managers appointed in recent months. On this occasion, a “Country CEO Guide” was created and distributed to all participants, in which they can find useful information and key resources to succeed in this role.

Leadership development

In 2025, Ipsos implemented two new global leadership programs, demonstrating our commitment to investing in the development of our leaders.

- **Leadership Academy**

In 2025, Ipsos partnered with HEC Paris to design and deliver a leadership development program for 33 Ipsos leaders, selected from our top talent and identified as potential successors in key positions. This program took place over six months and included:

- five e-learning labs
- a five-day residential program on the HEC campus
- carrying out strategic projects
- individual interviews

The content was structured around three focal areas: growth strategy, change management and self-knowledge. The program was very well received, with an overall rating of 4.89/5.

- **Accelerated Leadership**

In 2025, Ipsos partnered with Peoplewise to create a global leadership development program, in line with Ipsos’ culture and values.

This program brought together approximately 140 participants from all regions, in various roles at Ipsos: service lines, client organization, operations, finance, and human resources. The first step was to conduct 360-degree feedback so that everyone could better understand themselves and assess their

leadership. The program itself was then delivered by the Peoplewise consultants as nine virtual sessions of approximately 2 hours 30 minutes each over a period of six months. The participants were divided into groups of up to 15 people, allowing for more expansive discussions within the group. The last session consisted of an individual review of the most useful tools, models or techniques, and their practical applications.

This initiative was highly valued by the participants, who were able to put their learning into practice and measure its impact with their teams or peers.

Generation Ipsos: Promoting the Group's appeal to new graduates

In order to consistently demonstrate a genuine interest in employee development, Ipsos launched the "Generation Ipsos" program in 2014. This initiative, aimed at new graduates, is designed to provide them with a solid foundation of knowledge and skills in the field of research, and to strengthen links and interactions between employees from the different service lines. This internal training program will then enable them to apply for various positions within Ipsos.

This global program aims to recruit the best curious and passionate market research talent, contribute to their development, integrate them into the Ipsos culture and immerse them in the Ipsos organization, by offering them training and development opportunities.

It includes online training courses, practical activities (organized locally) and a team project presented to experienced local managers. Participants can also experience the work and environment of several service lines and thus enrich their knowledge of the market research industry.

Since its launch, approximately 5,800 new graduates have participated in the program in 59 countries. Global initiatives have been launched for the Generation Ipsos community:

- GI Voices, a series of 30-minute webinars on cross-functional topics, allows young people to meet some of the Ipsos leaders virtually and discuss business issues in an informal setting. In 2025, these events brought together over 700 participants across three webinars dedicated to improving oral presentation skills, writing engaging questionnaires, and using a social network like LinkedIn to communicate.
- In 2025, Generation Ipsos "Global Awards" were awarded in recognition of the best projects completed at the end of the program by participants. The nine finalist projects were presented to a global panel that challenged the young presenters and evaluated their performances. This exercise allowed the finalists to interact with a panel of senior leaders and improve their teamwork, content development, and oral presentation skills.
- A new initiative was also launched at the end of 2025 for Generation Ipsos participants: the Ipsos Research Club. Around 50 participants applied to participate in this group, led by the Chief Methodologist of Ipsos. The aim is to reflect and make recommendations on research practices.

In the countries, local initiatives are also implemented:

- In the UK, the TikTok social network is used to communicate about the Ipsos Generation program through the ipsosnextgen account. The content is created by a team of young creative talents, organized around three pillars: inform about Ipsos, highlight inspiring journeys, and showcase life at the office and special events. This medium offers the opportunity to communicate in a different and more attractive way for younger generations.
- In Japan, graduates take part in a rotation program allowing them to spend a week in each service line. This gives them a better understanding of the various business lines, for example by attending client meetings and working on market research projects;
- In South America, a virtual bootcamp was organized in 2025 for around 20 participants in the Generation Ipsos program throughout the region. Participants were divided into teams to tackle various challenges related to teamwork, Ipsos values and using Ipsos Facto, our artificial

intelligence tool, to be more creative and efficient. This event allowed them to develop key skills in a fun and engaging way.

Ipsos pays particular attention to the professional development and career management of employees. To this end, the HR teams help staff progress and move between departments by means of talent reviews, performance and mobility interviews, 360-degree assessments and tailored career development plans.

Assessing employee performance and helping them progress

In 2025, 85% of employees had an annual individual performance review. These reviews provide the perfect opportunity for employees to talk to their manager; during the review, the employee's performance is discussed and recorded, as are areas for development.

Throughout the year, managers also give regular feedback to the employees in their team. According to the Pulse 2025 survey, 58% of those surveyed say they talk to their manager at least once a quarter, or more often.

360° feedback

Since 2023, a 360-degree assessment tool tailored to Ipsos has been available on the iTalent HR information system. This method allows employees to receive feedback on their and conduct from various sources in their professional environment: peers, subordinates, managers. The aim is for each employee to have a complete view of his/her strengths and areas for improvement, in order to define individual action plans. It is used as a basis for career and leadership development discussions.

Organizing staff reviews to identify talent and establish succession plans

Staff reviews are carried out jointly by managers and HR managers. They consist of evaluating employees using a matrix that establishes the levels of performance and potential for each person. They are also an opportunity to discuss the action plans to be implemented for each employee.

These staff reviews make it possible to:

- Identify key talents, experts and high potentials;
- Have a talent management policy that is both dynamic and proactive;
- Develop succession and continuity plans in the event of departure or change of position;
- Implement appropriate career management in terms of compensation, promotions, and mobility;
- Propose relevant development plans to help employees progress.

Each year, the exercise is coordinated by the Group Human Resources Department for the company's senior executives. Actions are identified for some of these employees (mobility, coaching, training). The Group HR Department then ensures that the decisions are implemented.

Offering attractive career paths through internal mobility

Ipsos encourages functional mobility and international mobility. Internal mobility enables all employees to further their professional development and also enables Ipsos to retain its staff. For example, employees can express their wish to be assigned to another department to learn a different job or to be given the opportunity to work abroad.

Since 2023, Ipsos has launched the "Opportunity MarketPlace" platform to strengthen internal mobility and support the professional development of its employees. It brings together all open positions in all the countries where the group operates, providing an overview of the opportunities available. This initiative

aims to encourage mobility within the group, foster the acquisition of new skills, and support career progression.

In particular, it enables our employees to

- view all internal job postings published by the Group in real time;
- set up personalized alerts in order to be informed of new opportunities matching their career path and their professional ambitions;
- submit their application directly online and monitor its progress at each stage of the process;
- recommend or share a vacancy with a colleague or external contact, thus encouraging co-option and enriching Ipsos' talent pool;
- record their professional preferences in order to foster discussions with their manager and support the implementation of a proactive internal mobility policy.

By facilitating the visibility of opportunities, our platform directly contributes to the collective performance and loyalty of Ipsos employees. In 2025, more than 2 000 employees registered lateral or international mobility preferences. This feature enables us to anticipate conversations with our employees so that we can align as closely as possible with their career development aspirations within the company.

Career paths have also been defined for Research, Operations, Tech and Human Resources staff in order to inform them of how they can develop within Ipsos. These career paths can be vertical (advancement through the hierarchy) or functional (change of team or job).

Since Ipsos operates in 90 markets, employees have a very broad platform for their professional development. Ipsos encourages international career paths. As of December 31, 2025, Ipsos had over 1,600 employees working in a country other than their home country, demonstrating the great diversity of its workforce. Each year, Ipsos manages around one hundred inter-regional geographic transfers.

3.1.8.2 Targets and metrics (H1-13)

Training is a pillar of Ipsos' HR strategy. In 2025, the Group has two key targets:

- For all new employees to complete the Onboarding Journey;
- For 90% of employees to receive a performance review.

By setting these two targets for 2025, Ipsos is reasserting the importance of training in its HR strategy. The successful integration of new employees and the regular monitoring of performance are key success factors for the Group.

Employee performance reviews

The following indicators concerning the share of employees assessed on their performance and career development are determined by taking into account the number of employees to be assessed in 2025, i.e. eligible for the assessment process:

2025			
Gender	Number of employees assessed	Total population to be assessed	Percentage of employees assessed on their performance and career development
Female	8,404 (58.3%)	9,961 (59.0%)	84%
Male	6,021 (41.7%)	6,933 (41.0%)	87%
Total employees	14,425 (100%)	16,894 (100%)	85%

2024			
Gender	Number of employees assessed	Total population to be assessed	Percentage of employees assessed on their performance and career development
Female	8,880 (59.3%)	10,171 (59.4%)	87%
Male	6,090 (40.7%)	6,939 (40.6%)	88%
Total employees	14,970 (100%)	17,110 (100%)	87%

The following indicators concerning the share of employees assessed on their performance and career development are determined by taking into account the total number of employees as defined in section 3.1.1(S1-6), according to AR 77 of the ESRS S1 standard:

2025			
Gender	Number of employees assessed	Total number of employees (S1-6)	Percentage of employees assessed on their performance and career development
Female	8,404 (58.3%)	11,336 (59.9%)	74%
Male	6,021 (41.7%)	7,589 (40.1%)	79%
Total employees	14,425 (100%)	18,925 (100%)	76%

2024			
Gender	Number of employees assessed	Total number of employees (S1-6)	Percentage of employees assessed on their performance and career development
Female	8,880 (59.3%)	11,150 (59.9%)	80%
Male	6,090 (40.7%)	7,445 (39.9%)	82%
Undeclared	-	44 (0.2%)	N/A
Total employees	14,970 (100%)	18,639 (100%)	80%

Ipsos Training Center (ITC): Average number of training hours per employee

The following indicators regarding the average number of training hours per employee are determined by taking into account the total number of employees having attended at least one ITC training course:

2025			
Gender	Number of employees who took ITC training	Number of training hours	Average number of training hours per employee*
Female	9,497 (60.8%)	57,714 (65.7%)	6
Male	6,128 (39.2%)	30,132 (34.3%)	5
Total employees	15,625 (100%)	87,846 (100%)	6

2024			
Gender	Number of employees who took ITC training	Number of training hours	Average number of training hours per employee*
Female	9,905 (58.8%)	82,733 (61.8%)	8
Male	6,931 (41.2%)	51,212 (38.2%)	7
Total employees	16,836 (100%)	133,945 (100%)	8

*Training other than ITC modules is offered to employees and is not covered by the data shown in this table.

The significant decrease in the number of training hours carried out at the Ipsos Training Center in 2025 is mainly due to the fact that mandatory training modules for all employees were introduced in 2024, thus generating a higher volume of hours in 2024.

The following indicators regarding the average number of training hours per employee are determined by taking into account the total number of employees as defined in section 3.1.1 (S1-6), according to AR 78 of the ESRS S1 standard:

2025			
Gender	Total number of employees (S1-6)	Number of training hours	Average number of training hours per employee*
Female	11,336 (59.9%)	57,714 (65.7%)	5
Male	7,589 (40.1%)	30,132 (34.3%)	4
Total employees	18,925 (100%)	87,846 (100%)	5

2024			
Gender	Total number of employees (S1-6)	Number of training hours	Average number of training hours per employee*
Female	11,150 (59.9%)	82,733 (61.8%)	7
Male	7,445 (39.9%)	51,212 (38.2%)	7
Undeclared	44 (0.2%)	-	N/A
Total employees	18,639 (100%)	133,945 (100%)	7

*Training other than ITC modules is offered to employees and is not covered by the data shown in this table.

3.1.9 Measures against violence and harassment at work

3.1.9.1 Policies and actions

Ipsos communicates its values and expected behavior to its employees, particularly with regard to respect for human and environmental rights, through the "Code of Conduct and Ethics Charter" provided to each employee, and the Book of Policies & Procedures.

The prevention of social, environmental and societal risks is central to the training provided.

In addition, managers are regularly made aware of their duty of care. In November 2024, a mandatory one-hour training course on the “Code of Conduct and Ethics Charter” was provided to all Group employees. This training is an integral part of the onboarding process for all our new employees.

Whistleblowing system

In 2013, the Group set up an external *whistleblowing system* managed by an independent external body, currently EthicsPoint.

This system, which is incorporated into a records management system, encourages Group employees to report, anonymously or not, any inappropriate behavior that cannot be reported through the usual internal reporting channels. Any suspicious behavior or event can be reported by letter, e-mail, telephone or via a secure web access.

The system is designed to enable the data collected to be verified on a confidential basis so that Ipsos can decide what action to take to resolve the issue raised. Cases are followed up in a consistent and efficient manner.

Since 2018, anyone – third parties included – can access the system, which covers all areas such as fraud, anti-competitive practices, corruption, breaches of data confidentiality or privacy, violation of company policies, infringements of fundamental freedoms, human rights, and the environment.

All alerts are centralized on the platform, to which only Internal Audit has access. Internal Audit processes each alert reported according to its nature and the degree of confidentiality. An investigation is routinely carried out, without exception.

3.1.9.2 Targets and metrics

The number of internal alerts and alerts via Ethicspoints are presented in Section [5.4.4.2](#)

3.1.10 Confidentiality and protection of Ipsos employees’ private information

3.1.10.1 Policies and actions

The first commitment to society is to produce research – including in the public interest – with transparency and integrity.

The business is based on the collection and analysis of information about people. Privacy and data security are paramount in everything Ipsos does. Ipsos maintains the highest level of data protection and complies with privacy laws and regulations to ensure that the personal data used in research is protected against unauthorized access, loss, destruction, manipulation, or disclosure.

Committed to professional integrity, Ipsos informs all employees about the Ipsos Professional Code of Conduct and Ethics (available on the website). This document outlines the values, policies and procedures to ensure that Ipsos acts in full compliance with the laws and regulations in its countries of operation, as well as with top standards and best practices. It also covers the ethics and human rights charter, transparency, the fight against corruption and discrimination, and duty of care. This document is shared with Ipsos clients and suppliers.

Data protection is a fundamental aspect of the Group’s business. The protection of personal data, whether internal to Ipsos, collected from respondents or entrusted by clients, is a business imperative and a major social responsibility.

Ipsos’ compliance framework for personal data protection is built around the European Union’s General Data Protection Regulation (EU) 2016/679, also known as the GDPR. The requirements and principles of this regulation have been adopted as the basis for Ipsos’ overall compliance program with regard to data protection and confidentiality.

The GDPR has quickly become the legislative standard for data protection, and the vast majority of new data protection legislation is heavily based on it. Ipsos is also a member of ESOMAR, the industry self-regulatory body for market, social, opinion and data analysis studies. The ICC/ESOMAR International Code applies to Ipsos worldwide.

In 2018, Ipsos implemented a global internal privacy policy applicable to all employees in all countries of operation. It is supported by the Global Data Protection Officer. This policy was last updated in 2024 to stay in line with legislative developments and remains under constant review. In 2025, no changes were made. It is available on the website Ipsos.com. It is also disseminated internally, particularly through the Book of Policies & Procedures (Section 8 Confidentiality and Data Protection), and through regular training sessions. To ensure ongoing compliance with data protection legislation, Ipsos has appointed a global head of data privacy and data protection officers in each country, as well as a global head of information security and an accompanying team.

In addition, Ipsos makes every effort to ensure that its suppliers who process personal data are assessed on compliance with the application of data protection standards. Ipsos can conduct audits of the majority of its strategic suppliers, including on-site audits. Ipsos itself is regularly subject to audits by its clients.

In addition, several of the main operating entities are ISO/IEC 27001:2022 certified. This ISO standard and its compliance also underpin Ipsos' overall operational requirements, even when there is no certification.

Data security

The protection of Ipsos' internal data, collected from respondents or entrusted by our clients, is a business requirement but also a major social responsibility for Ipsos. The Ipsos IT organization (Ipsos Tech) has launched several initiatives that support its commitment to the protection, confidentiality, availability and integrity of this data:

- Implementation of two-factor authentication for access to the Ipsos network;
- Implementation of a comprehensive best-in-class email filtering solution in April 2023, which was extended in 2024 and 2025 to include behavioral analysis, phishing training, and security awareness.
- Progressive compliance with ISO 27001:2022 certification country by country (all existing ISO 27001 scopes at Ipsos were successfully re-certified and five new countries were certified in 2023: Australia, Brazil, India, Spain and Nigeria);
- Implementation of a cloud WAF (Web Application Firewall) to protect the main domains;
- Vulnerability scans conducted annually by a third party;
- Penetration testing of all data collection platforms conducted annually by a third party;
- Next-generation antivirus deployed on all computers (Endpoint Detection and Response – EDR), managed by an external supervision team 24 hours a day, 7 days a week;
- Subscription to an advanced malware detection/remediation application;
- Extension of our EDR platform to include identity security, including automatic reset and revocation of user credentials/tokens when compromised credentials are detected on the dark web;
- Implementation of an agent-based vulnerability management tool that covers all Ipsos IT equipment and allows administrators to see on/offline vulnerabilities affecting a host in real time; Encryption of storage data for all major hosted application platforms and on all mobile devices (laptops, smartphones, tablets, etc.);
- Implementation of an API-based secrets manager in 2025;
- The implementation of a centralized and global secure disposal tool that tracks waste sent to landfill and CO2 emissions avoided.

A network security infrastructure upgrade is under way in the main managed hosting data centers, the aim being to replace all network hardware with next-generation security hardware.

Below are two examples of systems that enable Ipsos to monitor the management of data privacy, particularly regarding employees:

- The monthly IT security report, which lists all incidents during a month at the employee level regarding detected malware, critical threats and password risks, as well as incidents at the client and supplier level;
- The register of identified and resolved IT risks, which lists said risks by type of tool, geographical scope, risk identification, type of vulnerability and its limits, with an assessment of the level of risk, the control applied in relation to the ISO 27001 standard and corrective actions.

3.1.10.2 Targets and metrics (S1-5)

Ipsos has put in place appropriate training to enable employees to take risks related to confidential information into account.

The goal is for 95% of employees to be trained in confidentiality and data protection rules and procedures (Book of Policies & Procedures) by 2026.

3.2 Strong focus on working conditions across our entire value chain (S2)

Reminder: the process followed to identify the material impacts, risks and opportunities covered in this section is described in Section [5.4.2.1.4.1](#) "Description of the double materiality analysis process". The results of this analysis are presented in Section [5.4.2.1.2.3](#) "Material Impacts, Risks and Opportunities and their interaction with strategy and business model (SBM-3) and adverse impact remediation procedures (Ipsos policies and initiatives)".

These impacts, risks and opportunities are generally not specific to Ipsos and apply to most companies with respect to their supply chain. One specific feature, however, is that, as Ipsos is a service company, some of the risks, particularly related to forced and child labor, are probably more limited than in other sectors. However, they are all subject to heightened vigilance.

3.2.1 Ipsos expects its suppliers to meet the same commitments to their employees as those it applies to its own teams (S2-1 & S2-5)

Ipsos pays particular attention to ensuring that its sustainability requirements are not limited to our own operations but cover our entire value chain, particularly our suppliers and their employees.

An important category of partners, key to our activity, is that interviewers – individuals who, in around 130 countries and territories, ask voters and consumers about their opinions, choices, and behavior. Even in the digital age, this capacity is essential: two-thirds of humanity does not have access to the internet as we know it. These interviewers operate either face-to-face or by telephone.

Beyond that, Ipsos has thousands of suppliers around the world, in areas ranging from IT and data to the provision of everyday goods and services. We have the same requirements for them.

Ipsos' policy aims in particular, in all the countries in which it operates, to ensure that all its suppliers respect human rights and the fundamental conventions of the International Labor Organization (ILO). Ipsos ensures that no one is complicit in violations of these rights. Regarding child labor, Ipsos is likely not among the highest-risk sectors due to its activity, as our professional services activity is not well suited to the employment of minors. The same applies to forced labor, a subject on which Ipsos is nevertheless very attentive in compliance with **Principle 4 of the United Nations Global Compact** on the abolition of forced or compulsory labor. Operating, for a small part of its business, in so-called high-risk geographic areas, including a number of developing economies where the rule of law is fragile, Ipsos maintains a high level of vigilance on this issue.

In its relationship with its suppliers, Ipsos also uses the United Nations Sustainable Development Goals (SDGs) as a reference.

Ipsos suppliers must refrain from using equipment manufactured in violation of these rights. They must refrain from any discrimination in recruitment, compensation, access to training, advancement, and dismissal or retirement.

The entire policy is placed **under the joint responsibility of the ESG Department**, headed by the Global Head of ESG, **and the Group Purchasing Department**, headed by the Group Purchasing Director.

The goal of all the actions carried out is to avoid any violation of these principles.

3.2.2 Several mechanisms contribute to meeting these targets (S2-4)

The first tool implemented to ensure optimal working conditions for the employees of these suppliers is a rigorous process of selecting and continuously assessing these suppliers. The selection process is based on **competitive bidding** and the application of assessment grids combining quality, price and sustainability criteria. It is managed globally by the Group Purchasing Department, supported by buyers in the main markets and local teams in smaller markets.

A set of other mechanisms has been put in place:

- Ipsos requires its suppliers to comply with a **Supplier Code of Conduct**, which details mutual commitments, particularly with regard to workers' rights, working conditions and the fight

against harassment, child labor, and forced labor²; This code is publicly available on the Ipsos website and proactively communicated to suppliers. The current edition of the Code dates from 2023. The launch of a review project is scheduled for 2026.

Ipsos Book of Policies and Procedures

Organization and Governance

Supplier Code of Conduct

Focus on the Supplier Code of Conduct

The Ipsos Supplier Code of Conduct sets out the mutual expectations and commitments of Ipsos and its suppliers, particularly in terms of ethics, social responsibility, and environmental protection.

All suppliers must comply with the principles of the United Nations Global Compact, as well as the fundamental conventions of the International Labor Organization (ILO), particularly related to forced labor, child labor, non-discrimination, and freedom of association. It is responsible for ensuring decent working conditions, promoting diversity, combating corruption, and minimizing its environmental impact.

Ipsos is committed to the fair selection of its suppliers, fair financial treatment, and collaboration to reduce the risks of mutual dependence.

Ipsos has the option of conducting or sponsoring audits to verify the correct application of the code.

In the event of non-compliance with its principles, corrective measures may be required. A breach of the code may also lead to the termination of the business relationship.

The Code is managed jointly by the Group Procurement Department and the ESG Department.

It is applicable to all Ipsos suppliers, although its deployment focuses primarily on the 450 largest suppliers.

- Ipsos, a long-standing member of the **United Nations Global Compact** since 2008, encourages its main suppliers to adhere to its Ten Principles, which include the same obligations and commitments. Of Ipsos' main suppliers (accounting for 60% of expenditure in 2025) 37% (in terms of expenditure) adhere to the principles of the United Nations Global Compact. In 2025, Ipsos strengthened its relationship with the Global Compact and launched a series of communication initiatives with its members on sustainability issues, as informed by recent Ipsos studies.

In 2025, the structuring and strengthening of the Group Purchasing Department continued and the monitoring of global suppliers continues to be improved in terms of ESG.

During the year, no incidents or alerts were identified regarding the working conditions of employees in the value chain.

² <https://www.ipsos.com/en/nos-codes-de-conduite-0>

- Ipsos requires its suppliers to carry out regular **assessments** and, if necessary, conducts **audits** of its suppliers, particularly in the event of questions about their sustainability approach. At least one assessment is carried out per supplier for each major contract. The assessment is based on a questionnaire, addressing both quality aspects of the service and ESG issues, and on the provision of any independent certifications, labels and ratings (e.g. Ecovadis) that the supplier has.

3.2.3 Clear channels and tools to identify and stop potential breaches (S2-2 & S2-3)

Supplier assessment is an ongoing process. The initial assessment is followed by regular reassessments, particularly when contracts are renewed.

All supplier employees also have access to the Ipsos **whistleblowing platform**, managed by an independent third party, EthicsPoint, which is available freely on the internet. This system and the incidents it identified in 2025 are presented in Section [5.4.2.4.3](#). In addition, whistleblower protection is ensured through the ability for them to remain anonymous, the outsourcing of the whistleblowing tool to an internationally recognized platform, and the possibility for any whistleblower to discuss with Ipsos any possible retaliation for the report they have submitted.

Dialogue with suppliers' employees also takes place indirectly, through these assessments, audits and whistleblowing. Assessing the effectiveness of this dialogue remains complex, however, as these employees often work for suppliers for whom Ipsos is just one of many clients.

Any refusal to sign the Code of Conduct or to commit to compliance with the Global Compact gives rise to a discussion on alternative ways of ensuring compliance with the principles required by Ipsos.

In the event of a proven failure, the relationship with the supplier is reviewed, leading to an **action plan** aimed at resolving the failure and resulting, where applicable, in a **termination of the collaboration** with the supplier concerned.

3.3 Production of reliable and verified data for decision-makers, citizens and consumers (S4)

3.3.1 Consumers and users of Ipsos services encompass several populations

As a business-to-business (B2B) company, whose clients are professionals, Ipsos does not directly have individual clients. The identification of “consumers and end users” of its services, as required by the Sustainability Report, is therefore less immediate than for other companies.

These consumers and end users include in particular:

- Our **clients**;
- **Readers** of our opinion, society and market analyses – including **voters** who read our political polls;
- The **consumers of goods and services** produced by our clients and on which we have advised them, *through* product tests for example;
- The audience affected by the **advertising campaigns** tested by Ipsos;
- The **respondents** to our surveys, whether they are occasional respondents or members of our panels.

Furthermore, the deployment of the Ipsos Digital platform³, which enables clients to conduct online surveys themselves (*DIY (Do-It-Yourself) Research*), has the potential to **democratize access to opinion surveys, for example by enabling small companies or associations, or even individuals, to carry out such studies.**

3.3.2 Strong requirements regarding the rights and expectations of our respondents, as well as of the users of our studies (S4-1 & S4-5)

3.3.2.1 A set of important principles governing the conduct of our studies

In relation to all these audiences, Ipsos applies several important principles. Compliance with these is key to our mission, which is to inform decision-making, companies, governments and individuals through the production of reliable, verified and accurate data and *insights*. These principles include:

- The **confidentiality** of all personal data of our respondents;
- The **faithful representation** of the opinions and behaviors of the people interviewed – the very condition for the success of our business;
- To this end, **the completely free expression** of respondents’ opinions. This requires robust survey methodologies, ensuring the quality of questionnaires and other investigative tools, their impartiality and the absence of bias. For surveys carried out by clients in DIY mode detailed in Section 5.4.2.3.2.1, the questionnaires designed by clients are verified by an Ipsos expert. This work is supervised in particular by the Ipsos *Chief Methodologist* and occupies several centers of expertise, including the *Qualitative Research and Engagement Center* (QREC) for qualitative studies;
- The **representativeness** of the panels of respondents. This is ensured by a set of statistical methods. Ipsos has, in particular, certain “probabilistic” panels, through its *Knowledge Panel* offering, which constitute the highest standard of representativeness of a population;
- **Inclusivity**. Ipsos is continuously working to integrate all categories of population among its respondents, regardless of their age, whether or not they have access to the internet, any disabilities they may have, their belonging to an ethnic, religious or gender minority, etc.
- Exacting **professional conduct** and **ethics** in the execution of our work. Responding to all our studies is voluntary. The anonymity of respondents and the protection of their personal data are imperative;

³ <https://www.ipsos.digital/>

- **Rigorous verification processes** on respondents, their identity and their responses, to ensure the quality of the data collected;
- The **honest representation of the results** of our studies. This is ensured by Ipsos in its reports and other publications. Any publication by a client of an Ipsos study must be subject to Ipsos' the prior agreement, notably to ensure that its conclusions are correctly presented. Similarly, an erroneous, misleading or false public communication made by a third party on the basis of one of our studies will result in a corrective statement from Ipsos.

These principles are particularly important given the requirement set out in the European Sustainability Reporting Directive in terms of "ethical and responsible marketing practices". Indeed, the first impression Ipsos has on the general public and our clients is our studies, particularly those that lead to public communication. It is therefore essential that this is consistent with the data and factual conclusions of this work.

In 2025, the Ipsos iSay online panels conducted millions of interviews worldwide.

All these commitments are linked to the international norms and standards to which Ipsos adheres, particularly regarding human rights and freedom of expression. They include in particular the United Nations Global Compact, the International Chamber of Commerce (ICC) and ESOMAR International Code on market and opinion research and data analysis. They are also set out in the Ipsos Code of Conduct, a public document in which all employees are trained.

These policies are under the joint responsibility of the **Operations Department** and the **research teams** positioned in our countries.

Ipsos is not aware of any cases of non-compliance with these human rights in 2024 in relation to our respondents and users of our studies, as these rights are defined by the United Nations, the International labor organization and the OECD Guidelines.

Although they all give rise to quantified **objectives**, Ipsos' target for each of the principles below is compliance with them in all our work and the implementation of rapid and effective responses in the event of breaches.

The achievement of these objectives is monitored by the Operations Department and the research teams. Several tools are used to measure it, including:

- The customer satisfaction surveys described above;
- Monitoring the coverage of our work in the media and the reactions it generates, including on social media;
- The involvement of the Internal Audit Department as soon as a suspected breach of the above principles is detected. The whistleblowing system presented below can be used by clients, respondents and any person using our studies;
- Monitoring the level of engagement and turnover of our respondents, a sign of their satisfaction.

3.3.2.2 Confidentiality of respondents' data central to the Ipsos model

In terms of confidentiality, Ipsos strictly adheres to the principles of the European Union General Data Protection Regulation (GDPR). The GDPR, which quickly became a global legislative benchmark for data protection, has led the vast majority of other legislations to draw heavily from it. The ICC/ESOMAR Code also protects the confidentiality of respondents' data.

Ipsos has implemented these confidentiality requirements in several internal policies, which apply to all our subsidiaries:

- A **privacy and data protection policy**, which governs all of our procedures. This is also publicly available on the Ipsos website⁴;
- A **procedure for managing breaches** of the confidentiality of personal data;
- A **procedure for managing requests from data subjects**;
- Lastly, a set of **operational rules** in our various departments.

Data Protection Officers (DPOs) exist in each country where Ipsos has a legal entity, including in those where this is not a legal requirement. The vast majority of DPOs perform this role on a part-time basis. In our largest markets (US, Germany and UK), a full-time equivalent is dedicated to this role. All DPOs report hierarchically to the Global Head of Data Privacy.

3.3.3 Constant dialogue with respondents and users of our studies (S4-2)

Ipsos maintains constant dialogue with these various audiences.

- Several recurring surveys measure customer satisfaction: a survey carried out on each project, the *external Customer Satisfaction Monitor* (eCSM), and an annual survey of our global clients, measuring their overall evaluation of Ipsos, the *Global Client Survey* (GCS).
- Members of our panels receive regular communications and, in accordance with the applicable privacy policy, each respondent receives contact information to report any problems or dissatisfaction.
- Regular dialogue also takes place with the users and readers of our studies: journalists, researchers, social media users reacting to our publications, etc.
- Furthermore, all these stakeholders can, if necessary, use the Ipsos **whistleblowing platform**, described in more detail in the governance section of this report ([5.4.2.4.3](#)).

In some States, these voluntary systems are supplemented by regulatory or administrative mechanisms, enabling professionals and third parties to challenge the methodological quality of a study. The Commission Nationale des Sondages (National Commission for Surveys) is an example of this in France.

The way in which the expectations of respondents and users of Ipsos studies influence the Group's decisions, as well as the frequency of this dialogue, is detailed in Section [5.4.2.1.2.2.2](#). The Chief Client Officer is responsible for ensuring that there is an ongoing dialogue with clients and that their expectations are taken into account. The Operations Department has the same function with respect to respondents.

⁴ <https://www.ipsos.com/en/privacy-data-protection>

3.3.4 These policies are broken down into a set of actions (S4-4)

3.3.4.1 Strong IT security initiatives

Ipsos attaches paramount importance to data protection and cybersecurity. It has deployed a robust Information Security Management System (ISMS), which covers client data, personal data and employee data.

The actions carried out are based on four areas:

- The strengthening of infrastructure: implementation of zero-trust architectures, network segmentation, and advanced data encryption;
- Implementation of security controls: deployment of intrusion detection and prevention systems (IDS/IPS) and regular assessment of vulnerabilities, both internally and externally;
- Ongoing governance and risk management: annual update and dissemination of our global security policies and processes, as well as current ISO 27001:2022 initiatives;
- Employee security awareness and training: regular cybersecurity sessions, phishing tests, and dissemination of best practices using a behavioral/analytics platform.

Data Protection and Regulatory Compliance

Ipsos strictly complies with international data protection regulations, whether GDPR or other local frameworks. The main compliance actions are as follows:

- Data governance: strict regulation of access to data, implementation of time-limited retention policies, and secure destruction of obsolete personal information;
- Transparency and rights of individuals: ease of access, rectification, and deletion of personal data for clients and study participants;
- Audits and certifications: regular internal and external audits to ensure compliance with protection standards, ISO 27001 certification for privacy management.

Cyber threat management

Faced with the intensification of cyberattacks, Ipsos has put in place an incident management and business continuity plan. The key measures include:

- Proactive threat identification: enhanced monitoring of suspicious behavior and behavioral analysis of data flows;
- Rapid response and coordination: an incident response team (CSIRT) that can be mobilized 24/7 to contain and mitigate the impacts of attacks;
- Tests and simulations: regular cybersecurity exercises, ransomware simulations, and disaster recovery plans.

Innovation and securing new digital challenges

Ipsos anticipates emerging challenges related to new technologies, including generative AI. The company is working on appropriate ethical protocols and standards to ensure the safe use of these innovations, including through:

- Algorithm verification mechanisms: control of biases and traceability of automated decisions;
- Secure integration of technologies into existing processes: systematic security audits before deployment.

AI-related technology/cybersecurity controls, such as:

- Detection of shadow AIs
- Prevention of data leaks (DLP) related to generative AI
- AI access control

- Prevention of AI misuse
- Validation of AI responses
- Browser protection against AI

Employee training

Ipsos' information security awareness and training program is fundamental to risk management. It includes mandatory training for all employees, updated each year and translated into several languages. It is supplemented by regular communications, in internal newsletters, at the global and local level.

The mandatory training covers in particular the following points: requirements of the ISO 27001 standard, best practices in homeworking, cases of data loss, theft or breach, cyber threats, password management, social engineering, business continuity and Ipsos' policies in terms of security, data confidentiality and AI.

The program aims to inform on new threats and strengthen existing policies and procedures. It ends with an **annual test of 20 questions**, assessing participants' understanding.

In addition, the Operations Department, which administers surveys and data collection, organizes specific training sessions for its teams.

Training of executive officers

Ipsos' management teams are permanent targets. Two main approaches are used to manage risks and protect managers: specific monitoring of managers, enabling faster response to potential threats; specific risk management program for country managers.

Management of supplier risks

All providers that (i) process Ipsos' data, its clients' data or personal data, (ii) develop code for Ipsos, (iii) have access to Ipsos' systems and networks, or (iv) provide services, applications, and technologies are subject to a risk assessment. It complies with ISO 27001 controls, which form the basis of Ipsos' security standards.

These assessments depend on the type of service and include a remediation process in the event that the supplier's security standards are lower than those of Ipsos.

3.3.4.2 One priority: ensure data quality in online surveys

In the digital age, data accuracy and authenticity are key. Ipsos' quality systems provide multi-level protection, constantly monitored and updated, to ensure the highest quality standards in online market research, detecting and combating fraud in real time. This is how we guarantee that each data point reflects the information of a real respondent.

Our approach is based on three main areas.

Panelists

We continuously check the authenticity and credibility of our respondents and the data they provide.

Multi-factor authentication (MFA) during the registration process has a deterrent effect on fraudulent panelists. We observed a 50% decrease in suspicious panelists and a 20% reduction in recruits using high-risk telephone numbers through the implementation of MFA.

During surveys, our advanced real-time systems detect **bot behaviors** and **similarities between different accounts**.

Suspicious phone numbers are automatically blocked and cannot join our panels.

We monitor the performance of each panelist, assessing their behavior through a **dedicated score**, which rewards engagement and discourages passivity. This means not only identifying and combating fraud, but also taking action against **inattentive or unengaged respondents**, as they can impact data quality.

The **Ipsos selection process for external sample providers is rigorous**. By actively assessing and managing partnerships, only the most reliable sources are allowed to contribute to our surveys.

Devices

Using our **digital fingerprint technology**, we ensure that every device has an indelible identity, both at the panel level (to avoid creating multiple accounts) and at the study level (to prevent people from accessing the same survey from different sources).

Suspicious devices are removed from our panels.

Responses

To protect against fraud, Ipsos also focuses on the **questionnaire** itself: some questions are deliberately designed to ensure that we can identify respondents who would respond in a false or misleading way. We also review the information provided in the survey responses themselves.

We automatically detect **suspicious response patterns**, such as insufficient or excessive clicks, inconsistencies and similarities between different respondents, overly rapid responses and the “**straight line**” (i.e. clicking the same answer each time).

Our **AI algorithms** detect human engagement versus AI-generated responses, particularly to open-ended questions.

Despite this advanced technological arsenal, Ipsos knows that the human factor is irreplaceable. A dedicated *Panel Health* team closely monitors the ongoing health of our panels, adjusts the systems, and ensures that only the most accurate data passes through.

In addition to the steps we take to ensure sample quality and respondent attention in our Ipsos iSay online panels, we also provide unparalleled quality with our Knowledge Panels in the US and Europe, where we use random address sampling to ensure sample quality and representativeness. In this way, we guarantee the best quality in online surveys, combined with a fast response, as recognized by our peer reviews⁵.

3.3.4.3 Regular and at least annual review of the effectiveness of these measures

In addition to continuously monitored dashboards, regarding both IT security and data quality, the effectiveness of the procedures described above is reviewed regularly and at least once a year.

The Ipsos Tech Department and the Operations Department coordinate this work.

3.3.5 Robust incident handling procedures (S4-3)

Ipsos has robust incident management procedures which cover information security and personal data breaches to ensure a holistic approach, since not all information security incidents necessarily constitute personal data breaches, and vice versa. This includes incident diagnosis, a communication plan, root cause analysis and remediation actions.

Personal data breaches are managed in accordance with the dedicated procedure mentioned above and are the subject of an incident report at group level and, systematically, a review of the broader operational security consequences to be drawn from them. The functioning of the whistleblowing platform is described in more detail in Section 4.3 below.

3.3.6 Solid results and no penalties from data protection authorities

Given the large amount of personal data processed by Ipsos, **the number of verified data subject requests is very low**. This is mainly due to the often unique nature of the data collected during a survey. These requests are managed locally, applying the policy for managing requests from data subjects mentioned above.

Ipsos receives around ten requests for information per year from data protection authorities. However, until now, these have **never led to sanctions or fines** on an Ipsos entity.

⁵ See for example Bradley, V.C., Kuriwaki, S., Isakov, M. et al. Unrepresentative big surveys significantly overestimated US vaccine uptake. *Nature* 600, 695–700 (2021).

4 The highest standards of governance and business ethics (G1)

Reminder: the process followed to identify the material impacts, risks and opportunities covered in this section is described in Section [5.4.2.1.4.1](#) "Description of the double materiality analysis process". The results of this analysis are presented in Section [5.4.2.1.2.3](#) "Material Impacts, Risks and Opportunities and their interaction with strategy and business model (SBM-3) and procedures for remediation of adverse impacts".

4.1 Robust and diverse governance

Ipsos has strong governance, as described in Section [5.4.2.1.3.1](#) of this report.

This includes a **diversified Board of Directors** in terms of skills, gender, and nationalities, a clear separation of the roles of Chairman of the Board of Directors and Chief Executive Officer, robust **internal control and audit** mechanisms and **ongoing dialogue with all our stakeholders** and partners, from clients to employees and suppliers.

4.2 A strong corporate culture, uniting our 20,000 employees around five values (G1-1)

Corporate values and culture are key to the Ipsos model. Since its foundation 50 years ago, Ipsos has been a people business whose main resource consists of its employees – nearly 19,000 people today, in 90 countries. A common culture and strong personal relationships between teams are key to the smooth functioning of the company.

These values and culture have been formalized and integrated into the daily life of the company:

- **Five values** unite our teams and make us "proud to be Ipsos": integrity, curiosity, collaboration, client first, and entrepreneurship. Integrity includes all of our ethical, collective, and individual commitments.

The annual employee appraisal is explicitly based on these values, as are the 360-degree appraisals carried out regularly by our managers;

- These values underpin our **Code of Conduct**⁶ provided to each employee and which has been the subject of mandatory training for all employees since 2024;

⁶ <https://www.ipsos.com/fr-fr/valeurs-et-code-de-conduite>

- A **Book of Policies & Procedures** includes all applicable processes; Since 2024, this has also been the subject of mandatory training for all employees;
- In 2022, Ipsos developed a **leadership guide**, intended for all its managers, accompanied by training, based on our five corporate values. This document translates them into recommendations and behaviors to be adopted in concrete daily situations. It aims to ensure that all our managers put them into practice and disseminate them within the organization. Its dissemination was accompanied by awareness-raising sessions for the teams.

Our 5 values

#1

Integrity

// We demonstrate the highest ethical standards and principles.

// We are independent, objective experts delivering reliable information to our clients.

// We are respectful, honest and transparent with ourselves, clients and colleagues.

// We say what we do and we do what we say. We only commit to what we can deliver.

// We value all kinds of diversity, as it reflects the wider society in which we operate.

- // We are curious about the world around us.
- // We ask the right questions, we seek the new and unexpected.
- // We love to learn, read, listen, search and research and analyse data with passion.
- // We think deeply to go beyond the obvious and we take nothing for granted. We challenge how things can be improved for the benefit of Ipsos and our clients.
- // We are passionate about what we do and we do it all to assist our clients to better understand their environment and shareholders.

#2

Curiosity

Collaboration

- // All of us are smarter than any of us.
- // We work in diverse teams comprising clients and colleagues. Together we navigate the world towards common goals and with open minds.
- // We foster a culture of continuous improvement by sharing knowledge and expertise freely and generously, and we learn from each other.
- // We actively explore opportunities to work openly across our specialisations and our countries and promote internal mobility and promotions.
- // We contribute to Ipsos training programmes as participants, trainers and/or mentors.

#3

Client first

- // We put clients first. Always. We focus on long-term partnerships and we understand our clients' businesses as if they were our own.
- // We are responsible and accountable for providing our clients with the best solutions across our specialisations.
- // We go beyond the research to bring insights that enable our clients to make smarter decisions. We always have a point of view.
- // We deliver on our promises; on specifications, time, and budget. Right on time, the first time.
- // Clients' needs take precedence over other internal priorities. We go the extra mile for them.

#4

// We are different. Our culture encourages individuals to try different, innovative ideas.

// We are motivated. We work hard and smart, and we are able to act quickly and decisively when required.

// We love a good challenge. We never give up. We are confident, tenacious and disciplined.

// We are results oriented.

// We take individual responsibility for changing the game.

A set of mechanisms aims to ensure compliance with these principles, as well as the rules of good governance. In addition to the training and awareness-raising mentioned above, these include: a functional separation between the business departments (e.g. Country Director) and the finance department (e.g. Country Chief Financial Officer), the latter reporting directly to the Group Finance Department; a regular internal audit program, based on the objective of covering all areas of risk; double signature rules for all major transactions; an obligation to report any suspected fraud within 24 hours; and a whistleblowing system, providing the possibility of anonymity.

The success of these policies is measured by several indicators, which are described in the following sections, including:

- The rate of participation in training on the Code of Conduct and the *Book of Policies & Procedures*;
- The number of incidents reported as part of the whistleblowing system.

Lastly, wherever it operates, Ipsos strives to have a positive impact on the communities in which our teams live and work. In particular, this action involves supporting associations and other charities:

- Since its creation in 2015, the Ipsos Foundation has funded over 160 education projects in some 50 countries around the world;
- In 2025, our employees devoted nearly 1,650 days to volunteering, as part of the two annual days funded by Ipsos for each employee.

1,650 **volunteer days in 2025**

- Ipsos has been a member of the *Tent Partnership for Refugees* since 2018. This organization, created in 2016 by Hamdi Ulukaya, founder and CEO of Chobani, aims to mobilize businesses to improve the lives and livelihoods of refugees. Ipsos wanted to take part in this process. As part of this commitment, in 2023, Ipsos pledged to recruit 100 refugees in our various entities around the world by 2026. This objective follows a first commitment made in 2018 and which was met.

4.3 An effective whistleblower protection mechanism in place for over 10 years (G1-1)

Since 2013, Ipsos has had a whistleblowing mechanism, managed by an independent external body, currently *EthicsPoint*⁷.

It allows any individual, Ipsos employee or external partner (client, supplier, supplier employee, etc.) to report, anonymously or otherwise, any inappropriate behavior that cannot be declared *through* the usual internal information reporting procedures. This report may be made by post, email, telephone or *via* secure web access.

This platform enables the verification of the data collected confidentially to enable Ipsos to decide on measures likely to resolve the failure raised if it is confirmed by investigations.

This mechanism can be used for any type of breach: fraud, anti-competitive practices, corruption, breaches of data confidentiality or privacy protection, breach of company policies, breaches of fundamental freedoms, human rights including harassment, the environment, etc.

Regular communication is held on the system. It is accessible from the home page of the company intranet and is the subject of reminders, particularly in the internal newsletter *Ipsos Today*, sent to all employees.

In total, 90 whistleblowing reports were recorded in 2025, an increase from the previous year (61 reports). This figure includes both cases reported *through* the EthicsPoint platform and those reported via email or another channel to the Internal Audit Department.

Number of reports	2023	2024	2025
Reported internally	30	25	43
EthicsPoint platform	32	36	47
Total	62	61	90

The procedure for handling reports is as follows. The Internal Audit Department, which reports directly to the group's Corporate Secretary, opens an internal investigation, questions the persons potentially involved, and obtains all relevant documents. At the end of this investigation, it draws up recommendations for action, which, depending on the case, include disciplinary sanctions, up to and including dismissal or, in the case of suppliers, the termination of the contractual relationship, the reorganization and optimization of internal procedures, and training and awareness-raising actions. Depending on the nature of the failure, decisions are made by the Human Resources Department, the Country Director, the Group Finance Department, or any other entity of the company concerned. In all cases, these decisions are subject to the approval of the Group Internal Audit Department.

The action taken on the case is communicated to the person making the report, except in rare cases where the latter has not provided a method of contact, which is an option offered by the platform.

⁷ <https://www.ipsos.com/en/our-alert-system>

Depending on the urgency and complexity of the case, the duration of investigations ranges from a few days to a maximum of a few weeks.

The whistleblower's anonymity is protected in all cases by the Internal Audit Department. Only the persons taking part in the survey are aware, if necessary, of their identity.

Ipsos' objective is for this whistleblowing tool to be known, used when necessary, and for all cases to be resolved satisfactorily, whether they are proven breaches of laws and regulations, the Ipsos Code of Conduct and procedures, or accusations that the investigation concludes are unfounded or, in a small number of cases, malicious.

4.4 Supplier management increasingly focused on sustainability (G1-2)

Our value chain is a key component of the Ipsos business and model. Our thousands of suppliers in the 130 or so countries where we operate are a prerequisite for our service to clients.

A Group Purchasing Department coordinates Ipsos' supplier approach, supported by employees on the ground in our main markets.

This approach, formalized in our contractual clauses and in a Supplier Code of Conduct⁸, is based on the following principles:

- Rigorous selection based on quality of service, price, and non-discrimination between suppliers;
- Regular assessment of suppliers' performance and compliance with the Code of Conduct, through self-assessments, questionnaires, a review of their certifications and, where necessary, audits;
- Sustainability requirements carry increasing weight in our supplier approach. In 2025, a program was launched to mobilize Ipsos' 400 main suppliers around environmental, social, and governance (ESG) issues, notably to encourage them to commit to a decarbonization pathway similar to that of Ipsos.

The Code of Conduct is under the joint responsibility of the Group Purchasing Department and the ESG Department.

4.6 Actively fighting against corruption in all our markets (G1-3 & G1-4)

The fight against corruption is a key principle of the Group, in all the markets in which it operates. This applies both to compliance with national laws, corporate ethics, and compliance with our commitments, first and foremost **Principle 10 of the United Nations Global Compact**.

No form of corruption is tolerated within the company.

⁸ <https://www.ipsos.com/fr-fr/valeurs-et-code-de-conduite>

A specific section of the Code of Conduct and the *Book of Policies* reminds each employee that they must comply with anti-corruption, bribery, and other financial crime legislation.

- The Code prohibits employees, whether directly or indirectly, including through the Ipsos entity for which they work, from offering, promising to give or giving any sum of money or other benefit to any outside person in order to obtain an undue advantage or bring about an advantageous action. Benefits include financial payments, gifts, free samples, payment of unnecessary travel and entertainment expenses, and so-called “facilitation” payments. It is strictly forbidden to bribe any person, company, or government.
- Employees are also prohibited from receiving such benefits – whether direct or indirect, granted to Ipsos, its employees, or their family members. The only exceptions to this prohibition concern gifts of low value considered to be customary in the context of commercial exchanges. The value of such benefits must remain reasonable and, in all cases, local regulations must be followed (Section 1.6 of the *Book of Policies*).

Anti-competitive behavior is also expressly prohibited. This is one of the fundamental guidelines contained in the *Code of Conduct* to be followed by each employee. The Group seeks to compete actively in a fair and ethical manner. It thus prohibits, and refrains from, the following practices:

- Entering into agreements with its competitors on prices or other terms of sale, or attempting to divide up territories or clientele;
- Engaging in private dealings on any aspect of a commercial agreement;
- Entering into agreements with competitors, suppliers or clients not to sell to a particular client or buy from a particular supplier;
- Any other anti-competitive practices.

Preventive actions are based on mandatory training in these policies and on the other measures of good governance and control described above.

In November 2024, two training modules were made mandatory for all employees. The first concerns the Code of Conduct and the Book of Policies & Procedures, while the second concerns IT security and data privacy. It was considered that all our employees are concerned by these important training courses, which address the risks to which they may all be exposed. By the end of December 2025, **85% of employees** had completed these two training courses (compared with 48% at the end of December 2024). The aim is to improve this figure to at least 70% in 2025 before reaching the target of 95% in 2026.

All members of the *Group Management Committee* (GMC) have completed this training.

All internal control and audit systems are used to detect possible cases of corruption. The Finance Department plays a key role, through the control of financial data. The Internal Audit Department pays particular attention to this in its missions. The whistleblowing platform is also an important detection tool.

Cases of alleged corruption give rise to an investigation led by the Internal Audit Department, independently of the Finance Department and any other team managing the procedures in question. In the event of proven corruption, penalties are imposed against all persons involved, whether employees, suppliers, or any other partner.

All cases of corruption are reported to the Audit Committee, as part of the quarterly report presented to it by the Internal Audit Department or *through* a specific communication if the actions in question were of exceptional severity or of an urgent nature.

There were no convictions for breaches of anti-corruption and anti-bribery laws in 2025. No fines were imposed in this respect either.

In addition, no cases of corruption or bribery were noted in 2025 in the subsidiaries (compared to two local cases identified in 2024).

4.7 A clear approach to combating fraud, tax evasion, and money laundering

The Code of Conduct raises employee awareness of the risks associated with money laundering and, more generally, fraud, including tax evasion.

A comprehensive anti-fraud policy is set out in the Ipsos Book of Policies & Procedures. These documents detail the policy for preventing, reporting, and combating fraud, as well as the behavior to be adopted by staff in the event of such situations.

They place an emphasis on detecting the risks of fraud, but above all on disclosure and the implementation of effective and rapid action to avoid the negative impact of fraudulent situations and to prevent cases of fraud in the future.

Ipsos also complies with regulations on the production of **country-by-country tax returns (CBCR)**.

The whistleblowing system described in Section [4.3](#) specifically covers these issues.

4.5 Fair and non-discriminatory payment practices between suppliers (G1-6)

Ipsos' objective is to ensure fair financial treatment of its suppliers. This principle is clearly set out in our Supplier Code of Conduct⁹ and is part of the reciprocal commitments of Ipsos and its partners.

Payment to suppliers within a reasonable period of time forms part of these commitments. Ipsos also complies with all legal and regulatory obligations in this area, in all the countries in which the Group operates. This applies both to maintaining a positive and balanced relationship with our suppliers, to supporting small and medium-sized enterprises in particular, and, as a last resort, to the objective of avoiding any financial penalty linked to late payments. Payment terms are managed by the Finance Department, at the country level for local suppliers and at the Group level for Group suppliers.

In 2025, the average time to pay an invoice was 44.3 days, an improvement of 1.3 days compared to 2024.

⁹ <https://www.ipsos.com/fr-fr/valeurs-et-code-de-conduite>

Average actual payment period from receipt of invoice (in number of days)			
Category of suppliers	2025	2024	Change
Administration & IT	36.7	37.2	-0.5
Individual service providers and freelancers	30.9	34.2	-3.3
Market research, subcontractors, operations and others	53.7	55.7	-2
Grand total	44.3	45.6	-1.3

The Group applies standard payment terms of 60 days to its suppliers, except where exemptions apply due to specific regulations or commercial negotiations. This standard payment period is applied uniformly to all supplier categories within the Group, regardless of company size.

The average settlement time therefore remains below the theoretical contractual deadline, which generally reflects a well-managed supplier payment process. Payments made within less than 60 days account for 80% of payments in 2025 (by number).

The average time to pay an invoice and the percentage of payments made in less than the standard 60-day period are determined without taking into account the entities acquired during 2025. These exclusions make it possible to determine these indicators based on homogeneous data resulting from the group's invoice-processing activities that were not impacted by system migrations that occurred during the year as a result of acquisitions.

Depending on the size of the entities and their operational needs, payment campaigns are carried out once to several times a week, which may create a slight gap between the theoretical due date and the actual payment date.

At the end of 2025, only one legal proceeding for late payment was identified in the Group. This is a procedure that had already been identified in 2024 and was closed in early 2026.

The payment terms policy is reiterated during periodic meetings of Finance teams across all markets.

It is strengthened by the gradual roll-out of a single supplier and invoice monitoring tool, iBuy, across 80 countries in the group, which aims to facilitate its management and monitoring.

4.8 No political lobbying activity (G1-5)

Due in particular to its political and opinion polls and other work for public organizations, Ipsos places particular importance on its independence from governments and political parties and movements.

In 2025, there were no incidents involving Ipsos in our various countries of operation, whether in terms of political lobbying or regulation on the financing of political parties.

Moreover, as an active member of ESOMAR, the internal professional association for market and opinion research and data experts, Ipsos fully adheres to the principles of the Joint Code of Conduct of ESOMAR and the International Chamber of Commerce. It sets out the rules we apply in terms of regulation and ethics.

Ipsos does not make any financial or in-kind contributions to political parties or other movements or to political leaders. This situation was unchanged in 2025 and will remain a clear direction for Ipsos for the coming years.

This principle is reiterated to all our teams, in particular through an annual self-assessment as part of the *Responsible Business Survey*, which invites each Country Director to confirm in writing that no such donation has been made by the entities for which they are responsible or by their employees.

5 Appendices

5.1 Taxonomy indicator tables

5.1.1 Eligibility and alignment of revenue-generating activities in 2025:

In millions of Euros

Economic activities (1)	Code(s) (2)	Turnover (3) In millions of Euros	Proportion of Turnover (4) %
A. Taxonomy-eligible activities			
A.1. Environmentally sustainable activities (Taxonomy-aligned)			
None	N/A	0	—%
Turnover of environmentally sustainable activities (Taxonomy-aligned) (A.1)		0	—%
Of which enabling		0	—%
Of which transitional		0	—%
A.2 Taxonomy-eligible but not environmentally sustainable activities (not Taxonomy-aligned activities)			
None	N/A	0	—%
Turnover of Taxonomy-eligible but not environmentally sustainable activities (not Taxonomy-aligned) (A.2)		0	—%
A. Turnover of Taxonomy-eligible activities (A.1 + A.2)		0.0	—%
B. Taxonomy-non-eligible activities

5.2 Appendix 2 - Activities related to nuclear energy and fossil gas

Activities related to nuclear energy	
The company carries out, finances, or is exposed to activities involving the research, development, demonstration, and deployment of innovative power generation facilities from nuclear processes with a minimum of waste from the fuel cycle.	NO
The company carries out, finances, or is exposed to activities involving the construction and safe operation of new nuclear power or industrial heat production facilities, in particular for district heating purposes or for industrial processes such as hydrogen production, including their safety upgrades, using the best available technologies.	NO
The company carries out, finances, or is exposed to activities involving the safe operation of existing nuclear installations for the production of electricity or industrial heat, in particular for district heating purposes or for the purposes of industrial processes such as the production of hydrogen, from nuclear energy, including their safety upgrades	NO
Fossil gas-related activities	
The company carries out, finances, or is exposed to activities involving the construction or operation of installations for the production of electricity from gaseous fossil fuels.	NO
The company carries out, finances, or is exposed to activities involving the construction, refurbishment, and operation of facilities for the combined production of heat/cold and electricity from gaseous fossil fuels.	NO
The company carries out, finances, or is exposed to activities involving the construction, refurbishment, or operation of heat production facilities that produce heat/cold from gaseous fossil fuels.	NO

5.3 Appendix 3 – Table of contents of publication requirements – [ESRS 2 – IRO-2 – §DR 56]

The tables below list all the ESRS disclosure requirements in ESRS 2 and the five thematic standards that are material to the Ipsos Group and have guided the preparation of our sustainability statements. All disclosure requirements in the thematic standards E2, E3, E4, E5, and S3 have been omitted as they are below the materiality thresholds for Ipsos’ business.

The tables can be used to navigate to information relating to a specific disclosure requirement in the sustainability report. The tables also indicate where information relating to a specific disclosure requirement is outside the sustainability report and is “incorporated by reference”, either in the management review or in the financial statements of that annual report.

In cases where Ipsos does not yet have information relating to a publication requirement, no reference is made.

ESRS 2 - General disclosures - Disclosure requirement		Report	Paragraph
BP-1	General basis for preparation of sustainability statements	Sustainability report	5.4.2.1.1.2

6 Report on the certification of sustainability information and verification of the disclosure requirements under Article 8 of Regulation (EU) 2020/852

Year ended December 31, 2025

This is a translation into English of the statutory auditors' report on the certification of sustainability information and verification of the disclosure requirements under Article 8 of Regulation (EU) 2020/852 of the Company issued in French and it is provided solely for the convenience of English speaking users.

This report should be read in conjunction with, and construed in accordance with, French law and the H2A guidelines on "Limited assurance engagement - Certification of sustainability reporting and verification of disclosure requirements set out in Article 8 of Regulation (EU) 2020/852".

To the General Meeting of Ipsos,

This report is issued in our capacity as statutory auditors of Ipsos. It covers the sustainability information and the information required by Article 8 of Regulation (EU) 2020/852, relating to the year ended December 31, 2025, and included in section 1.4.1.1 "Sustainability Report" of the Group management report (hereafter the "Sustainability Report").

Our procedures, which relate to this information, have been performed in an evolving context characterized by uncertainties regarding the interpretation of the laws and regulations, and the development of established practices.

Pursuant to Article L.233-28-4 of the French Commercial Code, Ipsos is required to include the above-mentioned information in a separate section of the Group management report.

This information enables an understanding of the impact of the activity of the group on sustainability matters, as well as the way in which these matters influence the development of the business of the group, its performance and position. Sustainability matters include environmental, social and corporate governance matters.

Pursuant to Section II of Article L. 821-54 of the aforementioned code, our responsibility is to carry out the procedures necessary to issue a conclusion, expressing limited assurance, on:

- compliance with the requirements set out in the sustainability reporting standards adopted by the European Commission pursuant to Article 29 b of Directive (EU) 2013/34 of the European Parliament and of the Council of 26 June 2013, as amended by Directive (EU) 2022/2464 of the European Parliament and of the Council of 14 December 2022 (hereinafter ESRS for European Sustainability Reporting Standards) of the process implemented by Ipsos to determine the information reported, including, where applicable, the obligation to consult the social and economic committee provided for in the sixth paragraph of Article L. 2312-17 of the French Labour Code;
- compliance of the sustainability information included in the Sustainability Report with the provisions of Article L.233-28-4 of the French Commercial Code, including ESRS; and
- compliance with the reporting requirements set out in Article 8 of Regulation (EU) 2020/852.

This engagement is carried out in compliance with the ethical rules, including independence rules, and quality control rules prescribed by the French Commercial Code.

It is also governed by the H2A guidelines on "Limited assurance engagement - Certification of sustainability reporting and verification of disclosure requirements set out in Article 8 of Regulation (EU) 2020/852".

In the three separate sections of the report that follow, we present, for each of the sections of our engagement, the nature of the procedures that we carried out, the conclusions that we drew from these procedures and, in support of these conclusions, the elements to which we paid particular attention and

the procedures that we carried out with regard to these elements. We draw your attention to the fact that we do not express a conclusion on any of these elements taken individually and that the procedures described should be considered in the overall context of the formation of the conclusions issued in respect of each of the three sections of our engagement.

Finally, where deemed necessary to draw your attention to one or more disclosures of sustainability information provided by Ipsos in its group management report, we have included an emphasis of matter paragraph hereafter.

Limitations of our engagement

As the purpose of our engagement is to express limited assurance, the nature (choice of techniques), extent (scope) and timing of the procedures are less than those required to obtain reasonable assurance.

This engagement does not provide guarantee regarding the viability or the quality of the management of Ipsos, in particular it does not provide an assessment, of the relevance of the choices made by Ipsos in terms of action plans, targets, policies, scenario analyses and transition plans, which would go beyond compliance with the ESRS reporting requirements.

Furthermore, as forward-looking information is inherently uncertain, actual future outcomes may differ, sometimes significantly, from the forward-looking information presented in the Sustainability Report.

Our engagement does, however, allow us to express conclusions regarding the entity's process for determining the sustainability information to be reported, the sustainability information itself, and the information reported pursuant to Article 8 of Regulation (EU) 2020/852, as to the absence of identification or, on the contrary, the identification of errors, omissions or inconsistencies of such importance that they would be likely to influence the decisions that readers of the information subject to this engagement might make.

Sustainability information and the information required under Article 8 of Regulation (EU) No 2020/852 may be subject to inherent uncertainty arising from the state of scientific knowledge and from the quality of the external data used. Certain information is sensitive to the methodological choices, assumptions and/or estimates applied in preparing it and presented in the Sustainability Report.

[Compliance with the requirements set out in the ESRS of the process implemented by Ipsos to determine the information reported, including the obligation to consult the social and economic committee provided for in the sixth paragraph of Article L. 2312-17 of the French Labour Code](#)

Nature of procedures carried out

Our procedures consisted in verifying that:

- the process defined and implemented by Ipsos, including the obligation to consult the social and economic committee provided for in the sixth paragraph of Article L. 2312-17 of the French Labour Code, has enabled it, in accordance with the ESRS, to identify and assess its impacts, risks and opportunities related to sustainability matters, and to identify the material impacts, risks and opportunities, that lead to the publication of information disclosed in the Sustainability Report, and
- the information provided on this process also complies with the ESRS.

Conclusion of the procedures carried out

On the basis of the procedures we have carried out, we have not identified any material errors, omissions or inconsistencies regarding the compliance of the process implemented by Ipsos with the ESRS.

Elements that received particular attention

We present hereafter the elements which have been the subject of particular attention on our part concerning the compliance with the ESRS of the process implemented by Ipsos to determine the information published.

The information regarding how Ipsos concluded that there was no change to the double materiality assessment is set out in sections 1.1.2.1 “Sustainability statement” and 1.4 “Double materiality analysis” of the Sustainability Report.

Through interviews with the individuals we deemed appropriate and inspection of available documentation, we obtained an understanding of the analyses conducted by Ipsos to identify and assess the internal and external factors considered to justify the absence of an update to the double materiality assessment. These include in particular a risk assessment carried out with a representative panel of internal stakeholders as described in the aforementioned notes.

Based on our professional judgement, our procedures included in particular:

- applying professional scepticism to the documentation of analyses conducted by the entity and to the approach implemented by it to identify the internal and external factors to be considered;
- assessing the appropriateness of the internal and external factors considered by the entity against our knowledge of the Group;
- assessing whether the available sector analyses and competitive benchmarks that we deemed relevant do not call into question the actual and potential impacts, risks and opportunities identified by the entity;
- assessing the appropriateness of the entity's impact and financial materiality assessment process implemented to determine the material information published (including the setting of thresholds) against our knowledge of the Group;
- assessing the appropriateness of the description given in this regard in notes 1.1.2.1 and 1.4 of the Sustainability Report.

[Compliance of the sustainability information included in the Sustainability Report with the provisions of Article L. 233-28-4 of the French Commercial Code, including the ESRS](#)

Nature of procedures carried out

Our procedures consisted in verifying that, in accordance with legal and regulatory requirements, including the ESRS:

- the disclosures provided enable an understanding of the general basis for the preparation and governance of the sustainability information included in the Sustainability Report, including the basis for determining the information relating to the value chain and the exemptions from disclosures used;
- the presentation of this information ensures its readability and understandability;
- the scope chosen by Ipsos for providing this information is appropriate; and
- on the basis of a selection, based on our analysis of the risks of non-compliance of the information provided and the expectations of users, that this information does not contain any material errors, omissions or inconsistencies, i.e. that are likely to influence the judgement or decisions of users of this information.

Conclusion of the procedures carried out

Based on the procedures we have carried out, we have not identified material errors, omissions or inconsistencies regarding the compliance of the sustainability information included in the Sustainability Report, with the provisions of Article L.233-28-4 of the French Commercial Code, including the ESRS.

Elements that received particular attention

We present below the matters that received particular attention from us regarding the compliance of the sustainability information included in the Sustainability Report with the provisions of Article L.233-28-4 of the French Commercial Code, including the ESRS.

Information provided pursuant to the environmental standard ESRS E1

The information published under climate change (ESRS E1) is set out in note 5.4.2.2.1 “Climate Change” of the Sustainability Report

Our procedures included in particular:

- assessing based on interviews with management and the persons concerned whether the description of the policies, actions and targets implemented by the entity covers the following issues: climate change mitigation and adaptation,
- assess the appropriateness of the information presented in note 5.4.2.2. "Climate Change" included in the Sustainability Report and its overall consistency with our knowledge of the entity.

Regarding the information disclosed relating to the greenhouse gas emissions statement, our work consisted primarily in:

- assessing the consistency of the scope considered for the greenhouse gas emissions inventory with the scope of the consolidated financial statements, operations under operational control, and the upstream and downstream value chain;
- obtaining an understanding of the preparation protocol and the greenhouse gas emissions inventory used by the entity to prepare the greenhouse gas emissions inventory and assessing its application procedures;
- assessing the appropriateness of the emission factors used and the calculation of corresponding conversions, as well as the calculation and extrapolation assumptions, taking into account the inherent uncertainty due to the state of scientific or economic knowledge and the quality of external data used
- With regard to the estimates that we deemed to be structural that the entity used in preparing its greenhouse gas emissions inventory:
 - through interviews with management, we obtained an understanding of the methodology for calculating the estimated data and the sources of information on which these estimates are based;
 - we assessed whether the methods have been applied consistently and, for information affected by changes since the previous period, the appropriateness of those changes.
- we verified the arithmetical accuracy of the calculations used to prepare this information.

[Compliance with the reporting requirements set out in Article 8 of Regulation \(EU\) 2020/852](#)

Nature of procedures carried out

Our procedures consisted in verifying the process implemented by Ipsos to determine the eligible and aligned nature of the activities of the entities included in the consolidation.

They also involved verifying the information reported pursuant to Article 8 of Regulation (EU) 2020/852, which involves checking:

- the compliance with the rules applicable to the presentation of this information to ensure that it is readable and understandable;
- on the basis of a selection, the absence of material errors, omissions or inconsistencies in the information provided, i.e. information likely to influence the judgement or decisions of users of this information.

Conclusion of the procedures carried out

Based on the procedures we have carried out, we have not identified any material errors, omissions or inconsistencies relating to compliance with the requirements of Article 8 of Regulation (EU) 2020/852.

Elements that received particular attention

We determined that there were no such matters to communicate in our report.

Leaders in the research market comparable to Ipsos

Ipsos usually compares itself with the top major players having research as their core business. US company Nielsen, which was split into two companies (Nielsen and IQ) in March 2021, as well as Kantar. These companies stand out from other market players by virtue of their size, which allows them to work with the key clients on a global scale.

Nielsen (US\$3.4 billion in revenue in 2024) is dedicated to media and media measurement. Its mission is to develop audience measurement and prediction, media-related decision-making tools, and spread this expertise on a global level. In the last quarter of 2022, Nielsen was delisted from the stock market because it was acquired by a consortium of several private equity firms.

NIQ (nearly \$4.0bn in revenue in 2024) specializes in the measurement and analysis of FMCG markets. Its mission is to deepen its knowledge of consumers and their buying habits and to strengthen its links with the retail sector. Its business is structured around two segments: "Intelligence", which accounts for 80% of its activities and focuses on consumer measurement, and "Activation", which accounts for 20% of its activities and focuses on consumer analysis. It is primarily in this second area that Ipsos competes with

NIQ. NIQ is the former Global Connect division of Nielsen, sold to the US investment fund Advent International, then relisted on the NYSE in July 2025.

Kantar posted revenue of US\$2.9 billion in 2024. Up to December 2019, the date on which 60% of Kantar shares were sold to the private equity fund Bain Capital, listed on the NYSE, Kantar was a subsidiary of WPP, the world's leading advertising group. Kantar is the market player most readily comparable with Ipsos both in terms of geographical scope and range of services. In 2025, Kantar sold its Kantar Media division to the investment firm H.I.G Capital. In 2024, this division represented generated over US\$400 million.

Another major specialist player

IQVIA is a provider of information, technology solutions, and integrated research services in the healthcare sector. The company has three divisions: Technology & Analytics Solutions, R&D Solutions and Contract Sales & Medical Solutions.

5.7 Investments

5.7.1 Material investments completed

Investments in equipment, securities and consolidated activities over the past three years break down as follows:

€m	2025	2024	2023
Property, plant and equipment	7.9	7.8	11.0
Intangible assets	19.7	21.0	14.1
Research and development costs	54.5	47.2	33.4
A – Total investments in equipment	82.1	76.0	58.5
Securities and consolidated activities	178.6	38.6	47.7
B – Total investments in securities and consolidated activities	178.6	38.6	47.7
C – Total investments: A + B	260.7	114.6	106.2

Property, plant and equipment mainly consists of acquisitions of computer equipment and fixtures and fittings. Ipsos has a global infrastructure (telecommunications, networks, security equipment, servers, data centers, personal computers and laptops) that supports the day-to-day work of staff and enables communication and the exchange of information between the various subsidiaries, employees and clients. This infrastructure plays a key role in the successful integration of newly acquired companies and ensures the smooth flow of information in a growing business environment.

Intangible assets relate either to acquisitions of off-the-shelf software, panels or applications developed specifically for Ipsos. This is because Ipsos' surveying methods and technologies are based not only on the use of off-the-shelf software and hardware, but also on the use of customized software and hardware to effectively meet the Group's needs.

Ipsos may develop its own software and technology platforms for use by its researchers and, in some cases, for sale to its clients. Ipsos feels that this software adds significant value to its research, notably by enabling the Group's clients to incorporate the data produced by Ipsos into their own management systems.

Ipsos expenses payroll costs for its teams working on the development of its platforms, software and projects. For 2025, capitalized payroll costs amounted to €32.2 million, with associated amortization of €24.6 million.

In terms of innovation, Ipsos continued to invest in technology and platforms used to collect, store, enrich and deliver data and information. These investments have notably enabled the successful deployment of Ipsos.Digital, an automated end-to-end DYI and Assisted DYI platform that allows clients to create their own questionnaires and submit them to a population of their choosing. Infotools, which enables the harmonization, analysis, visualization and sharing of market research data, is also an example of our accelerated investment in platforms.

Property, plant and equipment and intangible assets are financed either from the Group's own resources or through finance leases. Finance leases are restated in the Group's consolidated financial statements.

Ipsos regularly makes investments in securities or in consolidated activities. The investments made over the past two years are described in Section 18.1 – Consolidated Financial Statements (Note 2 – Changes in the consolidation scope 18.1.2.2.2) of this document. The investments made in FY 2025 financed from cash flow are described in Notes 6.1.2 “Cash flows relating to acquisitions of non-current assets” and 6.1.3 “Cash flows relating to acquisitions of companies and consolidated activities” to the Consolidated Financial Statements in Section 18.1 of this document.

5.7.2 Material investments in progress

5.7.2.1 Acquisition-related commitments

Commitments to buy out non-controlling interests, deferred consideration and discounted earn-outs recognized in other current and non-current liabilities at December 31, 2025 totaled €57.2 million. For more details on these commitments, please see Note 18.1.2.2.5.5 to the Consolidated Financial Statements in Section 18.1 of this document.

5.7.2.2 Information systems and IT

Ipsos continually looks to develop and improve its products through innovative initiatives driven by the specialist business lines in close collaboration with the IT teams. To this end, Ipsos works collaboratively with software publishers to incorporate additional features into off-the-shelf software packages. Software development is either carried out in-house or outsourced, but always with close collaboration between IT and specialization teams, who also work with the teams in charge of operations to improve the productivity of the Group's production systems. For further details, see also Sections 3.1.3 and 3.2.4 of this Registration Document on risks associated with technological change and cyber risk.

5.7.2.3 Panels

Ipsos continually invests to develop and improve its online panels (for more details, see Section 5.1.3).

5.7.2.4 Scheduled material investments

Ipsos plans to pursue the Group acquisitions policy and to continue to capitalize internal development costs.

5.7.3 Information relating to joint ventures and associates

As of December 31, 2025, Oneworld is the main equity-accounted company.

Oneworld is a Chinese investment company, of which Laurence Stoclet is a board member. As at December 31, 2025, the Group held a loan of €25.2 million with Zhejiang Oneworld BigData Investment Co Ltd (China), which is 40%-owned and accounted for under the equity method.

The other companies accounted for under the equity method are not material.

5.7.4 Environmental issues that may affect the use of property, plant and equipment

The Group rents almost all the buildings used for its operations, including its head office. Other property, plant and equipment therefore mainly consists of technological equipment.

Limiting emissions from buildings and technological equipment is one of Ipsos' commitments to the planet (refer to Section 5.4.2 – Sustainability report).

5.7.5 Activities in the field of Research and Development

- To optimize its cost structure over the long-term, Ipsos invests in finding the best research solutions. The appropriate use of new, technology-intensive survey techniques enhances the quality of its services. This also increases profitability.
- For more information on research and development, see Section 5.7.1 of the Registration Document and Note 18.1.2.2.4.2 "Other intangible assets" to the Consolidated Financial Statements.

6 Organizational structure

6.1	Brief description of the Group	197
6.2	List of significant subsidiaries	200
6.3	List of subsidiaries and equity interests	201

6.1 Brief description of the Group

Ipsos SA is the listed parent company of Ipsos Group operating in nearly 90 markets, thanks in particular to around a hundred acquisitions made by Ipsos SA outside France since 1990.

Ipsos SA has no direct commercial activities other than managing the Ipsos brand. As the Group's holding company, it sets the guidelines and strategy for Ipsos Group; it is responsible for managing its equity interests and for monitoring and overseeing the activity of all subsidiaries. It established the framework for the Group's activities by defining the policies and procedures to be applied by its subsidiaries and their employees through the Group's "Book of Policies & Procedures".

It is the head of the French tax group established on October 30, 1997.

Ipsos SA is the owner of the Ipsos trademark and logo and grants licenses for their use to its subsidiaries in consideration for a royalty established in a trademark license agreement. This royalty totaled €41,322 million in FY 2025.

Ipsos Group is comprised of Ipsos SA and its subsidiaries. Ipsos Group's operational activities run through Ipsos SA's subsidiaries, which are organized by geographic area and by service line (see Section 5.1 of this Registration Document).

Simplified organizational structure of Ipsos Group

The following simplified organizational chart shows the main Ipsos Group subsidiaries by geographic area. Taken together, they account for 68% of the Group's revenue.

Key:

- Holding company
- Indirect ownership of 100% of the share capital (intermediate holding companies ignored)
- Direct ownership of 100% of the share capital (except where a different percentage is shown alongside the subsidiary's name)

N.B.:

Ipsos SA owns 100% of Ipsos Ltd Partnership. Ipsos Corp owns 92.88% with the remaining 7.12% being held indirectly by Ipsos SA via another holding company.

6.2 List of significant subsidiaries

The main direct and indirect operating subsidiaries of Ipsos SA account for 52% of Group revenue and are presented in the table below. Segment accounting information is provided in section 7.2 “Group results” and in note 18.1.2.2.3 of 18.1.2 “Consolidated financial statements” of this Registration Document.

Ipsos Insight LLC (“Limited Liability Company”) is a company incorporated in the United States with its registered office at 3101 Merritt 7, Norwalk, CT 06851. Ipsos SA indirectly owns 100% of Ipsos Insight LLC. Ipsos Insight LLC performs survey-based market research in all Ipsos Group business lines.

Ipsos Mori UK Ltd. is a limited company registered in England and Wales with a share capital of £1,300,001, its registered office at 3 Thomas More Square E1W 1YW London, United Kingdom, with Company number 01640855. Ipsos SA directly and indirectly owns 100% of Ipsos Mori UK Ltd. Ipsos Mori UK Ltd performs survey-based market research in all Ipsos Group service lines.

Ipsos (China) Consulting Co. Ltd (formerly Beijing Ipsos Market Consulting Co. Ltd) is a company incorporated under the laws of China with its registered office at 12B-16F, Tower A, China Overseas International Center, No. 5 An’ding Road, Chaoyang District, Beijing, China. Ipsos SA indirectly owns 100% of Ipsos (China) Consulting Co. Ltd. This company performs survey-based market research in all Ipsos Group business lines.

Ipsos (France) is a French SAS (simplified stock corporation) with a share capital of €43,710,320, its registered office at 35 rue du Val de Marne, 75013 Paris, registered as number 392 901 856 in the Paris Trade and Companies Register. Ipsos SA owns 100% of the share capital of Ipsos (France). Ipsos (France) performs survey-based market research in all Ipsos Group service lines.

Ipsos (Market Research) Ltd (previously Market and Opinion Research International Ltd) is a limited company registered in England and Wales with share capital of £1,040, having its registered office at 3 Thomas More Square E1W 1YW London, United Kingdom, registered with the Companies House in the United Kingdom under number 00948470. Ipsos SA indirectly owns 100% of Ipsos (Market Research) Ltd. Ipsos (Market Research) Ltd performs survey-based market research in all Ipsos Group service lines.

Ipsos GmbH is a company incorporated under German law with its registered office in Sachsenstr. 6, D-20097 Hamburg. Ipsos SA directly owns 100% of Ipsos GmbH. Ipsos GmbH performs survey-based market research in all Ipsos Group business lines.

Ipsos Public Affairs, LLC is a Delaware corporation with its registered office at 301 Merritt 7, Norwalk, CT 06851. Ipsos SA indirectly owns 100% of Ipsos Public Affairs, LLC. Ipsos Public Affairs, LLC performs survey-based market research in all Ipsos Group business lines.

In addition, some holding and operating companies own some or all of Ipsos Group’s equity interests in France (Ipsos France), Europe (Ipsos EMEA Holdings Ltd.), the United States (Ipsos America Inc.), the Middle East (Ipsos Stat), Latin America (Ipsos Corp.), Central America (Ipsos CCA, Inc.) and Asia (Ipsos Asia Ltd, Synovate Holdings BV). Ipsos SA thus directly or indirectly owns 100% of Ipsos (France), Ipsos EMEA Holdings Ltd, Ipsos America Inc, Ipsos corp, Ipsos Asia Ltd, Synovate Holdings BV and Ipsos CCA, Inc and 56.8985% of Ipsos Stat.

Lastly, Ipsos Group GIE is a French Economic Interest Group having its registered office at 35 rue du Val de Marne, 75013 Paris, registered with the Paris Trade and Companies Register under number 401 915 608. Ipsos Group GIE centralizes some of the Group’s administrative functions. Ipsos Group GIE has entered into service agreements with certain Ipsos Group subsidiaries pursuant to which it provides a number of services (financing, human resources, legal, etc.).

In thousands of Euros	Revenue	Non-current assets	Non-Group borrowings	Balance sheet cash	Cash flow from operating activities

6.3 List of subsidiaries and equity interests

The list of subsidiaries and equity interests owned by Ipsos SA (stating in particular share capital, equity, the percentage interest owned by Ipsos SA and the percentage of revenue) is provided in Note 18.1.3.7.1.2 “List of subsidiaries and equity interests” of the Ipsos SA parent company financial statements in Section 18.1.3 of this Registration Document.

The list of subsidiaries consolidated by Ipsos SA is provided in Note 7.1 “Consolidation scope” to the consolidated financial statements in Section 18.1.2 of this Registration Document. Information concerning changes in Ipsos’ consolidation scope is indicated in Note 2 “Changes to the consolidation scope” to the Ipsos consolidated financial statements in Section 18.1.2.2.2 of this Registration Document.

Dividends paid in FY 2025 to the parent company are detailed in Note 18.1.3.7.1.2 “List of Subsidiaries and Equity Interests” to the parent company financial statements in Section 18.1.3 of this Registration Document.

7 Operating and financial review

7.1	Financial position	203
7.2	Group results	204

7.1 Financial position

The financial position of Ipsos SA is presented in sections 18.1.2 and 18.1.3 of this Registration Document.

The highlights of FY 2025 are in Section 5.3 Significant events in the development of the issuer's activities and Section 18.1.3 of this Registration Document.

Information on the results is provided in Section 7.2 below.

7.2 Group results

Paris, February 24, 2026 – Ipsos, one of the world's leading market research and opinion-polling companies, today publishes its annual results for 2025. Revenue, organic growth, and operating margin, announced on a preliminary basis during Investor Day on January 22, have been confirmed.

- **Revenue:** €2,525 million
 - o total growth: +3.4%
 - o organic growth: +0.6%
- **Operating margin:** €309 million
 - o Operating margin: 12.3%
 - o Operating margin rate at constant scope*: 12.8%

**Excluding the temporary dilutive effect linked to the acquisitions of The BVA Family and infas*

Ipsos posted revenue of €2,524.7 million in 2025, up 3.4% including 0.6% organic growth, 5.8% scope effects related mainly to the acquisitions of The BVA Family and infas and -3.0% unfavorable foreign exchange effects due to the appreciation of the euro against certain currencies, including the dollar.

The uncertain political environment in several geographical regions, combined with more limited budgetary leeway for governments, impacted the Public Affairs business and, consequently, the consolidated performance of Ipsos. This pace of growth remains below our ambitions. The strategic plan presented last month aims to restore a sustained, long-term pace of growth.

At the same time, the operating margin shows resilience and once again illustrates Ipsos' financial discipline. It stood at 12.8% on a like-for-like basis and 12.3% on a reported basis, including the temporary dilutive effect of the acquisitions of The BVA Family and infas.

The year 2025, as well as the beginning of 2026, was marked by several major events:

- The acquisitions of infas and The BVA Family, the latter being the largest acquisition made by Ipsos since 2018. These acquisitions significantly strengthen Ipsos' position in Europe, particularly in Germany, France, Italy and the United Kingdom, and our expertise in packaging testing via PRS IN VIVO,
- The appointment, last September, of Jean Laurent Poitou as Chief Executive Officer, whose mandate is to return to sustainable and profitable growth,
- The resignation of Didier Truchot from his position as Chairman of the Board of Directors of Ipsos for health reasons, effective February 28, 2026, and the appointment by the Board of Laurence Stoclet as Chair.
- The presentation of the Horizons strategic growth plan at Investor Day in January 2026, intended to consolidate Ipsos' global leadership.

CHIFFRE D'AFFAIRES PAR TRIMESTRE

En millions d'euros	Chiffre d'affaires 2025	Croissance totale	Croissance organique	Périmètre	Change
1 ^{er} trimestre	568,5	2,0 %	-1,8 %	2,9 %	0,9 %
2 ^{ème} trimestre	586,6	1,0 %	0,7 %	3,3 %	-3,0 %
3 ^{ème} trimestre	635,9	7,6 %	2,9 %	8,5 %	-3,8 %
4 ^{ème} trimestre	733,7	3,2 %	0,5 %	8,1 %	-5,4 %
Chiffre d'affaires	2 524,7	3,4 %	0,6 %	5,8 %	-3,0 %

ÉVOLUTION DE L'ACTIVITÉ PAR RÉGION

En millions d'euros	Chiffre d'affaires 2025	Contribution	Croissance <u>totale</u>	Croissance organique
EMEA	1 245,2	49 %	12,0 %	2,0 %
Amériques	887,2	35 %	-3,4 %	0,3 %
Asie-Pacifique	392,2	16 %	-4,3 %	-2,5 %
Total	2 524,7	100 %	3,4 %	0,6 %

In **EMEA**, our largest region, total business growth reached 12% in 2025, driven by the integration of the acquisitions of The BVA Family and infas. Against a particularly demanding comparison base (+5.5% in 2024), organic growth stood at 2.0 %, underpinned by satisfactory performances in Continental Europe and the Middle East, but also penalized by a decline of more than 3% in activity in France, attributable to a political and budgetary climate that significantly affected the Public Affairs service line. Organic growth in other service lines in France was slightly positive.

The **Americas** recorded organic growth of 0.3% in 2025. In the US, the political environment weighed on public affairs activities throughout the year, resulting in a decline of around 15%. Apart from this service line, other activities posted organic growth of close to 2% over the year, underpinned by consumer goods customers and an improvement in activity in the healthcare sector.

In **Asia-Pacific**, Ipsos' activities in China were stable in a declining market. However, the region's performance remains penalized by the decline in Public Affairs activities in several countries, notably

Australia, New Zealand and India. Foreign exchange effects were also unfavorable in the region, due to the depreciation of the yuan, the won, and other currencies against the euro.

ÉVOLUTION DE L'ACTIVITÉ PAR AUDIENCE

En millions d'euros	Chiffre d'affaires 2025	Contribution	Croissance <u>totale</u>	Croissance organique
Consommateurs ¹	1 244,6	49 %	2,6 %	2,1 %
Clients et salariés ²	516,5	20 %	5,4 %	2,1 %
Citoyens ³	389,0	15 %	5,9 %	-8,0 %
Médecins et patients ⁴	374,6	15 %	1,2 %	2,4 %
Total	2 524,7	100 %	3,4 %	0,6 %

Breakdown of Service Lines by audience segment:

1- Brand Health Tracking, Creative Excellence, Innovation, Ipsos UU, Ipsos MMA, Market Strategy & Understanding, Observer (excl. public sector), Ipsos Synthesio, Strategy3

2- Automotive & Mobility Development, Audience Measurement, Customer Experience, Channel Performance (Mystery Shopping and Shopper), ERM, Capabilities

3- Public Affairs, Corporate Reputation

4- Pharma (quantitative and qualitative)

Our service lines dedicated to **consumers, clients and employees** show organic growth of 2.1% in 2025. Growth in this segment is driven in particular by our activities related to analyses of market and brand trends, measurement of the impact of advertising campaigns, and surveys of physical and digital points of sale.

Our activity with **citizens** was down 8.0% on an organic basis in 2025. The persistent uncertain political environment dampened demand from public actors, particularly in the US and France.

The **physician and patient** audience grew organically by 2.4%. Innovations in oncology, rare diseases, and studies related to GLP-1 (treatment of type 2 diabetes and obesity) were the main drivers of growth over the year.

Our **Ipsos.Digital** platform continued its strong growth (27% in 2025), with an operating margin around twice that of other Group activities.

PERFORMANCE FINANCIÈRE

Compte de résultat résumé

En millions d'euros	2025	2024	Variation
Chiffre d'affaires	2 524,7	2 440,8	3,4 %
Marge brute	1 711,0	1 677,7	2,0 %
Marge brute / CA	67,8 %	68,7 %	-0,9 pt
Marge opérationnelle	309,3	319,5	-3,2 %
Marge opérationnelle / CA	12,3 %	13,1 %	-0,8 pt
Autres produits et charges non courants / récurrents	-24,1	-16,2	
Charges de financement	-12,5	-9,1	
Autres charges financières	-11,1	-2,4	
Impôts	-66,3	-73,7	
Résultat net part du Groupe	186,6	204,5	-8,8 %
Résultat net ajusté*, part du Groupe	240,4	244,1	-1,5 %

*Adjusted net income is calculated before (i) non-cash items related to IFRS 2 (share-based payment), (ii) amortization of acquisition-related intangibles (customer relationships), (iii) the impact net of tax of other non-current income and expenses, (iv) non-cash impacts on changes in puts in other financial income and expenses and (v) before deferred tax liabilities related to goodwill for which amortization is deductible in certain countries.

Commentary on the income statement

Gross margin was 67.8%, compared to 68.7% in 2024. Most of this decline is due to the integration of infas and The BVA Family, whose gross margin rate is lower than the Group average. At constant scope and exchange rates, the gross margin rate decreased by 30 basis points, reflecting a temporary increase in collection costs for certain activities, as well as the strengthening of quality control procedures for our panels.

Payroll increased by 2.4% due to the impact of acquisitions. At constant scope and exchange rates, it was stable and reflects our adaptation of the cost structure to changes in business activity. As at December 31, the payroll-to-gross-margin ratio stood at 64.8%.

General operating expenses increased by approximately €20 million, corresponding to additional charges related to acquisitions. On a like-for-like basis, the increase in IT and technology spending, in line with our investment strategy, was offset by savings linked to the renegotiation of rents and increased discipline in discretionary spending. The ratio of operating expenses to gross margin was 14.9%.

Other operating income and expenses showed a negative balance of €17 million, mainly related to severance costs. It also includes operating foreign exchange losses resulting from the depreciation of the dollar and other currencies against the euro.

In total, the **operating margin** was 12.3% and 12.8% excluding the temporary dilutive effect linked to the acquisitions of The BVA Family and infas.

Other non-current income and expenses were impacted by approximately €13 million due to the depreciation of Russian net assets. The balance of this item consists mainly of €6.7 million in reorganization costs resulting from acquisitions and managerial changes, as well as €6.0 million in acquisition costs.

Finance costs totaled €12.5 million, up €3.4 million over the period. This change is mainly due to higher average debt over the year, following the acquisitions made in 2025. It also includes the cost of financing the €400 million bond issue carried out in January 2025, with a 3.75% coupon and a five-year maturity.

Other net financial income and expenses showed an expense of €11.1 million, resulting mainly from non-operating foreign exchange losses related to the depreciation of the dollar, as well as financial expenses associated with the application of IFRS 16.

The effective tax rate was stable at 26.0%.

Net income attributable to the owners of the parent stood at €187 million, and **adjusted net income attributable to the owners of the parent** was €240 million, compared with €244 million the previous year.

Financial structure

The gross operating cash flow position stands at €411 million, compared to €430 million in 2024. This decrease is mainly due to the decline in net income.

The change in **working capital requirements** posted a negative change of €30 million. This is due, firstly, to a 3.2% increase in activity in the fourth quarter and, secondly, to a decrease in the provision for variable compensation in 2025, the disbursement of which will take place in the first half of 2026.

Investments in property, plant and equipment and intangible assets, mainly consisting of investments in IT and technological infrastructure, amounted to €83 million in 2025. They increased by 18%, in line with the acceleration of the Group's investments in platforms and technologies.

In total, **free operating cash flow** was €181 million. This level is close to the average free cash flow from operations over the past three years, which amounted to €200 million.

Regarding **non-current investments**, Ipsos accelerated its acquisition policy in 2025, with an invested amount of €179 million, mainly devoted to the acquisitions of The BVA Family and infas.

Finally, **financing transactions** mainly include (i) the €400 million rated bond issue in January 2025 and (ii) the repayment in June of the previous €300 million bond.

Equity stood at €1.568 billion as at December 31, 2025, compared to €1.578 billion as at December 31, 2024.

Net financial debt amounted to €219 million, compared with €57 million at 31 December 2024, due to acquisitions. The leverage ratio (calculated excluding the impact of IFRS 16) remained solid at 0.5x EBITDA.

Cash position. Cash holdings amounted to €318 million as at December 31, 2025.

With the €400 million bond issue, Ipsos has no significant debt maturity before 2030.

The following table shows the results of Ipsos SA over the last five financial years:

Closing date	12/31/2025	12/31/2024	12/31/2023	31/12/2022	12/31/2021

8 Cash and capital resources

8.1	Information on capital resources	211
8.2	Sources and amounts of cash flows	211
8.3	Borrowing requirements and funding structure	211
8.4	Restriction on uses of capital resources	212
8.5	Anticipated sources of funds	212

Information about cash and capital resources for 2023 and 2024 can be found respectively in Section 8 of the 2023 Universal Registration Document filed with the Autorité des Marchés Financiers on April 12, 2024 under number D.24-0283 and in Section 8 of the 2024 Registration Document filed with the Autorité des Marchés Financiers on April 11, 2025 under number D.25-0247. For FY 2025, information concerning cash and capital resources is provided below.

Information on the Company's use of the debt markets is set out below:

As at 31 December 2025, Ipsos had three Schuldschein maturities:

- €15 million (variable rate) maturing in 2026;
- €38.5 million (variable rate) maturing in 2028;
- US\$25 million (variable rate) maturing in 2028.

In January 2025, Ipsos issued its first BBB-rated bond from Fitch and Baa3 from Moody's. This bond, with a value of €400 million, matures in 2030 and carries a 3.75% coupon. It refinanced the €300 million bond that was due to mature in September 2025 and was repaid early in June 2025 as contractually agreed.

In July 2025, the €150 million Syndicated Loan was renewed for a five-year period, with two optional one-year extensions. Ipsos also has a second Syndicated Loan of €185 million maturing in November 2029.

Thanks to the solid FCF level generated each year, Ipsos was able to meet all of its obligations as they fell due.

8.1 Information on capital resources

Information on Ipsos SA's equity over the past two financial years can be found in Note "Equity" to the parent company financial statements in Section 18.1.3.7.7 of the Registration Document. For more detailed information, please see Note "Equity" to the consolidated financial statements in Section 18.1.2.2.4.8 of this Registration Document.

8.2 Sources and amounts of cash flows

Cash flow figures for the last two financial years are summarized in Point 3 "Cash flow statement" of the parent company financial statements in Section 18.1.3.3 of this Registration Document.

For more detailed information, please see "Consolidated cash flow statement" and Note 18.1.2.1.4 "Note on the consolidated cash flow statement" to the consolidated financial statements in Section 18.1.2.2.5.1 of this Registration Document.

8.3 Borrowing requirements and funding structure

For more detailed information, please see the Notes “Borrowings” 18.1.2.2.4.9 and “Lease commitments” to the consolidated financial statements in Section 18.1.2 of this Registration Document.

8.4 Restriction on uses of capital resources

Not applicable.

8.5 Anticipated sources of funds

For more detailed information, please see Note “Liquidity Risk” to the consolidated financial statements in Section 18.1.2.5.2.5 of this Registration Document.

9 Regulatory environment

9.1	Personal data protection	214
9.2	Publication and dissemination of opinion polls	215
9.3	Protection of intellectual property rights	215

The market research industry is not regulated by any specific, clearly established legal norms on an international basis. It is however subject to a set of professional standards implemented by the companies grouped into professional organizations.

These mainly include the ICC/ESOMAR International Code on Market, Opinion and Social Research and Data Analytics, which was conceived as a self-regulatory framework. This Code sets forth essential standards of ethical and professional conduct for the maintenance of public confidence in research while requiring strict compliance with applicable laws and regulations. Accordingly, this Code places particular emphasis on the need to be transparent to respondents regarding the information that researchers intend to collect and the purpose of the research. Researchers must also take care to protect the data collected and to preserve the anonymity of respondents unless they have agreed to waive their anonymity.

In France, the following French legal norms apply to market research companies and their activities.

9.1 Personal data protection

The General Data Protection Regulation No. 2016/679, also known as the “GDPR”, which applies since May 2018 to all countries in the European Economic Area (EEA), is directly applicable in France. Act no. 78-17 of January 6, 1978 on data protection was adapted to the new European framework by an implementing decree dated May 29, 2019, which came into force on June 1, 2019.

Due to the nature of its business, which relies on individuals’ trust in Ipsos to handle the information they provide to us responsibly, Ipsos places a priority on the protection of personal data and adheres to a comprehensive data protection governance framework. The company’s data protection policies are based on the principles of the EU General Data Protection Regulation (GDPR), considered the global standard for data protection. In 2018, Ipsos launched a program to keep all its subsidiaries operating in the European Union compliant with the GDPR and all its other subsidiaries compliant with the GDPR principles (subject to applicable local laws), whether or not the GDPR is applicable. Ipsos has implemented various measures to ensure compliance with the GDPR and other relevant data protection regulations worldwide. These measures include:

- Global Privacy and Data Protection Policy: this policy defines the minimum standards for the processing of personal data in all Ipsos subsidiaries.
- Data Protection Officers (DPOs): each Ipsos entity has a designated DPO responsible for overseeing data protection compliance.
- Intra-group data protection framework: when providing intra-group services, an agreement is established providing a contractual framework for transfers of personal data between Ipsos entities, based on the European Commission’s Standard Contractual Clauses (SCCs).
- Training and awareness-raising: Ipsos regularly provides training to its employees on best practices in data protection. Privacy and data protection also have a dedicated space within the global intranet, used to provide regular updates, as well as guidance and standard documents.
- Data breach management: a centralized reporting system is in place to effectively handle and manage data breaches and ensure that lessons are learned.
- Monitoring and adaptation: Ipsos actively monitors global data protection legislation and adapts its operations accordingly.
- Actively monitor the various generative AI deployments to verify compliance with data protection requirements.

In addition, Ipsos is a member of professional organizations such as ESOMAR, demonstrating its commitment to ethical data management practices. This makes the ICC/ESOMAR International Code on Market, Opinion and Social Research and Data Analytics directly applicable to itself and all its global

subsidiaries. The company also employs robust security measures to protect personal information from unauthorized access, use, or disclosure.

9.2 Publication and dissemination of opinion polls

- Act no. 77-808 of July 19, 1977 on the publication and dissemination of some opinion polls, as amended inter alia by the Act of January 20, 2017; It was in turn amended by Decree no. 2018-301 of April 25, 2018;
- The general recommendations of the Autorité de Régulation Professionnelle de la Publicité (ARPP, the French advertising self-regulating organization) regarding in particular the publication of market and opinion research findings;
- Protection of intellectual property rights;
- The provisions of the French Intellectual Property Code concerning artistic and literary work.

9.3 Protection of intellectual property rights

The provisions of the French Intellectual Property Code concerning artistic and literary work.

10 Information on trends

10.1	Description of the main trends affecting production, sales and inventories, costs and sales prices since the end of the last financial year, and any significant change in the Group's financial performance	217
10.2	Information on any known trends, uncertainties, demands, commitments or events that are reasonably likely to have a material effect on the issuer's prospects	217
10.2.1	Press release on the 2025 full-year results, published on February 24, 2026 (excerpt)...	217

10.1 Description of the main trends affecting production, sales and inventories, costs and sales prices since the end of the last financial year, and any significant change in the Group's financial performance

Please see Section 10.2.

10.2 Information on any known trends, uncertainties, demands, commitments or events that are reasonably likely to have a material effect on the issuer's prospects

10.2.1 Press release on the 2025 full-year results, published on February 24, 2026 (excerpt)

The 2025 financial year took place in an uncertain macroeconomic and political environment, impacting our Public Affairs business. While the operating margin once again showed resilience, organic growth, which remained insufficient, highlights the need for a rapid deployment of the Horizons plan, Ipsos' growth strategy presented at Investor Day on January 22 this year.

The ambition is clear: to make Ipsos the world leader in actionable, high-impact insights through AI. This ambition is based on two growth areas: firstly, reinvent our services by utilizing AI to transform our working methods and deliver faster; secondly, enrich our portfolio by maximizing the adoption of our high-potential services and exploring new growth drivers.

To achieve this, Ipsos relies on solid strengths: its position as a global, independent leader; a diverse range of offerings; access to real respondents; long-term relationships with clients whose satisfaction levels are very high; strong employee commitment; and a robust financial structure that enables it to execute its strategy.

From the beginning of the 2026 financial year, Ipsos is actively deploying the priorities of its strategic roadmap:

- In particular, the Group is accelerating the development of *Globally Managed Services* (GMS), whose penetration remains limited in many countries and which offer strong growth potential. A first wave of six hypermarkets and supermarkets was identified as a priority in 2026, grouped into three categories: *Innovation, Creative Excellence and Behavioral Measurement*. This acceleration is based on targeted investments as well as the establishment of a dedicated organization, managed at the global level.
- At the same time, Ipsos.Digital, which already supports some supermarkets and hypermarkets, is an additional growth driver and will enhance its offering with new services starting in 2026.
- Ipsos has also reorganized its management team to align it with the priorities of its strategic plan, particularly in its offerings, as well as in technology and artificial intelligence.
- Finally, commercial initiatives have been launched, including strengthening the accountability of executive officers at various levels for the development and oversight of key accounts, with the aim of improving commercial execution and supporting growth.

2026 is the first step in a recovery in the Group’s growth momentum, aiming for average organic growth of 3% to 4% over the 2026-2028 period. This dynamic is based on the rapid deployment of strategic priorities. The initiatives undertaken in 2026 will gradually gain momentum.

For fiscal year 2026, Ipsos expects organic growth of between 2% and 3%, with an operating margin equivalent to that of 2025. Capital allocation priorities remain unchanged, with the continuation of a targeted acquisition strategy and increased investment in technology.

Given the Group’s financial strength and in accordance with the capital allocation policy presented at Investor Day, the Board of Directors will propose the payment of a dividend of €2.00 per share, up by more than 8%, at the General Meeting on May 20, 2026, corresponding to a payout ratio of 36% of adjusted diluted net income per share. The ex-dividend date will be July 1, 2026.

In addition, the Board of Directors today decided on a buyback of shares program for cancellation purposes, amounting to approximately €100 million in 2026, which will be executed as soon as possible. The implementation of this plan will be covered in a specific press release.

11 Profit forecasts or estimates

11.1 Profit forecasts or estimates

Please see Section 10.2.1.

11.2 Main assumptions underpinning profit forecasts or estimates

Please see Section 10.2.1.

11.3 Statement on the basis on which the profit forecasts and estimates were compiled and prepared

The “At the Heart of Science and Data” strategic plan, presented in June 2022 and covering the 2022-2025 period, served as the basis for defining the Group’s medium-term financial objectives. To that end, an annual budget for 2025 was prepared and approved by the Board of Directors. In 2025, Ipsos generated total revenue of around €2,525 million, corresponding to 0.6% organic growth. The operating margin on a like-for-like basis was 12.8% and 12.3% including the temporary dilutive effect related to the acquisitions of The BVA Family and infas.

At the end of this strategic cycle, in January 2026, Ipsos presented a new development strategy called “Horizons,” which defines the Group’s financial guidelines and objectives for the coming years. This plan provides for average organic growth of 3% to 4% over the 2026-2028 period, with a target operating margin of 13.5% in 2028, followed by average organic growth of more than 5% over the 2029-2030 period, accompanied by an operating margin of over 14%.

¹⁰ At the meeting of the Board of Directors on January 15, 2026, Didier Truchot tendered his resignation as its Chairman for health reasons. The resignation took effect on February 28, 2026. Mr. Didier Truchot remains involved in the company's affairs as a Director. At the same meeting, the other members of the Board of Directors decided to appoint Mr. Didier Truchot as Honorary Chairman.

¹¹ At its meeting of January 15, 2026, and in order to strengthen its governance, the Board of Directors appointed Mrs. Anne-Marie Couderc as Lead Director with effect from March 1, 2026.

¹² At the recommendation of the Appointments and Compensation Committee, the members of the Board decided at the meeting of January 15, 2026, to appoint Ms. Laurence Stoclet as Chair of the Board of Directors. Ms. Laurence Stoclet assumed the role of Chair of the Board of Directors on March 1, 2026.

Name	Age	Sex	Nationality	Start of first term of office	End of current term of office	Length of service on the Board (in years)	Board of Directors	Audit Committee	ACC	ESG Committee	Strategy Committee

Independence level ¹³							67%	67%	100%	100%	75%

M = Member; C = Chairman

¹³ The director representing employees is not taken into account when calculating the Board's independence level (Article 10.3 of the Afep-Medef Corporate Governance Code to which Ipsos refers).

12.1.1.2 Individual expertise of each member of the Board of Directors

The Board of Directors, on the recommendation of the Appointments and Compensation Committee which is in charge of the candidate selection process and which is composed of 100% independent members, pays particular attention to the selection of its members.

It ensures that the General Meeting proposes new directors chosen in such a way as to have a good gender balance, as far as possible, but not exclusively: the plurality and diversity of skills, experience and mastery of strategic and ESG issues are at the heart of this selection process for directors, as well as their knowledge of the Group's activities, which operates in a niche business in the professional services sector.

Thus, the Board of Directors brings together skills and expertise in the following areas:

- Society and economy;
- Senior management of international companies;
- Trades (*professional services*);
- Finance, audit and risk;
- Technology, IT and cybersecurity;
- Data, digital;
- ESG;
- Human Resources, compensation.

12.1.1.2.1 Individual expertise of each member of the Board of Directors

The profile and skills of each member of the Board of Directors are detailed in their biographies in the following section. The table below summarizes this.

		Didier Truchot	Jean Laurent Poitou	Patrick Artus	Pierre Barnabé	Bpifrance Investissement (L. Chaine)	Virginie Calmels	Armelle Carminati-Rabasse	Anne-Marie Couderc	André Lewitcki	Filippo Pietro Lo Franco	Sylvie Mayou	Àngels Martín Muñoz	Eliane Rouyer-Chevalier	Laurence Stoclet

12.1.1.3 Individual Director profiles

In 2025, two changes were made to the composition of the Board of Directors, with the arrival in June 2025 of Anne-Marie Couderc, replacing Florence Parly, and Jean Laurent Poitou, Chief Executive Officer, replacing Ben Page on September 15, 2025.

At the Board of Directors meeting on January 15, 2026, Didier Truchot, Founder of Ipsos, informed the Board of his intention to step down as Chairman for health reasons, with effect from February 28, 2026. He stated that he intended to remain involved in the company's affairs as a director and to continue as its main shareholder.

On the recommendation of the Appointments and Compensation Committee, the members of the Board unanimously decided to appoint Ms. Laurence Stoclet Chair of the Board of Directors.

Laurence Stoclet has held various executive positions at Ipsos since 1998, first as Chief Financial Officer and then since 2010 as Deputy CEO. She had left her executive positions on September 30, 2022. She has been a member of the Board of Ipsos since 2002.

Laurence Stoclet took office as Chair of the Board of Directors on 1 March 2026.

In addition, to strengthen its governance, the Board decided to appoint Madame Anne-Marie Couderc as Lead Director.

The Board members expressed their full support and friendship to Didier Truchot, before appointing him Honorary Chairman.

Directors as at December 31, 2025

	Didier Truchot Chairman of the Board of Directors of Ipsos SA* Biography Founder and Chairman of Ipsos since its creation in 1975. He was also the CEO until November 2021. Jean Laurent Poitou
Director and CEO of Ipsos SA

Biography

Jean Laurent Poitou has been Chief Executive Officer of Ipsos since September 15, 2025. An engineer and a graduate of the Ecole Polytechnique, he has worked for years on new technologies, particularly artificial intelligence, and has practical experience implementing it in businesses.

He worked for over 30 years at Accenture in Europe, as well as in the United States and Asia, where he held international senior management responsibilities.

During the four years preceding his arrival at Ipsos, Jean Laurent Poitou managed the Digital and Technology Services entity of Alvarez & Marsal for Europe, the Middle East and Africa.

In these two professional services companies, Jean Laurent Poitou led regional and then global operations generating several billion in revenue and supported many companies in their digital transformation, technological modernization, and artificial intelligence project deployment.

Bpifrance Investissement: SAS with share capital of €20,000,000 – Trade and Companies Register of Créteil, no. 433 975 224. Registered office address: 27-31 avenue du Général Leclerc - 94710 Maisons-Alfort Cedex Activity: Long-term capital investment in listed French multinationals through the Lac1 fund Number of Ipsos shares held: 3,071,428	Bpifrance Investissement Independent Director and Member of the Strategy Committee Bpifrance assists companies – at each stage of their development – with credit, guarantees and equity. It supports them in their innovation projects and internationally. Bpifrance now also insures export activities through a wide range of products. Advisory services, a university, networking opportunities and acceleration programs for start-ups, SMEs and mid-sized companies are also part of the offering provided to entrepreneurs. Thanks to Bpifrance and its 50 regional offices, entrepreneurs benefit from a single, local, and effective point of contact to help them meet their challenges. Bpifrance Investissement is the company that manages Bpifrance's equity investments. The Lac1 fund, which it manages, makes long-term investments in the share capital of listed French multinationals while playing an active role in their governance. It has an investment capacity of €5.2 billion, after an initial fundraising carried out – alongside Bpifrance – with around 30 subscribers, including French and international institutional investors, large companies, and family offices. Lac1 draws on Bpifrance's position within its ecosystem, its knowledge of technological and environmental transitions, as well as its expertise in the governance of listed companies.

Laurence Stoclet
Chair of the Board of Directors of Ipsos SA and member of the Audit Committee*

Biography

Laurence Stoclet has been Chair of the Board of Directors of Ipsos since March 1, 2026. She is a market research specialist and an executive officer and company director with extensive experience managing international operations and technology platforms.

A graduate of ESCP, where she managed the Junior-Entreprise Etudes ESCP market research organization for three years, Laurence Stoclet began her career at Goldman Sachs as a financial analyst before joining Arthur Andersen, where she worked for six and a half years as a manager in Audit and Consulting. For two years, she was in charge of treasury, financing and investor relations at Metaleurop, a publicly traded industrial company.

In 1998, she joined Ipsos as Group Chief Financial Officer to prepare for its IPO. In 2002, she became a director of the company, then was appointed Deputy CEO in 2010, a position she held until September 2022. In this role, she oversaw more than 100 company acquisitions, as well as their integration plans, which helped make Ipsos a leader in its sector, with operations in 90 countries. She also managed the Group's back office operations and human resources for some time. She then directly managed investments in new technologies, as well as the group's 1,000 IT engineers, and launched the Ipsos.digital platform in 2020.

Today, she is Chief Executive Officer of DT & Partners, the main shareholder of the Ipsos Group, and a director of several Group entities, including the Chinese fund "OneWorld", which invests in big data and marketing platforms in China.

An expert in financial, legal and tax matters, she holds a DESCF (Higher Diploma in Accounting and Finance). She is also certified Director - Sciences Po/IFA and specialist in audit committees (Ecoda-Europe) and is ACPR-approved. From 2023 to March 2025, Laurence Stoclet was President of the DFCG Ile de France, the national association of financial executives.

Since end-2022, she has served as an Independent Director on the Supervisory Board of Ingenico, the world leader in payment solutions owned by the Apollo fund, where she chairs the Audit and Risk Committee.

In May 2025, she was appointed MEDEF representative on the Board of Directors of Action Logement Services, a major player in social housing in France, and participates in its Audit Committee.

Ben Page

Director and CEO of Ipsos SA

Biography

Ben Page is the Chief Executive Officer of Ipsos. He joined MORI Group in 1987 after graduating from Oxford University in 1986, and was one of the leaders in the Group's first management buyout and its sale to Ipsos in 2005. A frequent writer and speaker on trends, leadership and performance management, he has conducted thousands of surveys examining consumer trends and citizen behavior.

From 1987 to 1992, Ben Page worked in the private sector on corporate reputation and consumer research. From 1992 onwards, he worked closely with both Conservative and Labor ministers as well as senior policy makers across government.

He became Chief Executive Officer of Ipsos in the UK and Ireland in 2009.

Ben Page is a Visiting Professor at Kings College in London, and a fellow of the Academy of Social Sciences and member of the Market Research Society. He sits on the Economic and Social Research Council (ESRC) at UKRI. He is a consultant for the Kings Fund and the Social Market Foundation.

Anne Marion-Bouchacourt

Independent Director and Chair of the Appointments and Compensation Committee

Biography

Anne Marion-Bouchacourt is a graduate of the Paris Business School (École Supérieure de Commerce de Paris). She has a degree in chartered accountancy and a Master's in financial management from Paris Dauphine University. She began her career with the consultancy and audit firm PricewaterhouseCoopers (PWC). She became Head of the Financial Services Sector there in 1990 before assuming the position of Vice President at Gemini Consulting in 1999. She joined Solving International as Vice President and Head of Banking in 2002. She joined Société Générale Group in 2004 as Human Resources Director at Société Générale Corporate & Investment Banking (SG CIB). In 2006, she was appointed Group Human Resources Director. Since July 2012, Anne Marion-Bouchacourt has been Country Head for China at Société Générale Group. On October 1, 2018, she was appointed Group Country Head for Switzerland and CEO of SG Zurich, a position she left in late 2023.

	Florence Parly Independent Director and member of the Appointments and Compensation Committee
Age: 62 Nationality: French Business address: 19 rue d'Edimbourg - 75008 Paris Main role: Independent Director Key skills & areas of expertise: Management and Corporate Governance, International, Finance, Transportation, Defense	Biography Florence Parly began her career in 1987 at the French Economy and Finance Ministry. She takes part in various ministerial cabinets, including that of Prime Minister Lionel Jospin, serving as a budget affairs adviser. In January 2000, she was appointed Secretary of State for the Budget, a position she held until May 2002. As Chairman of Agence Régionale de Développement de la Région Ile de France, she joined Air France Group in 2006, where she successively managed the Cargo business (2008-2013) and then the short-haul business. She joined SNCF in 2014, first as Deputy Chief Executive Officer and then, from 2016, as Chief Executive Officer of SNCF Voyageurs. At the same time, she served as an independent director at several listed companies and was a member of the Pension Oversight Committee ("CSR") under the Prime Minister from 2014 to 2017. Florence Parly was appointed Minister of the Armed Forces in June 2017, a position she held until May 2022. She has been a member of the Advisory Board of UK think tank IISS (International Institute for Strategic Studies) since November 2022 and chairs the Board of Directors of the National Conservatoire des Arts et Métiers. In April 2023, she joined the Supervisory Committee of Caisse des Dépôts et Consignations and then the Board of Directors of Pierre Fabre SA, Eutelsat and Air France KLM. She is also a director at UK firm Newcleo and CIC-Suisse. Florence Parly, 60, is a graduate of Institut d'Etudes Politiques de Paris (IEP Paris) and a former student of ENA. She is an officer in the French Order of the Legion of Honor and an officer in the National Order of Merit. Main appointments and positions in other companies • Member of the Supervisory Committee of Caisse des Dépôts et Consignations • Independent Director of Pierre Fabre SA, member of the Strategy Committee • Independent Director of Eutelsat, Chairman of the Compensation Committee • Independent Director of Air France KLM • Independent Director of Newcleo, member of the Audit Committee and Chair of the ESG Committee • Independent Director of CIC Suisse, member of the Appointments and Compensation Committee Past directorships held in the last five years • Member of the Supervisory Committee of Caisse des Dépôts et Consignations (end-February 2024)

12.1.2 Executive officers

The Company's sole executive officer at the end of the previous financial year was Jean Laurent Poitou.

A – Mr. Jean Laurent Poitou, Chief Executive Officer

At its meeting of August 19, 2025, the Board of Directors decided to appoint Jean Laurent Poitou as Chief Executive Officer of the Company for a term of five years beginning September 15, 2025 (see press release).

By decision of September 15, 2025, the Board of Directors co-opted Jean Laurent Poitou as a director, subject to ratification by the General Meeting of Shareholders on May 20, 2026.

As a result of these decisions, Jean Laurent Poitou is both Chief Executive Officer and director (see his detailed presentation in 12.1.1 above).

B – Deputy CEOs

As of the date of the 2025 Universal Registration Document, there are no longer any Deputy Chief Executive Officers alongside the Chief Executive Officer.

12.1.3 Management Committees

1- ExCo (Executive Committee)

The members of the ExCo work closely with the Chief Executive Officer, who chairs this Group.

The ExCo ("Executive Committee") comprises the main cross-business functions of Ipsos that report to the Chief Executive Officer.

The CEO chairs the ExCo.

As at December 31, 2025, the composition of the ExCo was as follows:

- **Jean Laurent Poitou**, Chief Executive Officer;
- **Olivier Champourlier**, Chief Financial Officer;
- **Michel Guidi**, Chief Operating Officer;
- **Perrine Dufros**, Chief People Officer;
- **Christophe Cambournac**, Global Head of Service Lines;
- **Eleni Nicholas**, Chief Client Officer.

2- GMC – Group Management Committee

The GMC (Group Management Committee) is made up of the Group's main executive officers and senior managers who assist the Chief Executive Officer with the operational management of the Group. The CEO chairs the GMC.

As at December 31, 2025, the composition of the GMC was as follows:

- **Kelly Beaver**, CEO, UK & Ireland;
- **Christophe Cambournac**, Global Head of Service Lines;
- **Shane Farrell**, CEO Europe, & Chairman Sub-Saharan Africa and MENA;
- **Sheryl Goodman**, Group General Counsel;
- **Michel Guidi**, Chief Operating Officer;
- **Lifeng Liu**, CEO Greater China;
- **Hamish Munro**, CEO APEC;

- **Perrine Dufros**, Chief People Officer;
- **Alexandre Guérin**, Country Manager, France;
- **Jean Laurent Poitou**, Chief Executive Officer;
- **Olivier Champourlier**, Chief Financial Officer;
- **Pierre Gaudin**, General Secretary;
- **Jean-Michel Mabon**, Head of Mergers and Acquisitions;
- **Eleni Nicholas**, Chief Client Officer;
- **Mary Ann Packo**, Chief Executive Officer, North America;
- **Sue Phillips**, ESG Global Lead;
- **Caroline Ponsi-Khider**, Chief Communications and Brand Officer;
- **Jean-Christophe Salles**, Chief Executive Officer, Latin America.

12.1.4 Indictment or sanction of members of the Board of Directors or members of the Executive Committee

On July 17, 2024, Mr Christophe Cambournac, member of the Executive Committee (until December 31, 2025), entered into an administrative settlement agreement with the Autorité des Marchés Financiers, as this senior executive may have failed in 2021 (i) to comply with the abstention obligations pursuant to the provisions of Articles 7.8 and 14 a) of the MAR regulation and (ii) to comply with the reporting obligations related to his status as a senior executive of the Company, in accordance with Article 19.1 of the MAR regulation.

12.2 Conflicts of interest

To the best of the Company's knowledge, there are no conflicts of interest between obligations towards Ipsos SA among executive officers and their personal interests and other obligations.

13.1 Compensation policy for executive officers (established pursuant to Article L. 22-10-8 of the French Commercial Code)

This compensation policy has been drawn up pursuant to Article L. 22-10-8 of the French Commercial Code.

The framework provides for an annual shareholders' vote on the compensation policy for executive officers established by the Board of Directors, which applies to all Ipsos SA executive officers, including Directors, which had previously been excluded.

Ipsos SA applies this compensation policy to each category of executive officer (Chairman of the Board of Directors, Chief Executive Officer and Directors). This thus allows for better consideration of shareholder views with different votes being possible per category of executive officer.

Should this compensation policy be approved, as applied per category of executive officer, the latter will govern the determination of the compensation attributable to the relevant Ipsos SA executive officers for the current financial year and potentially subsequent financial years should this policy remain unchanged.

Items of compensation or compensation commitments may only be determined, attributed, incurred or paid when compliant with the compensation policy approved by shareholders or, in the absence of approval, with the compensation awarded in respect of the previous financial year and, failing that, existing practices within the Company.

For financial year 2026, the Board of Directors, at its meeting of February 24, 2026, after receiving the favorable opinion of the ACC, determined the compensation policy applicable to executive officers for the current financial year.

For the sake of clarity, the common aspects of the compensation policy applicable to all executive officers are presented in a section 13.1.1, followed by a description of the application of this policy to the Chairman of the Board of Directors, the CEO and Directors in sections 13.1.2 to 13.1.4.

13.1.1 Compensation policy - Common aspects for all executive officers

The compensation policy for executive officers is the responsibility of the Board of Directors of Ipsos SA, which takes decisions regarding its determination, revision and implementation, on the basis of proposals from the Appointments and Compensation Committee ("ACC").

The ACC in particular makes recommendations regarding the compensation policy, specifically regarding the definition and implementation of rules governing the setting of variable items. To ensure its impartiality, its members are independent Directors and none are executive officers.

This policy takes account of the principles used to determine compensation in the AFEP-MEDEF Code of Corporate Governance, notably the principles of completeness, balance, comparability, consistency, transparency and measurement.

The role of the ACC is to review and make proposals to the Board regarding all items of the compensation and benefits of executive officers as well as the allocation of compensation (e.g. attendance fees) awarded to Directors. The Chair and CEO is involved in the work of the ACC.

Moreover, the ACC is updated on the compensation policy for the key executive directors on the Group Management Committee ("GMC", see Section B-).

The ACC, and the Board of Directors, specifically hope this policy will:

- Ensure, where applicable, a balance between the various items of compensation: fixed compensation, variable cash compensation (annual bonus) and variable share component in the form of free performance shares;

- Check that the compensation components and amounts paid to the relevant executive officers are in line with those allocated to other industry executives in companies comparable to Ipsos and that this compensation remains competitive, via the use of appropriate benchmarks;
- Ensure that this compensation remains aligned with the Group's strategic targets and always encourages performance;
- Ensure that the total compensation is in line with the adopted compensation policy, including how it contributes to the long-term performance of the company and how the performance criteria have been applied;
- Ensure that this compensation is consistent with payments made to company employees, by ceasing any excessive compensation of executive officers and by ensuring, mainly via the bonus mechanism widely applied at Ipsos, that performance-related rewards are shared by as many people as possible.

Among the executive officers of the Company, only the offices of Chair of the Board of Directors and CEO are remunerated.

The Ipsos policy is not to compensate corporate offices (directorships or Deputy CEOs) held by executive directors who are members of the various governing bodies, whether in Ipsos SA or its subsidiaries.

It is also specified that there are no benefits in kind in addition to their compensation for executive officers, apart from that described below for Ben Page, Chief Executive Officer of Ipsos until September 15, 2025. There is also no individual supplementary pension system. They benefit from the same health and welfare coverage and pension systems as other employees based in the country in which they are resident.

In terms of the preparation and revision of the compensation policy for executive officers, the following policy applies:

Once a year, a meeting of the ACC (i) considers an analysis of the compensation of the CEO summarizing the overall compensation package over three years relative to market practice (using the Mercer – Executive Compensation at Listed Companies – SBF 120 annual report), (ii) makes proposals to increase the fixed and variable compensation of the CEO and all GMC members (iii) draws up quantitative and qualitative criteria for allocating variable compensation for the upcoming year. More broadly, a subsequent meeting of the ACC, held prior to the Annual General Meeting, looks to define (i) the provisional annual free share plan, (ii) the breakdown of individual share awards by hierarchical level and gender, as well as (iii) individual share awards for the CEO and GMC members.

In order to be quorate, half of the members of the ACC must be in attendance. Opinions and recommendations are taken by majority vote. The Chair does not have a casting vote.

Following discussion, the Chair of the ACC forwards the committee's recommendations and opinion to the Board of Directors for a decision on the compensation of the Chair and of the CEO and for information regarding the compensation of GMC members:

The Board of Directors of Ipsos reviews the detailed analyses and recommendations of the ACC and takes what it feels are the appropriate decisions having regard to the best interests of the company, the strategy as well as the long-term survival of the company in order to determine the compensation policy for executive officers that will be voted on by the Annual General Meeting.

The executive officers are not party to any decisions by the Board of Directors regarding their compensation.

The compensation policy adopted will apply to a newly appointed executive officer in the same manner, *mutatis mutandis*, as to his predecessor or in the same manner as before his renewal.

13.1.2 Compensation policy – For the Chair of the Board of Directors

At its meeting on February 24, 2026, the Board of Directors, on the recommendation of the ACC, decided on the compensation policy for Laurence Stoclet, who was appointed Chair of the Board of Directors with effect from March 1, 2026.

The compensation policy applicable to the Chair of the Board of Directors is drawn up by the Ipsos SA Board of Directors in the manner specified in Section 13.1.1 and structured as detailed below.

13.1.2.1 Fixed compensation

The annual fixed compensation of the Chair of the Board of Directors is set at the gross amount of €350,000 with effect from March 1, 2026¹⁴, payable in twelve monthly instalments, subject to the approval of the General Meeting of Shareholders of May 20, 2026.

This level of compensation amount is in line with market standards. The median compensation of non-executive chairs of the SBF80 is around €400,000.

In addition, this level of compensation had not been changed since 2022.

No other compensation will be paid for offices that the Chair may hold on the governing bodies of the Company and the Company's subsidiaries.

13.1.2.2 Annual variable compensation

The Chair of the Board of Directors does not receive any annual variable compensation.

13.1.2.3 Long-term variable compensation

The Chair of the Board of Directors does not receive any long-term compensation.

13.1.2.4 Extraordinary compensation

The Chair of the Board of Directors does not receive any extraordinary compensation.

13.1.2.5 Compensation for his position as director

The Chair of the Board of Directors does not receive any additional compensation for his office as a director of the Company or for the offices he holds in Group subsidiaries.

13.1.2.6 Benefits in kind

No benefits in kind are payable to the Chair of the Board of Directors.

¹⁴ For the period between March 1, 2026 and May 20, 2026, the date of the next General Meeting of Shareholders, the Chair of the Board of Directors will be compensated in accordance with the ex-ante compensation policy for the Chair of the Board of Directors, as approved by the 2025 General Meeting of Shareholders, and therefore on the basis of gross annual compensation of €279,264. Subject to the compensation policy for the Chair being approved by the 2026 General Meeting, her compensation for the period between March 1 and May 20, 2026 will be adjusted.

13.1.2.7 Termination of office benefit

The Chair of the Board of Directors does not benefit from any severance or non-compete packages.

13.1.2.8 Supplementary pension scheme

The Chair of the Board of Directors does not benefit from any supplementary pension scheme.

Term of office

Please see table 11 in Sections 13.3.1 and 14.4 of this Registration Document regarding the length of terms of office. The conditions for dismissing the Chair and CEO are set out in the Articles of Association, which provide that the Chair and CEO can be dismissed by the Board of Directors at any time.

13.1.3 Compensation Policy - For the CEO

At its meeting of February 24, 2026, the Board of Directors, on the recommendation of the ACC, approved the compensation policy for the CEO.

The compensation policy applicable to the CEO is drawn up by the Ipsos SA Board of Directors in the manner specified in Section 13.1.1 and structured as detailed below.

The changes presented and submitted for the approval of the General Meeting allow Ipsos to offer a package (fixed, variable and long-term compensation) in line with market standards, and in line with the median level for the SBF 80, both in terms of its amount and its distribution between these three levels of compensation.

13.1.3.1 Fixed compensation

At its meeting of February 24, 2026, and based on a favorable opinion from the Appointments and Compensation Committee, the Board of Directors decided that the Chief Executive Officer's fixed compensation would be equal to a gross annual amount of €750,000 payable in 12 monthly installments.

This amount is slightly lower than the amount received by the previous Chief Executive Officer. He received €716,450 in cash compensation, on top of which the Company rented a house for him in Paris with a maximum cost of €50,000 per year.

13.1.3.2 Benefits in kind

Jean Laurent Poitou does not receive any benefits in kind.

13.1.3.3 Annual variable compensation

The annual variable compensation of the Chief Executive Officer for 2026 was set by the Board of Directors at its meeting of February 24, 2026, on the favorable opinion of the Appointments and Compensation Committee.

Variable compensation, for which the target amount represents 100% of the fixed compensation if the targets corresponding to performance criteria are attained, may be up to 150% of the fixed compensation if these objectives are exceeded. Variable compensation is paid as a cash bonus.

These figures represent an adjustment to the previous compensation policy. It provided for a target amount of variable compensation representing 60% of fixed compensation if the targets corresponding to performance criteria were met—and could rise to a maximum of 90% of fixed compensation if the targets were exceeded.

This change is being made at a time when Ipsos has turned to the market, rather than to internal recruitment, for the appointment of its new Chief Executive Officer. It aligns Ipsos with the median payable by SBF80 companies, at which target variable compensation is around 100% of fixed compensation, with a maximum of 150% if targets are exceeded.

This alignment of the annual variable component with market practices allows Ipsos to offer the Chief Executive Officer, who was hired from outside the company, a balanced, reasonable, and competitive compensation package.

The annual variable compensation of the CEO rewards Ipsos Group's annual performance and the CEO's individual performance.

The amount of variable compensation depends on the attainment of targets set annually by the Board of Directors on the basis of:

- (1) quantitative criteria relating to the Ipsos Group's financial performance, accounting for 60%, and
- (2) non-financial criteria based on individual targets, accounting for 40%, where half of these criteria will be quantifiable.

No later than March 1 of each year, the Board of Directors reviews individual bonus criteria, and sets in particular the individual targets that will be taken into account in the quantitative and qualitative criteria as well as their weighting in variable compensation, it being specified that the Board seeks to maintain the criteria for the duration of the term of office, barring an exceptional event that invalidates a given criterion.

In the following year, and no later than April 1, the Board of Directors reviews the attainment of these criteria and determines accordingly the amount of the annual bonus to be paid to the CEO in respect of the preceding financial year.

For the 2026 financial year, the performance criteria set by the Board of Directors will include three quantitative and four non-financial criteria. The criteria and their weighting for the 2026 financial year are shown in the table below:

Variable compensation: bonus criteria		
Weighting of financial criteria:	Weighting of 60% of the total bonus broken down as follows:	
No. 1 - 30%: Organic revenue growth No. 2 - 20%: Operating margin	Below 90% of the annual budget:	0%
	Between 90% and 100% of the annual budget:	0% to 51.64% (straight-line basis)
	Between 100% of the annual budget and 100% of the target:	51.64% to 100% (straight-line basis)
	Between 100% and 110% of the target:	100% to 110% (straight-line basis)
	Between 110% and 120% of the target:	110% to 150% (straight-line basis)
No. 3 - 10%: Free Cash Flow	Below 90% of the target:	0%
	Between 90% and 100% of the target:	0% to 100% (straight-line basis)
	Between 100% and 110% of the target:	100% to 110% (straight-line basis)
	Between 110% and 120% of the target:	110% to 150% (straight-line basis)
Weighting of non-financial and qualitative criteria	Weighting of 40% of the total bonus broken down as follows:	
No. 4 - 10%: Reduced CO2 emissions in line with the target set by the ESG Committee	The achievement of this criterion will be measured based on the reductions in CO2 emissions in 2026 compared with 2025 (151k tonnes at constant scope and emission factors; 134k tonnes at current scope and emission factors). In 2025, the target set was to achieve emissions equal to or less than 152k tonnes. By 2026, the published target will be to achieve emissions equal to or less than 146k metric tonnes.	
No. 5 - 10%: Improved gender equality in line with the target set by the ESG Committee ⁽¹⁾	The achievement of this criterion will be measured based on the proportion of women at levels L1 and L2 of the workforce at the end of the year. The payout under this criterion will be 100% if women represent at least 42% of L1 and 50% of L2.	
No. 6 - 10%: Qualitative = Management and quality of management team composition	The achievement of this criterion will be measured by three actions: - Staffing of critical positions linked to the Horizons project, - Increase in the number of internal transfers of executives, - Implementation of succession plans for key positions. The payout under this criterion will be assessed by the Board of Directors.	
No. 7 - 10%: Qualitative = Quality of Client relations	Achievement of this criterion will be measured based on the following indicator: increase in cumulative revenue earned from Ipsos' 40 main clients at least equal to or greater than the target of 3.5% compared to 2025. The payout will be 100% if the growth achieved is equal to or greater than 3.5%.	

(1) Target 5 referred to in Section 5.4.2 (Sustainability report), Subsection 1.3.2.2. of this Universal Registration Document.

The attainment of the various variable compensation targets for year N is recognized by the Board of Directors and this amount is only paid after and subject to the approval of the General Meeting of Shareholders in year N+1 for compensation for year N.

Notwithstanding the attainment of quantitative and qualitative targets, no variable compensation will be paid in the event of departure before the end of a financial year due to resignation or dismissal for serious or gross misconduct. In the event of departure during the year for a reason other than those referred to above and if it is apparent from the Company's parent company financial statements for the financial year in question (as approved at the General Meeting) or other information systems that the targets have been attained, the portion of variable compensation based on quantitative targets will be paid and calculated on a pro rata basis.

13.1.3.4 Long-term variable stock-based compensation

A portion of the CEO's compensation consists of an annual allocation of free shares, with a three-year vesting period, for which the final vesting is subject to performance criteria to ensure that this compensation is in line with the best interests of the shareholders.

The first award was made to Jean Laurent Poitou, in his capacity as Chief Executive Officer, on September 15, 2025.

At its meeting of February 24, 2026, on the favorable opinion of the Appointments and Compensation Committee, the Board of Directors decided to propose the allocation to the CEO, under the 2026 free share plan which will be implemented by the Board of Directors at the end of the General Meeting, a number of free performance shares with a value of €750,000, divided by the opening price of the Company's shares on the date of such award and representing a maximum of 0.07% of the share capital.

This change from the previous compensation policy seeks to align Ipsos more closely with market practices, particularly due to the fact that the new Chief Executive Officer was recruited from outside the company. The median level for SBF80 companies is long-term variable compensation of more than 130% of fixed compensation.

As a result of this alignment with market practices, Ipsos is able to offer, at a key moment in its transformation, a balanced, reasonable and competitive compensation package to an externally recruited Chief Executive Officer.

1. **Conditions for the vesting of free shares**

Free share awards to the CEO will be subject to continued employment and the attainment of performance criteria set by the Board of Directors.

1.1 Continued employment conditions

The final vesting of performance shares will be subject to three years continued employment from the date when they were awarded by the Board of Directors. This continued employment condition may only be waived in the event of death, infirmity or retirement of the beneficiary.

1.2 Performance conditions

In line with the recommendations of the AFEP-MEDEF Corporate Governance Code, the final vesting of free shares awarded to the CEO will also be subject to performance criteria defined by the Board of Directors at the time of their award.

These criteria will be measured over a period of three (3) years prior to the end of the applicable vesting period and there will be two financial criteria.

The free shares awarded will not be subject to a holding period at the end of the three (3) year vesting period.

Final vesting of the free shares to be allocated to the Chief Executive Officer in 2026 will be subject to (i) the achievement of a profitability condition measured over the entire vesting period, the criterion used to measure the achievement of this performance condition being that average net income attributable to the owners of the parent is positive over the three-year vesting period (the "**Minimum Condition**", which applies to all employees who receive free shares), and (ii) the achievement of three (3) additional performance conditions, described below:

- **Organic growth criterion** (45% of total shares awarded):
 - If the cumulative organic growth rate over three years is at least equal to the rate of the global market research sector as defined and calculated by ESOMAR⁽¹⁾, aggregated over the same period, all shares will vest.
 - If the cumulative organic growth rate over three years is between 75% and 100% of the cumulative organic growth rate of the market, the number of shares vesting will be between 80% and 100% of the number of shares awarded, determined on a straight-line basis.

- If the cumulative organic growth rate over three years is under 75% of the cumulative organic growth of the market, no shares will vest.

⁽¹⁾ For the sake of clarity, for the measurement of the growth or decline rate of the global market research market defined and calculated by ESOMAR, reference should be made to the final growth rates available on the date of calculation of the performance conditions for the reference period. For example, in May 2029, if the definitive growth rate calculated by ESOMAR for 2028 was not available, only the rates for 2026 and 2027 would be used.

ESOMAR data used to assess this performance condition will be verified and validated by Ipsos, and more specifically by Internal Audit, with final approval by the Board of Directors, before being used.

This performance criterion demonstrates a significant level of ambition, particularly since more than half of the market measured by ESOMAR comprises the United States, a market that is traditionally dynamic and that is therefore overrepresented relative to its actual share in Ipsos' business activity.

- **Operating margin criterion** (40% of total shares awarded):

- If the operating margin over three years increases on average by 0.2% per year (i.e. 0.6% over the period), all the shares would be vested, in the event of growth in the global economy. In the event of a global economic recession⁽²⁾, the target increase in the operating margin for the year is adjusted downwards by 50 basis points for each 100 basis points of decline in the global economy (+0.2% - 0.5% = -0.3%) for each year of recession (global economic growth as published by the IMF).
- If the operating margin over three years grows between 0% and 0.2% on average per year, the number of shares vesting would be between 80% and 100% of the number of shares awarded, determined on a straight-line basis; in the event of a recession, the growth target is adjusted as described above.
- If the operating margin over three years is lower or does not grow, no share will vest; in the event of a recession, the 0% threshold is adjusted as described above.

⁽²⁾ Global GDP as published by the International Monetary Fund (IMF) will be used to measure growth or decline in the global economy, it being understood that there will be a "recession" when global GDP in year N, as published by the IMF, is declining compared to year N-1.

- **Criterion related to diversity within the governing bodies⁽³⁾** (15% of the total number of shares):

- If, on April 1, 2029, the number of women represents at least 50% of the workforce of the governing bodies, all the shares would be vested;
- If the number of women represents between 49% and 50% of the workforce of the governing bodies, the number of shares vested would be between 80% and 100% of the number of shares awarded, according to a linear increase;
- If the number of women represents less than 49% of the workforce of the governing bodies, no shares would be vested.

⁽³⁾ The aim of this criterion is to have a balanced representation of men and women on the Group's governing bodies, understood in a broader manner and including the GLT (Global Leadership Team),¹⁵ as well as the top levels (levels 1 and 2) of the Group's employees, i.e. approximately 900 individuals.

The Board of Directors, on the recommendation of the Appointments and Compensation Committee, reviews the performance criteria attainment levels for the total or partial delivery of those shares attributed three years earlier.

It is specified that if the minimum condition is not reached at the date of acquisition, then no shares will be delivered.

The Board of Directors reserves the right to adjust the targets to be attained for these three performance criteria in the event of exceptional events other than economic recession that would have a significant impact on the achievement or non-achievement of these criteria.

2 Obligation to hold and retain shares vested to the CEO under performance share plans

¹⁵ the Global Leadership Team (GLT) is the successor body to the GMC (Group Management Committee)

The CEO is subject to an obligation to retain 25% of the free shares vested for the duration of their term of office.

3. Commitment of the CEO not to resort to risk hedging transactions

Every time free shares are awarded, the CEO will undertake, like the other executive officers, not to resort to risk hedging transactions on those shares.

Ipsos Partners Program

The Chief Executive Officer may have the opportunity to invest, under the same conditions as the group's other executives, in the Ipsos Partners program. Under this program, he may receive performance shares, subject to making a 50% personal investment, and limited to 50% of his annual fixed compensation, which include vesting criteria identical to those applicable to the annual share allocation plans.

Approximately 350 group executives currently participate in the Ipsos Partners program (see Section 19.1.5.2.2).

13.1.3.5 Extraordinary compensation

The CEO will not receive any extraordinary compensation.

13.1.3.6 Compensation for his position as director

The Chief Executive Officer receives no compensation for participating in the work of the Board, like any other member of the Board of Directors who performs executive duties within the Group. Under applicable rules within the Group, he does not receive any compensation for any other positions he may hold in other Group companies.

13.1.3.7 Non-compete and non-solicitation obligations

Non-compete

To protect the legitimate interests of Ipsos Group, the CEO is subject to a non-compete obligation for a period of one year from their actual departure, in return for compensation equal to seventy percent (70%) of the "Annual Baseline Compensation" which will be paid in 12 monthly installments in accordance with the recommendations of the AFEP-MEDEF Code. It should be noted that Ipsos SA has the right to elect to waive this non-compete clause, in which case no payments shall be due.

The payment of the non-compete compensation is excluded if the CEO exercises his or her pension rights. In any event, the payment of compensation is excluded after the age of 65.

Non-solicitation commitments

Likewise, to protect the legitimate interests of Ipsos Group, the CEO is subject, for a period of one year from their actual departure, to a commitment not to solicit Ipsos Group clients directly or indirectly, not to work in any way, directly or indirectly with or for an Ipsos Group client and not to encourage any Ipsos Group clients to terminate their business relationship with Ipsos.

In return for the CEO's non-solicitation commitment, Ipsos SA agrees to pay them a lump sum amount equal to thirty percent (30%) of the Annual Baseline Compensation. It should be noted that Ipsos SA has the right to elect to waive this non-solicitation clause, in which case no payments shall be due.

13.1.3.8 Severance payments

The CEO is entitled to a severance payment equal to up to twice the Annual Baseline Compensation⁽²⁾, in the event of dismissal at the initiative of the Board of Directors (3) and subject to the attainment of the performance condition set by the Board, i.e., Ipsos Group's consolidated income for one of the three years prior to the dismissal is higher, at constant exchange rates, than the profit for the preceding financial year. This payment will not be paid in the event of dismissal for serious or gross misconduct.

The total severance, non-compete and non-solicitation payments referred to in paragraph 5 may not exceed two years of Annual Baseline Compensation⁽²⁾.

(2) Annual Baseline Compensation: defined as the annual average amount of total gross annual compensation (fixed and variable annual compensation, excluding long-term variable stock-based compensation) received during the 24 months preceding the termination of the term of office.

(3) The conditions for dismissing the CEO are set out in the Articles of Association, which provide that they can be dismissed by the Board of Directors at any time.

13.1.3.9 Supplementary pension scheme

There is no supplementary pension scheme for Ipsos SA executive officers and, more specifically, there is no top-hat pension scheme.

Payment of variable components

The payment of the variable components of this compensation in respect of the 2026 financial year will be conditional on prior approval at the General Meeting of Shareholders to be held in 2027 to approve the 2026 financial statements.

Term of office

Please see table 11 in Section 14.4 of this Registration Document regarding the length of terms of office. The conditions for dismissing the CEO are set out in the Articles of Association, which provide that the CEO can be dismissed by the Board of Directors at any time.

13.1.4 Compensation Policy - For Directors

Decision-making process applied for its determination, revision and implementation

The amount of the annual compensation package to be allocated to Directors is granted by the General Meeting of Shareholders, it being specified that the last decision of the General Meeting of Shareholders was that of May 21, 2025, which had set the amount of this package at €750,000, as from financial year 2025.

In consideration of (i) the large number of meetings that were held in 2025 (36 meetings of the Board and its committees, compared to 23 in 2024), (ii) the proposal, in relation to the compensation policy for Directors with effect from the 2026 financial year and to be submitted to a vote at the next General Meeting of Shareholders, to award additional fixed annual compensation of €15,000 to the Lead Director, and (iii) the proposal to harmonize the fixed annual compensation of all committee chairs at €15,000 – the Board of Directors, meeting on February 24, 2026, decided, on the favorable opinion of the Appointments and Compensation Committee, to submit a resolution to the vote at the next General Meeting of Shareholders to be held on May 20, 2026, the purpose of which is to increase the amount of the overall annual budget for compensation allocated to Directors, currently set at €750,000, to €790,000.

This amount is fully in line with market practices. Within the SBF 80, the median compensation per director ranges from €55,000 to €60,000.

The rules for allocating this amount among the Directors are decided, revised and implemented by the Board of Directors, based on the recommendations of the Appointments and Compensation Committee.

At its meetings of February 24 and March 12, 2026, the Board of Directors also decided, after receiving the favorable opinion of the ACC, to set the following rules for allocating this amount among the Directors (excluding executive officers).

Amount of compensation for Directors in respect of their work on the Board of Directors and its committees - Rules governing allocation

As previously explained, a proposal will be made to the General Meeting of Shareholders of May 20, 2026 to set the annual compensation package to be allocated to the Directors at €790,000, applicable for the current 2026 financial year and subsequent financial years, until a new decision is made by the General Meeting of Shareholders.

In accordance with the rules adopted at the meetings of the Board of Directors on February 24, and March 12, 2026, subject to the adoption of the corresponding resolution by the aforementioned General Meeting of Shareholders and on the basis of the recommendations of the Appointments and Compensation Committee, compensation will therefore be allocated and distributed among the Directors on the following basis as from January 1, 2026:

- €6,000 for each Board meeting attended in person and €3,000 for each Board meeting attended by videoconference;
- €2,000 for each standing committee meeting attended in person and €1,000 for each standing committee meeting attended by videoconference (excluding Chairs of the Committees);
- €1,000 for each temporary ad hoc committee meeting attended (excluding Chairs of the Committees);
- fixed annual compensation of €15,000 for the Chairs of the Board's Standing Committees,
- annual fixed compensation of €15,000 for the Lead Director (in addition to her annual fixed compensation as Committee Chair);

within the overall annual package limit of €790,000.

Summary table of the maximum compensation of Directors⁽¹⁾

	Maximum compensation in the event of attendance at all Board meetings*	Maximum compensation in the event of attendance at all meetings of the committee of which the Director is a member**	Total maximum compensation
Chair of the Audit Committee in the first half of 2025 Chairman of the Strategy Committee, effective July 1, 2025	€36,000	€15,000	€51,000
Chair of the Strategy and ESG Committee in the first half of 2025 Chair of the Audit Committee with effect from July 1, 2025	€36,000	€15,000	€51,000
Member of the Strategy and ESG Committee in the first half of 2025 Member of the Strategy Committee with effect from July 1, 2025	€36,000	€6,000	€42,000
Member of the Strategy and ESG Committee in the first half of 2025 Member of the Appointments and Compensation Committee with effect from July 1, 2025	€36,000	€6,000	€42,000
employees) Member of the Appointments and Compensation Committee	€36,000	€6,000	€42,000
employees) Member of the Strategy and ESG Committee in the first half of 2025 Member of the ESG Committee with effect from July 1, 2025	€36,000	€6,000	€42,000
Member of the Audit Committee in the first half of 2025 Chair of the ESG Committee with effect from July 1, 2025	€36,000	€15,000	€51,000

Member of the Audit Committee	€36,000	€8,000	€44,000
Member of the Strategy and ESG Committee in the first half of 2025	€36,000	€6,000	€42,000
Member of the Strategy Committee with effect from July 1, 2025			
Lionel Chaine (appointed by the General Meeting of May 21, 2025)	€36,000	€6,000	€42,000
Member of the Strategy Committee with effect from July 1, 2025			
Member of the Audit Committee with effect from July 1, 2025	€36,000	€6,000	€42,000
Anne-Marie Couderc			
Chair of the Appointments and Compensation Committee with effect from July 1, 2025	€36,000	€30,000	€66,000
TOTAL	€432,000	€125,000	€557,000

⁽¹⁾ Directors in office as at the date of this Registration Document.

*Assuming for example a total of six meetings per annum.

**Assuming for example four Audit Committee meetings, three Strategy Committee meetings, three ESG Committee meetings and three Appointments and Compensation Committee meetings.

Eligibility for compensation

No external director receives compensation in respect of their directorship (including sitting on Board committees), other than compensation for sitting on the Board and Board committees.

Directors representing employees are also eligible for compensation as a director.

By contrast, the Chair of the Board of Directors, the CEO and the other Directors holding executive offices within Ipsos do not receive compensation for sitting on the Board of Directors. Under applicable rules within the Group, they do not receive any compensation either for any other positions they may hold in other Group companies.

Term of office of directors

Please see Section 14.4 of this Registration Document on the term and staggering of directorships.

Directors may be dismissed in the manner provided for by Law.

13.2 Compensation of executive officers submitted to the General Meeting for approval under the specific “ex post” vote (Article L. 22-10-34 II of the French Commercial Code)

13.2.1 Items of compensation and benefits of any kind paid or awarded for the 2025 financial year to Didier Truchot, Chair of the Board of Directors, subject to the approval of the General Meeting of Shareholders of May 20, 2026

In accordance with the provisions of Article L. 22-10-34 II of the French Commercial Code, we invite you to approve the fixed, variable and extraordinary items of compensation, summarized in the following table, which make up the total compensation and the benefits of any kind paid or awarded to Didier Truchot in his capacity as Chair of the Board of Directors, for the previous financial year.

These items are part of the compensation policy applicable to the Chair of the Board of Directors as set out in section 13.1.2 of the Ipsos 2024 Universal Registration Document and approved by the General Meeting of May 21, 2025 in its 12th resolution, under the “ex ante” vote.

Items of compensation paid or awarded for the 2025 financial year to Didier Truchot, Chair of the Board of Directors	Amount or carrying amount submitted for a vote
Fixed compensation	€279,264
Annual variable compensation (Amount due in respect of 2025, payable in 2026, subject to approval of the General Meeting)	None
Extraordinary compensation	None
Stock options, performance shares, and any other item of long-term compensation	None

No other item was received or awarded in respect of the 2025 financial year (multi-annual variable compensation, benefits in kind, compensation for sitting on the Board, severance and/or non-compete payments, supplementary pension scheme), and none will be received in connection with the resignation of the Chair on January 15, 2026.

13.2.2 Items of compensation and benefits of any kind paid or awarded for the 2025 financial year to Ben Page, Chief Executive Officer, for the period between January 1 and September 15, 2025, subject to the approval of the General Meeting of Shareholders of May 20, 2026

In accordance with the provisions of Article L. 22-10-34 II of the French Commercial Code, we invite you to approve the fixed, variable and extraordinary items of compensation, summarized in the following table, which make up the total compensation and the benefits of any kind paid or awarded to Ben Page in his capacity as CEO, for the previous financial year, for the period from January 1 to September 15, 2025.

These components are part of the compensation policy applicable to the CEO, as set out in section 13.1.3 of the Ipsos 2024 Universal Registration Document and approved by the General Meeting of May 21, 2025 in its 11th resolution, under the "ex ante" vote.

Items of compensation paid or awarded to Ben Page, CEO, in respect of the 2025 financial year	Amounts in respect of the office at Ipsos SA
Fixed compensation (1)	€202,902 paid by Ipsos SA for the office of Chief Executive Officer (from January 1 to September 15, 2025)
Annual variable compensation (Amount payable in respect of 2025, to be paid in 2026)	€95,237 (pro rata from January 1 to September 15, 2025)
Extraordinary compensation	None
Stock options, performance shares, and any other item of long-term compensation (2)	€0 (award of 11,000 free shares under the annual bonus share plan of May 21, 2025, which Mr. Page forwent on September 15, 2025)
Valuation of any benefits in kind (accommodation rented by the Company in Paris - annual amount)	€39,583
Severance payment in respect of the office of Chief Executive Officer (3) (Amount payable, to be paid in 2026)	€446,862
Non-compete/non-solicitation obligations (3) (Amount paid for 2025)	€225,292,93

(1) In addition, under his UK employment contract entered into in October 2012 with Ipsos Mori, a subsidiary of Ipsos SA in the United Kingdom, and relating to his position as Chief Executive Officer, Mr Page received compensation of €429,409 (i.e. an amount equal to £368,004, calculated by applying the 2025 average annual exchange rate) from January 1, 2025 to December 31, 2025.

(2) With regard to the performance shares, the 11,000 performance shares awarded to Ben Page in May 2023 will not vest in May 2026, given that the performance conditions will not be achieved. In addition, it should be noted that Ben Page has decided to forgo the performance shares awarded to him in 2024 (i.e., a total of 12,923 shares, corresponding to (i) 11,000 free shares awarded under the 2024 annual plan and (ii) 1,923 free shares awarded under the Ipsos Partnership 2024 plan).

(3) Ben Page was removed as Chief Executive Officer of Ipsos SA by a decision of the Board of Directors made on August 19, with effect from September 15. On September 15, 2025, Ben Page's UK employment contract with Ipsos Mori, which entitled him to twelve months' notice, was also terminated.

On the recommendation of the Appointments and Compensation Committee and by a decision of the Board of Directors made on September 15, 2025, it is proposed that Ben Page be paid, in respect of the termination of his office and the termination of his UK employment contract, compensation in accordance with the ex-ante vote of the General Meeting held in May 2025, the total amount of which falls below the cap of two years of fixed and variable compensation recommended by the AFEP-MEDEF Code, i.e., a total of €2.7 million with effect from September 15, 2025, broken down as follows:

- With regard to the termination of his office at Ipsos SA, a severance payment of €446,862 will be paid in 2026 plus non-compete and non-solicitation compensation (which run from September 1, 2025 to September 1, 2026) of €446,862 (including €225,292 paid in 2025);
- Notice period under the UK employment contract from September 15, 2025 to September 15, 2026: €429,409 (i.e. an amount equal to £368,004, calculated by applying the 2025 average annual exchange rate);
- UK employment contract entitling Ben Page to compensation equal to two years of fixed and variable compensation: compensation of £1,148,160 will be paid to Ben Page at the end of September 2026. 50% of this amount corresponds to a severance payment, while the other 50% corresponds to compensation in respect of his non-compete and non-solicitation obligations, which run until September 15, 2027.

13.2.3 Items of compensation and benefits of any kind paid or awarded for the 2025 financial year to Jean Laurent Poitou, Chief Executive Officer, for the period between September 15, and December 31, 2025, subject to the approval of the General Meeting of Shareholders of May 20, 2026

In accordance with the provisions of Article L. 22-10-34 II of the French Commercial Code, we invite you to approve the fixed, variable and extraordinary items of compensation, summarized in the following table, which make up the total compensation and the benefits of any kind paid or awarded to Jean Laurent Poitou in his capacity as CEO, for the previous financial year, for the period from September 15 to December 31, 2025.

These components are part of the compensation policy applicable to the CEO, as set out in section 13.1.3 of the Ipsos 2024 Universal Registration Document and approved by the General Meeting of May 21, 2025 in its 11th resolution, under the "ex ante" vote.

Items of compensation paid or awarded to Jean Laurent Poitou, Chief Executive Officer, in respect of 2025, for the period between September 15 and December 31, 2025	Amount or carrying amount submitted for a vote
Fixed compensation	€211,591
Annual variable compensation (Amount due in respect of 2025, payable in 2026, subject to approval of the General Meeting)	€40,808
Extraordinary compensation	None
Stock options, performance shares, and any other item of long-term compensation	€376,860 (Award of 11,000 free shares on September 15, 2025, governed by the rules of the 2025 annual bonus share plan)
Valuation of any benefits in kind	None

No other item was received or awarded to Jean Laurent Poitou, Chief Executive Officer, for the 2025 financial year (multi-annual variable compensation, benefits in kind, compensation for sitting on the Board, severance and/or non-compete payments, supplementary pension scheme).

13.3 Information on the compensation of executive officers subject to a general “ex post” vote by the General Meeting (Article L. 22-10-34 I of the French Commercial Code, formerly Article L. 225-100 II of the French Commercial Code)

Section 13.3 presents, for each executive officer of Ipsos SA, all the information mentioned in Article L. 22-10-9 I of the French Commercial Code and relating to their compensation for the 2025 financial year.

In accordance with the provisions of Article L. 22-10-34 I of the French Commercial Code, Ipsos SA shareholders will be asked to vote on this information in the 16th resolution of the General Meeting of May 20, 2026.

The information required by L. 22-10-9 I of the French Commercial Code relating to executive corporate officers is detailed in Section 13.3.1, while those relating to Directors are presented in Section 13.3.2.

Each of these sections contains summary tables with this information prepared in accordance with Position-Recommendation No. 2009-16 of the Autorité des Marchés Financiers with respect to the information to be given in the Universal Registration Document for the compensation of executive officers. The items required under L. 22-10-9 I of the French Commercial Code and not covered by these tables are covered separately.

13.3.1 Information on the individual compensation of executive officers

The compensation is shown gross in Euros.

Only Didier Truchot and Ben Page receive the following compensation for offices held within the Company as executive corporate officers.

Summary table of the compensation, options and shares attributed to each executive officer (Table 1 - AFEP-MEDEF Code)

Executive officer	2024	2025
Didier Truchot, Chair of the Board of Directors		
Compensation due with respect to the financial year	279,264	279,264

TOTAL					30.90% (i.e. 18.5% of annual salary)	€40,808

Free shares attributed during the financial year to each executive officer by the issuer and by any Group company (Table 6 - AFEP-MEDEF Code)

Executive officers	Plan number and date	Number of shares attributed during the financial year	calculated using the method adopted in the consolidated financial	Vesting date	End of lock-up period	Performance conditions
Didier Truchot	N/A	0	€0	N/A	N/A	N/A
Ben Page (1)	No. 22 (annual plan) 05/21/2025	11,000	€376,860	21/05/2028	21/05/2028	three non-cumulative criteria + one profitability condition – See table 10 below
Jean Laurent Poitou (1)	Date: 09/15/2025	11,000	€376,860	15/09/2028	15/09/2028	
Total		22,000	€753,720			

- (1) 11,000 shares were initially awarded to Ben Page on May 21, 2025, before being canceled during the past financial year. These 11,000 shares were then awarded on September 15, 2025 to Jean Laurent Poitou when he was appointed Chief Executive Officer.

Each executive officer will be required to hold 25% of the shares vested in registered form for the duration of his or her term of office.

The Ipsos Board of Directors reviews the detailed recommendations and analyses of the Appointments and Compensation Committee and takes the decisions it deems appropriate in terms of the company's best interests, strategy as well as the company's long-term sustainability.

Summary of the compensation, payments or benefits due or liable to become due as a result of termination or change of position of executive officers or subsequent to such roles (Table 11 - AFEP-MEDEF Code)

Executive officers	Employment contract	Supplementary pension scheme	Compensation or benefits due or likely to be payable as a result of termination or change of position	Compensation relating to a non-compete clause
Didier Truchot Chairman of the Board of Directors Start of term of office: October 1, 2021 (resignation as Chair of the Board of Directors with effect from February 28, 2026) End of the term of office as director: General Meeting to be held in 2028	No	No	No	No
Jean Laurent Poitou Chief Executive Officer Start of term of office: September 15, 2025 End of term of office: September 15, 2030 and Director Start of term of office: September 15, 2025 (co-option by the Board of Directors), to be ratified by the General Meeting of May 20, 2026 End of term of office: General Meeting to be held in 2027	No	No	Yes	Yes
Ben Page Chief Executive Officer Start of term of office: November 15, 2021 End of term of office: November 14, 2026 and Director Start of term of office: October 4, 2021 (co-option) End of term of office: General Meeting to be held in 2027 Resignation as Director and termination of office as Chief Executive Officer with effect from September 15, 2025	No with Ipsos SA Yes with Ipsos MORI (see table section 14.4.1)	No	Yes (1)	Yes (1)

(1) In respect of his office, Ben Page is entitled to a severance payment equal to two years of baseline compensation and a non-compete and non-solicitation clause, as described in section 13.1.2 of this Registration Document.

Equity ratios and internal comparisons over five years

Equity ratios

For the calculation of the ratios presented in the table below and in accordance with the provisions of Article L. 22-10-9 of the French Commercial Code, the Company referred to the AFEP-MEDEF guidelines dated December 19, 2019.

The chosen scope encompasses the employees of the France Social and Economic Unit, seeing as the "Parent Company", Ipsos SA, only had two employees at the end of the past financial year.

The following ratios were calculated on the basis of the fixed and variable compensation paid over the past five financial years along with the free shares attributed over the same periods and measured at fair value (IFRS) on the date on which they were awarded to the Chair of the Board of Directors and to the CEO, in respect of their corporate offices but also under their respective employment contracts.

		2021	2022	2023	2024	2025
Chair of the Board of Directors (Didier Truchot)	compared with the average of the Parent Company*	0.8	0.2	0.4	0.4	0.4
	compared with the median of the Parent Company*	0.8	0.2	0.4	0.4	0.4
	Compared with the France average**	10.0	4.0	4.0	3.0	4.0
	Compared with the France median**	15.0	5.0	5.0	5.0	6.0
Chief Executive Officer (Ben Page/Jean Laurent Poitou)	compared with the average of the Parent Company*	1	2	3.0	2.0	2.0
	compared with the median of the Parent Company*	1	2	3.0	2.0	2.0
	Compared with the France average**	11	24	23.0	21.0	21.0
	Compared with the France median**	16	34	32.0	32.0	29.0

*The Parent Company includes the compensation of Didier Truchot and Ben Page (Chief Executive Officer until September 15, 2025) and Jean Laurent Poitou (Chief Executive Officer with effect from September 15, 2025).

** Equity ratios relative to Group employees in France, defined as the employees of the France Social and Economic Unit.

Elements of internal comparison over 5 years

In accordance with Article L. 22-10-9 of the French Commercial Code (formerly Article L. 225-37-3), the following table shows the annual change in the total compensation¹⁶ of the Chair of the Board of Directors and the CEO, the performances of Ipsos, the average compensation on the full-time equivalent basis of employees in the France Social and Economic Unit, other than the executive corporate officers, and the equity ratios, over the past five financial years.

Annual Group performance trends	2021	2022	2023	2024	2025
Revenue (€ millions)	2,146.7	2,405.3	2,389.8	2,440.8	2,524.7
Revenue – % change	16.8%	12.0%	-0.6%	2.1%	3.4%
Organic growth – %	17.9%	5.6%	3.0%	1.3%	1.3%
Operating margin (€ millions)	277.4	314.7	312.4	319.5	309.3
Operating margin – % change	46.1%	13.5%	-0.7%	2.3%	-3.2%
Operating margin as a % of revenue	12.9%	13.1%	13.1%	13.1%	12.3%
Net income attributable to the owners of the parent (€ millions)	183.9	215.2	159.7	204.5	186.6
Growth in net income	68.0%	17.0%	-26.0%	28.0%	-8.8%
Free Cash Flow (€ millions)	243.7	213.5	168.8	216.0	181.2
Growth of Free Cash Flow	-8.1%	-12.4%	-20.9%	28.0%	-16.1%

Annual change in the compensation of executive officers	2021	2022	2023	2024	2025
Annual change in total compensation for the Chair of the Board of Directors (Didier Truchot)	N/A	3%	0%	0%	0%
Annual change in the total compensation of CEO (Ben Page/Jean Laurent Poitou)	N/A	33%	-3%	-2%	-14%
Annual change in the equity ratio relative to the average compensation of employees in France					
Change in ratio in terms of the compensation of the Chair of the Board of Directors (Didier Truchot)	N/A	-63%	2%	-7%	14%
Change in the ratio in terms of the compensation of the CEO (Ben Page/Jean Laurent Poitou)	N/A	119%	-2%	-8%	-2%
Annual change in the equity ratio relative to the median compensation of employees in France					
Change in ratio in terms of the compensation of the Chair of the Board of Directors (Didier Truchot)	N/A	-64%	-3%	0%	7%
Change in the ratio in terms of the compensation of the CEO (Ben Page/Jean Laurent Poitou)	N/A	117%	-6%	-1%	-8%
Change in employee compensation					
Change in the average compensation of Group employees in France	10%	6%	-2%	7%	-12%

¹⁶ Total compensation in a financial year includes the fixed and variable compensation paid in a financial year along with the shares attributed measured at fair value under IFRS 2 (it should be noted that the value when awarded is not necessarily representative of the value when paid, particularly if the performance conditions are not met).

13.3.2 Information on the individual compensation of Directors

Individual amounts of compensation received by Directors

	Gross amounts paid in respect of FY 2024	Gross amounts paid in respect of FY 2025
Patrick Artus

Other compensation	-	-
Anne-Marie Couderc (appointed by the Board of Directors by co-option on June 20, 2025)		

	Gross amounts paid in respect of FY 2024	Gross amounts paid in respect of FY 2025
Compensation for sitting on the Board and the committees	-	€37,270
Other compensation	-	
Laurence Stoclet		
Compensation for sitting on the Board and the committees	€73,273	€63,245
Other compensation (1)	-	-
TOTAL	€666,000	€750,000

- (1) Laurence Stoclet also received fixed compensation from Ipsos Group GIE, as described in section 14.2, under an assignment contract covering around thirty unpaid offices she holds in Ipsos Group's equity interests.

A table showing the participation and attendance rate of Directors at Board and committee meetings held in 2025 can be found in Section 14.4.3 of this Registration Document.

If, following a change in its current composition, the Board of Directors should no longer be composed in accordance with the first paragraph of Article L. 225-18-1 and Article L. 22-10-3 of the French Commercial Code, payment of Directors' compensation for their participation in the work of the Board would be suspended. Payment would be restored once the Board of Directors is once again properly constituted, including back-payment since the suspension.

13.4 Summary tables prepared in accordance with Position-Recommendation No. 2009-16 of the Autorité des Marchés Financiers with respect to the information to be provided in the Universal Registration Document for the compensation of executive officers

Table 1: Summary table of compensation and options and shares attributed to each executive officer

This table appears in Section 13.3.1 of this Registration Document.

Table 2: Summary table of compensation paid to each executive officer

This table appears in Section 13.3.1 of this Registration Document.

Table 3: Table on the compensation received by non-executive corporate officers

This table appears in Section 13.3.2 of this Registration Document.

Table 4: Stock options awarded during the financial year to each executive officer by the issuer and by any Group company

No stock options were awarded to executive officers during the financial year.

Table 5: Stock options exercised during the financial year by each executive officer

No stock options were exercised by executive officers during the financial year.

Table 6: Free shares attributed during the financial year to each executive officer by the issuer and by any Group company

This table appears in Section 13.3.1 of this Registration Document.

Table 7: Free shares vesting for executive officers during the financial year

There were no free shares that became available to executive officers during the year.

Table 8: History of stock option awards**(AMF Position-Recommendation no. 2009-16): History of stock option awards**

The table below lists the plans that have been implemented and expired in 2022, and therefore refers exclusively to the IPF 2 plan described in paragraph 19.1.5.2.1 of this Registration Document.

IPF 2 Plan - September 4, 2012	
Date of General Meeting	04/05/2012
Date of Board Meeting (Date of Grant)	09/04/2012
Total number of options initially granted	1,969,370
Total number of options initially granted to executive officers	146,160
Pierre Le Manh	48,720
Laurence Stoclet	48,720
Henri Wallard	48,720
Initial exercise date for options	09/04/2015 (International Plan) and 09/04/2016 (France Plan)
Expiry date	09/04/2022 ¹⁷
Subscription or purchase price ¹⁸	€24.63
Terms of exercise ¹⁹	One option gives entitlement to one share
Number of options exercised (shares subscribed) as of December 31, 2022	1,322,215
Outstanding stock options at December 31, 2022	0
Potential dilution	0%

¹⁷ Initial expiry date: 04/09/2020.

¹⁸ i.e. average Ipsos stock closing price over the 20 trading sessions preceding the Grant Date.

¹⁹ The terms of exercise can be found in the description of the IPF 2 Plan above.

Table 9: Stock options awarded to and exercised by the top ten employees who are not executive officers during the financial year

(AMF Position-Recommendation no. 2009-16): Stock options awarded to and exercised by the top ten employees who are not executive officers during the financial year

Performance criteria (solely for the executive officers) on top of continued employment (applicable to all beneficiaries)	Two non-cumulative criteria, each conditioning 50% of awards: For the Deputy CEOs, the criteria are identical to those of the 2021 plan and described opposite. For the Chief Executive Officer, the criteria have been slightly amended, as communicated in the 2021 Registration Document (p.177): Organic growth criterion: If the cumulative organic growth rate over three years is at least equal to the rate of the global market research sector as defined and calculated by ESOMAR (traditionally defined global market research – core market/ established), aggregated over the same period, all shares will vest; If the cumulative organic growth rate over three years is between 75% and 100% of the cumulative organic growth rate of the market, the number of shares vesting will be between 80% and 100% of the number of shares attributed, determined on a straight-line basis;	The final vesting of these shares is subject to (i) achievement of a profitability condition measured over the entire vesting period, with the criterion used to measure the achievement of this performance condition being that average net income attributable to the owners of the parent is positive over the three-year vesting period (the "Minimum Condition") and (ii) achievement of two additional performance conditions: • A cumulative organic growth rate over 3 years (2022, 2023 and 2024) at least equal to that of the global research market as defined and calculated by ESOMAR (traditionally defined global market research – core market/ established), cumulative over the same period (if this rate is between 75% and 100% of the market's cumulative organic growth rate, the number of shares vested would be between 80% and 100% of the number of shares attributed, on a straight-line basis);	The final vesting of these shares is subject to (i) achievement of a profitability condition measured over the entire vesting period, with the criterion used to measure the achievement of this performance condition being that average net income attributable to the owners of the parent is positive over the three-year vesting period (the "Minimum Condition") and (ii) achievement of two additional performance conditions: • Criterion associated with the organic growth rate (50% of the total shares attributed): If the cumulative organic growth rate over three years is at least equal to the rate of the global market research sector as defined and calculated by ESOMAR (traditionally defined global market research – core market/ established), aggregated over the same period, all shares will vest;	The final vesting of these shares is subject to (i) achievement of a profitability condition measured over the entire vesting period, with the criterion used to measure the achievement of this performance condition being that average net income attributable to the owners of the parent is positive over the three-year vesting period (the "Minimum Condition") and (ii) achievement of two additional performance conditions: • Criterion associated with the organic growth rate (50% of the total shares attributed): If the cumulative organic growth rate over three years is at least equal to the rate of the global market research sector as defined and calculated by ESOMAR (traditionally defined global market research – core market/ established), aggregated over the same period, all shares will vest;	Final vesting of these shares is subject to the following performance conditions: (i) a profitability condition measured over the entire vesting period; the criterion used to measure the achievement of this performance condition being that net income attributable to the owners of the parent is, on average, positive over the three-year vesting period (the "Minimum Condition") and (ii) three (3) additional performance conditions, described below, the first based on revenue growth, the second based on improvement in Ipsos Group's operating margin, and the third linked to diversity on the governing bodies:	Final vesting of these shares is subject to the following performance conditions: (i) a profitability condition measured over the entire vesting period; the criterion used to measure the achievement of this performance condition being that net income attributable to the owners of the parent is, on average, positive over the three-year vesting period (the "Minimum Condition") and (ii) three (3) additional performance conditions, described below, the first based on revenue growth, the second based on improvement in Ipsos Group's operating margin, and the third linked to diversity on the governing bodies:	No executive officers or GMC members are impacted by this plan. The conditions applicable to the beneficiaries of this plan are the same as those applicable to all beneficiaries (continued employment condition and Minimum Condition)

	If the cumulative organic growth rate over three years is under 75% of the cumulative organic growth of the market, no shares will vest. Operating margin criterion: If the average operating margin over three years increases on average by 0.2% per year (i.e. 0.6% over the period), all shares will vest. In the event of a global economic recession(1), the target increase in the operating margin for the year is adjusted downwards by 50 basis points for each 100 basis points of decline in the global economy for each year of recession (global economic growth as published by the IMF); If the average operating margin over three years grows between 0% and 0.2% on average per year, the number of shares vested will be between 80% and 100% of the number of shares awarded, determined on a straight-line basis. In the event of a recession, the growth target is adjusted as described above;	Operating margin criterion: If the average operating margin over three years increases on average by 0.2% per year (i.e. 0.6% over the period), all shares will vest. In the event of a global economic recession(1), the target increase in the operating margin for the year is adjusted downwards by 50 basis points for each 100 basis points of decline in the global economy for each year of recession (global economic growth as published by the IMF); If the average operating margin over three years grows between 0% and 0.2% on average per year, the number of shares vested will be between 80% and 100% of the number of shares awarded, determined on a straight-line basis. In the event of a recession, the growth target is adjusted as described above;	If the cumulative organic growth rate over three years is between 75% and 100% of the cumulative organic growth rate of the market, the number of shares vesting will be between 80% and 100% of the number of shares attributed, determined on a straight-line basis; If the cumulative organic growth rate over three years is under 75% of the cumulative organic growth of the market, no shares will vest. • Criterion associated with the operating margin (50% of the total shares awarded):	If the cumulative organic growth rate over three years is between 75% and 100% of the cumulative organic growth rate of the market, the number of shares vesting will be between 80% and 100% of the number of shares attributed, determined on a straight-line basis; If the cumulative organic growth rate over three years is under 75% of the cumulative organic growth of the market, no shares will vest. • Criterion associated with the operating margin (50% of the total shares awarded):	• Organic growth criterion (40% of total shares awarded): - If the cumulative organic growth rate over three years is at least equal to the rate of the global market research sector as defined and calculated by ESOMAR (traditionally defined global market research – core market/ established), aggregated over the same period, all shares will vest. - If the cumulative organic growth rate over three years is between 75% and 100% of the cumulative organic growth rate of the market, the number of shares vesting will be between 80% and 100% of the number of shares awarded, determined on a straight-line basis. - If the cumulative organic growth rate over three years is under 75% of the cumulative organic growth of the market, no shares will vest.	• Organic growth criterion (40% of total shares awarded): - If the cumulative organic growth rate over three years is at least equal to the rate of the global market research sector as defined and calculated by ESOMAR (traditionally defined global market research – core market/ established), aggregated over the same period, all shares will vest. - If the cumulative organic growth rate over three years is between 75% and 100% of the cumulative organic growth rate of the market, the number of shares vesting will be between 80% and 100% of the number of shares awarded, determined on a straight-line basis. - If the cumulative organic growth rate over three years is under 75% of the cumulative organic growth of the market, no shares will vest.	

	If the average operating margin over three years grows between 0% and 0.2% on average per year, the number of shares vesting would be between 80% and 100% of the number of shares awarded, determined on a straight-line basis; in the event of a recession, the growth target is adjusted as described above;	If the average operating margin over three years is less than 13%, no shares will vest; In the event of a recession, this target is adjusted as described above.	If the average operating margin over three years increases on average by 0.2% per year (or 0.6% over the period), all shares will vest, in the event of global economic growth (1); in the event of a global recession (1), the target operating margin growth rate for the year is adjusted down 50 basis points for each 100 basis point drop in global economic growth (+0.2% - 0.5% = -0.3%) for each year of recession considered (world economic growth as published by the IMF);	If the average operating margin over three years increases on average by 0.2% per year (or 0.6% over the period), all shares will vest, in the event of global economic growth (1); in the event of a global recession (1), the target operating margin growth rate for the year is adjusted down 50 basis points for each 100 basis point drop in global economic growth (+0.2% - 0.5% = -0.3%) for each year of recession considered (world economic growth as published by the IMF);	• Criterion associated with the operating margin (40% of the total shares attributed): - If the operating margin over three years increases on average by 0.2% per year (i.e. 0.6% over the period), all the shares would be vested, in the event of growth in the global economy. In the event of a global economic recession(2), the target increase in the operating margin for the year is adjusted downwards by 50 basis points for each 100 basis points of decline in the global economy (+0.2% - 0.5% = -0.3%) for each year of recession (global economic growth as published by the IMF); - If the operating margin over three years grows	• Criterion associated with the operating margin (40% of the total shares attributed): - If the operating margin over three years increases on average by 0.2% per year (i.e. 0.6% over the period), all the shares would be vested, in the event of growth in the global economy. In the event of a global economic recession(2), the target increase in the operating margin for the year is adjusted downwards by 50 basis points for each 100 basis points of decline in the global economy (+0.2% - 0.5% = -0.3%) for each year of recession (global economic growth as published by the IMF); - If the operating margin over three years grows	

	If the average operating margin over three years is lower or does not grow, no share will vest; In the event of a recession, the 0% threshold is adjusted as described above. (1) Global GDP as published by the International Monetary Fund (IMF) will be used to measure growth or decline in the global economy, it being understood that there will be a "recession" when global GDP in year N, as published by the IMF, is declining compared to year N-1.		If the average operating margin over three years grows between 0% and 0.2% on average per year, the number of shares vesting would be between 80% and 100% of the number of shares awarded, determined on a straight-line basis; in the event of a recession, the growth target is adjusted as described above; If the average operating margin over three years is lower or does not grow, no share will vest; In the event of a recession, the 0% threshold is adjusted as described above.	If the average operating margin over three years grows between 0% and 0.2% on average per year, the number of shares vesting would be between 80% and 100% of the number of shares awarded, determined on a straight-line basis; in the event of a recession, the growth target is adjusted as described above; If the average operating margin over three years is lower or does not grow, no share will vest; In the event of a recession, the 0% threshold is adjusted as described above.	• Criterion related to diversity within the governing bodies (3)(20% of the total number of shares): - If, on April 1, 2028, the number of women represents at least 50% of the workforce of the governing bodies, all the shares would be vested; - If the number of women represents between 49% and 50% of the workforce of the governing bodies, the number of shares vested would be between 80% and 100% of the number of shares awarded, according to a linear increase; - If the number of women represents less than 49% of the workforce of the governing bodies, no shares would be vested. (3) The aim of this criterion is to have a balanced representation of men and women on the Group's governing bodies, understood in a broader manner and including the GMC (Group Management Committee), as well as the top levels (levels 1 and 2) of the Group's employees, i.e. approximately 900 individuals.	• Criterion related to diversity within the governing bodies (3)(20% of the total number of shares): - If, on April 1, 2028, the number of women represents at least 50% of the workforce of the governing bodies, all the shares would be vested; - If the number of women represents between 49% and 50% of the workforce of the governing bodies, the number of shares vested would be between 80% and 100% of the number of shares awarded, according to a linear increase; - If the number of women represents less than 49% of the workforce of the governing bodies, no shares would be vested. (3) The aim of this criterion is to have a balanced representation of men and women on the Group's governing bodies, understood in a broader manner and including the GMC (Group Management Committee), as well as the top levels (levels 1 and 2) of the Group's employees, i.e. approximately 900 individuals.	

End of the holding period	-	-	-	-	-	-	-
Number of shares delivered at 12/31/2025	377,926	-	-	-	-	-	-
Cumulative number of shares canceled or expired as at 12/31/2025	65,886	49,836	5,306	32,302	14,470 (4)	-	-
Number of shares attributed still to be delivered as at 12/31/2025	0	356,017	135,624	406,064	398,835	11,000	17,600

(1) A new wave of the “partnership” program, called “Ipsos Partnership 2024”, was launched in early 2024, with the aim of (i) continuing the long-term involvement of executives in the capital of Ipsos, (ii) strengthening the stake in the capital of DT&Partners and (iii) buying back shares from former executives that were until now held by Ipsos SA.

As part of this initiative, the Board of Directors decided, at its meeting of April 10, 2024, that managers' subscriptions to the “Ipsos Partnership 2024” initiative would be matched at 50% by the allocation of Ipsos free shares. Thus, at this same meeting, the Board of Directors decided to once again use the authorization granted by the Extraordinary General Meeting of May 15, 2023 (23rd resolution), which made it possible in particular to allocate, on one or more occasions, during the first year of validity of this authorization, 1.30% of the total number of shares constituting the Company's share capital, in order to proceed with an additional allocation of free shares before the expiry of the first year of validity of said authorization, i.e. before May 14, 2024.

An additional 140,930 Ipsos shares were allocated instead, on April 30, 2024, to 328 Group managers who invested in Ipsos Partners.

(2) In relation to the appointment of Jean Laurent Poitou as Chief Executive Officer of Ipsos with effect from September 15, 2025, the Board of Directors, meeting on that same date, decided to award Jean Laurent Poitou 11,000 free performance shares, subject to the rules of the 2025 annual plan and the performance conditions applicable to the Chief Executive Officer, in accordance with the compensation policy for the Chief Executive Officer approved by the General Meeting of Shareholders on May 21, 2025 and set out in section 13 of the 2024 Universal Registration Document.

(3) In a press release dated June 24, 2025, Ipsos announced the completion of the acquisition of The BVA Family.

This acquisition represents a significant expansion for Ipsos in France and strengthens its position in the UK and Italy. BVA notably brings its recognized expertise in customer experience monitoring, point-of-sale behavior analysis, and research for government and public services. The company also boasts research methodologies that focus on behavioral sciences. Its expertise in pack testing through PRS IN VIVO is a key strength that can now be rolled out across a much larger geographic footprint by Ipsos.

With the aim of retaining the best talent in a highly competitive industry, the Board of Directors decided at its meeting held on December 17, 2025 to once again use the authorization granted by the Extraordinary General Meeting of May 15, 2023 (23rd resolution), which made it possible in particular to allocate, on one or more occasions, during the third year of validity of this authorization, 1% of the total number of shares constituting the Company's share capital, in order to proceed with an additional allocation of free shares before the expiry of the third year of validity of said authorization.

Accordingly, 41 executives from the BVA Family Group were awarded a total of 17,600 shares.

(4) This total includes the 11,000 shares initially awarded to Ben Page on May 21, 2025, before being canceled during the past financial year. These 11,000 shares were then awarded on September 15, 2025 to Jean Laurent Poitou when he was appointed Chief Executive Officer.

(5) It should be noted that, in aggregate, the three awards made in 2025 do not exceed the cap of 1% of the share capital that may be allocated (i.e., a maximum number of 432,032 shares) in accordance with the authorization granted by the 2023 General Meeting for the third year of validity of this authorization, since the 11,000 shares initially awarded to Ben Page were canceled and then awarded to Jean Laurent Poitou during the past financial year (in aggregate, therefore, and after factoring in this cancellation, 430,905 free shares were awarded during the 2025 financial year).

Table 11: Summary of information concerning the compensation of executive officers

This table appears in Section 13.3.1 of this Registration Document.

13.5 Summary table of shares, option and voting rights of executive officers

The following table shows, as at December 31, 2025, the shareholding in Ipsos SA of each executive officer in terms of number of shares and voting rights; number of shares that may be acquired by exercising stock options; and number of shares that may be obtained through free share awards.

Executive officer	Number of Ipsos SA shares	Number of Ipsos SA voting rights	Number of shares that may be acquired by exercising stock options	Number of shares that may be acquired by exercising share purchase options	Number of shares that may be acquired through free share awards
Didier Truchot	295,681	591,632	0	0	0
Jean Laurent Poitou	400	400	0	0	11,000
Ben Page	31,166	41,692	0	0	0

13.6 Transactions by executive officers in securities issued by Ipsos SA (Article L. 621-18-2 of the French Monetary and Financial Code)

The following transactions in Ipsos SA shares were declared to the AMF by the executive officers and persons with close personal ties to them ("related persons") during 2025:

Person declaring	Transaction date	Type of transaction	Unit price (in €)	Volume (number of instruments)
Billie Page*	April 22, 2025	Sale of shares	41,22€	25
Christophe Cambournac	May 17, 2025	Final vesting of free shares (delivery)	45,28€	3,000
Laurence Stoclet	May 17, 2025	Final vesting of free shares (delivery)	45,28€	12,687
Benjamin Page	May 17, 2025	Final vesting of free shares (delivery)	45,28€	11,156
Billie Page*	May 17, 2025	Final vesting of free shares (delivery)	45,28€	150
Sylvie Mayou	May 17, 2025	Final vesting of free shares (delivery)	45,28€	100
Billie Page*	May 21, 2025	Sale of shares	44,42€	150
Armelle Carminati-Rabasse	June 6, 2025	Vesting of shares	44,03€	1,000
Laurence Stoclet	June 17, 2025	Sale of shares	44,55€	3,993
Anne-Marie Couderc	September 18, 2025	Vesting of shares	37,24€	500

* Person related to Ben Page, Chief Executive Officer until September 15, 2025

13.7 Amount set aside

Please see Section 18.1.2.2.1.3.22 of this Registration Document.

14 Functioning of the administrative and management bodies

14.1	Date of expiration of the current terms of office	293
14.2	Service contracts of members of administrative and management bodies	293
14.3	Information on the Audit Committee and the Compensation Committee	293
14.4	Report of the Board of Directors on corporate governance	294
14.4.1	Corporate governance guidelines	294
14.4.2	Presentation of executives and executive officers	294
14.4.3	Senior Management, the Board of Directors and its committees	295
14.4.4	Compensation of executives and executive officers	321
14.5	Potential significant impacts on corporate governance	329

14.1 Date of expiration of the current terms of office

Please see Section 12 “Administrative, Management and Supervisory bodies and Senior Management” of this Registration Document for information on the dates of appointment and expiry of the terms of office of directors (which is set out in the first table in Section 12.1.1.1) and for the terms of office of the executive officers (in Section 12.1.2).

14.2 Service contracts of members of administrative and management bodies

The executive officers are not under a service level agreement with Ipsos SA, or with any of its subsidiaries, and providing for the award of benefits at the end of such agreement, other than the assignment contract between Laurence Stoclet and Ipsos Group GIE, authorized in 2022, for the purpose of overseeing the unwinding of previous contracts entered into with companies in which Ipsos had retained non-controlling equity interests (which are not included in the Group’s financial statements or in which there are still minority partners). Compensation in respect of this assignment contract is set at €200,000 per year and does not include a variable component, either in cash or in free shares. This fixed compensation is intended in particular to cover Laurence Stoclet’s seat on the various boards of directors of these companies, offices for which she receives no compensation (the list of the roughly thirty entities in question is provided in section 12.1.1.3). This contract ended when Ms. Laurence Stoclet resigned on March 1, 2026.

14.3 Information on the Audit Committee and the Compensation Committee

As at December 31, 2025, the Audit Committee and the Compensation Committee each consisted of three members. Two thirds of the members of the Audit Committee are independent and all the members of the Compensation Committee are independent. This information is shown in the table in Section 12.1.1.1.

The operation of these committees is discussed in Section 14.4.

14.4 Report of the Board of Directors on corporate governance

This report on corporate governance, attached to the Management Report referred to in Article L. 225-37 of the French Commercial Code and drawn up pursuant to the last paragraph of the same article, was drawn up by the Board of Directors. It brings together in a single report all the information referred to in Articles L. 22-10-9, L. 225-37-4, L. 22-10-11 and L. 22-10-11 of the French Commercial Code on corporate governance.

14.4.1 Corporate governance guidelines

On December 17, 2008 the Board of Directors of Ipsos SA adopted the AFEP-MEDEF Corporate Governance Code for listed companies (hereinafter the "AFEP-MEDEF Code") as its corporate governance framework.

Since then, and as the Code is successively updated, the Board of Directors looks to improve and push forward its governance rules. The Board of Directors thus regularly examines new rules that come into force and updates its own Internal Rules.

The version of the AFEP-MEDEF Code to which the Company currently refers is the latest version of the Code as revised in January 2022 and currently in force. It can be consulted at the registered office or on the AFEP website.

It should be noted that the Company complies with all recommendations in said Code, insofar as they are compatible with the Company's method of operation and management by professionals in the market research industry, as well as the organization, size and resources of Ipsos Group. In addition, the recommendations Ipsos didn't follow as well as the reasons for these exceptions are set out in the following table.

Recommendations of the AFEP-MEDEF Code rejected by Ipsos	Position of Ipsos	Detailed justifications
Article 15.2 - The staggering of terms of office is arranged so as to avoid a full renewal at once and to promote a smooth rotation of Directors.	The terms of office of 6 out of 12 Directors appointed by the General Meeting will expire at the end of the 2027 GM.	A more harmonious staggering of offices will be effective from 2027. To this end, and at the time of the appointment of new Directors, the Board of Directors may propose to the General Meeting of shareholders that some of these new Directors be appointed, by exception, for a period of two or three years, as permitted by Article 12 of the Ipsos SA Articles of Association. The implementation of this option will of course depend on any changes that may occur in the composition of the Board of Directors before 2027.

14.4.2 Presentation of executives and executive officers

This section of the corporate governance report can be found in Section 12.1 of this Registration Document.

14.4.3 Senior Management, the Board of Directors and its committees

14.4.3.1 Senior Management and the Board of Directors

14.4.3.1.1 Chairman of the Board of Directors, Chief Executive Officer, Lead Director, and Honorary Chairman

Choice of senior management model:

Ipsos is a société anonyme with a Board of Directors. In accordance with legal requirements, its Articles of Association delegate to the Board of Directors the choice between the combination of the roles of Chairman and CEO or the appointment of one person for each function.

The separation of the functions of Chairman of the Board of Directors and CEO was decided by the Board of Directors at its meeting of September 24, 2021 and effective as of October 1, 2021.

At this meeting, the Board of Directors also appointed Ben Page as CEO for a period of five years from November 15, 2021, and appointed Didier Truchot, founder and Chairman and CEO of the Group since its creation on October 1, 1975, as Chairman of the Board of Directors from October 1, 2021.

At its meeting of August 19, 2025, the Board of Directors appointed Jean Laurent Poitou as Chief Executive Officer for a period of five years from September 15, 2025, to replace Ben Page, whose term of office ended on that date.

On January 15, 2026, Didier Truchot tendered his resignation as Chairman of the Board of Directors, for health reasons, with effect from February 28, 2026. At its meeting of January 15, 2026, the Board appointed Laurence Stoclet as Chair of the Board with effect from March 1, 2026, as well as Anne-Marie Couderc as Lead Director and Didier Truchot as Honorary Chairman.

For the biographical information concerning Laurence Stoclet, Anne-Marie Couderc, Didier Truchot and Jean Laurent Poitou, see section 12.1.1.2.

The powers of Senior Management and the role of the Chairman of the Board of Directors are set out in the Internal Rules of the Board of Directors (described in section 14.4.3.2) as follows, as well as the role of the Lead Director and the position of Honorary Chairman:

Powers of Senior Management

Senior Management has the broadest powers to act in all circumstances on behalf of the Company. It exercises these powers within the limit of the corporate purpose and subject to those expressly granted by law to shareholders' meetings and to the Board, and within the limit of the Internal Rules of the Board of Directors and the terms of its mandate.

In addition to the prior authorizations expressly provided for by law concerning sureties, endorsements or guarantees on behalf of the Company and the related-party agreements referred to in Article L. 225-38 of the French Commercial Code, the Board of Directors has decided, as an internal measure, to submit certain management operations carried out by the Company to its prior authorization, in consideration of their nature or amount. Thus, the operations indicated in Article 1.1, paragraphs a) to p) of the Board of Directors' Internal Rules, and all new operations outside the usual activities of the Company for an amount greater than €10,000,000, are subject to the prior authorization of the Board.

Senior Management represents the Company in its relations with third parties.

Senior Management is required to provide the Board with all documents and information necessary for the performance of its duties.

In particular, Senior Management provides the Board with useful information and documents for the preparation of meetings, at least 48 hours in advance of a Board meeting, or at any time during the life of the Company if the importance or urgency of the information so requires. This ongoing information also includes any relevant information about the Company, including press articles and financial analysis reports.

Senior Management gives the Board and its committees the opportunity to meet Ipsos executive officers within the strict framework of the missions entrusted to them. In consultation with Senior Management, the Board, the Chairman of the Board and the committees may call on outside consultants, if they deem it necessary.

The Board shall be informed of the financial and cash position of the Company at the time of the closing of the annual financial statements and the review of the half-yearly financial statements, or at any other time if necessary.

Lastly, the other obligations of Senior Management are set by law, the Internal Rules of the Board of Directors and the terms of its mandate.

Age limit:

Under the Articles of Association of Ipsos SA, 75 is the age limit for holding the position of CEO.

Chairman of the Board of Directors

In accordance with Article 3.1 of the Board of Directors' Internal Rules, the Board elects a Chairman from among its members. In relations with the other bodies of the Company and with the outside world, the Chairman is the only person who can act on behalf of the Board and speak on its behalf, save in exceptional circumstances, and without prejudice to the Board's right to delegate or sub-delegate its powers to another person where this is provided for by law.

The Chairman organizes and oversees the work of the Board, on which he reports to the General Meeting. He oversees the efficient functioning of the corporate bodies in accordance with the principles of good governance. He coordinates the work of the Board with that of the committees. He appoints the Secretary of the Board.

He ensures that the Directors are provided in good time and in a clear and appropriate form with the information necessary for the performance of their duties.

He oversees the annual debate on the evaluation of the Board of Directors and its committees, it being specified that the Chairman of the Appointments and Compensation Committee or another director appointed for this purpose by the Board of Directors conducts the individual preparatory interviews required for this purpose with each director, and that the Chairman himself is subject to such a preparatory interview.

The Chairman liaises between the Board of Directors and the shareholders, in consultation with Senior Management. His tasks include:

- to explain the positions taken by the Board in its areas of competence, which have been the subject of a prior communication;
- to ensure that shareholders receive the information they expect from the Company.

The Chairman reports to the Board on the performance of his mission in the event of a separation of functions, endeavors to develop and maintain a trusting and regular relationship between the Board and Senior Management, in order to guarantee the permanence and continuity of Senior Management's implementation of the orientations defined by the Board.

The Chairman is kept regularly informed by the Chief Executive Officer of significant events and situations relating to the life of the Company, in particular with regard to execution of strategy, organization, financial reporting, major investment and divestment projects and major financial operations. He may ask the CEO for any information that may enlighten the Board of Directors.

In close cooperation with Senior Management, he may represent the Company in its high-level relations with the public authorities and the major partners of the Company and/or its subsidiaries at both national and international level.

Within the framework of the law and in application of the provisions of the Internal Rules of the Board of Directors, he ensures the prevention of conflicts of interest and the management of situations that may give to such conflicts. In the event that a director has any doubt as to the existence or risk of such a conflict of interest, they must immediately inform the Chairman who can decide, under his responsibility, whether or not to inform the Board of Directors. If this director is the Chairman, he informs the Board.

He devotes his best efforts to promoting the values and image of the Company in all circumstances.

He may hear the Statutory Auditors with a view to preparing the work of the Board of Directors and the committees.

In the course of his duties, the Chairman may meet with any person, including the Company's principal executive officers; he avoids any interference in the direction and operational management of the Company, which is the sole responsibility of the CEO.

The obligations of the Chairman are set by law, the Internal Rules of the Board of Directors and the terms of his office.

Age limit:

Ipsos SA's Articles of Association set the age limit for serving as Chairman of the Board of Directors at 85. These duties automatically end on the day of the Annual General Meeting held after the date on which he or she reaches the age of 85.

Appointment of a Lead Director

In cases where the roles of Chairman of the Board of Directors and Chief Executive Officer are not separated, or where the Chairman of the Board of Directors is a non-independent Director, the Board of Directors may appoint a Lead Director from among the independent Directors, at the proposal of the Appointments and Compensation Committee.

The Lead Director is appointed for a fixed term that may not exceed their term of office as director of the company. The Board of Directors may terminate this office at any time, it being understood that the loss of the status of independent Director (for any reason whatsoever) shall automatically terminate it.

The Lead Director ensures the necessary conditions for the proper functioning of the Board and compliance with the Internal Rules. In this context, it carries out the following tasks:

- It plays a coordinating role between the independent Directors and organizes a meeting of the independent Directors once a year;
- It supervises the Board of Directors' evaluation process in conjunction with the Chair of the Appointments and Compensation Committee and the Chair of the ESG Committee.
- It ensures compliance with the rules of the Afep-Medef Corporate Governance Code to which the Company refers, as well as the present Internal Rules of the Board of Directors.

The Lead Director reports on the performance of their duties once a year to the Board of Directors and may make any proposal or recommendation they deem useful.

At the request of the Chairman, they may participate in the road shows dedicated to governance and are informed by the Chairman of the questions shareholders raise on social, environmental, and governance matters.

The Lead Director also examines conflicts of interest and brings to the attention of the Board of Directors any conflicts of interest concerning Directors, including the Chairman of the Board of Directors.

The Lead Director may receive additional compensation, identical to that applicable to the Chairmen of the Specialized Committees. They may request the assistance of the Board Secretariat in the performance of their duties.

Appointment of an Honorary President

The Board of Directors may appoint a former Chairman of the Board as "Honorary Chairman" for an indefinite period. This role does not confer any special compensation.

The Honorary Chairman may be required to represent the Company and share their experience with its key partners, shareholders, clients, or employees, at the request of the Chairman or the Board of Directors. In the course of their activities, the Honorary Chairman has access to a part-time secretary, communication and transportation resources, as well as reimbursement of reasonable business expenses incurred.

If the Honorary Chairman is a Director of the Company, they are subject to the same compensation policy, confidentiality, and ethical rules as those applicable to all Directors. If the Honorary Chairman is no longer a Director of the Company, they do not participate in the Board of Directors or its Specialized Committees and do not receive any compensation. However, they remain subject to the rules of confidentiality and ethics applicable to Directors, as long as they use the title of "Honorary Chairman".

14.4.3.1.2 Deputy CEOs

As of the date of this Universal Registration Document, there are no longer any Deputy Chief Executive Officers alongside the Chief Executive Officer.

14.4.3.1.3 Management Committees

1- ExCo (Executive Committee)

The ExCo assists the Chief Executive Officer with the management of the Company and the supervision of its day-to-day operations. In particular, it prepares the budget and submits it to the Board for approval.

The ExCo meets weekly to review key issues and make appropriate decisions. A longer meeting is held once a month to review the overall status of key financial and operational issues.

As at December 31, 2025, the ExCo was made up of five members including two women (see Section 12.1.3 of the Registration Document).

2- GMC (Group Management Committee)

The GMC (Group Management Committee) is made up of the Group's key executive officers and senior managers. It assists the CEO in managing all aspects of Ipsos' organizational structure, namely the regions, service lines and support functions.

It meets regularly and at least two days per quarter in person if possible.

As at December 31, 2025, the GMC had 18 members, including seven women (see Section 12.1.3 of the Registration Document for the composition of the committee).

14.4.3.2 The Board of Directors and the committees

Ipsos SA is run by a Board of Directors, which is supported by four Board committees: the Audit Committee, the Appointments and Compensation Committee, the Strategy Committee and the ESG Committee (the Strategy and ESG Committee having been split into two separate committees as of July 1, 2025).

Internal Rules

In order to comply with the corporate governance principles resulting from applicable recommendations, at its April 8, 2010 meeting, the Board of Directors adopted Internal Rules, which are regularly reviewed and have been amended multiple times. This is an internal document that implements and supplements the Articles of Association. It specifies, in line with applicable laws and regulations and the Articles of Association, the rules governing the composition, organization and functioning of the Board of Directors and of the committees it establishes, as well as certain rules of conduct that Company directors must respect.

The Internal Rules of the Board of Directors were amended:

- pursuant to the meeting of the Board of Directors of June 20, 2025, aimed at (i) reflecting the impact of the June 2024 Attractiveness Act, which broadens the possibilities for decision-making by any means of telecommunication or written consultation and (ii) splitting the current Strategy & ESG Committee into a Strategy Committee on the one hand and an ESG Committee on the other;
- pursuant to the minutes of the Board of Directors meeting held on January 15, 2026, which reflected the creation of (i) an honorary chairman and (ii) a lead director.

The most recent version of the Internal Rules of the Board of Directors can be viewed on the www.ipsos.com global website at the following address: <https://www.ipsos.com/en/management>.

The Company's Articles of Association can also be consulted on its website at the following address: <https://www.ipsos.com/en/regulated-informations/en>.

These regulatory documents are supplemented by internal charters that are adopted by the Board of Directors and specify the practical operating procedures of the Board and each of its Specialized Committees.

Lastly, the Director's letter of engagement signed by the members of the Board aims to guarantee discretion with regard to confidential information.

14.4.3.2.1 Principles governing the composition of the Board of Directors and of its committees

14.4.3.2.1.1 Applicable principles

Number of directors: The Board of Directors of Ipsos can have up to 18 members, half of whom must be independent and have no interest in Ipsos as per Article 2.2 of the Internal Rules as indicated below.

Length and staggering of directorships: Article 12 of the Articles of association states that the term of office of directors shall be four years and that, by way of exception from this principle and to allow the staggered reappointment of directors, the Ordinary General Meeting may, when appointing a director, limit their term of office to two (2) or three (3) years. This system allows for the staggered and seamless reappointment of the Board of Directors.

Age limit and re-electability: No more than a third of the individual directors or permanent representatives of legal entities on the Board of Directors may be over 75 years of age. If this proportion is exceeded, the eldest shall be deemed to have resigned automatically.

Holding of shares: All directors or permanent representatives of a legal entity director personally in receipt of attendance fees from the Company must personally hold at least 400 Company shares. Any director not holding the required minimum number of securities undertakes to make the necessary purchase by, as the case may be, investing their allotted compensation (formerly called "attendance fees").

This obligation to hold a minimum number of Company shares does not apply to directors representing employees or, as the case may be, directors representing employee shareholders.

Each director undertakes to retain this minimum number of 400 shares throughout their term of office.

All shares owned by the Chairman, a CEO, a director or a permanent representative of a legal entity director must be registered.

No criminal convictions: To the best of Ipsos' knowledge, no member of the Board of Directors, nor any of the principal senior Group executive officers, have been subject to a conviction for fraud during the last five years. None of these members has been an executive officer in a company that has been subject to bankruptcy, receivership or liquidation during the last five years and none of them has been subject to charges and/or an official public sanction by a governmental or quasi-governmental authority. None of these members has been an executive in a company that has been subject to bankruptcy, receivership or liquidation during the last five years and none of them has been subject to charges and/or an official public sanction by a governmental or quasi-governmental authority.

Management of conflicts of interests: To prevent conflicts of interest, the Internal Rules of the Board of Directors of Ipsos specify that a director has a duty to be loyal, and that accordingly, a director commits to informing the Board of any conflicts of interest, even if only potential, and to abstain from taking part in discussions and votes during the corresponding deliberations, and to not making any personal commitments involving competitors of Ipsos and the Group without informing the Board and obtaining its consent. The Company was not made aware of any conflict of interest between the obligations of executive officers to Ipsos SA and their personal interests or any other obligations.

14.4.3.2.1.2 Independent directors

The independence criteria used: a director is deemed to be independent if they have no relationship of any kind whatsoever with Ipsos, its management or the Group that could compromise their freedom of judgment or place them in a position of conflict of interest with management, Ipsos or the Group.

The Appointments and Compensation Committee evaluates the independence of directors and submits its findings to the Board. Each year the Board of Directors examines, on the basis of this evaluation, and prior to the publication of the Annual Report, the independence of each director in terms of the independence criteria.

The criteria that the Appointments and Compensation Committee and the Board must consider in order to classify a director as independent and to prevent a risk of a conflict of interests between the director and management, the company (i.e. Ipsos SA, hereinafter "Ipsos") or its group, are as follows:

- not be or not have been in the previous five years:
 - an employee or executive officer of Ipsos;
 - an employee, executive officer or director of a Group company; or,
 - employee, executive officer or director of a controlling shareholder, alone or jointly, of Ipsos, within the meaning of Article L. 233-3 of the French Commercial Code, or a company consolidated by this shareholder;
- not be an executive officer of a company in which Ipsos, directly or indirectly, holds a directorship or in which an employee appointed as such by Ipsos, or an executive officer of Ipsos (or someone who had been a director within the previous five years) serves as a director;
- not be a customer, supplier, investment banker, commercial banker or advisor (or someone who has direct or indirect ties with any of the foregoing):
 - that is material for Ipsos or the Group;
 - or for which Ipsos or the Group accounts for a material share of business.

The assessment of the significant nature or not of the relationship with the company or its group is discussed by the Board and the quantitative and qualitative criteria that led to this assessment (continuity, economic dependence, exclusivity, etc.) are set out in the annual report;

- not be closely related to an executive officer of Ipsos or the Group;
- not be an auditor of the Company or a Group company or having been any of the foregoing within the past five years;
- not be a director of Ipsos for over twelve years.

A non-executive officer may not be considered independent if they receive variable compensation in cash or securities or any compensation linked to the performance of the Company or Group.

Directors representing major direct or indirect shareholders of Ipsos may be considered as independent if they do not participate in the control of the Company. However, classification as independent of any director representing an Ipsos shareholder that directly or indirectly owns over 10% of the share capital or voting rights of Ipsos requires that the Board, upon a report from the Appointments and Compensation Committee, systematically reviews the director's classification as an independent director taking into account Ipsos' capital structure and the existence of any potential conflicts of interest. Review of director independence: At the start of each financial year, the Appointments and Compensation Committee discusses the independence of directors and draws up a report on the subject. In light of this report, the Board of Directors reviews the position of each director in terms of each independence criterion. Moreover, when reviewing the candidacy of potential new directors, the same Committee followed by the Board of Directors looks at whether the candidate could be classified as independent in terms of each criterion. This review only applies to the external directors, excluding those who hold effective or salaried positions within Ipsos.

Following such reviews on the nine external directors on the Board of Directors as of the date of this Report, eight of them are considered by the Board of Directors to be free of any interests and are thereby declared independent.

Criteria	Filippo Lo Franco	Pierre Barnabé	Armelle Carminati-Rabasse	Virginie Calmels	Eliane Rouyer-Chevalier	Patrick Artus	Anne-Marie Couderc	Àngels Martín Muñoz	Lionel Chaîne (Bpifrance Investissement)
Not an employee or executive officer of Ipsos or of the Group, or a controlling Ipsos shareholder, over the previous five years	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes

No cross-directorships	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
No material business relationships	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
No close family ties with an executive officer	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Not serve as Statutory Auditor over the previous five years	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Not a director within the issuer for over 12 years	Yes	Yes	Yes	Yes	Yes	No	Yes	Yes	Yes
No receipt of variable compensation in addition to the compensation allocated to directors (previously directors' fees)	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes	Yes
Status decided by the Board of Directors	Independent	Independent	Independent	Independent	Independent	Not independent	Independent	Independent	Independent

Therefore, as of December 31, 2025, the Board of Directors of Ipsos has 14 members, including two directors representing employees, with independent directors accounting for 67% of the Board.

14.4.3.2.1.3 Other rules governing the composition of the Board of Directors and committees

Director representing employees: Pursuant to Act no. 2013-504 of June 14, 2013 on job security, a mechanism for the mandatory appointment of one or more employee representatives to the Company's Board of Directors was added to the Company's Articles of Association by decision of the General Meeting of April 28, 2017. Thus, the new Article 11-1 of the Articles of Association relating to directors representing employees provides that the Board of Directors shall include, pursuant to Article L. 225-27-1 of the French Commercial Code, one director representing the Group's employees, it being specified that if the number of directors appointed by the General Meeting exceeds 12, a second director representing the employees must then be appointed.

The director representing employees is appointed by the trade union organization that obtained the most votes in the first round of the elections referred to in Articles L. 2122-1 and L. 2122-4 of the French Labor Code in the Company and its direct or indirect subsidiaries, whose registered office is located in France.

Act no. 2019-486 of May 22, 2019 on corporate transformation and growth, known as the "Pacte Act", created a new obligation regarding employee representatives. The threshold for having two employee representatives on the Board of Directors was reduced from 12 to 8.

These new provisions led to a prior amendment of the Articles of Association, approved by the General Meeting of May 28, 2020, and, as the Board of Directors was composed of more than eight members on the date of this General Meeting, the Board of Directors took note, at its meeting of March 31, 2021, of the appointment by the Force Ouvrière trade union of André Lewitcki, effective from March 18, 2021, as a Director representing the employees for a four-year period. At its meeting of March 13, 2025, the Board of Directors took note of the renewal, by the Force Ouvrière union and for a further four-year period, of the office of Mr. André Lewitcki, with effect from March 18, 2025.

At its meeting of July 23, 2025, the Board of Directors also noted the renewal for a period of four years of the term of office of Sylvie Mayou, who has also been a Director representing employees on the Board of Directors since July 26, 2017, and who was appointed to this position by Fieci-CFE-CGC, the Syntec trade union.

Composition of Board committees: The members of the standing committees are appointed by the Board of Directors. They may be dismissed by the Board. They are either appointed for the length of their term of office as director of the company or for a period specified by the Board, which may not exceed the length of their term of office as director.

Audit Committee - The Audit Committee has between two and four members appointed by the Board from among its members. The Chair of the committee is appointed by the Board of Directors.

Independent directors, as defined by the AFEP-MEDEF Corporate Governance Code for listed companies, must account for at least two thirds of the members of the Audit Committee. The committee's members must have the financial and/or accounting expertise needed to carry out their duties.

Appointments and Compensation Committee – No executive officer should sit on the Appointments and Compensation Committee. It must have between two and four members and the majority of its members must be independent.

Strategy Committee – The Strategy Committee is composed of at least two members, appointed by the Board of Directors from among its members.

ESG Committee – The ESG Committee is composed of at least two members, appointed by the Board from among its members, including at least one independent director within the meaning of the Afep-Medef Code.

Diversity on the Board of Directors – For the past number of years, the Board of Directors has been regularly surveyed on its own assessment of its composition and that of its committees.

The Board was thus asked for its views not only as part of the annual assessments of its composition and functioning, but also in the course of preparing the annual report and the General Meeting, by means of the annual review on the composition and independence and the review of the candidacy of potential new directors.

These periodic meetings were an opportunity, under the aegis of the Appointments and Compensation Committee, which examines such matters in-depth, to improve diversity on the Board from year to year, to a significant extent:

The objective of having a minimum of 50% women on the Board of Directors was achieved in 2017. The level of gender parity stood at 50% at the close of the past financial year.

At December 31, 2025, of the fourteen members of the Board of Directors (see summary table in Section 12.1.1.1 of this Registration Document):

- Eight out of twelve directors (excluding directors representing employees) are qualified by the Board of Directors as independent, i.e. two-thirds;
- Seven directors are women and seven are men, representing perfect gender parity of 50%. This parity also applies to directors representing employees, one of whom is a woman and the other a man.
- The age of the directors ranges from 54 to 79, with an average age of 64;
- Three nationalities are represented on the Board (French, Spanish and Italian), thus contributing to greater openness and knowledge of the market and the global economy;
- The directors have diverse and complementary expertise and skill sets (financial, economic, sociological, technological, industry, etc.). These can be found in the tables in Section 12.1.1.2 of this Registration Document.

Recently asked about this during the self-assessment of the Board of Directors and its special committees conducted at the start of 2025, the directors unanimously felt that the Board's composition was balanced and currently meets the diversity goals that they feel are key to lively discussions and the smooth operation of the Board.

Diversity within other governing bodies – Ipsos SA's Board of Directors' diversity efforts are not limited to its own composition.

Under the aegis of the ESG Committee and the Appointments and Compensation Committee, significant work and reflection are under way on the Group's non-discrimination and diversity policy. These actions aim, in particular, to ensure that the legal and regulatory provisions applicable to the balanced representation of men and women are respected within the Group, especially at the level of the executive bodies, understood in a broader sense. These include not only the Board of Directors of Ipsos SA, but also the GMC (Group Management Committee) as well as the top level (levels 1 and 2) employees of the Group,

approximately 880 people out of a group of around 18,925 employees at the end of 2025, 60% of whom are women.

It appears in fact that it is in the higher ranks that women are less well represented, with 41.2% women on the GMC, 40.6% women in level 1 posts (Partnership Pool) and 48.9% women in level 2 posts (Business Leadership Pool), whereas in level 3 (2,112 employees, 55.4% of whom are women) women are in a majority.

Significant progress has been made over the past ten years, thanks to a continuous effort. Thus, the share of women in level 1 (Partnership Pool) has increased by nearly 15 percentage points since 2016 (when it was 26%), while the increase in level 2 (Business Leadership Pool) has been 12 percentage points (37% in 2016).

The Board of Directors ensures that this diversity policy, which is primarily centered on gender equality targets (the relevant measures being discussed in the sustainability report in Section 5.4.2 of this Document), is relevant and effective and will regularly monitor the results of its implementation and if necessary adjust the targets in question.

Ipsos has set target ratios of 42% women in the level 1 Partnership Pool and 50% women in the level 2 Business Leadership pool by the end of 2026.

14.4.3.2.2 Changes in the composition of the Board of Directors and of its committees

Board of Directors

Director	As at December 31, 2024	As at December 31, 2025	Comment
Didier Truchot	Director (not independent)	Director (not independent)	Current term ongoing
Laurence Stoclet	Director (not independent)	Director (not independent)	Current term ongoing
Patrick Artus	Director (not independent)	Director (not independent)	Current term ongoing
Ben Page	Director (not independent)	-	Termination of office on September 15, 2025 (resignation from his office as director of the company)
Jean Laurent Poitou	-	Director (not independent)	Co-option by the Board on September 15, 2025
Pierre Barnabé	Director (independent)	Director (independent)	Current term ongoing
Anne Marion-Bouchacourt	Director (independent)	-	Termination of office at the end of the 2025 General Meeting
Virginie Calmels	Director (independent)	Director (independent)	Current term ongoing
Armelle Carminati-Rabasse	-	Director (independent)	Appointed by the GM of 21 May 2025
Sylvie Mayou	Director representing employees	Director representing employees	Term renewed on July 23, 2025, for four years.
Eliane Rouyer-Chevalier	Director (independent)	Director (independent)	Current term ongoing
Filippo Pietro Lo Franco	Director (independent)	Director (independent)	Current term ongoing
André Lewitcki	Director representing employees	Director representing employees	Term renewed on March 18, 2025, for four years.
Florence Parly	Director (independent)	-	Termination of office on June 20, 2025
Anne-Marie Couderc	-	Director (independent)	Co-option by the Board on June 20, 2025
Àngels Martín Muñoz	Director (independent)	Director (independent)	Current term ongoing
Bpifrance Investissement, represented by Lionel Chaîne	-	Director (independent)	Appointed by the GM of May 21, 2025

During the 2025 financial year, the composition of the Board of Directors changed, particularly with regard to the co-option and appointment of new Directors. As a result, at the end of the 2025 financial year and to date, the Board of Directors has 14 Directors in total, compared with 13 at the end of the 2024 financial year.

Committees

The composition of the three Committees was as follows at December 31, 2025:

Committee	As at December 31, 2025

Audit Committee	• Virginie Calmels, Chair (Independent) • Armelle Carminati-Rabasse, Member (Independent) • Laurence Stoclet, Member (non-independent)
Appointments and Compensation Committee (ACC)	• Anne-Marie Couderc, Chair (Independent) • Pierre Barnabé, Member (independent) • André Lewitcki, Director representing employees, Member
Strategy Committee	• Filippo Lo Franco, Chairman (independent) • Patrick Artus, Member (non-independent, since April 29, 2021) • Àngels Martín Muñoz, Member (Independent) • Lionel Chaine, representative of Bpifrance Investissement, Member (Independent)
ESG Committee	• Eliane Rouyer-Chevalier (Chair) • Sylvie Mayou, Director representing employees, Member

Thus, as of the date of this report:

- Eight out of twelve directors (excluding directors representing employees) are declared by the Board of Directors as independent, i.e. more than half (67%);
- Seven directors are male and seven are female (including directors representing employees, of whom one is a man and one is a woman), resulting in exact gender parity (50%);
- Two directors are of foreign nationality;
- The members of the Board have diverse and complementary expertise and skills.

This composition appears both balanced and diverse, in line with the diversity policy sought by the Board and supported by the various developments that have taken place in recent years.

14.4.3.2.3 Organization and functioning of the Board of Directors and its Board committees

The Board of Directors is organized in accordance with and has the responsibilities attributed it by applicable laws and regulations, the Articles of Association of Ipsos SA, the AFEP-MEDEF Code and the Internal Rules of the Board of Directors. The same is true for the committees that have their Internal Rules.

14.4.3.2.3.1 Responsibilities of the Board of Directors

The Board of Directors determines the orientations of the Company's business and supervises their implementation. Subject to the powers expressly reserved to the CEO, the General Meetings of shareholders and within the limit of the corporate purpose, it handles all issues relating to the proper functioning of the Company and settles by its deliberations all matters which concern it. It performs the controls and checks that it deems necessary.

In order to take into account the separation of the functions of Chairman of the Board of Directors and CEO, decided by the Board of Directors on September 24, 2021 and effective as of October 1, 2021, the Board of Directors amended its Internal Rules on October 4, 2021.

These Internal Rules were revised:

- in 2021 mainly in order to:
 - Specify, under the terms of Article 1.2, the relationship between the Board of Directors and Senior Management, by specifying in particular the terms of exercise, powers and duties of Senior Management;
 - Specify, under its Article 3.1, the role of the Chairman of the Board of Directors; and
 - bring it into compliance with the version of the AFEP-MEDEF Code revised on January 30, 2020.
- in 2024, notably to:
 - bring it into compliance with the version of the AFEP-MEDEF Code revised in December 2022;
 - specify, as part of the transposition of the CSRD Directive, that the Audit Committee is responsible, in accordance with the decision of the Board of Directors dated December 20, 2023, for monitoring the process for preparing financial information and sustainability information;
 - specify that the Board of Directors is responsible for appointing, challenging or removing the (i) Statutory Auditors or one of them, in respect of their engagement to certify the financial statements and/or their engagement to certify sustainability-related information, or, where applicable, (ii) Sustainability Auditors.

These Internal Rules were again amended:

- pursuant to the meeting of the Board of Directors of June 20, 2025, aimed at (i) reflecting the impact of the June 2024 Attractiveness Act, which broadens the possibilities for decision-making by any means of telecommunication or written consultation and (ii) splitting the current Strategy & ESG Committee into a Strategy Committee on the one hand and an ESG Committee on the other;
- pursuant to the minutes of the Board of Directors meeting held on January 15, 2026, which reflected the creation of (i) an honorary chairman and (ii) a lead director.

In accordance with its Internal Rules, the Board of Directors is specifically responsible for the following matters:

- All decisions relating to the overall strategic, economic, social, financial and technological orientation of the Company and the Group;
- The arrangement of loans for a material amount, whether by means of a bond issue or otherwise;
- The creation of joint ventures or any material acquisition of activities, assets, or equity interests;
- The annual budget and the approval of the Group's business plan;
- The appointment or dismissal of the Company's Statutory Auditors or any one of them;
- Any deal or proposed merger involving the Company, or more generally any deal ensuing the transfer or sale of all or almost all of its assets;
- Exercise of any delegation of powers or responsibilities relating to the issue or buyback of shares or financial instruments convertible into the Company's share capital or any transaction resulting in a capital increase or reduction, including the issue of financial instruments convertible to share capital or preference shares;
- The creation of any double voting rights or any modification of the voting rights attached to the Company's shares;
- Any changes to the corporate governance, including any changes to the rules of corporate governance applicable within the Company;
- Any proposal to amend the Company's Articles of Association;
- Any new admission to trading of the Company's securities or any financial instruments issued by the Company on a regulated market other than Euronext Paris;
- The voluntary dissolution or liquidation of the Company, any decision having as a consequence the commencement of insolvency proceedings or the appointment of an independent receiver;
- In the event of litigation, the entering into of any agreements or settlements, or the acceptance of any compromise where the amounts are material;
- Upon proposal by the Appointments and Compensation Committee, proposed stock option or free share plans and more generally the Group's profit-sharing policy for employees and executive officers;
- The quality of the information provided to shareholders and to the market, through the financial statements or in the context of an important transaction.

Any material transaction that is outside the company's stated strategy must receive the prior approval of the Board of Directors.

The Board of Directors examines any transactions of strategic importance, particularly as regards external growth, divestments, important investments in organic growth and internal restructuring.

The Board of Directors is informed in due time of the cash position of the Company and the Group in a manner allowing it to take such decisions relating to financing or indebtedness as may be required.

The Board of Directors meets once a year solely to discuss matters pertaining to the Group's strategy.

Matters pertaining to the strategy and internal or external growth plans are also regularly put on the agenda of the Board of Directors, not only so that directors are regularly updated on progress but also so that they can support or indeed challenge senior management on these issues.

Lastly, the Board of Directors is also tasked with promoting the creation of value by the company over the long term by considering the social and environmental challenges of its activities, as specified in its Internal Rules updated on July 24, 2024.

In addition to the limitations imposed by the applicable legal and regulatory provisions, the Board of Directors has set out the limitations on the powers of the CEO in its Internal Rules.

Accordingly, under the terms of these Internal Rules, the Board of Directors has decided, as an internal measure, to submit certain management transactions carried out by the Company to its prior

authorization, in consideration of their nature or amount. Thus, the operations indicated in Article 1.1, paragraphs a) to p) of the Board of Directors' Internal Rules, and all new operations outside the usual activities of the Company for an amount greater than €10,000,000, are subject to the prior authorization of the Board.

To effectively perform its responsibilities and to facilitate its discussions and decisions, the Board of Directors is supported by Board committees tasked with sharing their views, making proposals and giving recommendations within their respective areas of responsibility: Audit Committee, Appointments and Compensation Committee, Environment, Social and Governance Committee (ESG Committee) and Strategy Committee, whose duties are described more precisely below.

14.4.3.2.3.2 Notification of the Board of Directors

The Board of Directors meets when called. Invitations may be sent by post, fax, or email. In an emergency, they may be given verbally.

At least once a year, usually in Q4, directors are sent the provisional schedule of Board meetings for the following financial year and early N+2, which is subsequently approved. Should one or more directors be unable to attend on one or more of the proposed dates, they are then changed insofar as possible and provided the new dates suit all directors. On the basis of this schedule, electronic invitations are then sent to the directors and, where appropriate, to the Statutory Auditors, so that the Board meetings are already put into their calendars.

At least five days before each Board meeting (except in extraordinary situations or in an emergency requiring a shorter period), invitations are formally sent out to the directors, on behalf of the Chairman, by the Board Secretary. They are accompanied by the agenda, with this communication in principle being sent by email.

Board meetings are in principle held at the Company's head office but can, subject to applicable legal provisions and in accordance with the Board's Internal Rules, be held by conference call. This option may in particular be used in the event of certain planned acquisitions or financings that require a quick decision by the Board where it wouldn't have been possible to plan a meeting sufficiently in advance. Some directors who are temporarily unable to attend a Board meeting in person may also participate in the Board meeting by telephone, to the extent permitted by law. This option is also available for Committee meetings.

Information on those points of the agenda requiring specific analysis and reflection is sent to the members in due time prior to the Board meeting. A director may request communication of any additional documents that they deem necessary to prepare for a meeting provided that the request is made with reasonable prior notice. When this involves particularly sensitive information, it may be shared in the meeting.

Directors are free to meet the company's senior executive officers. Most discussions with management nevertheless take place on the Board's annual strategy day, which is typically followed by a dinner conducive to such exchanges.

The members of the Board of Directors are also entitled to training to gain a better understanding of the market research industry and Group operations. The annual strategy day helps with this training, insofar as the main challenges facing Ipsos' activities are presented in detail. Training for Ipsos business lines that is provided via the Ipsos Training Center is also available to any director so requesting.

14.4.3.2.3.3 Digitalization of the Board of Directors

In financial year 2018, the Board of Directors began using an online portal that allows for interaction with directors, and in particular to securely share and discuss with them data and documents of interest to the Board and/or the committees. This digitized board room has been in use since October 2018.

14.4.3.2.3.4 Support of Board committees

The committees only have a consultative role and exercise their powers under the responsibility of the Board of Directors.

The committees regularly report to the Board of Directors on the performance of their responsibilities and inform it of any problems they encounter.

Each Committee has adopted a charter approved by the Board of Directors, the main provisions of which pertaining to their functioning are described hereafter.

No executive directors may be a member of the Audit Committee or Appointments and Compensation Committee. Nevertheless, they may attend meetings without taking part in the deliberations. Accordingly, Didier Truchot, Chairman, and Ben Page, Chief Executive Officer, attend meetings of the Appointments and Compensation Committee without exercising voting rights, and also sit in on meetings of the Strategy and ESG Committee.

The committees meet as often as necessary. The Chairman and CEO can call a Committee meeting if he notes that a Committee has not met as many times as specified in that Committee's Internal Rules. He may also call a meeting whenever he feels it is necessary for a Committee to present the Board with an opinion or recommendation on a specific matter.

Audit Committee

The Audit Committee was established by the Board of Directors on October 1, 1999.

In addition to its voting members, the Group Chief Financial Officer, the Deputy Chief Financial Officer, the Head of accounting, consolidation and reporting as well as the Statutory Auditors also participate in Audit Committee meetings.

The head of internal audit also participates in these meetings insofar as necessary.

The Audit Committee Charter was amended in 2010, 2016 (adaptation of French law to the "Statutory Audit Reform" initiated by EU institutions in 2014 with Directive 2014/56 and Regulation 537/2014) and 2017 to incorporate a specific procedure for the approval of "services other certification of financial statements" entrusted to the Statutory Auditors.

In early 2024, the Board of Directors updated the Audit Committee charter in particular to follow up on the CSRD Report entrusted by the Board of Directors on December 20, 2023 for the purposes of sustainability disclosure.

The committee is tasked with overseeing matters relating to the preparation and verification of accounting, financial and sustainability information.

Notwithstanding the powers of the Board of Directors, the committee is in particular tasked with monitoring:

- The process for the preparation of financial and sustainability-related information, including in the digital form provided for in Article 29d of Directive 2013/34/EU and the process for determining the information to be disclosed in accordance with the sustainability reporting standards adopted pursuant to Article 29b of that Directive. Where appropriate, it presents recommendations or proposals to ensure the integrity of these processes;
- The effectiveness of internal control and risk management systems and, where applicable, internal audit, with regard to accounting, financial, and sustainability-related information, including in digital form;
- Statutory audits by the Statutory Auditors and certification of sustainability-related information by, as the case may be, the Statutory Auditors or the person appointed to perform the sustainability-related information certification assignment (the "Auditor");
- The independence of the Statutory Auditors and, where applicable, of the Auditor in carrying out their duties, each as far as they are concerned, of certifying the financial statements, on the one hand, and of certifying information on sustainability, on the other hand, in particular as regards the validity of any services other than the certification of the financial statements and/or the certification of information on sustainability;
- It issues a recommendation to the Board of Directors regarding the Statutory Auditors and, where applicable, the Auditors, that the General Meeting is asked to appoint or re-appoint,

including in accordance with an RFP process pursuant to applicable legal and regulatory provisions;

- It authorizes the Company's Statutory Auditors to use "services other than the certification of the financial statements" and, where applicable, the certification of sustainability-related information, ensuring that their provision does not call into question the independence of the Statutory Auditors, in accordance with the provisions of Article L. 821-30 of the French Commercial Code and the Application Guide drawn up by the Compagnie Nationale des Commissaires aux Comptes (CNCC) in this area;
- It authorizes, when the task of certifying sustainability-related information is not carried out by the Statutory Auditors, the Auditors to use services other than the certification of sustainability-related information, ensuring that their provision does not call into question the independence of the Auditors, in accordance with the provisions of Article L. 822-13 para. 5 of the French Commercial Code;
- Each year, it reviews agreements classified as ordinary agreements entered into under normal conditions and reports on them to the Board of Directors (apart from employment contracts, reviewed by the Appointments and Compensation Committee). Each year, the Audit Committee also examines whether the procedure for determining and evaluating current agreements in force remains appropriate to the Company's situation and proposes any necessary changes to the Board of Directors.

The Board of Directors specifically tasks it with:

- Conducting a preliminary review of the draft parent company and consolidated, annual and interim financial statements, to check how they were prepared and ensure the relevance and continuity of the accounting policies and rules applied;
- Conducting a preliminary review of the draft sustainability report to be published in accordance with the current normative framework;
- Examining the integration methods and the consolidation scope of the financial statements (as well as, where relevant, the grounds for not including companies);
- Ensuring consistency between accounting and financial information and sustainability information;
- Ensuring proper treatment of major transactions at Group level, particularly when such transactions might trigger a conflict of interests;
- Regularly reviewing the financial position, cash position and material commitments of the Company and of the Group;
- Ensuring the relevance and quality of the company's financial and sustainability communications;
- Reviewing material off-balance sheet risks and commitments, including those related to sustainability;
- Assessing the importance of any malfunctions or weaknesses communicated to it;
- Assessing the monitoring of the effectiveness and quality of the Group's internal control and risk management systems and, where applicable, of its internal audit, with regard to the procedures relating to the preparation and processing of accounting, financial, and sustainability information;
- Meeting the head of internal audit and getting updated on their work program. It receives internal audit reports or a periodic summary of such reports;
- Managing the procedure for selecting Statutory Auditors and where applicable the Auditor by reviewing matters pertaining to the appointment, re-appointment or dismissal of the Company's Statutory Auditors;

- Examining the amount and details of the compensation payable by the Group both to the Statutory Auditors and to the networks to which they may belong; In this respect, the committee must be informed of the fees paid by the Company and its Group to the firm and network of the Statutory Auditors and ensure that the amount, or the proportion of the firm's and network's revenue, is not such as to jeopardize the independence of the Statutory Auditors;
- Examining the safeguards put in place to mitigate any risks to their independence;
- Reviewing the fairness of transactions entered into with related parties (regulated agreements), it being specified that any member of the Committee directly or indirectly interested in entering into a regulated agreement may not take part in the Committee's work concerning it;
- Examining for an opinion, at the request of the Board of Directors or on its own initiative, the technical, financial, or tax issues relating to the completion of a planned transaction, if it is likely to require a decision or prior authorization from the Board of Directors (and in particular intragroup merger transactions likely to modify the consolidation scope, the reduction of the Company's share capital by cancelling treasury shares, the conclusion of financing, etc.).

The Committee may be tasked with any other matter that the Board of Directors feels necessary or desirable.

It should be noted that the Committee's work on behalf of the Board of Directors does not constitute a limit on the powers of the Board of Directors, which cannot evade its responsibility by evoking the responsibilities or opinions of the committee.

The Committee is entitled to directly contact, on its own account, the Statutory Auditors and where applicable the Auditor, executive officers and senior management of the Company as well as consult all the Company's management documents, books and records. It may thus carry out visits or interview managers when this is helpful or necessary for the carrying out of its responsibilities. In particular, the Committee may interview the persons involved in preparing the financial statements or in auditing them, as well as in preparing information on sustainability issues. The Committee informs the Chair of the Board of Directors of any consultation, visit or interview; This information is provided in advance or, in an emergency or if circumstances make prior disclosure impossible, as soon as possible after the consultation, visit or interview has taken place.

The Committee hears the Statutory Auditors, in particular at meetings dealing with the review of the process for preparing financial information and the review of the financial statements, in order to report on the performance of their duties and the conclusions of their work. These hearings must be able to be held, when the Committee so wishes, and at least once a year, without the presence of the Company's Senior Management (the "Senior Management") and the Company's Chief Financial Officer.

It also hears the Company's Chief Financial, Accounting, Treasury and Internal Audit Directors, as well as the directors in charge of sustainability reporting. These hearings must be able to be held whenever the Committee so wishes, and at least once a year, without the presence of Senior Management.

The Statutory Auditors are invited to all Committee meetings. Where applicable, the Auditor is invited to meetings of the Committee relating to the review of the sustainability report. It is specified that the Statutory Auditors and, where applicable, the Auditor, may be invited to leave the Committee meeting at any time at the request of the Chairman.

The Company's Chief Financial Officer is invited to all Committee meetings, except where applicable when the Committee wishes to hear from the Statutory Auditors without his/her presence, it being further specified that he/she may be invited to leave the Committee meeting at any time at the request of the Chairman.

The Committee may ask the Board of Directors to provide it with external assistance for the fulfillment of its responsibilities should it deem it necessary or helpful. The Committee may also, at any time, request the preparation of a report from Senior Management, the Statutory Auditors or, as the case may be, the Chief Financial Officer of the Company on a particular point in the financial statements or the head of the departments responsible for sustainability preparation as the case may be.

The Committee receives for information, prior to their distribution or transmission, any document intended for external communication to analysts and/or journalists relating to information likely to have an impact on the Company's share price. It examines press releases relating to the quarterly, half-yearly, or annual financial statements prior to their publication.

Appointments and Compensation Committee:

The Appointments and Compensation Committee was established by the Board of Directors on October 1, 1999.

In addition to its voting members, the Chairman and CEO of Ipsos, the Group's HR Director, the Group's Compensation Officer, and the Secretary to the Board of Directors also attend meetings of the Appointments and Compensation Committee.

In accordance with its charter updated at the Board of Directors' meeting of July 24, 2024, and without prejudice to the powers of the Board of Directors, the Appointments and Compensation Committee is mainly responsible for:

1 - With regard to compensation:

a. Reviewing and proposing to the Board of Directors, with a view to its presentation to the Ordinary General Meeting, the compensation policy for executive officers;

b. Reviewing and proposing to the Board all items of compensation, indemnities or benefits due or likely to be due to the executive officers, in particular:

- Concerning the items of variable compensation:

- Proposing the definition of the methods for determining the objectives of the variable component;

- Each year, checking the proper application of the rules for setting the variable component, ensuring consistency with the assessment of their performance and the company's medium- and long-term strategy;

- Concerning items of long-term compensation:

- Proposing long-term compensation mechanisms and defining their terms;

- Reviewing free performance share plans and/or stock option plans, and making proposals for awards to executive officers;

- Making proposals and ensuring the application of rules specific to executive officers (holding a minimum number of registered shares, non-use of hedging mechanisms).

- Concerning items of variable and long-term compensation:

- Proposing criteria for determining the compensation of executive officers related to sustainability, including at least one criterion related to the Group's climate objectives.

c) Presenting to the Board each year the draft reports and resolutions relating to the compensation and the compensation policies for executive officers;

d) Issuing a recommendation on the budget and rules for allocating the compensation awarded to directors;

e) Proposing a general policy for free share awards – where applicable performance shares –, stock options and setting the frequency according to the category of beneficiaries.

On a purely advisory and informational basis, the Committee also reviews the compensation proposals for the various members of the Group's Management Committee that Senior Management submits to it, even if they are not executive officers.

2 - With regard to appointments

The Committee is consulted, examines and issues an opinion for the Board on any proposal pertaining to an appointment as a director of Ipsos, arising from the Board under resolutions submitted to shareholders, co-option, or from shareholders of Ipsos.

It organizes a procedure for selecting future independent directors and carries out its own studies on potential candidates before approaching them.

At the time of each appointment, it discusses the independence of candidates for the positions of director with regard to the independence criteria mentioned in the AFEP-MEDEF code, and makes a proposal for qualification to the Board.

It is responsible for periodically reviewing issues relating to the composition of the Board, and making proposals to the latter, after having examined in detail all the elements to be taken into account in its deliberations, particularly in view of the composition and changes in the Company's shareholding structure, to achieve a balanced composition of the Board: independent director, gender representation, nationality, international experience, expertise, etc.

It examines and may issue opinions on the training offered to directors.

It proposes the appointment or reappointment of the Chairman of the Audit Committee to the Board of Directors.

Each year, it analyses the independence of Board members and provides the Board with its view.

The Committee is consulted, examines and issues an opinion for the Board on any proposal concerning the appointment as CEO, Chairman of the Board of Directors and/or Deputy CEO of Ipsos and, more generally, on the choices to be made on this occasion in terms of governance (in particular uniqueness or separation of the duties of Chairman of the Board of Directors and Chief Executive Officer).

The Appointments Committee also draws up a succession plan for executive officers.

Regarding this last point, the implementation of succession plans continued during financial year 2025 for the company's main executive roles (core functions, main markets, main solutions). It mainly concerns the holders of the following positions: Chairman, Chief Executive Officer, GMC members, heads of countries generating revenue of more than €30 million, and global service line leaders.

In terms of governance, on matters falling within its remit, the Committee is also responsible for:

- Reviewing the draft corporate governance report and, where applicable, informing the Board of its observations on this draft;
- Monitoring compliance with governance rules, in particular by ensuring that the recommendations of the AFEP-MEDEF Code are followed and that any deviations are explained;
- Overseeing the Board's assessment process; and
- Reviewing the gender diversity policy within the governing bodies proposed by Senior Management, the objectives of this policy, their implementation methods, and the results obtained during the past financial year, and, where applicable, informing the Board of its observations.

The Committee may be tasked with any other matter that the Board of Directors feels necessary or desirable.

The Environmental, Social, and Governance Committee (ESG Committee)

The CSR Committee was established by the Board of Directors on July 23, 2014. It became the Strategy and ESG Committee following a decision by the Board of Directors on July 20, 2022.

At its meeting of June 20, 2025, the Board of Directors decided to split the Strategy & ESG Committee into a Strategy Committee and an ESG Committee.

The ESG Director and the Head of the Ipsos Foundation may attend Committee meetings at the invitation of the Chairman of the Committee.

In accordance with its charter adopted by the Board of Directors meeting of June 22, 2025, and without prejudice to the powers of the Board of Directors, the main tasks of the ESG Committee are:

- Reviewing the environmental, social, or governance guidelines and the short/medium/long-term action plans and procedures for their implementation (including specific objectives for the various time horizons in terms of climate), proposed by the Company's Senior Management;
- Reviewing the sustainability report, in conjunction with the Audit Committee, which is responsible for monitoring the certification of sustainability-related information;
- Monitoring and reviewing the ratings of non-financial rating agencies;
- Board recommendations on the definition of criteria for determining the compensation of executive officers related to sustainability, including at least one criterion related to the company's climate objectives;
- Monitoring the application of best practices in terms of corporate governance by Senior Management, and in particular the operation of the mechanisms provided for by the law on the duty of vigilance, subject to the prerogatives specific to the Board of Directors or its other committees.

The Committee oversees the Group's involvement in the Ipsos Foundation, the purpose of which is to assist, develop, and implement actions in favor of the education of children and young people worldwide, through the three entities it has created for this purpose, the Ipsos Foundation in the United States, the Ipsos Foundation in the United Kingdom and the Ipsos Alliance pour l'Education in France (the "Ipsos Foundation"), and in particular to monitor the impact of their investments and budgets.

The Committee pays particular attention to the compliance of the Group's policies and practices relating to the conduct of business with the principles of the United Nations Global Compact.

14.4.3.2.4 The work of the Board of Directors and the Board committees in FY 2025

The Board of Directors

During the year ended December 31, 2025, the Board of Directors met 12 times, including 7 scheduled meetings and 5 exceptional meetings (compared to a total of 10 times in 2024, including 6 scheduled meetings and 4 exceptional meetings).

At these meetings, the Board dealt with all matters within its regular remit on which it is asked to deliberate each year, and in particular:

- Approval of the 2025 budget and its regular monitoring;
- Approval of the parent company and consolidated annual financial statements for the financial year ended December 31, 2024;
- Review of the half-year consolidated financial statements as at June 30, 2025;
- Review of the financial press releases on the annual and half-yearly results;
- Regular updates and discussions on the Group's performance;
- Review of governance matters, particularly reviewing the independence of directors and considering proposals for the General Meeting regarding the composition of the Board of Directors;
- The compensation policy for the Chairman of the Board of Directors and CEO and the compensation of the members of the ExCo and the GMC;
- Preparation of the General Meeting of shareholders of May 21, 2025;
- Authorization of sureties, endorsements and guarantees.

On matters more specific to FY 2025, the Board was asked to consider technical or strategic matters on a number of occasions, including:

- Ipsos' new strategic plan, "Horizons", publicly unveiled on January 22, 2026;
- Discussions with proxy advisors and main shareholders on the current governance of Ipsos;
- The appointment of Jean Laurent Poitou as Chief Executive Officer of the Company;
- Various internal and/or external development projects.

Board committees

The Audit Committee

The Audit Committee met six times in 2025, spread across all quarters (compared with 7 times in 2024).

The committee primarily reviewed and discussed the following issues:

- Review of the annual and half-yearly financial statements with, in this respect, specific matters for attention viewed by the Statutory Audits as key audit points: Recognition of income and measurement of goodwill;
- Review of the work carried out by the Statutory Auditors on internal control;
- The work program of the internal audit department for 2025 and the reports on work carried out in 2024;
- Presentation by the Statutory Auditors of the audit approach (timetable, approach, key points, etc.), regulatory developments (ESEF, non-financial communication including green taxonomy);
- Implementation of the CSRD Directive by Ipsos and preparation of the second edition of the Sustainability Report;

- Monitoring of risk and fraud detection.

Appointments and Compensation Committee

The Appointments and Compensation Committee met four times in 2025 (versus twice in 2024).

Its work mainly focused on:

- The composition of the Board of Directors as part of the preparatory work for the General Meeting of May 21, 2025, as well as the review of independence criteria;
- The compensation policies applicable to the Chairman of the Board of Directors and the Chief Executive Officer in 2025, the determination of their compensation for FY 2025, and, in particular, regarding the latter, the determination of the performance criteria including CSR objectives subordinating the variable cash portion (bonus) of their compensation;
- The setting of the variable portion to be allocated for FY 2024 to the Chief Executive Officer, after assessment of the achievement of the criteria previously set;
- Bonus share awards, review of the 2025 annual plan (volume of the plan, distribution, and setting of the performance criteria governing the vesting of said shares for the Chief Executive Officer, members of the ExCo and members of the Group Management Committee);
- The process for appointing the new Chief Executive Officer;
- Review of succession plan implementation.

"Strategy and ESG" Committee:

In 2025, the "Strategy and ESG" Committee met four times in the first half of 2025 (compared with four times in total in 2024).

It primarily reviewed the following matters:

Regarding strategy matters:

- Preparation of the new strategic plan "Horizons";
- Implementation of the IT transformation plan.

Regarding ESG matters:

- The Group's ESG policy and the setting of 2026 targets;
- The finalization of the 2024 Sustainability Report.

The Strategy Committee:

Created from the split of the Strategy & ESG Committee at the end of the first half of 2025, the "Strategy" Committee met five times in the second half of 2025:

It primarily reviewed the preparation of the new strategic plan "Horizons."

The ESG Committee:

Created from the split of the Strategy & ESG Committee at the end of the first half of 2025, the ESG Committee met three times in the second half of 2025:

It primarily reviewed the following matters:

- The Group's ESG policy and the setting of priority objectives for 2026;
- Monitoring the preparation of the Sustainability Report;
- Ipsos' approach to responsible artificial intelligence;

- The actions and impact of the Ipsos Foundation.

Attendance rate of Directors at Board and Committee meetings in 2025

The overall attendance rate at meetings of the **Board of Directors** was 100% in 2025, calculated based on the 7 scheduled Board meetings, out of the 12 held in total (versus 98.72% in 2024).

The attendance rate at **Audit Committee** meetings was 100% in 2025 (unchanged from 2024).

The attendance rate at **Appointments and Remuneration Committee** meetings was 100% in 2025 (unchanged from 2024).

The attendance rate at **Strategy & ESG Committee** meetings was 93.33% in the first half of 2025 (versus 90% in 2024).

The attendance rate at meetings of the **Strategy Committee**, created from the split of the Strategy & ESG Committee at the end of the first half of 2025, was 95% in the second half of 2025.

The attendance rate at meetings of the **ESG Committee**, created from the split of the Strategy & ESG Committee at the end of the first half of 2025, was 100% in the second half of 2025.

The breakdown of each director's attendance at Board meetings as well as at the meetings of the committees on which they sit, are provided in the [attendance table below](#):

Director	Notes	Board of Directors	Audit Committee	Appointments and Compensation Committee	Strategy and ESG Committee (in H1 2025)	Strategy Committee (from July 1, 2025)	ESG Committee (from July 1, 2025)
Patrick Artus	Member of the Strategy and ESG Committee in the first half of 2025 Member of the Strategy Committee with effect from July 1, 2025	7/7			3/3	4/5	
Pierre Barnabé	Member of the Strategy and ESG Committee in the first half of 2025 Member of the Appointments and Compensation Committee with effect from July 1, 2025	7/7		4/4	2/3		
Bpifrance Investissement, represented by Lionel Chainé (appointed by the GM of May 21, 2025)	Member of the Strategy Committee with effect from July 1, 2025	4/4				5/5	

Virginie Calmels	Chair of the Strategy and ESG Committee in the first half of 2025 Chair of the Audit Committee with effect from July 1, 2025	7/7	4/4		3/3		
Armelle Carminati-Rabasse	Member of the Audit Committee with effect from July 1, 2025	4/4	4/4				
Eliane Chevalier	Member of the Audit Committee in the first half of 2025 Chair of the ESG Committee with effect from July 1, 2025	7/7	2/2				3/3
Anne-Marie Couderc	Chair of the Appointments and Compensation Committee with effect from July 1, 2025	3/3		4/4			
André Lewitcki	Member of the Appointments and Compensation Committee	7/7		7/7			
Filippo Pietro Lo Franco	Chairman of the Audit Committee in the first half of 2025 Chairman of the Strategy Committee, effective July 1, 2025	7/7	2/2			5/5	
Anne Marion-Bouchacourt (until May 21, 2025)	Chair of the Appointments and Compensation Committee until May 21, 2025	4/4		3/3			
Àngels Martín Muñoz	Member of the Strategy and ESG Committee in the first half of 2025 Member of the Strategy Committee with effect from July 1, 2025	7/7			3/3	5/5	

Sylvie Mayou	Member of the Strategy and ESG Committee in the first half of 2025 Member of the ESG Committee with effect from July 1, 2025	7/7			3/3		3/3
Ben Page (until September 15, 2025)	Chief Executive Officer and Director until September 15, 2025	5/5					
Jean Laurent Poitou	Chief Executive Officer and Director from September 15, 2025	2/2					
Florence Parly (termination of office recorded by the Board on June 20, 2025)	Member of the Appointments and Compensation Committee	4/4		3/3			
Laurence Stoclet	Member of the Audit Committee	7/7	6/6				
Didier Truchot	Chairman of the Board of Directors	7/7					
Overall attendance rate in 2025 (calculated based on scheduled meetings, for the Board of Directors)		100%	100%	100%	93.33%	95%	100%

Evaluation of the functioning of the Board of Directors and its Board committees

The Chair of the Appointments and Compensation Committee, in liaison with the Chair of the ESG Committee, led the 2025 annual assessment process for the Board of Directors and its committees. This assessment was carried out in accordance with the AFEP-MEDEF Code and market recommendations, including those of the French Financial Markets Authority (AMF).

The assessment was based on individual and group interviews.

Every three years, a formalized assessment is carried out with the assistance of an external consultant. The last assessment supported by a consultant was carried out in the first half of 2023 (see Section 14.4.3.2.4 of the 2023 Universal Registration Document). The next assessment will be in 2026.

The 2025 assessment focused in particular on the following themes:

- The composition of the Board, its organization, and its operation;
- Verification that important issues are properly prepared and discussed;
- Committee activity;
- The role of the Chairman and the individual contribution of each director to the work of the Board.

The results of this assessment were presented at the Board meeting of February 24, 2026. This presentation was followed by a debate and decisions.

This work identified many positive points, including the quality of the discussions, the relevance of the topics addressed during 2025, the independence of the Board, the proper implementation and monitoring of its decisions, and the effective individual contribution of its various members to its work. On this last point, the contribution of each director, drawing on their own skills, experience and viewpoint, was considered particularly useful in the work carried out on the new strategic plan "Horizons", changes within the management team and acquisitions.

Progress was also noted since the previous assessment. In particular, the composition and structure of the Board's committees were revised in July 2025, in connection with the appointment of new directors, to ensure that they continue to best meet the needs of the company.

In the light of the results of this assessment and the debate on it, the following guidelines have been adopted in particular:

- Communicate documents and information further in advance of Board meetings, extending the progress made in 2025;
- Continue work on the succession plan for key senior executive officers.

Meetings without the executive officers

A meeting is held each year between directors, excluding executive directors, during which they freely discuss all matters. In 2025, this took place on December 8, 2025.

14.4.4 Compensation of executives and executive officers

This part of the report on corporate governance can be found in Section 13 of this Registration Document.

14.4.5 Items that may potentially affect a public offer

The items that may potentially affect a public offer for the Company's securities referred to in Article L. 22-10-11 of the French Commercial Code are set out in this Registration Document, as follows:

Items referred to in Article L. 22-10-11 of the French Commercial Code	References to the Registration Document
The Company's capital structure	16, including 16.1, 16.2 and 0; 19.1
Restrictions in the Articles of Association on the exercise of voting rights and transfers of shares or clauses of agreements brought to the attention of the Company pursuant to Article L. 233-11 of the French Commercial Code	16.4; 0; Note 16.4 below
Direct or indirect equity interests in the Company's capital of which it is aware pursuant to Articles L. 233-7 and L. 233-12 of the French Commercial Code	16.1
List of holders of any security comprising special control rights and the description thereof	Note 2 below
Control mechanisms provided for in any employee shareholding scheme when the controlling rights are not exercised by the latter	Note 3 below
Agreements between shareholders of which the Company is aware that can limit share transfers and the exercise of voting rights	16.4; Note 4 below
Rules applicable to the appointment and replacement of members of the Board of Directors as well as the amendment of the Company's Articles of Association	14.4.3.2 (in particular 14.4.3.2.1); 0
Powers of the Board of Directors, in particular regarding the issue or buyback of shares	19.1.3; 19.1.4
Agreements entered into by the Company that are amended or expire in the event of a change in control at the Company, except when such disclosure, aside from when there is a statutory obligation to disclose, would seriously harm its interests	Note 5 below
Agreements providing for payments for members of the Board of Directors or employees, should they resign or are fired without real and serious cause or if their position ends in the event of a public tender offer or public exchange offer.	Note 6 below

The following items are of particular note:

- 1) There is no clause in the Articles of Association restricting the transfer of shares.
- 2) There are no shares giving special control rights other than the double voting rights allocated to all fully paid-up shares that have been registered in the name of the same shareholder for at least two years.

- 3) Voting rights of Ipsos shares held by the "Ipsos Shareholding" FCPE (employee savings mutual fund) are exercised by the Supervisory Board of the fund in accordance with Article 8.2 (2) of the FCPE's internal regulations.
- 4) There are no limitations in the Articles of Association governing the exercise of voting rights, other than the penalty for non-disclosure of any ownership threshold crossings.
- 5) The main financing agreements of Ipsos Group contain clauses allowing for amendment or termination in the event of a change in control. It is the policy of Ipsos Group to reject, wherever possible, any clauses in its commercial or partnership contracts allowing amendment or termination in the event of a change in control in Ipsos SA.
- 6) Jean Laurent Poitou is entitled to an indemnity in the event of revocation of his office as CEO under the conditions described in Section 13.1.3.7 of this Registration Document.

14.4.6 Share capital authorized but not issued

This section of the report on corporate governance can be found in Section 19.1.5.1 of this Registration Document.

14.4.7 Other information referred to by the French Commercial Code

14.4.7.1 Agreements referred to in Article L. 225-37-4 2 of the French Commercial Code

No agreement arranged, directly or through an intermediary, between i) a executive officer or shareholder with over 10% of the voting rights in a Group company and ii) another company of which the former directly or indirectly owns over half of the share capital, aside from ordinary arm's length agreements, needs to be reported.

14.4.7.2 Procedure for evaluating current agreements concluded under normal conditions referred to in Article L. 22-10-12 of the French Commercial Code (formerly Article L. 225-39 2 of the French Commercial Code)

The Board of Directors, at its meeting on January 14, 2020, established a procedure to regularly assess whether ordinary arm's length agreements fully satisfy these conditions. This procedure is intended to verify that the ordinary arm's length agreements (i) actually relate to the company's ordinary activities and (ii) are at arm's length.

The Board thus decided that these agreements should be reviewed annually by the Audit Committee (outside of employment contracts, reviewed by the Appointments and Compensation Committee), prior to closing the annual financial statements, with any person with a direct or indirect interest in any such agreement not being involved in its assessment.

At its February 20, 2026 meeting, the Audit Committee assessed the ordinary arm's length agreements entered into by Ipsos SA during the past financial year, and concluded that these agreements were indeed entered into in the normal course of the Company's business and on an arm's length basis.

14.4.7.3 Specific arrangements for shareholder participation at General Meetings or provisions of the Articles of Association providing for such arrangements

Shareholder participation at General Meetings of Ipsos SA is done in line with legal provisions and the provisions of the Articles of Association, and in particular Articles 20 to 23 of the Company's Articles of Association online on the ipsos.com website in the section on regulatory information.

General Meetings are called and held as per the provisions of applicable laws and regulations. General Meetings are either held at the registered office or at any other place specified in the meeting notice

Regardless of the number of shares owned, any shareholder can take part in General Meetings where proof of the right to participate can be provided by way of registration of the shares in the shareholder's name or, in the case of a shareholder who is not resident in France, in the name of the intermediary registered on its behalf, at midnight, Paris time (in accordance with Decree no. 2026-94 of February 13, 2026). Registration of the shares within the time limits provided by the foregoing paragraph must take the form of registration in the registered share ledger kept by Ipsos SA or on its behalf, or of registration in bearer share accounts kept by the authorized intermediary. Pursuant to Article 23 of the Ipsos SA Articles of Association, an Extraordinary General Meeting must be held to change any shareholder rights.

14.4.8 Internal control and risk management procedures

14.4.8.1 Reference framework for internal control

The methodology adopted by Ipsos Group uses the reference framework of the French Financial Markets Authority (Autorité des Marchés Financiers, AMF) concerning risk management and internal control systems published on July 22, 2010 and the risk management and internal control procedures published

on November 4, 2013. This defines internal control as the system developed by or on behalf of Senior Management and implemented under its responsibility by all Group employees. It is made up of a set of resources, behaviors, procedures and actions tailored to the characteristics of each Group company that contributes to the management of Company business, the efficiency of its operations and resource usage with the purpose of allowing the Company to appropriately take into account all material risks, whether of an operational, financial, compliance or reputational nature.

The system is specifically intended to ensure:

- Compliance with laws and regulations;
- Implementation of instructions and guidelines set by Senior Management;
- The effectiveness of the Group's internal procedures, in particular as regards safeguarding corporate assets;
- The reliability of financial information.

14.4.8.2 Scope and purpose of internal control at Ipsos

The overall objective of the internal control system is to anticipate and control risks arising from business activities, as well as risks of error or fraud, particularly in financial and accounting matters. To achieve this objective, a risk management policy must be implemented to identify and measure risks. Like any control system, however, it cannot absolutely guarantee the elimination of these risks, and depends largely on individual respect of the procedures put in place.

The Group attempts to control these risks by implementing measures to ensure that management and operational actions and employee behavior comply with applicable laws and regulations, the guidelines provided by senior management, and the company's Internal Rules.

These procedures also aim to ensure that the accounting, financial and management information communicated to the management bodies gives a true and fair view of the business activities and position of Ipsos and its Group.

Ipsos also takes measures to ensure that these measures are applied by its subsidiaries. Systems are in place at country level to meet their specific needs and are subject to regular monitoring by the Group (see Section 14.4.8.5. of this Registration Document).

14.4.8.3 People and structures exercising internal control procedures within Ipsos Group

At the central level, in addition to the Board of Directors and the Board committees the duties and functioning of which are described above, the Group's senior management relies on an Executive Committee, the ExCo (Executive Committee) and the GLT (Global Leadership Team). The latter oversees all aspects of Ipsos' organizational structure, namely the regions, service lines and support functions. One of its key duties is to specify and oversee policies and procedures allowing the Group to achieve its varied goals.

The following departments are more specifically involved in internal control: the Finance Department, the Legal and Tax Department, the Information Technology and Systems Department, the Human Resources Department and the Audit, Quality and Compliance Department.

With the exception of the Audit, Quality and Compliance Department, similar structures are generally set up at regional and national levels.

14.4.8.3.1 The Finance Department

The Group Finance Department encompasses the functions of management control, accounting & consolidation and cash management. It is supported by local financial teams working at regional and national levels.

Management control is responsible for monitoring the quality of financial information including supervising the quality of account closing and reporting. It also monitors the performance of business units based on budget forecasts, and may suggest corrective actions when necessary. Lastly, it is tasked with objectively evaluating the quality of internal financial controls at all levels of the organization.

The heads of Group accounting and consolidation supervise the work of the central and local accounting teams and ensure the quality of the accounting information produced.

The Group Chief Financial Officer is also responsible for implementing the Group's financing policy and supervises its application in the subsidiaries.

The Chief Financial Officers responsible for subsidiaries and national or regional operations ensure the quality of the accounting and financial information reported by the entities that they supervise. They report to the next level of hierarchy within the finance department and operationally to the operational managers.

Chief Financial Officers occupy a key role at national and regional level and appointments to these functions are carefully examined by the Group's finance department to ensure that appointees have the required level of expertise. These people always serve a period of time at Group headquarters.

14.4.8.3.2 Legal and tax department

The Group's legal and tax department is responsible for (i) contributing to the defense and protection of the Group's interests, (ii) defining, implementing and managing the Group's governance, in particular through procedures and controls, and (iii) advising the Group's senior management, functional departments and operational departments on a wide range of subjects.

The legal and tax department also ensures that each country's laws and regulations are complied with.

The Group Legal and Tax Department is organized into four geographical areas: (a) France, Middle East and North Africa, (b) the Americas, (c) Europe and sub-Saharan Africa and (d) Asia-Pacific – and has a Corporate Division. The Head of the Corporate division and the Head of Tax report hierarchically to the Corporate Secretary. The Regional Legal Directors report to the Group Legal Director; the lawyers in each country report hierarchically to the Legal Director in their region. In countries where there is no lawyer, legal and tax matters are the responsibility of the Chief Financial Officers or the country managers, as the case may be, assisted by outside counsel working under the supervision of the legal department of that region.

14.4.8.3.3 Technology and information systems department

The technology and information systems department, called "Ipsos Tech" makes an active contribution to controlling risks by (i) supervising investment in technology infrastructure and solutions; (ii) drawing up and ensuring the implementation of Group-wide rules, standards and policies with respect to selecting and managing information technology, systems and data; (iii) approving and overseeing the implementation of multinational projects and large-scale regional projects; and (iv) setting up the necessary procedures for ensuring the reliability and security of the Group's technology operations. Moreover, in collaboration with the Group Legal Department and the Group Audit and Quality department, it establishes risk management procedures relating to information security and data protection and monitors their implementation and proper application.

14.4.8.3.4 HR department

The mission of the HR department includes (i) developing methods and rules for HR management (ii) overseeing the various variable compensation schemes set up within the Group; (iii) supervising the implementation of a consistent HR policy throughout the various Group companies.

Apart from establishing the various HR systems and policies, the Group HR Department is directly involved in tracking all senior Ipsos Group executive officers.

14.4.8.3.5 The Merger and Acquisition Division

The Merger and Acquisition Division is responsible for identifying acquisition targets and, in conjunction with the Finance and Legal Departments, securing the Group's acquisitions.

For each acquisition, a detailed review of the target company is undertaken with the assistance of relevant country and regional departments, the legal department, the finance department as well as external advisors, notably to ensure the accuracy of the financial data and financial information system and to audit risks of all types. Each planned acquisition is reviewed and validated by the Acquisitions Review Committee and is discussed within Ipsos' Board of Directors. Newly consolidated companies are very closely monitored during the first few years to ensure that the various internal policies are properly implemented. Acquisition due diligence is performed systematically by outside auditors or by the Company for smaller acquisitions.

14.4.8.3.6 Audit, quality and compliance department

Established in 2007 to strengthen the Group's internal control, the Internal Audit Department has had a "quality" function since April 2011 and since October 2017 a "compliance" role, thereby becoming the Audit, Quality and Compliance Department.

In 2021, responsibility for "Systems, Quality Assessment and Resources" was transferred from the "Operations" department to the broader "Quality and Internal Audit" function. This change creates an expanded department whose quality review and assessment is independent of other entities.

The link with Internal Audit allows for the use of previously independent information channels of quality audits, customer feedback, alerts, surveys and internal audit results. All of this information provides a powerful source of understanding of the challenges and risks and, therefore, the priority areas to focus on to improve our business.

Audit plans, that reflect the risks identified within the Group, are drawn up annually and presented to the Audit Committee for review.

The audit plans include subsidiary reviews as well as cross-disciplinary matters covering several countries.

This department contributes, through the performance of its duties, to the respect and improvement of the efficiency of the internal control procedures implemented within the Group.

A summary of the internal audit activities is presented to the Audit Committee. The Internal Audit plan is in principle presented to the Audit Committee in December for the following year.

14.4.8.4 Significant control measures put in place

Ipsos has implemented a series of organizational rules, policies, procedures and systems that contribute to the effectiveness of internal control.

14.4.8.4.1 Values, rules and general procedures applicable to all employees

The Group adopted a code of conduct (the Ipsos Code of Conduct, formerly The Green Book), which sets out the Group's organization, structures, values, and procedures. It also describes the professional obligations, rules and principles that must be observed, notably codes of practice and ethics. This book is systematically provided to each Group employee upon joining and can be accessed by all Group employees via the Ipsos intranet. In addition, all Ipsos Group employees had to take qualifying training on the Ipsos Code of Conduct (and the procedure book) in 2024. This training is also mandatory for all new employees.

The tasks and responsibilities of the various levels and key players in the Group's organization are set out in a document entitled "Ipsos Organization", as well as in a document on the organization of the Finance Department (Finance Accounting and Administration), a key player in this organization, specifying certain rules applicable to the distribution of powers and governance.

The Ipsos Book of Policies and Procedures contains all general procedures relating to financial matters, legal matters, HR management, communications, IT and the conduct of surveys, thereby contributing to internal control. In particular the book includes specific procedures concerning acquisitions, banking powers, the delegation and limitation of powers, cash flow management, litigation monitoring, the review and approval of investments, the preparation and implementation of budgets, accounting rules and methods, consolidation tools and calendar.

The Group regularly updates these procedures. All of these documents are available to all Group employees on the Ipsos intranet.

Since April 2013, a whistleblower system enables all Ipsos employees to express their doubts or concerns about actual or suspected fraud, conflicts of interest or ethical problems, through various means of communication (online or by post, email or telephone). This system also allows for investigations to be monitored using an integrated alert management system. The cases reported and investigated each year are regularly presented to the Audit Committee.

14.4.8.4.2 Internal control procedures relating to the preparation and treatment of accounting and financial information for the parent company and consolidated financial statements

The subsidiaries prepare detailed monthly financial reports, used to prepare the Group's monthly consolidated financial statements. Reviews of results and forecasts are carried out very regularly to ensure that targets will be achieved and, if this is not the case, to take any corrective action that might be necessary.

Accounting rules are defined in a Group manual. Explanatory notes are issued for each reporting date, emphasizing subjects to be particularly closely monitored in light of changes in accounting rules or problems that may have been identified in previous financial periods.

The consolidation of accounting data is performed using a well-known software system that is used by many listed companies.

A timetable for reporting information is disseminated within the Group to allow the various accounting teams to organize their work and identify any potential delays or difficulties as soon as possible.

The information reported by the various subsidiaries complies with International Financial Reporting Standards (IFRS). The consolidation packages are controlled by a central team, which verifies the accounting options used throughout the year and carries out elimination and consolidation operations. It also verifies the items that present the highest risk.

All Group subsidiaries are subject to an audit or a limited review of their financial statements at least once per year by an external accounting firm.

Each subsidiary monitors its internal controls and may set up specific control procedures when necessary, depending on the type of business it conducts and the risks involved.

Lastly, based on the overall information system correlated with the procedures handbook, automated monthly indicators have been established to ensure the quality of financial reporting and the effectiveness of our customer collection cycle. These indicators are followed at all levels of the organization (countries, regions and Group) and are led by the Group management control department. Some of the indicators are included in the quarterly business reviews.

14.4.8.4.3 Symphony, management information system

In addition to office productivity tools used by employees, the Group has an overall information and management system ("Symphony") that is used in all the countries in which Ipsos operates.

The system is made up of a series of tools to help control operations in each business line. It comprises a secure Business Intelligence tool used by all Group entities. It has an access management system that ensures that the roles of different types of users are defined according to best practices in terms of the separation of tasks.

The Group has an automatic system for detecting projects that may present anomalies ("Jobs At Risk"), which is used at each closing. All countries currently use Symphony. This system is used for each closing, and all countries currently use Symphony. The subsidiaries' Chief Financial Officers confirmed to the Group's finance department that, since the December 31, 2014 reporting date, they have been performing a review of ongoing surveys, as well as the revenue and gross margin for the financial year.

14.4.8.5 Risk Management

14.4.8.5.1 Objectives and scope of risk management

Risk management is a management tool designed to help (i) create and preserve the value, assets and reputation of the Company, (ii) secure the decision-making and processes of the Company to increase the attainment of objectives, (iii) enhance the coherence of actions with the values of the Company, and (iv) unite Company employees around a common vision of the main risks, and make them aware of the risks inherent in their activities.

The risk management policy applies to all Group activities and assets.

14.4.8.5.2 General organization of risk management

In 2007, Ipsos set up a risk management procedure supervised and managed by the internal audit department.

14.4.8.5.3 Risk management

Risk assessments should identify the events that may affect the ability of the organization to achieve its targets, assess its risks and determine the appropriate responses. An initial risk analysis was carried out in 2007 on the basis of interviews with the members of the MBEC (Management Board Executive Committee, predecessor of the GLT) and other Group managers; updates were then carried out at a

three-year frequency based on a questionnaire sent to key Ipsos managers aimed at assessing the risks previously identified and detecting the occurrence of new risks.

In December 2025, a new risk analysis was carried out through 10 questionnaires relating to the Group's main fields. Approximately 500 key Ipsos executives from all regions and different areas of expertise were invited to participate in these surveys. The risks identified were classified according to the probability of occurrence and their business impact.

The results of this analysis were presented to the December 2025 Audit Committee meeting by the Head of Quality and Internal Audit. It formed part of the basis used to establish the internal audit plan for subsequent years. The complete risk mapping report is presented to the Audit Committee. This approach also results in the putting in place of tools and new procedures designed to control these risks.

The risk analysis is also taken into account in evaluating the main risks mentioned in Section 3 of this Document.

This risk analysis is regularly followed up to allow for an update of previously identified risks (their evolution or disappearance) and to add any new risks that might be identified.

A new analysis is performed every three years. The next analysis will therefore take place in 2028.

14.4.8.5.4 Monitoring the internal control system

The self-evaluation of the quality of the internal control system, performed in each country through an online questionnaire in 2013, was monitored in order to challenge the evaluations, assess the progress made and identify the actions that may need to be set up in the countries.

Likewise, local external auditors had appraised the processes during their interim or annual auditing by recording their own evaluations in the analysis grid.

The results thereby obtained by country allowed closer monitoring and a more precise analysis of weaknesses and of the actions to be set up to improve the quality of internal control.

In 2016, a new questionnaire was drawn up and used by the external auditors during the annual auditing in order to update their assessment of internal control.

In 2017, internal audit rolled out a new self-assessment for Chief Financial Officers in the countries on the basis of an updated questionnaire. The results were then compared with the evaluations done by the local external auditors to establish appropriate actions and draw up a follow-up plan.

In November 2024, Internal Audit repeated the self-assessment process for financial managers. The results were presented to the Audit Committee in February 2025 and were used to develop an action plan in the internal audit programs for 2025/26.

14.5 Potential significant impacts on corporate governance

Ipsos is a société anonyme with a Board of Directors. In accordance with legal requirements, its Articles of Association delegate to the Board of Directors the choice between the combination of the roles of Chairman and CEO or the appointment of one person for each function.

Didier Truchot has been manager and later Chairman and CEO of Ipsos since the outset.

This decision to continue with this management model in keeping with the original organization is tightly linked to the person of Didier Truchot. The latter, who founded the Group, then managed it for over thirty years together with his now deceased partner, Jean-Marc Lech, who was joint Chairman until his death in December 2014.

Didier Truchot has a long track record and has global standing in the market research industry. He has in-depth knowledge of the industry and of its markets.

In terms of governance and as a result of the succession plan for the Chairman and CEO conducted since 2019 by the Appointments and Compensation Committee and the Board of Directors, 2021 was a transitional year for Ipsos SA, which was marked by the separation of the functions of Chairman of the Board of Directors and CEO, decided by the Board of Directors at its meeting of September 24, 2021, and effective on October 1, 2021.

At this meeting, the Board of Directors thus appointed Ben Page as CEO for a period of five years from November 15, 2021, and appointed Didier Truchot, founder and Chairman and CEO of the Group since its creation on October 1, 1975, as Chairman of the Board of Directors from October 1, 2021.

In addition, Didier Truchot's term of office as director of the company was renewed for a period of four years by the 2024 General Meeting and, consecutively, the Board of Directors renewed Didier Truchot's term of office as Chairman of the Board of Directors for the duration of his term of office as director of the company.

At its meeting of August 19, 2025, the Board of Directors appointed Jean Laurent Poitou as Chief Executive Officer for a period of five years from September 15, 2025, to replace Ben Page, whose term of office ended on that date.

On January 15, 2026, Didier Truchot tendered his resignation as Chairman of the Board of Directors, for health reasons, with effect from February 28, 2026. At its meeting on January 15, 2026, the Board appointed Laurence Stoclet Chair of the Board of Directors, effective March 1, 2026, and also appointed Anne-Marie Couderc as Lead Director and Didier Truchot as Honorary Chairman.

For a description of these roles, refer to Section 14.4.3.2.

In order to take into account the separation of the functions of Chairman of the Board of Directors and CEO, decided by the Board of Directors on September 24, 2021 and effective as of October 1, 2021, the Board of Directors amended its Internal Rules at its meeting on October 4, 2021.

15 Employees

15.1	Number of employees Profile/Key figures	332
15.1.1	Information about Ipsos SA	332
15.1.2	Information on the Group	332
15.2	Equity interests and stock options held by executive officers	332
15.3	Agreements providing for employee shareholding	332

15.1 Number of employees Profile/Key figures

15.1.1 Information about Ipsos SA

Ipsos SA has a headcount of three, including one employee who has a permanent contract.

Therefore, the requirement to provide information regarding reductions in headcount, protection of employment, reclassification of employees, working time arrangements and sub-contracted work does not apply to Ipsos SA.

15.1.2 Information on the Group

Information on Group employees can be found in Section 5.4.2 “Sustainability report” of this Registration Document.

15.2 Equity interests and stock options held by executive officers

Please see Section 19.1.5.2 of this Registration Document.

15.3 Agreements providing for employee shareholding

Please see Section 16.1.2 of this Registration Document.

16 Major shareholders

16.1	Identification of major shareholders	334
16.1.1	Change in the breakdown of capital and voting rights in FY 2025	334
16.1.2	Employee shareholding	335
16.1.3	Treasury shares	335
16.1.4	Double voting rights	335
16.1.5	Threshold crossings during the financial year	335
16.1.6	Other significant equity interests	336
16.2	Existence of different voting rights	336
16.3	Control of the issuer	336
16.4	Arrangements, the operation of which may result in a change in control	336
16.4.1	Agreement relating to a change in control	336
16.4.2	Other agreements between shareholders	337
16.5	History of the share capital	337
16.6	Pledge of Ipsos shares held in pure registered form as at December 31, 2025	337

16.1 Identification of major shareholders

As at December 31, 2025, the share capital and voting rights of Ipsos SA broke down as follows:

	Number of shares	% Shares	Number of voting rights	% of voting rights
DT & Partners*	4,923,000	11.39 %	9,488,235	19.33 %
Bpifrance Investissement	3,071,428	7.11%	3,071,428	6.26%
Didier Truchot	295,681	0.68 %	591,362	1.20 %
Public	33,625,380	77.83 %	33,928,870	69.13 %
Employees**	1,235,487	2.89 %	1,996,793	4.07 %
Of which FCPE and Group Savings Plan	14,899	0.03 %	29,455	0.06 %
Treasury shares	52,249	0.12 %	0	0.00 %
Of which liquidity contract	28,580	0.06 %	0	0.00 %
Total	43,203,225	100.00 %	49,076,688	100.00 %

* Didier Truchot holds 78.45% of the capital and voting rights of DT & Partners and Ipsos Partners holds 21.55%.

As at December 31, 2025, around 330 Ipsos managers were shareholders of Ipsos Partners, a holding company formed in October 2016, in which only Ipsos managers are entitled to hold shares, forming the core group of professionals designed to ensure a degree of independence for Ipsos.

** Employee shareholding within the meaning of article L. 225-102 of the French Commercial Code was 2.89% as at December 31, 2025.

16.1.1 Change in the breakdown of capital and voting rights in FY 2025

In FY 2025, there were no major changes to the Company's shareholder structure.

In FY 2024, the limited partnership company LAC I SLP, registered with the Paris Trade and Companies Register under number 882 757 172 and headquartered at 6-8, Boulevard Haussmann, 75009 Paris ("LAC I SLP"), represented by Bpifrance Investissement in its capacity as management company and manager ("Bpifrance"), actively crossed:

- the legal threshold of 5% of the voting rights of the Company as of October 10, 2024;
- the statutory threshold of 6% of the Company's share capital as of October 11, 2024;
- the statutory threshold of 6% of the voting rights of the Company as of October 14, 2024;
- the statutory threshold of 7% of the Company's share capital as of October 16, 2024.

These active threshold crossings result from the acquisition of shares in the Company by LAC I SLP, increasing its stake, as of October 16, 2024, to 7.10% of the share capital and 6.29% of the voting rights of the Company, corresponding to 3,071,428 shares and voting rights.

As Bpifrance has expressed its intention to be an active and engaged shareholder in support of Ipsos' interests, concurrently with this increase in its stake, the General Meeting of 21 May 2025 decided to allocate a board seat to Bpifrance within Ipsos' Board of Directors.

As at December 31, 2025, LAC I SLP, represented by Bpifrance, still held 3,071,428 shares and voting rights of the Company.

DT & Partners' ownership interest

As a reminder, during the 2024 fiscal year, DT & Partners purchased Ipsos shares. As at December 31, 2024, DT & Partners held 4,921,422 Ipsos shares, representing 11.39% of the share capital, or 19.18% of the voting rights.

During the 2025 fiscal year, DT & Partners purchased Ipsos shares. As at December 31, 2025, DT & Partners held 4,923,000 Ipsos shares, representing 11.39% of the share capital, or 9,488,235 voting rights.

16.1.2 Employee shareholding

The status of employee shareholding in Ipsos, within the meaning of Article L. 225-102 of the French Commercial Code was 2.89% as at December 31, 2025.

This employee shareholding includes:

- The shares held by employees through the "Ipsos Shareholding" FCPE (employee savings mutual fund)(0.03% of the share capital);
- Three tranches were offered to Group employees in 1999 and 2000 following a reserved share issue as part of the Group savings plan;
- Registered shares held directly by employees pursuant to Article L. 225-197-1 of the French Commercial Code.

In addition, Group employees also hold Company shares that they have acquired by means other than those referred to in Article L. 225-102 of the French Commercial Code and which therefore do not strictly speaking fall within the calculation of employee shareholding within the meaning of said Code. This employee shareholding calculation does not include:

- Shares subscribed directly by some Group managers when the Company was listed (registered and bearer shares);
- Any Ipsos shares allocated to MORI shareholding managers as compensation for their MORI shares during the acquisition of MORI in 2005;
- For certain employees and executive officers of the Group who were also shareholders of LT Participations, the Ipsos shares received in exchange for their LT Participations shares tendered to the Company in respect of the merger carried out on December 29, 2016;
- The shares delivered to Group employees and executive officers under free share plans awarded annually by the Board of Directors since 2006, up to the plan of April 28, 2016.

Ipsos Group employees thus own a total of 2.89% of the share capital and 4.07% of the voting rights, o/w 0.03% via the FCPE (employee savings mutual fund) "Ipsos actionnariat", the voting rights of which are exercised by the Supervisory Board in accordance with Article 8.2 of the Fund Rules.

16.1.3 Treasury shares

Treasury shares are stripped of their voting rights at General Meetings.

As at December 31, 2025, the total number of voting rights attached to shares, including those stripped of their voting rights, to be used in accordance with Article 223-11 of the General Regulations of the Autorité des Marchés Financiers for the calculation of ownership thresholds expressed in terms of voting rights amounted to 49,128,937.

As at December 31, 2025, Ipsos SA held 52,249 own shares, representing 0.12% of the share capital, including 28,580 shares under the liquidity contract and 23,669 shares outside the liquidity contract.

16.1.4 Double voting rights

In accordance with Article 10 of the Ipsos SA Articles of Association, shares held in registered form for more than two years carry double voting rights. As at December 31, 2025, 5,925,712 shares carried double voting rights. Except for these double voting rights, there are no other securities with different voting rights.

16.1.5 Threshold crossings during the financial year

In accordance with Article L. 233-7 of the French Commercial Code and Article 8 of the Company's Articles of Association, statements relating to the crossing of thresholds in FY 2025 must be sent to the Autorité des Marchés Financiers and are published in its financial information database (BDIF) under the references mentioned below:

AMF decision number/reference	AMF publication date	Person declaring	Shareholder(s) concerned – Concert party	Legal threshold(s) crossed	Direction of crossing
225C0478	March 7, 2025	Mawer Investment Management Ltd.	Mawer Investment Management Ltd.	5% of voting rights	Decrease

16.1.6 Other significant equity interests

To Ipsos SA's knowledge, there is no shareholders' agreement involving at least 0.5% of the capital or voting rights or any concert party.

16.2 Existence of different voting rights

In accordance with Article 10 of the Ipsos SA Articles of Association, shares held in registered form for more than two years carry double voting rights. As at December 31, 2025, 5,925,712 shares carried double voting rights. Except for these double voting rights, there are no other securities with different voting rights.

16.3 Control of the issuer

Due to the completion of the merger of LT Participations with Ipsos on December 29, 2016, Ipsos is no longer a controlled company.

On that date, DT & Partners, the holding company controlled by Didier Truchot, in which 144 Group managers – through Ipsos Partners – had invested in 2016 and which has around 330 managers in its capital at the end of 2025, has become the new reference shareholder of Ipsos SA.

As at December 31, 2025, DT & Partners owns close to 11.39% of the share capital and 19.33% of the voting rights of Ipsos SA. Didier Truchot is the Chairman of DT & Partners. He is also Chairman of the Board of Directors of Ipsos SA until February 28, 2026 (see the press release of January 15, 2026).

16.4 Arrangements, the operation of which may result in a change in control

16.4.1 Agreement relating to a change in control

None

16.4.2 Other agreements between shareholders

To Ipsos SA's knowledge, there is no shareholders' agreement involving at least 0.5% of the capital or voting rights or any concert party.

16.5 History of the share capital

To Ipsos SA's knowledge, the breakdown of share capital and voting rights over the past three years was as follows:

	12/31/2025			12/31/2024			12/31/2023		
	Shares	% of capital	% of voting rights	Shares	% of capital	% of voting rights	Shares	% of capital	% of voting rights
DT & Partners	4,923,000	11.39%	19.33%	4,921,422	11.39%	19.18%	4,565,235	10.57%	18.44%
Bpifrance Investissement	3,071,428	7.11%	6.26%	(1)	(1)	(1)	-	-	-
Didier Truchot	295,681	0.68%	1.20%	295,681	0.68%	1.19%	295,681	0.68%	1.18%
Employees*	1,235,487	2.89%	4.07%	1,250,025	2.89%	4.09%	1,245,327	2.88%	3.98%
Treasury shares	52,249	0.12%	-	125,469	0.29%	-	16,757	0.04%	-
Public	33,625,380	77.83%	69.13%	36,610,628 (2)	84.74% (2)	75.54% (2)	37,080,225	85.83%	76.40%
Total	43,203,225	100%	100%	43,203,225	100%	100%	43,203,225	100%	100%

(1) The equity interest held by Bpifrance Investissement in Ipsos' capital as of December 31, 2024 already amounted to a total of 3,071,428 Ipsos shares, representing 7.11% of the capital and 6.26% of voting rights.

(2) This number includes the equity interest held by Bpifrance Investissement as of December 31, 2024.

* Employee shareholding within the meaning of article L. 225-102 of the French Commercial Code was 2.89% as at December 31, 2025.

16.6 Pledge of Ipsos shares held in pure registered form as at December 31, 2025

At December 31, 2025, 2,755,339 shares registered in the name of the shareholder DT & Partners representing 6.37% of Ipsos' share capital had been pledged to credit institutions as security for a loan granted to said shareholder.

17 Related-party transactions

17.1	Main related-party transactions	339
17.2	Statutory Auditors' special report on related-party agreements	339

17.1 Main related-party transactions

A description of the related-party transactions can be found in Section 18.1.2.2.5.7 of this Registration Document.

In accordance with the regulations in force (Article L. 225-40-1 of the French Commercial Code), the Board of Directors, at its meeting of February 24, 2026, reviewed the agreements entered into and authorized in prior years which continued to be performed in FY 2025, a list of which was provided to the Statutory Auditors for the purpose of preparing their special report.

The Board of Directors thus reaffirmed the value of each of those agreements to the Company and consequently decided to maintain each of its authorizations previously granted.

17.2 Statutory Auditors' special report on related-party agreements

Financial year ended December 31, 2025

To the General Meeting of IPSOS SA,

In our capacity as Statutory Auditors of your company (hereinafter the "Company"), we hereby present our report on related-party agreements.

We are required to inform you, based on the information we have been given, of the characteristics, essential terms and conditions and reasons justifying the interest for the Company of the agreements indicated to us or that we may have discovered during our assignment. We are not required to comment on whether they are beneficial or appropriate nor to ascertain if any other agreements exist. It is your responsibility, under the terms of Article R. 225-31 of the French Commercial Code, to evaluate the benefits for the Company of these agreements in view of their approval.

It is also our responsibility, where applicable, to provide you with the information provided for in Article R. 225-31 of the French Commercial Code relating to the execution, during the past financial year, of agreements already approved by the General Meeting.

We have performed the procedures that we deemed necessary to comply with the professional guidelines issued by the French Institute of Statutory Auditors with regards to this assignment. These procedures consisted in verifying that the information we were given was consistent with the documentation from which it came.

1. Agreements submitted for the approval of the General Meeting

Agreements authorized and entered into during the past financial year

We inform you that we have not been notified of any agreement authorized and concluded during the previous financial year to be submitted for the approval of the General Meeting, pursuant to the provisions of Article L. 225-38 of the French Commercial Code.

2. Agreements already approved by the General Meeting

Agreements approved in previous financial years without execution during the past financial year

We have been informed of the continuation of the following agreements, already approved by the General Meeting in previous financial years, which were not executed during the past financial year.

2.1. Call option agreements in 2016 between certain Ipsos SA executive officers and officers as promising parties, Didier Truchot as first ranking beneficiary and Ipsos SA as second ranking beneficiary, in connection with the implementation of the “Ipsos Partners” project.

Persons concerned:

- Didier Truchot: Chairman of the Board of Directors of the Company until February 28, 2026, remaining a director of the Company since that date
- Laurence Stoclet: Director of the Company and, since March 1, 2026, Chair of the Board of Directors of the Company.

Purpose of the contract: Under the terms of these call option agreements entered into on October 25, 2016, (i) Laurence Stoclet undertook to transfer to Didier Truchot, as first ranking beneficiary, or to the Company as second ranking beneficiary, and (ii) Didier Truchot undertook to transfer to the Company as beneficiary, all of the Ipsos Partners shares that they hold in the event that they cease to hold office within Ipsos Group, within the deadlines and under the conditions provided for in the call option agreement. The purpose of these agreements is to enable the Company to arrange for these managers to be excluded from the capital of Ipsos Partners if they no longer hold a position within the group.

The exercise of these options must be made at a value determined by an independent expert. The company also has a right of substitution so that the shares can be bought back by a new manager who meets the conditions set for participation in the capital of Ipsos Partners. These call options are an essential safeguard for the Company to ensure that Ipsos Partners can continue to bring together only a core group of shareholder managers.

Date of the meeting of the Company's Board of Directors that authorized the agreement:

September 15, 2016

Implementation during the financial year: These agreements were not executed during the financial year.

2.2. Put option agreements entered into in 2016 between certain Ipsos SA directors and executive officers as beneficiaries and Ipsos SA as promising party, in connection with the implementation of the “Ipsos Partners” project.

Persons concerned:

- Didier Truchot: Chairman of the Board of Directors of the Company until February 28, 2026, remaining a director of the Company since that date,
- Laurence Stoclet: Director of the Company and, since March 1, 2026, Chair of the Board of Directors of the Company.

Purpose of the contract: Under the terms of these put option agreements, signed on October 25, 2016, the Company undertook to buy back from Didier Truchot and Laurence Stoclet all the Ipsos Partners shares they hold in the event that they cease to hold office within Ipsos Group, within the deadlines and under the conditions set forth in the put option contract. By ensuring liquidity at a “fair” price set by an independent expert, these call options should enable the Company to consolidate a core group of shareholder executive officers alongside Didier Truchot within Ipsos Partners and thus enable the managers to share in the results of the company's development.

Date of the Ipsos Board of Directors meeting that authorized the agreement:

September 15, 2016.

Implementation during the financial year: These agreements were not executed during the financial year.

2.3. Call option agreement entered into on April 22, 2024 between Benjamin Page, as promisor, Didier Truchot as first ranking beneficiary and Ipsos SA as second ranking beneficiary, in connection with the implementation of the “Ipsos Partnership 2024” project.

Persons concerned:

- Didier Truchot: Chairman of the Board of Directors of the Company until February 28, 2026, remaining a director of the Company since that date,
- Benjamin Page: Director and Chief Executive Officer of the Company until September 15, 2025.

Purpose of the contract: Under the terms of this call option agreement entered into on April 22, 2024, Benjamin Page has undertaken to sell to Didier Truchot, as first-ranking beneficiary or to the Company as second-ranking beneficiary, all the Ipsos Partners shares he holds in the event that he ceases to perform duties within the Ipsos Group, within the deadlines and under the conditions provided for in the call option agreement.

This call option allows the Company to organize the exclusion of the relevant manager from the capital of Ipsos Partners if they no longer hold a position within the Group. The exercise of this option must be made at a value determined by an independent expert. The company also has a right of substitution so that the shares can be bought back by a new manager who meets the conditions set for participation in the capital of Ipsos Partners. These call options are an essential safeguard for the Company to ensure that Ipsos Partners can continue to bring together only a core group of shareholder executive officers.

Date of the Ipsos Board of Directors meeting that authorized the agreement:

April 10, 2024

Implementation during the financial year: This agreement was not executed during the past financial year, as no purchase options were exercised during that financial year following the departure of Benjamin Page.

2.4. Put option agreement entered into on April 22, 2024 between Benjamin Page as beneficiary and Ipsos SA as promisor, as part of the implementation of the “Ipsos Partnership 2024” project.

Person concerned:

- Benjamin Page: Director and Chief Executive Officer of the Company until September 15, 2025.

Purpose of the contract: Under the terms of this put option agreement entered into on April 22, 2024, the Company undertook to buy back from Benjamin Page all the Ipsos Partners shares he holds if he no longer holds his position within the Ipsos Group, within the deadlines and under the conditions provided for in the put option agreement.

By ensuring liquidity at a “fair” price set by an independent expert, this purchase commitment should enable the Company to consolidate a core group of Ipsos shareholder managers within Ipsos Partners and thus enable the executive officers to share in the results of the company’s development.

Date of the Ipsos Board of Directors meeting that authorized the agreement:

April 10, 2024

Implementation during the financial year: This agreement was not executed during the past financial year, as no put options were exercised that year following the departure of Benjamin Page.

18.1 Historical financial information

18.1.1 Statutory Auditors' Report on the Financial Statements

Financial year ended December 31, 2025

This is a translation into English of the statutory auditors' report on the financial statements of the Company issued in French and it is provided solely for the convenience of English speaking users.

This statutory auditors' report includes information required by European regulation and French law, such as information about the appointment of the statutory auditors or verification of the management report and other documents provided to shareholders.

This report should be read in conjunction with, and construed in accordance with, French law and professional auditing standards applicable in France.

To the General Meeting of Ipsos,

Opinion

In execution of the mission entrusted to us by your general meeting, we have audited the consolidated financial statements of Ipsos for the financial year ended December 31st, 2025 as attached to this report.

We certify that the annual accounts are, with IFRS rules and principles, true and accurate and provide a faithful image of the result of the operations of the previous financial year as well as the financial situation and assets of the company at the end of this financial year.

The audit opinion expressed above is consistent with our report to the Audit Committee.

Basis for opinion

Audit framework

We conducted our audit in accordance with professional standards applicable in France. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our responsibilities under these standards are set out in the "Responsibilities of the Statutory Auditors for the audit of the consolidated accounts" section of this report.

Independence

We conducted our audit in accordance with the rules of independence set out in the French Commercial Code (code de déontologie), and in the French Code of Ethics (code de déontologie) for Statutory Auditors for the period from January 1st, 2025 to the date of issue of our report, and in particular we have not provided any services prohibited by Article 5(1) of Regulation (EU) No. 537/2014.

Justification of assessments – Key audit matters

In accordance with the requirements of Articles L.821-53 and R.821-180 of the French Commercial Code relating to the justification of our assessments, we inform you of the key audit matters relating to risks of material misstatement that, in our professional judgment, were the most significant for our audit of the financial statements, as well as how we addressed those risks.

These matters were addressed in the context of our audit of the financial statements as a whole and in forming our opinion thereon, and we do not provide a separate opinion on specific items of the financial statements. We express no opinion on the elements of these consolidated accounts taken separately.

Revenue recognition

(Note 18.1.2.2.1.3.26 to the consolidated financial statements)

Risk identified

As at December 31st, 2025, the total amount of revenue stood at €2,525m. Revenue is recognized using the percentage of completion method. Percentage of completion is generally determined on a straightline basis over the period from the beginning of each survey to the presentation of the survey's conclusions to the customer.

Any error in analyzing agreements concluded with customers, or in estimating surveys' degree of completion, may result in improper revenue recognition.

We have considered revenue recognition as a key audit matter given the volume and diversity of the surveys performed and the necessary analysis of the Group's obligations and of service performance.

Our audit response

Our work consisted of:

- Reviewing the revenue recognition process established by management, from the provision of services, invoicing and accounting recording to the receipt of payments ;
- Assessing the compliance of the accounting treatment used to record revenue with applicable accounting standards ;
- evaluating the design and implementation of key controls relating to the processes and information systems relating to revenue, with the support of our IT specialists, and testing their operational effectiveness ;
- for a selection of contracts identified by statistical sampling or on the basis of quantitative and qualitative criteria, perform substantive detailed tests on the recognition of revenue in relation to signed contracts or other external evidence and verify the separation of financial years ;
- assess the appropriateness of the information presented in note 18.1.2.2.1.3.26 to the consolidated financial statements.

Valuation of the recoverable amount of goodwill

(Notes 18.1.2.2.1.3.9, 18.1.2.2.1.3.16 and 18.1.2.2.4.1 of the notes to the consolidated financial statements)

Risk identified

As at December 31st, 2025, the carrying amount of the Group's goodwill amounted to €1,510m, representing 49% of total on the consolidated balance sheet.

Ipsos performs goodwill testing at least annually and whenever an indication of impairment is observed. An impairment loss is recognized if the recoverable amount falls below the net book value, the recoverable amount being the higher of the value in use and the fair value of the asset net of transaction costs.

The assessment of the recoverable amount of these assets requires estimates and judgments by Ipsos' management, particularly with regard to the competitive, economic and financial environment of the countries in which the Group operates, as well as the ability to generate operating cash flows based on budgets and plans drawn up by the Group's management and the determination of discount and growth rates.

We consider that the assessment of the recoverable amount of goodwill is a key issue in our audit because of its sensitivity to management's assumptions and its materiality to the consolidated financial statements.

Our audit response

Our audit procedures consisted in:

- Obtaining an understanding of the process of impairment testing of each CGU implemented by management, including the determination of the cash flows used in determining recoverable value.
- Assessing the reliability of the business plan data used in calculating recoverable value. In particular, when impairment testing of a CGU proved sensitive to a particular assumption we:
 - o Compared the 2026 business plan projections to previous business plans and to the actual results for prior years.
 - o Conducted interviews with the Group Finance Department and the country Finance Departments to identify the main assumptions used in the business plans and assessed those assumptions in the light of the explanations obtained.
 - o Assessed the Group's sensitiveness testing and performed our own sensitiveness testing of key assumptions in order to assess their impact on the conclusions of the impairment tests performed.
- In respect of the models applied in determining recoverable values, and with help from our valuation experts, we:
 - o Verified the models' arithmetical accuracy and recalculated the resulting recoverable amounts.
 - o We assessed the consistency of the methodologies used to determine the discount and infinite growth rates by corroborating these rates with market data or external sources and recalculated these rates with our own data sources.

We also assessed the appropriateness of the information presented in Notes 18.1.2.2.1.4.7, 18.1.2.2.1.4.14 and 18.1.2.2.4.1 to the consolidated financial statements.

Specific verifications

In line with professional standards applicable in France, we have also performed the specific verifications required by the legal and regulatory texts concerning the information given about the Group in the Board of Director's management report.

We have no matters to report as to their fair presentation and their consistency with the consolidated financial statements.

Other verifications or information required by law and regulations

Format of the consolidated financial statements to be included in the annual financial report

In accordance with the professional standard on the due diligence of statutory auditors in relation to the annual and consolidated financial statements presented in accordance with the Single European Electronic Reporting Format, we have also verified compliance with this format defined by European Delegated Regulation No. 2019/815 of December 17, 2018 in the presentation of the consolidated financial statements intended for inclusion in the annual financial report referred to in paragraph I of Article L. 451-1-2 of the French Monetary and Financial Code (code monétaire et financier), which have been drawn up under the responsibility of the Chief Executive Officer. In the case of consolidated accounts, our work includes verifying that the presentation of these accounts conforms to the format defined by the above-mentioned regulation.

Based on our work, we conclude that the presentation of the consolidated financial statements for inclusion in the annual financial report complies, in all material respects, with the Single European Electronic Reporting Format.

Due to the technical limitations inherent in the macro-tagging of the consolidated financial statements in accordance with the single European electronic reporting format, the content of certain tags in the notes to the financial statements may not be rendered identically to the consolidated financial statements attached to this report.

It is not our responsibility to verify that the consolidated financial statements that will be effectively included by your company in the annual financial report filed with the AMF correspond to those on which we have performed our work.

Appointment of the Statutory Auditors

We were appointed as Statutory Auditors of Ipsos by your General Meeting of May 31st, 2006 for Grant Thornton and April 24th, 2017 for Forvis Mazars (formerly Mazars SA).

As at December 31st, 2025, Grant Thornton was in the twentieth year of its uninterrupted engagement and Forvis Mazars SA (formerly Mazars SA) in its ninth year.

Responsibilities of management and those charged with governance in relation to the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards as adopted by the European Union and for such internal control as management determines is necessary to enable the preparation of

consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, Management is responsible for evaluating the Company's ability to continue as a going concern, for presenting in those financial statements, if appropriate, the necessary information relating to the going concern and for applying the going concern accounting policy, unless it is intended to wind up the Company or cease its activity.

The Audit Committee is responsible for monitoring the financial reporting process and the effectiveness of internal control and risk management systems, as well as, where applicable, any internal audit systems, relating to accounting and financial reporting procedures.

The consolidated financial statements have been drawn up by the Board of Directors.

[Responsibilities of the statutory auditor for the audit of the consolidated financial statements](#)

Audit objective and approach

Our responsibility is to report on the consolidated financial statements. Our objective is to obtain reasonable assurance that the consolidated accounts taken as a whole do not contain any material misstatements. Reasonable assurance is a high level of assurance, but there is no assurance that an audit conducted in accordance with professional standards will consistently identify any material misstatements. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions taken by users on the basis of these financial statements.

As specified in Article L.821-55 of the French Commercial Code, our audit does not include assurance on the viability or quality of the Company's management.

In the framework of an audit conducted in accordance with professional standards applicable in France, the Statutory Auditor exercises professional judgment throughout the audit. In addition:

- The Statutory Auditor identifies and assesses the risks that the consolidated accounts contain material misstatements, whether due to fraud or error, defines and implements audit procedures to address such risks, and collects elements it considers sufficient and appropriate on which to base its opinion. The risk of non-detection of a significant misstatement due to fraud is higher than that of a significant misstatement resulting from an error, since fraud may involve collusion, forgery, voluntary omissions, misrepresentation or circumventing internal control.
- The Statutory Auditor obtains an understanding of the internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal controls.
- The Statutory Auditor assesses the appropriateness of the accounting policies used and the reasonableness of accounting estimates made by management, as well as the information concerning them provided in the consolidated accounts.
- The Statutory Auditor assesses the appropriateness of management's application of the going concern accounting policy and, depending on the evidence gathered, the existence or otherwise of significant uncertainty related to events or circumstances likely to question the company's ability to continue as a going concern. This assessment is based on the information collected up to the date of its report, it being noted, however, that subsequent circumstances or events could call into question the company's ability to continue as a going concern. If the Statutory Auditor concludes that significant uncertainty exists, it draws the attention of the readers of the report to the information provided in the consolidated financial statements about this uncertainty or, if this information is not provided or is not relevant, it issues a qualified opinion or a refusal to certify.

Report to the Audit Committee

We submit a report to the Audit Committee, which includes a description of the scope of the audit and the audit program implemented, as well as the results of our audit. We also report, as applicable, any significant deficiencies in internal control that we have identified regarding the accounting and financial reporting procedures.

Our report to the Audit Committee includes the risks of material misstatement that, in our professional judgment, were of most significance in the audit of the consolidated financial statements of the current period and which are therefore the key audit matters that we are required to describe in this report.

We also provide the Audit Committee with the statement provided for in article 6 of Regulation (EU) No 537-2014, confirming our independence within the meaning of the rules applicable in France, as defined in particular in Articles L.821-27 to L.821-34 of the French Commercial Code and in the French Code of Ethics for Statutory Auditors. Where appropriate, we discuss any risks to our independence and the related safeguard measures with the Audit Committee.

The Statutory Auditors,

18.1.2.2 Notes to the consolidated financial statements

Financial year ended 31 décembre 2025

18.1.2.2.1 General information and principal accounting policies

18.1.2.2.1.1 General information

Ipsos is a global Group specializing in survey-based research for companies and institutions. It is currently the world's fourth-largest player in its market, with consolidated subsidiaries in 91 countries as at December 31, 2025.

Ipsos SA is a "Société Anonyme" (limited-liability corporation) listed on Euronext Paris. Its registered office is located at 35, rue du Val de Marne- 75013 Paris (France).

On February 24, 2026, Ipsos' Board of Directors approved and authorized publication of Ipsos' consolidated financial statements for the financial year ended December 31, 2025. The consolidated financial statements for the financial year ended December 31, 2025 will be submitted to the Ipsos Shareholders for approval at the Annual General Meeting on May 20, 2026.

The financial statements are presented in Euros, and all values are rounded to the nearest thousand Euros (€000), unless otherwise indicated.

18.1.2.2.1.2 Highlights

The year 2025 was marked by the major acquisitions of Infas and The BVA Family, the latter being the largest acquisition Ipsos has made since 2018.

On January 3, 2025, Ipsos acquired Infas Holding AG, a major player in market, opinion, and social research in Germany.

On 24 June 2025, Ipsos SA acquired The BVA Family, which represents a significant expansion for Ipsos in France and also strengthens its position in the United Kingdom and Italy. BVA brings its recognized expertise in customer experience monitoring, point-of-sale behavior analysis, and research for government and public services. Its expertise in pack testing is a key strength that can now be rolled out across a much larger geographic footprint by Ipsos.

The 2018 bond issue of €300 million was fully repaid on June 23, 2025 and a new €400 million bond issue was put in place on January 22, 2025 for a term of five years.

18.1.2.2.1.3 Principal accounting policies

18.1.2.2.1.3.1 Basis on which the financial statements are prepared

In accordance with Regulation (EC) No 1606/2002 of the European Parliament and of the Council of July 19, 2002, Ipsos' 2025 consolidated financial statements have been prepared in accordance with IFRS (International Financial Reporting Standards) published by the IASB (International Accounting Standards Board) at December 31, 2025 and adopted by the European Union (EU) as evidenced by publication in the Official Journal of the European Union prior to the reporting date.

18.1.2.2.1.3.2 Standards, amendments and interpretations published by the IASB that are mandatory for financial years beginning on or after January 1, 2025:

IFRS, amendments or interpretations adopted by the European Union applicable as from January 1, 2025 with no impact on the Group's consolidated financial statements:

- Amendments to IAS 21: Lack of convertibility

These new standards have no material impact on the Group's consolidated financial statements.

18.1.2.2.1.3.3 Use of estimates

When drawing up the consolidated financial statements, the measurement of certain balance sheet or income statement items requires the use of assumptions, estimates and assessments. These assumptions, estimates and assessments are based on information or situations existing on the date on which the financial statements were drawn up and that may in the future prove to be different from the actual situation.

Ipsos has assessed the consequences of climate risks on its business in the short and medium term and has concluded that the expected impact on its business model and on changes in revenues, margins and the assumptions used to test for impairment of goodwill is not material.

No changes specifically related to climate risks have therefore been incorporated into the main estimates used by the Group in the context of the financial statements for the year ended December 31, 2025.

Based on the preliminary analyses conducted by the Group in relation to the international tax reform ("Pillar 2"), exposure to additional taxes under GloBE rules is immaterial.

The main sources of estimates concern:

The value of goodwill for which the Group conducts impairment testing at least once a year, using various methods that rely on estimates.

Further details are given in notes 18.1.2.2.1.3.9 Goodwill and business combinations and 18.1.2.2.4.1 Goodwill;

Deferred tax assets related to the capitalization of tax loss carryforwards as described in note 18.1.2.2.1.3.25;

Unlisted financial assets as described in note 18.1.2.2.1.3.17;

The valuation of buy-out commitments for non-controlling equity interests as described in Note 18.1.2.2.1.3.8;

Measurement of the fair value of borrowings and hedging instruments as described in note 18.1.2.2.1.3.21;

Measurement of the progress of the studies as described in note 18.1.2.2.1.3.26;

Earn-outs as described in note 18.1.2.2.1.3.9;

Various factors used to calculate the operating margin as described in Notes 18.1.2.2.1.3.26 Revenue recognition, 18.1.2.2.1.3.27 Definition of gross margin and 18.1.2.2.1.3.28 Definition of operating margin.

18.1.2.2.1.3.4 Consolidation methods

In accordance with IFRS 10 "Consolidated Financial Statements", Ipsos' consolidated financial statements include the financial statements of the entities directly or indirectly controlled by the Company, irrespective of its level of equity interest in those entities. An entity is controlled whenever Ipsos holds the power over that entity, is exposed to, or is entitled to variable returns as a result of its investment in that entity, and when it has the ability to use its power over the entity to influence the amount of such returns.

The determination of control takes into account the existence of potential voting rights if they are substantive, i.e. whether they can be exercised in a timely manner when decisions on the relevant activities of the entity must be taken.

The financial statements include the financial statements of Ipsos Group and of all its subsidiaries for the period to December 31 of each year. The financial statements of subsidiaries are prepared using the same accounting period as the parent company financial statements, and on the basis of common accounting policies.

Subsidiaries are consolidated from the date on which they are acquired i.e. from the date on which control passed to Ipsos.

The companies controlled by the Group either by right (direct or indirect ownership of the majority of voting rights) or contractually are fully consolidated. The financial statements are included 100%, item by item, with the recognition of non-controlling equity interests.

In accordance with IFRS 11 "Joint Arrangements", Ipsos classifies joint arrangements (entities over which Ipsos exercises joint control with one or more other parties) as joint operations, in which Ipsos recognizes its assets and liabilities in proportion to its rights and obligations, or joint ventures, which are accounted for using the equity method.

Ipsos Group exercises joint control over a joint arrangement when decisions regarding the relevant activities of the joint arrangement require the unanimous consent of Ipsos and the other controlling parties.

Ipsos exercises significant influence over an associate when it has the power to participate in financial and operational policy decisions but cannot control or exercise joint control over those policies.

Joint ventures, companies over which Ipsos exercises joint control, and associates, companies over which Ipsos exercises significant influence, are accounted for under the equity method in accordance with IAS 28 "Investments in Associates and Joint Ventures".

The equity method involves initially recognizing the cost contribution and adjusting it subsequently to reflect changes in the net assets of an associate or joint venture.

Transactions between consolidated companies and internal profits are eliminated.

The list of the main companies included in the consolidation scope in 2025 is presented in Note 18.1.2.2.7.

18.1.2.2.1.3.5 Segment reporting

IFRS 8 requires segment reporting in the consolidated financial statements be based on the internal reporting presentation that is regularly reviewed by senior management to assess performance and allocate resources to the various segments. Senior management represents the chief operating decision-maker pursuant to IFRS 8.

Three reportable segments have been defined, consisting of geographical regions based on internal reports used by senior management. The three segments are:

- Europe, Middle East, Africa,
- Americas,
- Asia-Pacific.

Furthermore, Ipsos is entirely dedicated to a single activity: survey-based research.

The measurement methods put in place by the Group for segment reporting in accordance with IFRS 8 are the same as those used to prepare the financial statements.

In addition to the three operating segments, the Company reports for Corporate entities and eliminations between the three operating sectors classified in "Other". Corporate assets that are not directly attributable to the activities of the operating segments are not allocated to a segment.

Inter-segment commercial transactions are carried out on market terms, i.e. on terms similar to those that would be offered to third parties. Segment assets include property, plant and equipment and intangible assets (including goodwill), trade receivables and other current assets.

18.1.2.2.1.3.6 Conversion method for items in foreign currencies

The financial statements of foreign subsidiaries with a functional currency other than the Euro are translated into Euros (the currency in which Ipsos presents its financial statements) as follows:

- Foreign currency assets and liabilities are translated at the closing rate.
- The income statement is translated at the average rate for the period.
- Translation differences arising from application of these different exchange rates are reported under "Change in translation adjustments" within other comprehensive income.

The recognition and measurement of foreign currency transactions are defined by IAS 21 "The Effects of Changes in Foreign Exchange Rates". In accordance with this standard, transactions denominated in foreign currencies are translated by the subsidiary into its functional currency at the rate on the date of the transaction.

Monetary items on the balance sheet are revalued at the closing exchange rate at each reporting date. The corresponding revaluation adjustments are recorded in the income statement:

- Under operating margin for commercial transactions related to client surveys;
- Under other non-current income and expenses for commitments to buy out non-controlling equity interests;
- Under net financial income and expenses for financial transactions and corporate costs.

By way of exception to the above, translation adjustments arising on long-term intra-group financing transactions that can be considered as forming part of the net investment in a foreign operation, and translation adjustments arising on foreign currency borrowings representing, in whole or in part, a hedge of a net investment in a foreign operation (in accordance with IAS 39), are recognized directly in other comprehensive income under "Net investment in a foreign operation and related hedges" until the net investment is disposed of.

18.1.2.2.1.3.7 Intra-group transactions

The closing balances of the following items have been eliminated, based on their impact on net income and deferred taxation: accounts receivable and accounts payable between Group companies, and intra-group transactions such as dividend payments, gains and losses on disposals, changes in or reversals of provisions for impairment on investments in consolidated companies, loans to Group companies and internal profits.

18.1.2.2.1.3.8 Commitments to buy out non-controlling equity interests

The Group has given commitments to minority shareholders in some fully consolidated subsidiaries to acquire their equity interests in these companies. For the Group, these commitments are option-like, equivalent to those arising from the sale of put options.

Upon initial recognition, the Group recognizes a liability for the put options sold to the non-controlling equity interests of the fully consolidated companies. The liability is initially recognized at the present value of the put option's exercise price, which on subsequent reporting dates is adjusted according to changes in the value of the commitment.

For acquisitions where control was gained prior to January 1, 2010, the counterpart to this liability partly consists of a deduction from non-controlling interests, with the remainder being recorded under goodwill. Subsequently, the effect of accretion and change in value of the commitment are recognized through an adjustment to goodwill.

At the end of the commitment period, if the buyout is completed, the amount recognized in other current or non-current liabilities is offset by the cash outflow related to the buyout of the minority interest and the outstanding goodwill is reclassified as goodwill; if the buyout is not completed, the entries will be canceled.

In accordance with IFRS 3 (Revised) and IAS 27 (Amended), for acquisitions where control was gained after January 1, 2010, the counterpart of this liability is deducted from the related non-controlling interests for the carrying amount of the non-controlling equity interests in question, with any remainder being deducted from equity attributable to the owners of the parent. The value of the liability is

remeasured at each reporting date at the present value of the repayment, i.e. the present value of the put exercise price.

The Group recognizes all changes in the value of commitments to buyout non-controlling equity interests and the effect of accretion in the income statement under "Other non-current income and expenses" in accordance with IAS 32 and IFRS 9.

In accordance with IAS 27, the share of income or changes in equity attributable to the parent company and to non-controlling equity interests is determined on the basis of current ownership percentages and does not reflect potential additional interests that may arise as a result of such buy-out commitments.

18.1.2.2.1.3.9 Goodwill and business combinations

In accordance with IFRS 3 (Revised), business combinations are recognized under "Business combinations" using the purchase method from January 1, 2010. When a company is acquired, the buyer must recognize identifiable acquired assets, liabilities and contingent liabilities at their fair value on the acquisition date, if they satisfy the IFRS 3 (Revised) accounting criteria.

Goodwill corresponds to the sum of the consideration transferred and the non-controlling equity interests minus the net amount recognized for identifiable assets and liabilities assumed from the acquired entity on the acquisition date and is recognized as an asset under Goodwill. Goodwill from the acquisition of associates is included in the value of securities accounted for under the equity method. It chiefly comprises non-identifiable items such as know-how and industry expertise of staff. Negative goodwill is immediately recorded in profit or loss.

Goodwill is allocated to Cash-Generating Units (CGUs) for the purposes of impairment tests. Goodwill is allocated to the CGUs liable to benefit from the synergies created by business combinations and representing for the Group the lowest level at which goodwill is measured for internal management purposes.

A CGU is defined as the smallest identifiable group of assets that generates cash and cash equivalents largely independent of cash and cash equivalents generated by other assets or groups of assets. The CGUs correspond to the geographical areas in which the Group conducts its business.

Goodwill is recognized in the functional currency of the acquired entity.

Acquisition costs are immediately charged against income when they are incurred.

For each acquisition, the Group can choose to use the "full goodwill method", i.e. where the fair value of all non-controlling equity interests at the acquisition date are included in the goodwill calculation and not only their share in the fair value of the assets and liabilities of the acquired entity.

Goodwill is not depreciated and is instead tested for impairment at least once a year by means of a comparison of the carrying amounts and the recoverable amount at the reporting date, on the basis of projected cash flows based on business plans covering a period of four years. The frequency of testing may be shorter if events or circumstances indicate that goodwill may be impaired. Such events or circumstances include but are not restricted to:

- A significant difference in the economic performance of the asset compared with the budget;
- Significant deterioration in the asset's economic environment;
- The loss of a major client;
- A significant increase in interest rates.

Details of impairment tests can be found in Note 18.1.2.2.4.1 on impairment. In the event of impairment, the impairment loss taken to the income statement is irreversible.

Contingent consideration is measured at its acquisition-date fair value and is subsequently adjusted through goodwill only when additional information is obtained after the acquisition date about facts and circumstances that existed at that date. Such adjustments are made only during the 12-month measurement period that follows the acquisition date; all other subsequent adjustments not meeting these criteria are recorded as a receivable or payable through Group profit or loss.

Concerning acquisitions carried out before January 1, 2010 and in respect of which the old version of IFRS 3 continues to apply, all changes in liabilities relating to earn-out clauses remain recorded with a balancing entry under goodwill with no impact on Group profit or loss.

IFRS 10 changed the accounting treatment of transactions concerning non-controlling equity interests, for which changes are now recorded in equity if no change in control occurs. In particular, when making a further acquisition of shares of an entity already controlled by the Group, the difference between the acquisition price of the securities and the additional share of the consolidated equity acquired is recorded in equity attributable to the owners of the parent. The consolidated value of the identifiable assets and liabilities of the entity (including goodwill) remains unchanged.

18.1.2.2.1.3.10 Other intangible assets

Separately acquired intangible assets are stated on the balance sheet at acquisition cost less accumulated amortization and any impairment losses.

Intangible assets acquired as part of a business combination are recognized at fair value on the date of acquisition, separately from goodwill, where they meet one of the following two conditions:

- they are identifiable, i.e. they arise from contractual or other legal rights;
- they are separable from the acquired entity.

Intangible assets mainly comprise brands, contractual relationships with clients, software, development costs and panels.

18.1.2.2.1.3.11 Brands and contractual relationships with clients

No value is assigned to brands acquired as part of business combinations, which are regarded as names with no intrinsic value, unless the brand has a sufficient reputation to enable the Group to maintain a leadership position in a market and to generate profits for a lengthy period.

Brands recognized as such in connection with business combinations are regarded as having an indefinite life and are not depreciated. They are tested for impairment on an annual basis, which consists of comparing their recoverable amount with their carrying amount. Impairment losses are recognized in the income statement.

In accordance with IFRS 3 (Revised), contractual relationships with clients are accounted for separately from goodwill arising from a business combination where the business acquired has a regular flow of business with identified clients. Contractual relationships with clients are measured using the excess net profit method, which has regard to the present value of future cash flows generated by the clients. The parameters used are consistent with those used to measure goodwill.

Contractual relationships with clients with a determinable life are depreciated over their useful life, which has usually been assessed at between 13 and 17 years. They are tested for impairment whenever there are indications of impairment.

18.1.2.2.1.3.12 Software and development costs

Research costs are recognized as expenses when they are incurred. Development costs incurred on an individual project are capitalized when the project's feasibility and profitability can reasonably be regarded as assured.

In accordance with IAS 38, development costs are capitalized as intangible assets when the Group can demonstrate that:

- its intention to complete the asset and its ability to use or sell it;
- its financial and technical ability to complete the development project;

- the availability of resources with which to complete the project;
- that it is probable that the future economic benefits associated with the development expenditure will flow to the Group;
- and that the cost of the asset can be reliably measured.

Capitalized software includes software for internal use, as well as software for commercial use, measured at acquisition cost (external purchase) or at production cost (internal development).

These intangible assets are depreciated on a straight-line basis over periods corresponding to their expected useful lives, i.e.:

- for software: 3 to 5 years;
- for development costs: varies according to the economic life of each specific development project.

18.1.2.2.1.3.13 Panels

The Group applies specific rules to panels: they relate to representative samples of individuals or professionals regularly surveyed on the same variables and that are classified by the Group based on their nature:

- Online panel: panel mainly surveyed via computer;
- Offline panel: panel mainly surveyed by post or telephone.

The costs arising from the creation and improvement of offline panels are capitalized and depreciated over the estimated time spent by panelists on the panels, i.e. three years.

The Group capitalizes recruitment costs for all its online panels and then writes them down according to the expected rate of response to surveys. This rate has been determined by geographical area (Europe, North America, Asia-Pacific, Latin America and MENA) based on historical data in order to fully amortize the costs over 5 years.

Subsequent maintenance expenditure required on other panels is expensed, owing to the specific nature of these intangible assets and the difficulty of distinguishing expenses incurred to maintain or develop the Company's intrinsic business activities.

18.1.2.2.1.3.14 Property, plant and equipment

Property, plant and equipment are stated on the balance sheet at purchase or cost price, less depreciation and any identified impairment loss.

Property, plant and equipment comprise fixtures and fittings, office and computer equipment, office furniture and vehicles.

Depreciation is calculated on a straight-line basis over the estimated useful life of the assets:

- fixtures and fittings: the shorter of the lease term and useful life (10 years);
- office and computer equipment: the useful life (3 to 5 years);
- office furniture: the useful life (9 to 10 years);

The useful lives and residual values of property, plant and equipment are reviewed annually. Where applicable, the impact of changes in useful life or residual value are recognized prospectively as a change in accounting estimate.

Depreciation of property, plant and equipment is recognized in the various functional lines of the income statement.

In line with IFRS 16, some assets are connected with leases where Ipsos is the lessee. The procedures for applying this standard are described in Note 18.1.2.2.1.3.33 Right-of-use assets and lease liabilities.

18.1.2.2.1.3.15 Borrowing costs

Borrowing costs are expensed in the period in which they are incurred and are stated on the income statement under "finance costs".

18.1.2.2.1.3.16 Impairment of fixed assets

In accordance with IAS 36 "Impairment of Assets", impairment tests are carried out on property, plant and equipment and intangible assets whenever there are indications that an asset may be impaired and at least once per year.

When the net value of these assets exceeds their recoverable amount, an impairment loss is recognized for the amount of the difference. The impairment, allocated as a priority to goodwill where applicable, is recognized under a specific line item in the income statement. Impairment, first charged to goodwill, is recognized on a separate income statement line. Impairment of goodwill cannot subsequently be reversed.

Impairment tests are applied to the smallest group of cash-generating units to which the assets can be reasonably allocated. For impairment testing purposes, goodwill is allocated to the following cash generating units or groups of cash generating units: Continental Europe, United Kingdom, Central and Eastern Europe, Russia, North America, Latin America, Asia-Pacific, Middle East and Sub-Saharan Africa.

The recoverable amount is the higher of the asset's fair value less selling costs and its value in use:

Fair value is the amount that may be obtained by selling an asset through an arm's length transaction and is determined with reference to a price resulting from an irrevocable agreement to sell, or if this is not possible, with reference to prices observed in recent market transactions;

The value in use is based on the present value of future cash flows generated by the assets concerned. Estimates are derived from forecast data used for budgets and plans drawn up by Group management. The discount rate applied reflects the rate of return required by investors and the risk premium specific to the Group's business and the relevant country or region. The perpetual growth rate applied depends on the geographical segment.

The CGUs used for impairment testing are not larger than those used according to IFRS 8 "Operating Segments".

18.1.2.2.1.3.17 Other non-current financial assets

IFRS 9 provides for a single approach to the classification and measurement of financial assets, based on the characteristics of the financial instrument and the Group's management intent.

Thus:

- Financial assets whose cash flows represent solely the payment of principal and interest are measured at amortized cost if they are managed for the sole purpose of collecting these flows;
- In all other cases, financial assets are measured at fair value through profit or loss, with the exception of equity instruments (equity securities, etc.) which are not held for trading and for which changes in value optionally affect "other comprehensive income".

These principles are reflected in the assets presented in the Group's balance sheet as follows:

- Investments in non-consolidated entities are initially recognized at fair value, corresponding to the acquisition price. Thereafter, they continue to be measured at fair value which, in the absence of a quoted market price in an active market, approximates value in use taking into account the Group's share of equity and the probable recovery value. Changes in the value of each asset are irrevocably classified either in the income statement or in other comprehensive income, with no possibility of recycling to the income statement in the event of disposal.
- Financial receivables and loans are carried at amortized cost. They are subject to impairment if there is an expected loss or objective indication of impairment. This impairment, recorded under "Other net financial income and expenses", may subsequently be reversed through the income statement if the conditions justify it.
- Term deposits and guarantees that Ipsos intends to hold to maturity are recorded at amortized cost.
- Cash and cash equivalents include cash on hand, bank accounts and cash equivalents (short-term, liquid investments that are readily convertible to a known amount of cash and subject to an insignificant risk of change in value).

18.1.2.2.1.3.18 Own shares

Ipsos SA shares owned by the Group, spot and forward, are deducted from consolidated equity, at their acquisition cost. In the event of sale, the proceeds of the sale are charged directly to equity for their amount net of tax, such that any capital gains or losses resulting from the sale do not affect the profit for the financial year. Sales of own shares are accounted for using the weighted average cost method.

18.1.2.2.1.3.19 Distinction between current and non-current items

In accordance with IAS 1 "Presentation of Financial Statements", a distinction must be drawn between current and non-current items of an IFRS compliant balance sheet. Assets expected to be realized and liabilities due to be settled within 12 months from the reporting date are classified as current, including the short-term portion of long-term borrowings.

Other assets and liabilities are classified as non-current. All deferred tax assets and liabilities are presented on separate balance sheet asset and liability lines under non-current items.

18.1.2.2.1.3.20 Trade receivables and related accounts

Receivables are carried at their fair value. A provision for impairment is recorded when there is an objective indication of the Group's inability to recover all the sums owed, after analysis within the framework of the receivables recovery process. Major financial difficulties encountered by the debtor, the known likelihood of insolvency or financial restructuring and a bankruptcy or payment default represent indications of impairment of a receivable. Impairment is recognized in the income statement under

"Other operating income and expenses". "Trade receivables and related accounts" also comprises surveys in progress valued at their recoverable amount based on the percentage-of-completion method.

18.1.2.2.1.3.21 Financial instruments

Financial liabilities are classified as measured at amortized cost or at fair value (FV) through profit or loss. A financial liability is classified as a financial liability at fair value through profit or loss if classified as held for trading, whether it is a derivative or designated as such upon initial recognition. Financial liabilities at fair value through profit or loss are measured at fair value and the resulting net gain and losses, including interest expenses, are recognized in profit or loss. Other financial liabilities are measured at amortized cost using the effective interest rate method. Interest expenses and foreign exchange gains and losses are recognized in profit or loss. Any profit or loss upon de-recognition is recognized in profit or loss.

Assets and liabilities are recognized in the balance sheet when, and only when, the Group becomes a party to the contractual provisions of the instrument.

Borrowings

Borrowings and other financial liabilities are measured at amortized cost using the effective interest rate of the loan. Issue premiums, redemption premiums and issuance costs are taken into account in the calculation of the effective interest rate and are therefore recognized in the income statement on an actuarial basis over the life of the loan.

Derivatives

Derivatives are recognized on the balance sheet at their market value on the reporting date. Where quoted prices on an active market are available, as for example with futures and options traded on organized markets, the market value used is the quoted price. Over-the-counter derivatives traded on active markets are measured with reference to commonly used models and to the market prices of similar instruments or underlying assets. Instruments traded on inactive markets are measured using commonly used models and with reference to directly observable parameters; this value is confirmed in the case of complex instruments by the prices of third-party financial instruments. Derivatives with a maturity of over 12 months are recognized as non-current assets and liabilities. Fair value variations of non-hedging instruments are recognized through profit or loss.

Cash and cash equivalents

"Cash and cash equivalents" includes cash in hand, bank balances and short-term investments in monetary instruments. These investments can be realized at any time at their face value, and the risk of a change in value is negligible and representative of money market trends. Cash equivalents are stated at their market value at the reporting date. Changes in value are recorded under "Financial income and expenses".

18.1.2.2.1.3.22 Provisions

In accordance with IAS 37 "Provisions, Contingent Liabilities and Contingent Assets", provisions are recognized when, at a reporting date, the Group has a present obligation as a result of a past event, when it is probable that an outflow of resources will be required to settle the obligation and when a reliable estimate can be made of the amount of the obligation.

This obligation may be legal, regulatory or contractual.

These provisions are measured according to their type, taking into account the most likely assumptions. Where the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax discount rate that reflects the market's current assessment of the time value of money. Where the provision is discounted, the increase in the provision linked to the passage of time is recognized under financial costs.

The long-term portions of provisions are recognized under non-current liabilities, with their short-term portion recognized under current liabilities.

If no reliable estimate of the amount of the obligation can be made, no provision is recognized, and information is provided in the notes.

18.1.2.2.1.3.23 Employee benefits

The Group provides employees with post-employment benefit plans according to applicable regulations and practices in its countries of operation.

The benefits provided by these plans fall into two categories: defined-contribution and defined-benefit.

For defined-contribution plans, the Group's sole obligation is the payment of premiums to outside bodies: the expense for such premiums paid is recognized in profit for the financial year under "Payroll costs", with no liability recognized on the balance sheet, the Group having no liability beyond the contributions paid.

For defined-benefit plans, the Group estimates its obligations using the projected unit credit method, in accordance with IAS 19 Employee Benefits. This method uses actuarial techniques that look at the employee's expected length of service assuming the employee remains with the Group until retirement, along with future compensation, life expectancy and staff turnover. The present value of this liability is determined using the appropriate discount rate for each of the relevant countries.

Changes in actuarial gains and losses are systematically recorded under other comprehensive income, and past service cost is fully recognized in income for the period. Interest income on financial assets is estimated at the discount rate.

18.1.2.2.1.3.24 Share-based payments

Ipsos has a policy of giving all its employees a share in the Company's success and in the creation of shareholder value through stock option and free share plans.

In accordance with IFRS 2 "Share-based Payment", services received from employees that are compensated through stock option plans are recognized under payroll costs, with a balancing entry consisting of an increase in equity, over the vesting period. The expense recognized in each period corresponds to the fair value of goods and services received, measured using the Black & Scholes formula on the grant date.

For free share plans, the fair value of the benefit granted is measured on the basis of the share price on the award date, adjusted for all specific conditions that may affect fair value (e.g. dividends).

18.1.2.2.1.3.25 Deferred tax

Deferred taxes are recognized using the liability method, for all temporary differences existing on the reporting date between the tax base of assets and liabilities and their carrying amount.

Deferred tax liabilities are generally recognized for all taxable temporary differences, except where the deferred tax liability results from the initial recognition of an asset or liability as part of a transaction that is not a business combination and which, on the transaction date, does not affect accounting profits or taxable profits or losses.

Deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that a taxable profit will be generated against which these temporary differences could be charged.

The carrying amount of deferred tax assets is reviewed at each reporting date and increased or reduced as appropriate to reflect changes in the likelihood that a taxable profit will be generated against which the deferred tax asset can be charged. To assess the likelihood that a taxable profit will become available, the following factors are taken into account: profits in previous financial years, forecasts of future profits, non-recurring items that are unlikely to arise again in the future and tax planning strategy. As a result, a substantial amount of judgment is involved in assessing the Group's ability to utilize its tax loss carryforwards. If future profits were substantially different from those expected, the Group would have to increase or decrease the carrying amount of its deferred tax assets, which could have a material impact on the balance sheet and profit of the Group.

Deferred tax assets and liabilities are set off against each other where there is a legally enforceable right to offset tax assets and liabilities, and these deferred taxes relate to the same taxable entity and the same tax authority. Deferred tax assets and liabilities are not discounted.

Tax savings resulting from the tax-deductible status of goodwill in certain countries (notably in the United States) generate temporary differences that give rise to the recognition of deferred tax liabilities.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the financial year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the reporting date.

Deferred taxation is debited from or credited to the income statement except where it relates to items taken directly to other comprehensive income or equity.

18.1.2.2.1.3.26 Revenue recognition

Revenue is recognized using the percentage-of-completion method. Generally speaking, the percentage of completion is determined on a straight-line basis over the period between the date on which client agrees to a project and the date on which the survey findings are presented.

Revenue is measured at the fair value of the consideration received or receivable taking into account the amount of any discounts and rebates granted by the company.

We use the generic term study to define the services we provide for our clients. A study is a contract within the meaning of IFRS 15 the average terms of which are indicated below. It should be noted that we typically have long-term relationships with our main clients, such relationships being governed by framework agreements that manage our relationships across many years.

The contracts (which may well cover many studies) may be short-term (shorter than one month) or much longer (often one year), or even multi-year (often 3-4 years and more rarely 5-7 years).

There is no difference in the revenue recognition rule for short and long studies, or between studies by Service Line.

The rhythm of recognition of gross margin and revenue are identical.

18.1.2.2.1.3.27 Definition of gross margin

Gross margin is defined as revenue less direct costs, i.e. external variable costs incurred during the data collection phase, including goods and services delivered by third-party providers, compensation of temporary staff paid on an hourly or per task basis, and subcontractors for field work.

For studies in progress, gross margin is recognized using the percentage-of-completion method, on the basis of the estimated income and costs upon completion.

18.1.2.2.1.3.28 Definition of operating margin

Operating margin reflects profit generated from ordinary operations. It consists of gross margin less administrative and commercial expenses, post-employment benefit costs and share-based payment costs.

Amortization of intangible assets is included in operating expenses and features under "General operating expenses" in the income statement, except for amortization of intangible assets identified on acquisitions (notably client relationships).

18.1.2.2.1.3.29 Definition of other non-current income and expenses

Other non-current income and expenses include components of profit that because of their nature, amount or frequency cannot be considered as being part of the Group's operating margin, such as non-current restructuring costs and other non-current income and expenses, representing major events, which are very few in number and unusual.

18.1.2.2.1.3.30 Definition of finance costs

Finance costs include interest on borrowings, changes in the fair value of interest-rate financial instruments and income from ordinary cash management. Interest expenses are recognized according to the effective interest method, under which interest and transaction costs are spread over the borrowing term.

18.1.2.2.1.3.31 Definition of other financial income and expenses

Other financial income and expenses include financial income and expenses, except for finance costs on the Group's debt.

18.1.2.2.1.3.32 Earnings per share

The Group reports basic net earnings per share, diluted net earnings per share and adjusted net earnings per share.

Basic net earnings per share is calculated by dividing the net income attributable to the owners of the parent by the weighted average number of shares outstanding during the period, minus the Ipsos treasury shares stated as a reduction in consolidated equity.

The number of shares used to calculate diluted net earnings per share is the number used to calculate basic net income per share plus the number of shares that would result from the exercise of all existing options to subscribe for new shares during the financial year.

Diluted net earnings per share is calculated using the treasury stock method, taking into account the share price at each reporting date. Owing to the price applied, anti-dilutive instruments are excluded from this calculation. The total issue price of potential shares includes the fair value of the services to be provided to the Group in the future within the framework of stock option or free share award plans. When basic net earnings per share is negative, diluted net earnings per share is equal to basic net earnings per share.

Adjusted earnings are calculated before non-cash items related to IFRS 2 (Share-based Payment), before amortization of intangible assets identified on acquisitions (client relationships), before deferred tax liabilities related to goodwill for which amortization is deductible in some countries, before the net impact of tax and of other non-current income and expenses (i.e. unusual and specifically earmarked) and the non-cash impact of changes in puts in other financial income and expenses.

18.1.2.2.1.3.33 Right-of-use assets and lease liabilities

Pursuant to IFRS 16, all leases are recognized under assets as right-of-use assets and under liabilities as a liability corresponding to the present value of future payments. The lease term is defined lease by lease and represents the minimum period including optional periods that are reasonably likely to be exercised. The Group has opted to present right-of-use assets separately from other assets. Similarly, the Group has opted to present lease liabilities separately from other liabilities.

In accordance with IFRS 16, the Group has taken into account the following factors in determining the end date of its leases: (i) the existence of renewal options and (ii) medium-term projections of business trends.

18.1.2.2.1.3.34 Assets/liabilities classified as held for sale, discontinued operations

IFRS 5 "Non-current Assets Held for Sale and Discontinued Operations" specifies the accounting treatment applicable to assets held for sale, the presentation and disclosures on discontinued operations.

In particular, it requires assets held for sale to be presented separately in the consolidated statement of financial position at the lower of their carrying amount and their fair value less costs to sell, provided that the criteria set out in the standard are met.

When the Group is engaged in a sale process involving the loss of control of a subsidiary, all assets and liabilities of that subsidiary are classified as held for sale when the criteria of the standard are met, regardless of whether or not the Group retains a residual interest in the entity sold after the sale.

In addition, it requires that the results of discontinued operations (not continued) be presented separately in the consolidated income statement, retrospectively over all the periods presented. A discontinued operation is a component of an entity that the entity has divested or that is classified as held for sale and:

- which represents a major and distinct line of business or geographical region;
- is part of a single coordinated plan to dispose of a separate business line or geographic region;
- or is a subsidiary acquired exclusively for the purpose of sale.

The items presented under IFRS 5 correspond to the Russian subsidiary, for which an exit was approved by the Board of Directors before December 31, 2025 and which is expected to be finalized in the first half of 2026. Furthermore, as our activities in Russia represent around 2% of the Group's revenue, we do not consider this activity to be a separate and main line of business. We therefore isolate the flows of this subsidiary under the balance sheet but do not restate the income statement and the cash flow statement.

18.1.2.2.2 Changes in the consolidation scope

18.1.2.2.2.1 Transactions carried out in FY 2025

The main changes in scope in FY 2025 are summarized in the table below:

Name of the relevant entity	Type of transaction	Change in % of voting rights	Change in % stake	Date of entry / exit from the scope	Country
Infas Holding AG	Acquisition	100%	97%	Q1 2025	Germany
Whereto Research	Acquisition	100%	100%	Q1 2025	Australia
IPEC - Inteligencia e consultoria em pesquisa Ltda	Acquisition	100%	100%	Q1 2025	Brazil
BVA - Xpage Group	Acquisition	100%	100%	Q2 2025	World

18.1.2.2.2.1.1 Infas Holding AG

On January 3, 2025, Ipsos acquired Infas Holding AG, a major player in market, opinion, and social research in Germany.

The acquisition price is €61.2 million and final full goodwill of €54.7 million was recognized in the financial statements at end-December 2025. An intangible asset of €9.7 million was recognized in respect of customer relations and is being depreciated over 15 years.

18.1.2.2.2.1.2 Whereto Research

On January 30, 2025, Ipsos acquired Whereto Research, a key player in public sector research in Australia recognized for its expertise in public policy and the evaluation of government communication.

The acquisition price is €9.3 million and final goodwill of €6.5 million was recognized in the financial statements at end-December 2025. An intangible asset of €2.4 million was recognized in respect of customer relations and is being depreciated over 15 years.

18.1.2.2.2.1.3 IPEC - Inteligencia e consultoria em pesquisa Ltda

On February 25, 2025, Ipsos acquired IPEC, a major player in public and political opinion research in Brazil.

The provisional acquisition price is €6.9 million and provisional goodwill of €6.7 million was recognized in the financial statements at end-December 2025.

18.1.2.2.2.1.4 BVA Xpage Group

On June 24, 2025, Ipsos acquired The BVA Family, which represents a significant expansion for Ipsos in France and also strengthens its position in the UK and Italy. BVA brings its recognized expertise in customer experience monitoring, point-of-sale behavior analysis, and research for government and public services. Its expertise in pack testing is a key strength that can now be rolled out across a much larger geographic footprint by Ipsos.

The provisional acquisition price is €107 million and provisional goodwill of €130.9 million was recognized in the financial statements at end-December 2025. The purchase price allocation will be carried out in the first half of 2026.

18.1.2.2.2.2 Transactions carried out in FY 2024

The main changes in scope in FY 2024 are summarized in the table below:

Name of the relevant entity	Type of transaction	Change in % of voting rights	Change in % stake	Date of entry / exit from the scope	Country
I&O	Acquisition	100%	100%	Q1 2024	Netherlands
Jarmany	Acquisition	100%	100%	Q1 2024	UK
Datasmoothie	Acquisition	100%	100%	Q2 2024	UK

18.1.2.2.2.1 I&O Research

On January 8, 2024, Ipsos acquired I&O Research, the largest public sector research company in the Netherlands.

The acquisition price is €14.9 million and final goodwill of €12.7 million was recognized in the financial statements at end-December 2024.

18.1.2.2.2.2 Jarmany

On January 15, 2024, Ipsos acquired Jarmany, a company recognized in the United Kingdom for its expertise in data analysis and strategy.

The acquisition price is €28 million and final goodwill of €23.2 million was recognized in the financial statements at end-December 2024.

18.1.2.2.2.3 Datasmoothie

On 21 June 2024, Ipsos acquired Datasmoothie, a UK-based company developing an automated cloud platform that simplifies and accelerates data compilation and processing. Its modular system allows large-scale projects to be managed.

The acquisition price is €2.2 million and final goodwill of €2 million was recognized in the financial statements at end-June 2025.

Segment reporting

18.1.2.2.2.3 Segment reporting as at December 31, 2025

In thousands of Euros	Europe, Middle East, Africa	Americas	Asia Pacific	Other ⁽³⁾	Total
Revenue ⁽¹⁾	1,304,262	907,274	429,238	(116,059)	2,524,714
Of which sales to external clients	1,245,248	887,247	392,219	-	2,524,714
Of which inter-segment sales	59,014	20,027	37,019	(116,059)	-
Operating margin	128,329	147,024	36,637	(2,688)	309,302
Depreciation and amortization	(55,958)	(28,568)	(16,734)	(12)	(101,273)
Segment assets ⁽²⁾	1,311,528	977,622	368,056	(4,879)	2,652,327
Segment liabilities	531,395	167,973	154,410	25,234	879,012
Tangible and intangible investments of the period	46,325	31,114	5,332	316	83,088

(1) France and the United Kingdom account for 13.3% and 31.3% of the Europe, Middle East, and Africa region, respectively. The United States accounts for 79.1% of the Americas region.

(2) Segment assets consist of property, plant and equipment, and intangible assets (including goodwill), trade and other receivables. France and the United Kingdom account for 18.5% and 42.5% of the Europe, Middle East, and Africa region, respectively. The United States accounts for 77.9% of the Americas region.

Intercompany elimination and others

18.1.2.2.3.5 Current and deferred taxes

In France, Ipsos SA elected for tax consolidation through membership of a group for a period of five financial years from October 30, 1997, which has since been renewed. This tax group encompasses the following companies: Ipsos SA (tax group parent), Ipsos (France), Ipsos Observer, Popcorn Media, Espaces TV Communication and Synthesio SAS. The profits of all the companies in this tax group are taxed together in terms of corporate income tax.

In addition, outside of France, the Group applies optional national tax consolidation schemes in Germany, Australia, Spain, the United States and the United Kingdom.

18.1.2.2.3.5.1 Current and deferred tax expenses

In thousands of Euros	12/31/2025	12/31/2024
Current tax	(53,509)	(82,479)
Deferred tax	(12,750)	8,766
Income tax	(66,259)	(73,713)

18.1.2.2.3.5.2 Changes in balance sheet items

In thousands of Euros	01/01/2025	Income statement	Settlements	Conversion, changes in scope and other changes	12/31/2025
Current tax	-	-	-	-	-
Assets	9,038	7,962	-	196	17,196

Total	(47,900)	(12,730)	-	19,634	(40,996)

18.1.2.2.3.5.3 Reconciliation of statutory tax rate in France to the Group's effective tax rate

The basic corporate income tax rate in France is 25.00%. The Social Security Financing Act no. 99-1140 of December 29, 1999 introduced a social solidarity contribution of 3.3% of the basic tax owed when this exceeds €763,000. For French companies the effective tax rate may be increased to 25.83%.

The reconciliation of the statutory tax rate in France to the effective tax rate is as follows:

In thousands of Euros	12/31/2025	12/31/2024
Income before tax	254,645	283,305
Less the share of income of associates	385	2,187
Income before tax of consolidated companies	255,029	285,492
Statutory tax rate applicable to French companies	25.00 %	25.00 %
Theoretical tax expense	(63,757)	(71,373)
Impact of different tax rates and special contributions	(679)	6,856
Permanent differences	(8,615)	(9,317)
Utilization / capitalization of tax losses not previously capitalized	549	1,370
Impact of tax losses for the financial year not capitalized	(406)	(247)
Others	6,649	(1,004)
Total tax recognized	(66,258)	(73,713)
Effective tax rate	26.0 %	26.0 %

18.1.2.2.3.5.4 Breakdown of net balance of deferred tax

In thousands of Euros	12/31/2025	12/31/2024
Deferred tax on:	-	-

Capitalization of IT Research and Development costs	(16,037)	(15,197)
Revenue recognition method	(2,472)	304
Provisions	610	998
Fair value of derivatives	(565)	-
Deferred rent payments	1,187	1,579
Tax deductible goodwill	(58,991)	(64,065)
Non-current assets (including client relationships)	(13,572)	(9,306)
Post-employment benefit provisions	6,674	5,404
Accrued staff costs	11,938	17,739
Tax loss carryforwards recognized ⁽¹⁾	28,473	10,672
Translation differences	(274)	(438)
Non-current financial assets	-	-
Acquisition costs	-	-
Other items	2,034	4,411
Net balance of deferred tax assets and liabilities	(40,995)	(47,899)
Deferred tax assets	38,306	26,835
Deferred tax liabilities	(79,301)	(74,735)
Net balance of deferred tax	(40,995)	(47,899)

(1) The deferred tax assets recognized on tax loss carryforwards will be used within a period of one to five years.

As at December 31, deferred tax assets not recognized on tax loss carryforwards break down as follows:

In thousands of Euros	12/31/2025	12/31/2024
Losses carried forward between one and five years	348	52
Losses carried forward more than five years	81	143
Losses carried forward indefinitely	18,036	10,175
Tax assets not recognized on tax loss carryforwards	18,465	10,370

18.1.2.2.3.6 Adjusted net income

In thousands of Euros	12/31/2025	12/31/2024
Revenue	2,524,714	2,440,780
Direct costs	(813,723)	(763,104)
Gross margin	1,710,992	1,677,676

Payroll costs - excluding share-based payment	(1,108,056)	(1,082,039)
Payroll costs - share-based payments *	(21,592)	(20,706)
General operating expenses	(255,071)	(235,236)
Other operating income and expenses	(16,972)	(20,178)
Operating margin	309,300	319,517
Amortization of intangible assets identified on acquisitions *	(6,565)	(6,318)
Other non-current income and expenses *	(24,107)	(16,225)
Share of net income from associates	(385)	(2,187)
Operating income	278,243	294,787
Finance costs	(12,451)	(9,076)
Other financial income and expenses *	(11,147)	(2,406)
Net income before tax	254,645	283,305
Tax - excluding deferred tax on goodwill amortization	(64,534)	(72,716)
Deferred tax on goodwill amortization*	(1,725)	(997)
Income tax	(66,259)	(73,713)
Net income	188,386	209,592
Attributable to the owners of the parent	186,551	204,525
Attributable to non-controlling equity interests	1,835	5,067
Basic net income per share attributable to the owners of the parent (in Euros)	4.33	4.75
Diluted net income per share attributable to the owners of the parent (in Euros)	4.27	4.66
Adjusted net income*	242,026	250,209
Attributable to the owners of the parent	240,381	244,063
Attributable to non-controlling equity interests	1,645	6,148
Adjusted net income attributable to the owners of the parent	5.58	5.67
Adjusted diluted net income attributable to the owners of the parent	5.50	5.56

*Adjusted net income is calculated before non-cash items related to IFRS 2 (Share-based Payment), before amortization of intangible assets identified on acquisitions (client relationships), before deferred tax liabilities related to goodwill for which amortization is deductible in some countries, before the net impact of tax of other non-current income and expenses and the non-cash impact of changes in puts in other financial income and expenses.

18.1.2.2.3.7 Net income per share

18.1.2.2.3.7.1 Net income per share

Two types of net earnings per share are presented in the income statement: basic net income and diluted net income. The number of shares used in the calculations is determined as follows:

Weighted average number of shares	12/31/2025	12/31/2024
Balance at the beginning of the financial year	43,203,225	43,203,225
Capital reduction related to the share buyback program	-	-
Buyback of shares subject to cancellation	-	-
Capital increase/reduction related to the exercise of options	-	-
Exercise of options	-	-
Own shares	(139,515)	(122,497)
Number of shares used to calculate basic earnings per share	43,063,710	43,080,728
Number of additional shares potentially resulting from dilutive instruments	655,197	806,969
Number of shares used to calculate diluted earnings per share	43,718,906	43,887,697
Earnings attributable to the owners of the parent (in thousands of Euros)	186,551	204,525
Basic net income per share attributable to the owners of the parent (in Euros)	4.33	4.75
Diluted net income per share attributable to the owners of the parent (in Euros)	4.27	4.66

18.1.2.2.3.7.2 Adjusted net income per share

Weighted average number of shares	12/31/2025	12/31/2024
Adjusted net income attributable to owners of the parent	-	-
Net income attributable to the owners of the parent	186,551	204,525
Items excluded:	-	-
- Payroll costs - share-based payments	21,592	20,706
- Amortization of intangible assets identified on acquisitions	6,565	6,318
- Other non-current income and expenses	24,107	16,225
Cancellation of capital gains on disposals of securities	-	-
- Non-cash impact of changes in puts	2,934	2,898
- Deferred tax on goodwill amortization	1,725	997
- Income tax on excluded items	(3,283)	(3,027)
- Non-controlling interests on excluded items	190	(1,080)
Adjusted net income attributable to owners of the parent	240,381	244,062
Average number of shares	43,063,710	43,080,728
Average number of diluted shares	43,718,906	43,887,697
Adjusted basic net income per share attributable to the owners of the parent (in Euros)	5.58	5.67
Adjusted diluted net income per share attributable to the owners of the parent (in Euros)	5.50	5.56

18.1.2.2.3.8 Dividends paid out and proposed

It is the Company's policy to pay dividends in respect of a financial year in full in July of the following year. The amounts per share paid and proposed are as follows:

In respect of the financial year	Net dividend per share (in Euros)
2025 ⁽¹⁾	2.00
2024	1.85
2023	1.65

(1) Total dividend payment of €86.3 million (after elimination of dividends linked to treasury shares as at December 31, 2025) to be proposed to the Annual General Meeting on May 20, 2026. The dividend will be paid on July 3, 2026.

18.1.2.2.4 Notes to the statement of financial position

18.1.2.2.4.1 Goodwill

18.1.2.2.4.1.1 Goodwill impairment tests

Goodwill is allocated to cash generating units (CGUs) representing the following nine regions or sub-regions: Continental Europe, United Kingdom, Central and Eastern Europe, Russia, North America, Latin America, Asia-Pacific, Middle East and Sub-Saharan Africa; as explained in Note 18.1.2.1.3.9 as recommended by IFRS 8.

The value in use of the CGUs is determined using a number of methods, among them the DCF (discounted cash flow) method using:

- The five-year post-tax cash flow projections, calculated on the basis of the business plans of these CGUs over the 2026-2030 period excluding acquisitions and restructuring. These business plans are based, for 2026, on the budgetary data approved by the Board of Directors.
- After these five years, the terminal value of cash flows is obtained by applying a long-term growth rate to the end of period normative flow. This is estimated for each geographical area. The latter may not exceed the average long-term growth rate of the Group's business sector.
- Future cash flows are discounted using weighted average cost of capital (WACC) after tax determined individually for each CGU.

As at December 31, 2025, on the basis of measurements carried out in-house using the DCF method, Ipsos' management concluded that the recoverable amount of goodwill allocated to each group of cash-generating units (excluding Russia) exceeded its carrying amount.

The principal assumptions used for the goodwill impairment tests conducted on each group of cash-generating units were as follows:

Cash-generating units	2025					2024			
	Gross amount of goodwill	Net value of goodwill	Average growth rate 2025 - 2029 (*)	Growth rate beyond 2029	Discount rate after tax	Gross amount of goodwill	Average growth rate 2024 - 2028 (*)	Perpetual growth rate beyond 2028	Discount rate after tax
Continental Europe	348,229	348,229	5%	2%	8%	189,789	4%	2%	9%
United Kingdom	256,428	256,428	3%	2%	8%	230,360	4%	2%	9%
Central and Eastern Europe	35,548	35,548	9%	2%	10%	43,780	13%	2%	11%
Middle East	14,901	14,901	6%	3%	11%	16,442	8%	3%	11%
Sub-Saharan Africa	14,782	14,782	8%	3%	14%	14,656	11%	3%	15%
Russia⁽¹⁾	28,097	–	–%	–%	–%	27,280	–%	–%	–%
EUROPE-AFRICA	669,889	669,889	6%	2%	10%	495,028	8%	2%	11%
Latin America	54,768	54,768	8%	3%	11%	48,608	8%	3%	11%
North America	580,843	580,843	3%	2%	8%	646,933	6%	2%	8%
AMERICAS	635,611	635,611	5%	3%	9%	695,541	7%	3%	10%
Asia-Pacific	204,626	204,626	3%	3%	9%	216,420	7%	3%	9%
ASIA	204,626	204,626	3%	3%	9%	216,420	7%	3%	9%
Subtotal	1,538,223	1,510,126	–%	–%	–%	1,434,269	–%	–%	–%

(*) This is the compound annual growth rate of revenue

(1) The associated goodwill of €28.1 million was fully impaired at end-December 2023 given the uncertainties surrounding the sustainability of our activities in Russia.

Sensitivity of DCF value in use of goodwill

The tests of the sensitivity of the CGUs to a reasonable change in growth rates considered as key assumptions in Group impairment tests, did not have a material impact on the test results as set out below:

In thousands	Value of goodwill tested	Test margin ⁽¹⁾	Discount rate (WACC) of cash flows + 0.5%	Perpetual growth rate - 0.5%	Terminal value recurring operating margin - 0.5%
Continental Europe	348,229	450,680	386,019	397,930	399,870
United Kingdom	256,428	291,609	248,625	256,812	260,858
Central and Eastern Europe	35,548	142,047	129,770	132,669	132,507
Middle East	14,901	105,316	97,079	98,978	100,375
Sub-Saharan Africa	14,782	6,055	4,697	5,089	4,483

ASIA	204,626	399,559	346,984	355,898	364,477

(1) Test margin = DCF value in use – net carrying amount

(2) Fully impaired goodwill

The declines in DCF values in use that would result from the above simulations would not on their own affect the amount at which the goodwill is carried in the balance sheet.

The above table shows all elements required for valuation based on other assumptions.

18.1.2.2.4.1.2 Movements in 2025

In thousands of Euros	01/01/2025	Increases	Decreases	Change in commitments to buy out non-controlling interests	Exchange rate differences	12/31/2025
Goodwill	1,406,990	198,790	-	-	(95,653)	1,510,126

The increase (excluding changes in minority buyout commitments) in goodwill in 2025 corresponds to the recognition of goodwill on the year's acquisitions (see note 18.1.2.2.2), as well as the foreign exchange effect.

18.1.2.2.4.2 Other intangible assets

18.1.2.2.4.8 Equity

18.1.2.2.4.8.1 Share capital

As at December 31, 2025, the share capital of Ipsos SA was €10,800,806 made up of 43,203,225 shares with a par value of €0.25 each. The number of shares in the share capital and own shareholdings changed as follows in FY 2025:

Number of shares (€0.25 par value)	Shares issued	Own shares	Shares outstanding
As at December 31, 2024	43,203,225	(124,099)	43,079,126
Capital increase (exercise of stock options)	-	-	-
Capital increase/reduction related to the share buyback program	-	-	-
Capital reduction (by cancellation of share buybacks)	-	-	-
Transfer (delivery of the free share plan)	-	375,571	375,571
Purchases / sales (excluding liquidity contract)	-	(300,000)	(300,000)
Changes under the liquidity contract	-	(3,721)	(3,721)
As at December 31, 2025	43,203,225	(52,249)	43,150,976

The Ipsos SA capital has a single class of ordinary shares with a par value of €0.25 each. Registered shares held for more than two years carry double voting rights.

Own shares held at the reporting date, including those held under the liquidity contract, are deducted from equity. These treasury shares held do not carry dividend rights.

Ipsos set up several stock plans, which are described below.

18.1.2.2.4.8.2 Stock plan

Free share plans

Each year, the Board of Directors of Ipsos SA has set up free share plans for French residents and French non-residents who are Ipsos Group employees and executive officers.

The free share plans still in force at the beginning of the financial year have the following characteristics:

Grant date	Type of shares	Number of people concerned	Number of shares initially awarded	Vesting date	Number of shares outstanding as at 01/01/2025	Granted during the financial year	Canceled during the financial year	Reclassified during the financial year	Delivered during the financial year	Number of shares outstanding as at 12/31/2025
17/05/2022	Ordinary shares	1,149	443,812	17/05/2025	390,336		(12,410)		(377,926)	-
Sub-Total 2022 Plan		1,149	443,812		390,336	-	(12,410)	-	(377,926)	-
16/05/2023	Ordinary shares	1,207	405,853	16/05/2026	372,618		(16,601)			356,017
Sub-Total 2023 Plan		1,207	405,853		372,618	-	(16,601)	-	-	356,017
30/04/2024	Ordinary shares	328	140,930	30/04/2027	139,932		(4,308)			135,624
14/05/2024	Ordinary shares	1,286	430,166	14/05/2027	424,606	8,200	(26,742)			406,064
Sub-Total 2024 Plan		1,614	571,096		564,538	8,200	(31,050)	-	-	541,688
21/5/2025 (1)	Ordinary shares	1,279	413,305	21/05/2028		413,305	(14,470)			398,835
15/09/2025	Ordinary shares	1	11,000	15/09/2028		11,000				11,000
17/12/2025	Ordinary shares	41	17,600	17/12/2028		17,600				17,600
Sub-Total 2025 Plan (2)		1,321	441,905			441,905	(14,470)	-	-	427,435
Total free share awards					1,327,492	450,105	(74,531)	-	(377,926)	1,325,140

(1) This total includes the 11,000 shares initially awarded to Ben Page on May 21, 2025, before being canceled during the past financial year. These 11,000 shares were then awarded on September 15, 2025 to Jean Laurent Poitou when he was appointed Chief Executive Officer.

(2) It should be noted that this total does not exceed the cap of 1% of the share capital that may be allocated (i.e., a maximum number of 432,032 shares) in accordance with the authorization granted by the 2023 General Meeting for the third year of validity of this authorization, since the 11,000 shares initially awarded to Ben Page were canceled and then awarded to Jean Laurent Poitou during the past financial year (in aggregate, therefore, and after factoring in this cancellation, 430,905 free shares were awarded during the 2025 financial year).

Analysis of share-based payment costs

In accordance with IFRS 2, to assess payroll costs deriving from bonus share awards, the following assumptions are used:

Date granted to beneficiaries by the Board of Directors	05/17/2022	05/16/2023	04/30/2024	05/14/2024	05/21/2025	09/15/2025	12/17/2025
Share price on grant date	44.35	47.90	65.00	65.00	44.30	37.38	33.34
Fair value of share	40.25	43.27	57.40	59.22	37.90	31.29	27.15
Risk-free interest rate	0.91%	2.93%	3.10%	3.10%	2.02%	2.23%	2.23%
Average dividends (3 years)	1.32	1.42	1.75	1.75	2.02	1.95	1.95

In FY 2025 and 2024, the expense recognized, in respect of stock option and free share award plans, was calculated as follows:

In thousands of Euros	12/31/2025	12/31/2024
Free share plan of March 31, 2021	-	384
Free share plan of May 28, 2021	-	1,480
Free share plan of May 17, 2022	1,749	5,191
Free share plan of May 16, 2023	5,058	5,005
Free share plan of April 30, 2024	2,457	1,648

Free share plan of May 14, 2024	7,623	4,676
Free share plan of May 21, 2025	2,763	-
Free share plan of September 15, 2025	34	-
Free share plan of December 17, 2025	5	-
Total (excluding contributions)	19,689	18,384
Employer contributions	1,903	2,259
Total (with contributions)	21,592	20,643

18.1.2.2.4.9 Borrowings

18.1.2.2.4.9.1 Net borrowings

Net borrowings, net of cash and cash equivalents, break down as follows:

In thousands of Euros	12/31/2025				12/31/2024			
	Total				Total			
	Total	less than 1 year	1 to 5 years	over 5 years	Total	less than 1 year	1 to 5 years	over 5 years
Bond issue ⁽¹⁾	397,832	-	397,832	-	299,623	299,623	-	-
Bank borrowings ⁽²⁾⁽³⁾	124,611	14,655	109,957	-	96,988	20,013	76,975	-
Financial derivatives - liabilities	-	-	-	-	-	-	-	-
Debt linked to finance leases	-	-	-	-	-	-	-	-
Other financial liabilities	6	6	-	-	-	-	-	-

Bank overdrafts	52	52	-	-	124	124	-	-
Borrowings and other financial liabilities (a)	536,798	29,009	507,789	-	399,711	322,735	76,975	-
Financial derivatives - assets (b)	-	-	-	-	-	-	-	-
Short-term investments in money-market instruments	29,526	29,526	-	-	40,718	40,718	-	-
Cash and cash equivalents	288,084	288,084	-	-	301,831	301,831	-	-
Cash and cash equivalents (c)	317,561	317,561	-	-	342,549	342,549	-	-
Net debt (a - b - c)	219,237	(288,552)	507,789	-	57,189	(19,771)	76,975	-

(1) In January 2025, a €400 million bond was issued, repayable over 5 years (fixed rate of 3.75%).

(2) In December 2021, a "Schuldschein" bond was issued on the German private market, consisting of three tranches of financing in Euros for a total amount of €53.5 million with maturities of five and seven years at a variable rate, and one tranche of financing in US dollars for an amount of US\$25 million with a maturity of seven years at a variable rate.

(3) In December 2025, €6.8 million of bank debt for BVA entities.

As at December 31, 2025, out of €523 million in gross borrowings (excluding accrued interest and fair value of derivatives) around 24% were variable-rate loans. A 1% increase in short-term interest rates would have a negative impact of around €1.2 million on the Group's net financial income and expenses, equivalent to an 5% rise in finance costs for FY 2025. In 2025, the group had no interest-rate hedging instrument.

18.1.2.2.4.9.2 Maturities of financial liabilities (excluding derivatives)

Financial liabilities excluding derivatives break down as follows as at December 31, 2025:

In thousands of Euros	2026	2027	2028	2029	2030	>2030	Total
Bond issues	-	-	-	-	397,832	-	397,832
Bank borrowings	14,655	50,510	59,445	-	-	-	124,611
Debt linked to finance leases	-	-	-	-	-	-	-
Other financial liabilities	6	-	-	-	-	-	6

18.1.2.2.4.10 Current and non-current provisions

In thousands of Euros	Amount as at 01/01/2025	Allocations	Reversals of used provisions	Reversals of unused provisions	Change in scope	Other reclassifications	Exchange rate differences	Amount as at 12/31/2025
Provisions for litigation	2,018	19	(96)	-	859	-	(58)	2,743
Provisions for other liabilities and charges	8,360	1,330	(3,900)	(191)	4,415	(474)	(152)	9,388
Total	10,377	1,349	(3,995)	(191)	5,275	(474)	(209)	12,131
o/w current provisions	6,402	-	-	-	-	-	-	4,730
o/w non-current provisions	3,975	-	-	-	-	-	-	7,401

Provisions for litigation primarily concern commitments relating to legal disputes with employees. Provisions for other liabilities and charges primarily consist of provisions for losses upon completion.

18.1.2.2.4.11 Post-employment benefits

Group commitments for post-employment benefits mostly concern the following defined-benefit plans:

- retirement benefits (France, Italy, Japan, Switzerland);
- end-of-service indemnities (Australia, Turkey, Middle East);
- supplementary pensions (Germany, United Kingdom) that come on top of state pensions;

- coverage of certain healthcare costs for retirees (South Africa);
- long-service awards and similar (Germany, Netherlands).

All these plans are recognized in accordance with the method described in Note 18.1.2.2.1.3.23 Employee benefits. For defined-contribution plans, the Group's sole obligation is to pay the contributions due. The expense corresponding to the contributions paid is recognized through profit or loss for the financial year.

Expenses related to defined-contribution plans are recognized in payroll costs and amounted to €18.4 million in 2024 and €20.4 million in 2025.

18.1.2.2.4.11.1 Actuarial assumptions

Actuarial assumptions, used for the measurement of obligations, take into account demographic and financial conditions specific to each country or Group company.

For the period ended December 31, 2025, the Group used the same benchmarks as in previous years to determine the discount rates. The discount rates for the countries with the highest obligations are as follows:

		Euro zone	United Kingdom
Discount rate			
	2025	3.96 %	5.60 %
	2024	3.38 %	5.60 %
Future salary increases			
	2025	1% - 4%	2.80 %
	2024	1% - 4%	2.90 %
Expected return on plan assets			
	2025	— %	2.60 %
	2024	— %	2.65 %

At each closing date, the Group's discount rate is determined based on the most representative returns on high quality corporate bonds with a maturity that approximates the duration of its obligations. For the Euro zone, the Group used the IBOXX € Corporate AA index. Mortality and staff turnover assumptions take into account the economic conditions specific to each country or Group company.

18.1.2.2.4.11.2 Comparison between value of obligations and provisions funded

(1) See comments in Note 18.1.2.2.5.5 - Commitments related to acquisitions.

(2) This mainly concerns customer studies for which invoicing exceeds revenue recognized using the percentage-of-completion method

18.1.2.2.4.13 Contract assets and liabilities

Contract assets relate to the Group's rights to receive payments for studies that had not been invoiced as of the reporting date. Contractual liabilities relate to advances from clients for studies where revenue is recognized based on progress. Contract assets and liabilities have a maturity of one year.

18.1.2.2.4.14 Right-of-use assets and lease liabilities

Within the Group, leases within the meaning of IFRS 16 are office and car leases.

Pursuant to IFRS 16, all leases are recognized under assets as right-of-use assets and under liabilities as a liability corresponding to the present value of future payments. The lease term is defined lease by lease and represents the minimum period including optional periods that are reasonably likely to be exercised. The Group has opted to present rights-of-use assets separately from other assets. Similarly, the Group has opted to present lease liabilities separately from other liabilities.

In addition, the Group uses the exemption for short-term leases or leases of "low value" assets. No liability is recorded for these contracts.

In accordance with IFRS16, the Group has taken into account the following factors in determining the end date of its leases: (i) the existence of renewal options and (ii) medium-term projections of business trends.

Lease liability maturities break down as follows:

In thousands of Euros	12/31/2025			
	Total	Maturity		
		less than 1 year	1 to 5 years	over 5 years
Current lease liabilities	33,381	33,381	-	-

18.1.2.2.5.2 Financial risk management: objectives and policies

18.1.2.2.5.2.1 Exposure to interest rate risk

The Group's exposure to risks from changes in market interest rates relates to the Group's long-term borrowings. The Group's policy is to manage its interest charges by using a combination of fixed- and variable-rate borrowings.

Interest rate hedge

In thousands of Euros	Financial assets ⁽¹⁾ (a)		Financial liabilities ⁽²⁾ (b)		Net exposure before hedging (c) = (a) + (b)		Interest rate hedging instruments (d)		Net exposure after hedging (e) = (c) + (d)	
	Fixed-rate	Variable-rate	Fixed-rate	Variable-rate	Fixed-rate	Variable-rate	Fixed-rate	Variable-rate	Fixed-rate	Variable-rate
2026	(317,610)	-	59	-	(317,551)	-	-	-	(317,551)	-
2027	-	-	1	15,223	1	15,223	-	-	1	15,223
2028	-	-	-	45,546	-	45,546	-	-	-	45,546
2029	-	-	-	63,841	-	63,841	-	-	-	63,841
2030	-	-	397,832	-	397,832	-	-	-	397,832	-
> 2030	-	-	-	-	-	-	-	-	-	-
Total	(317,610)	-	397,892	124,610	80,282	124,610	-	-	80,282	124,610

(1) Financial assets consist of cash and cash equivalents.

(2) Financial liabilities consist of borrowings and other financial liabilities (excluding accrued interest and fair value of financial derivatives) described in Note 18.1.2.2.4.9.1 – Net borrowings.

18.1.2.2.5.2.2 Exposure to exchange rate risk

The Group operates, via consolidated subsidiaries, in around 90 markets and carries out projects in over 100 countries. Ipsos recognizes its financial position and its income and expenses in the relevant local currency, and then translates these figures into Euros at the applicable exchange rates for the purposes of consolidation in the Group's consolidated financial statements.

The proportion of the main currencies in consolidated revenue is as follows:

	12/31/2025	12/31/2024
Euro (EUR)	21 %	17 %
US Dollar (USD)	28 %	30 %
Pound Sterling (GBP)	15 %	15 %
Yuan	5 %	6 %
Other currencies	31 %	32 %
TOTAL	100 %	100 %

The Group has little exposure to transaction-related exchange rate risk, since its subsidiaries almost always invoice in their local currency, and since operating costs are also denominated in the local currency. As a result, the Group does not usually arrange hedging.

The transaction-related exchange rate risk for Ipsos Group is primarily limited to trademark licensing royalties and payments for services or technical assistance charged by Ipsos SA or Ipsos Group GIE to subsidiaries in local currencies.

Where possible, the Group covers the financing requirements of subsidiaries in the functional currency of that subsidiary. Around 4% of the debt is denominated in currencies other than the euro.

Exchange rate risk hedging

Ipsos SA's foreign currency borrowings are generally hedged by assets of the same currency. Foreign exchange gains and losses on net investments abroad, recognized in other comprehensive income in accordance with IAS 21 and IFRS 9, amounted to -€45 million as at December 31, 2025.

The table below shows the details of the net asset position as at December 31, 2025 (trade receivables net of trade payables in foreign currencies and bank accounts) of the entities with the main exchange rate risks: Ipsos SA, Ipsos Group GIE and Ipsos Holding Belgium. It shows transactional foreign exchange gains or losses recognized in net financial income and expenses:

In thousands of Euros	USD	GBP	Others
Financial assets	4,005	3,256	6,668
Financial liabilities	(1,023)	(471)	(2,869)
Net position before hedging	2,981	2,785	3,800
Derivatives	-	-	-
Net position after hedging	2,981	2,785	3,800

A 5% decrease in the value of the Euro against the US dollar and the pound sterling would result in an exchange loss of approximately €0.3 million in net financial income and expenses.

Sensitivity to changes in major currencies

As at December 31, 2025, the sensitivity of the Group's operating margin, income and equity to changes in each at-risk currency against the Euro is as follows for the main currencies to which the Group is exposed:

In thousands of Euros	2025	
	USD	GBP
	Currency up 5% against the euro	Currency up 5% against the euro
Impact on operating margin	5,012	1,175
Impact on income before tax	4,184	652
Impact on equity attributable to the owners of the parent	18,158	(1,169)

18.1.2.2.5.2.3 Exposure to client counterparty risk

The Group analyses its trade receivables, paying particular attention to improving recovery times, as part of the overall management of its working capital requirements, backed by the "Max Cash" program.

Any impairment is assessed on an individual basis and takes account of various criteria such as the client's position and payment delays. No impairment is recognized on a statistical basis.

The table below shows the age of trade receivables as at December 31, 2025 and December 31, 2024:

In thousands of	Receivables not due	December 31, 2025				
		Receivables due				
		Less than 1 month	1 to 3 months	3 to 6 months	Over 6 months	Total
Gross trade receivables	464,091	66,660	88,977	10,906	7,696	638,330
Impairment	(39,093)	(3,420)	(396)	(189)	(5,607)	(48,705)
Net trade receivables	424,998	63,241	88,580	10,717	2,089	589,625

In thousands of	Receivables not due	December 31, 2024				
		Receivables due				
		Less than 1 month	1 to 3 months	3 to 6 months	Over 6 months	Total
Gross trade receivables	458,349	64,682	85,515	8,090	5,497	622,134
Impairment	(22,844)	(2,271)	(669)	(414)	(4,045)	(30,244)
Net trade receivables	435,505	62,412	84,845	7,676	1,452	591,890

The Group serves a large number of clients in a wide range of business sectors. The largest ones are international groups. The largest client represents approximately 3% of the Group's revenues (over 5,000 clients in total). The solvency of international clients and the considerable dispersion of the other clients limit credit risk.

18.1.2.2.5.2.4 Exposure to banking counterparty risk

The Group has established a policy for selecting authorized banks to act as counterparties for all subsidiaries. This policy makes it mandatory to deposit cash with authorized banks. Moreover, only leading banks are authorized, thus limiting counterparty risk.

18.1.2.2.5.2.5 Exposure to liquidity risk

As at December 31, 2025, the Group raises financing via Ipsos SA in the form of:

A €400 million bond issue arranged on January 30, 2025;

A Schuldschein loan arranged in December 2021 with three tranches for a total of €53.5 million and one tranche of \$25 million (equivalent to €21 million).

Remaining contractual maturities of financial instruments (excluding derivatives) are as follows:

In thousands of Euros	Book value	Contractual cash flows	Repayment schedule					
		Total	2026	2027	2028	2029	2030	> 2030
Bonds (2025)	397,832	400,000	-	-	-	-	400,000	-

Schuldschein 2016 + 2021 (Ipsos SA)	73,787	74,777	15,000	-	59,777	-	-	-
Bank credit lines (Ipsos SA)	44,000	44,000	-	44,000	-	-	-	-
Other bank borrowings (subsidiaries)	6,824	6,824	-	6,824	-	-	-	-
Debt linked to finance leases	-	-	-	-	-	-	-	-
Other financial liabilities	6	6	6	-	-	-	-	-
Accrued interest on financial debts	14,297	14,297	14,297	-	-	-	-	-
Bank overdrafts	52	52	52	-	-	-	-	-
Borrowings and other financial liabilities	536,798	539,956	29,355	50,824	59,777	-	400,000	-

The Group is committed to attaining certain financial ratios [covenants] (such as consolidated net debt/consolidated EBITDA (i.e. operating margin before depreciation and provisions), consolidated EBIT (i.e. operating margin)/consolidated net interest expenses and consolidated net debt/consolidated equity). The levels of the financial ratios to which the Group is committed are as follows:

Financial ratios	Level to respect
1. Consolidated net debt / consolidated equity	<1
2. Consolidated net debt / consolidated EBITDA	<3.5
3. Operating margin / consolidated net finance costs	> 3.75

18.1.2.2.5.3 Financial instruments

The only financial instruments recognized at the reporting date are interest-rate instruments. They do not qualify for hedge accounting and their fair value corresponds to their balance sheet value.

18.1.2.2.5.3.1 Balance sheet by category of financial instruments

12/31/2025									
In thousands of Euros	Balance sheet value	Fair value	Fair value through profit and loss	Fair value through goodwill	Investment s in non-consolidated companies	Loans and receivables	Other liabilities	Debt at amortized cost	Derivatives

Financial derivatives	-	-	-	-	-	-	-	-	-
Cash and cash equivalents	342,549	342,549	342,549	-	-	-	-	-	-
Assets	1,119,133	1,119,133	342,549	-	22,959	753,625	-	-	-
Long term borrowings (> 1 year)	76,975	76,975	-	-	-	-	-	76,975	-
Trade payables and related accounts	335,211	335,211	-	-	-	-	335,211	-	-
Short term borrowings (< 1 year)	322,735	322,735	-	-	-	-	-	322,735	-
Other debts and current and non-current liabilities ⁽²⁾	94,962	94,962	71,535	16,176	-	-	7,251	-	-
Liabilities	829,883	829,883	71,535	16,176	-	-	342,462	399,710	-

(1) Excluding advances and pre-payments, other tax and social security receivables and prepaid expenses.

(2) Excluding advances and pre-payments from customers, other tax and social security liabilities, pre-paid income and other liabilities except current accounts of non-controlling interests.

The main fair value measurement methods applied are as follows:

Equity interests, included in "Other non-current financial assets" are stated at fair value in the balance sheet, in accordance with IFRS 9 (level 3 fair value).

Borrowings are stated at amortized cost measured using the effective interest method (level 3 fair value).

Financial derivatives that are not deemed to be hedging instruments are, in accordance with IFRS 9, recognized at their fair value in profit or loss. The valuation of their fair value is based on observable market data (Level 2 fair value).

The fair value of trade receivables and payables is considered as being equivalent to their carrying amount, after any impairment, given their very short payment terms (level 3 fair value).

The same applies to cash and cash equivalents. Other debts and current and non-current liabilities mainly correspond to the buy-out of non-controlling interests. The valuation of their fair value is obtained using valuation techniques but at least one of the key inputs is based on non-observable market data (Level 3 fair value).

18.1.2.2.5.3.2 Income statement by category of financial instruments

In thousands of Euros	12/31/2025

Other financial income and expenses	817	-	(3,465)	245	-	-

18.1.2.2.5.3.3 Information on interest rate and foreign exchange derivatives

There are no interest rate and currency derivatives in 2025.

18.1.2.2.5.4 Off-balance sheet commitments

18.1.2.2.5.4.1 Lease commitments (not eligible for IFRS 16)

Minimum future lease payments on non-cancelable operating leases are as follows:

In thousands of Euros	12/31/2025	12/31/2024
Less than one year	2,523	1,499
1 to 5 years	1,242	866
5 years or more	–	–
Total	3,765	2,365

18.1.2.2.5.4.2 Other commitments and disputes

The Group was not involved in any material dispute as at December 31, 2025.

18.1.2.2.5.4.3 Contingent liabilities

In the normal course of business, there are risks in certain countries that the authorities may query the Company's tax or labor practices, which may result in a reassessment or legal proceedings. The Group is involved in a number of tax inspections and labor claims in a number of countries, notably in Brazil. Provisions have been set aside for the probable risks identified (see Note 18.1.2.2.4.10 – Current and non-current provisions).

The financial implications of tax reassessments are accounted for by funding provisions for the amounts notified by the authorities and accepted by Ipsos' management. The reassessments are recognized on a case-by-case basis based on estimates factoring in the risk that any proceedings and appeals brought by the Company may not be successful.

Ipsos' management believes that such reassessments or ongoing litigation are unlikely to have a material impact on the Company's operating margin, financial position or cash position.

18.1.2.2.5.4.4 Commitments received: credit facilities obtained and not drawn down

In thousands of Euros	12/31/2025	12/31/2024

Total	28,346	28,843	-	57,189

(1) Including a buy-out commitment signed between Ipsos SA and the minority shareholder of Ipsos Stat SA with a view to acquiring its stake (Ipsos Stat SA includes our activities in the Middle East and North Africa). This commitment, consisting of puts and calls, is expected to be unwound in 2026.

18.1.2.2.5.6 Average workforce

Fully consolidated companies	2025 headcount	2024 headcount
Europe, Middle East, Africa	11,209	10,415
Americas	4,799	4,835
Asia-Pacific	4,913	5,006
TOTAL	20,921	20,255

18.1.2.2.5.7 Related-party transactions

18.1.2.2.5.7.1 Associates

Associates are companies in which the Group owns between 20% and 50% and over which it exerts significant influence.

As at December 31, 2025, the Group held a loan of €25.2 million with Zhejiang Oneworld BigData Investment Co Ltd (China), which is 40%-owned and accounted for under the equity method.

Associates are accounted for under the equity method. Transactions with associates take place on the basis of market prices.

Transactions with such related parties were not material as at December 31, 2025.

18.1.2.2.5.7.2 Related parties with significant influence over the Group

There are no transactions with any member of management or with any shareholder owning more than 5% of Ipsos SA's capital that is other-than-ordinary.

18.1.2.2.5.7.3 Executive compensation

Executives include persons who at the reporting date or during the financial year were members of the Group Management Committee (GMC) and/or members of the Board of Directors. The GMC had 18 members, and the Board of Directors 14 members, including 9 external directors as at December 31, 2025.

In thousands of Euros	12/31/2025			12/31/2024		
	GMC		External directors*	GMC		External directors*
	Directors	Non-directors		Directors	Non-directors	
Total gross compensation ⁽¹⁾	1,083	9,300	557	1,105	9,140	482
Severance payments ⁽²⁾		3,182	-		803	-
Share-based payments ⁽³⁾	497	1,089	-	898	1,814	-
Post-employment benefits ⁽⁴⁾	-	-	-	-	-	-
Other long-term benefits ⁽⁵⁾	-	-	-	-	-	-

*Directors who are not members of the GMC only receive "director compensation".

(1) Compensation, bonuses, indemnities, compensation for directors who are not on the GMC and benefits in kind paid during the financial year excluding employer payroll expenses.

(2) Expense recognized in the income statement for provisions for severance or termination benefits.

(3) Expense recognized in the income statement for stock option or free share plans.

(4) Pensions and other retirement benefits, post-employment life insurance, post-employment medical coverage.

(5) Seniority-related leave or sabbatical leave, seniority bonuses or other seniority benefits, long-term disability benefits, and profit sharing, bonuses, and deferred compensation (if payable 12 months or more after the end of the period).

18.1.2.2.5.8 Events after the reporting period

None.

18.1.2.2.5.9 Information on Ipsos SA parent company financial statements

As at December 31, 2025, parent company Ipsos SA had operating income of €43,281,000 and net income of €138,315,000.

18.1.2.2.6 Consolidation scope as at December 31, 2025

18.1.3 Statutory Auditors' report on the annual financial statements

Financial year ended 31/12/2025

To the General Meeting of Ipsos,

Opinion

In compliance with the engagement entrusted to us by the General Meeting, we have audited the accompanying financial statements of Ipsos for the year ended December 31st, 2025.

We certify that the annual accounts are, with respect to French accounting rules and principles, true and accurate and provide a faithful image of the result of the operations of the previous financial year as well as the financial situation and assets of the company at the end of this financial year.

The audit opinion expressed above is consistent with our report to the Audit Committee.

Basis for opinion

Audit framework

We conducted our audit in accordance with professional standards applicable in France. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our responsibilities under those standards are further described in the "Responsibilities of the Statutory Auditors relating to the audit of the financial statements" section of our report.

Independence

We conducted our audit in accordance with the rules of independence set out in the French Commercial Code (code de commerce) and in the French Code of Ethics (code de déontologie) for Statutory Auditors for the period from January 1st 2025 to the date of issue of our report, and in particular we have not provided any services prohibited by Article 5(1) of Regulation (EU) No. 537/2014.

Emphasis of Matter

Without qualifying the opinion expressed above, we draw your attention to Note 5 to the financial statements, which describes the effects of the change in accounting method resulting from the first-time application of ANC Regulation 2022-06.

Justification of assessments – Key Audit matters

In accordance with the provisions of Articles L.821-53 and R.821-180 of the French Commercial Code relating to the justification of our assessments, we bring to your attention the key points of the audit relating to the risks of material misstatement which, in our professional judgment, were the most important for the audit of the consolidated financial statements for the year, as well as our responses to these risks.

These matters were addressed in the context of our audit of the financial statements as a whole and in forming our opinion thereon, and we do not provide a separate opinion on specific items of the financial statements. We do not express an opinion on any individual item in these financial statements.

Valuation of equity investments

(Notes 18.1.4.5.2 and 18.1.4.7.1 to the financial statements)

Risk identified

As at December 31st, 2025, equity investments are included in the balance sheet at a carrying amount of €1,234 million. They are initially recognized at their acquisition cost excluding incidental acquisition costs.

Equity investments are subject to global valuation at each year-end. An impairment allowance is recorded for any excess of the net carrying amount over the recoverable value.

As indicated in Note 5.2 to the financial statements, the recoverable value is the higher of value in use and fair value:

- Value in use is the present value of future cash flows. Estimates are derived from forecast data used for budgets and plans drawn up by management.
- Fair value may be based on the Group's share of the subsidiary's equity or the revenue and earnings multiples applied to recent transactions taking into account the subsidiary's level of activity, past or projected profitability and applicable economic, financial or sectorial factors.

Given the weight of equity securities in the balance sheet, and the sensitivity of the applicable business models to variations in the underlying data and assumptions, on which management's estimates and judgements are based, we have considered the assessment of the recoverable amount of equity investments as a key audit matter.

Our audit response

Our audit procedures consisted in:

- Obtaining an understanding of the process implemented by management to determine the recoverable value of equity investments and reviewing the implementation of impairment testing with particular regard to the determination of the applicable revenue and earnings multiples;
- Assessing, on the basis of the information provided to us, the reasonableness of the estimate of the recoverable amounts of the equity investments, by verifying, in particular, that the estimate of the recoverable amounts of equity investments determined by management is based on an appropriate justification of the valuation method and the figures used;
- Verifying the consistency of the data used to perform impairment tests on equity investments with the financial statements of entities that have been audited or subjected to analytical procedures by their statutory auditors;
- Testing on a sample basis the arithmetical accuracy of the values calculated by the company.

Specific verifications

We have also performed, in accordance with professional standards applicable in France, the specific verifications required by French law and regulations.

Information given in the management report and in the other documents on the financial position and the annual financial statements provided to the shareholders

We have no matters to report regarding the fair presentation and the conformity with the financial statements of the information given in the management report of the Board of Directors, and in the other documents relating to the financial position and the financial statements provided to the shareholders.

We attest the fair presentation and the consistency with the financial statements of the information relating to payment deadlines mentioned in Article D. 441-6 of the French Commercial Code.

Report on corporate governance

We hereby certify that the report of the Board of Directors on corporate governance contains the information required by Articles L.225-37-4, L. 22-10-10 and L.22-10-9 of the French Commercial Code.

Concerning the information given in accordance with the requirements of Article L.22-10-9 of the French Commercial Code relating to the compensation and benefits received by the members of the Board of Directors and of the Supervisory Board and any other commitments made in their favor, we have verified its consistency with the financial statements, or with the underlying information used to prepare these financial statements and, where applicable, with the information obtained by your company from controlling and controlled companies. Based on this work, we attest the accuracy and fair presentation of this information.

With respect to the information relating to items that your company considered likely to have an impact in the event of a public purchase offer or exchange, provided pursuant to Article L. 22-10-11 of the French Commercial Code, we have agreed these to the source documents communicated to us. Based on our work, we have no observations to make on this information.

Other verifications or information required by law and regulations

Format of the presentation of the financial statements intended to be included in the annual financial report

In accordance with the professional standard on the due diligence of statutory auditors in relation to the annual and consolidated financial statements presented in accordance with the Single European Electronic Reporting Format, we have also verified compliance with this format defined by European

Delegated Regulation No. 2019/815 of December 17th, 2018 in the presentation of the annual financial statements intended for inclusion in the annual financial report referred to in paragraph I of Article L. 451-1-2 of the French Monetary and Financial Code (code monétaire et financier), which have been drawn up under the responsibility of the Chief Executive Officer.

Based on the work we have performed, we conclude that the presentation of the financial statements intended to be included in the annual financial report complies, in all material respects, with the European single electronic format.

We have no responsibility to verify that the financial statements that will ultimately be included by your company in the annual financial report filed with the AMF are in agreement with those on which we have performed our work.

Appointment of the Statutory Auditors

We were appointed, as statutory auditors of IPSOS, by the general meetings of May 31st, 2006 for Grant Thornton and on April 24th, 2017 for Forvis Mazars SA (ex Mazars).

As at December 31st, 2025, Grant Thornton was in the twentieth year of its uninterrupted engagement and Forvis Mazars SA (ex Mazars) in its ninth year.

Responsibilities of management and those charged with governance for the annual financial statements

Management is responsible for preparing financial statements giving a true and fair view in accordance with French accounting principles, and for implementing the internal control procedures it deems necessary for the preparation of financial statements that are free of material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting, unless it expects to liquidate the Company or to cease operations.

The Audit Committee is responsible for monitoring the financial reporting process and the effectiveness of internal control and risk management systems, as well as, where applicable, any internal audit systems, relating to accounting and financial reporting procedures.

The financial statements were approved by the Board of Directors.

Responsibilities of the Statutory Auditors relating to the audit of the annual financial statements

Audit objective and approach

Our role is to issue a report on the financial statements. Our objective is to obtain reasonable assurance about whether the financial statements as a whole are free of material misstatement. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with professional standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions taken by users on the basis of these financial statements.

As specified in Article L.821-55 of the French Commercial Code, our audit does not include assurance on the viability or quality of the Company's management.

In the framework of an audit conducted in accordance with professional standards applicable in France, the Statutory Auditor exercises professional judgment throughout the audit. In addition:

- Identifies and assesses the risks of material misstatement of the financial statements, whether due to fraud or error, designs and performs audit procedures responsive to those risks, and obtains audit evidence considered to be sufficient and appropriate to provide a basis for his opinion. The risk of non-detection of a significant misstatement due to fraud is higher than that of a significant misstatement resulting from an error, since fraud may involve collusion, forgery, voluntary omissions, misrepresentation or circumventing internal control.
- The Statutory Auditor obtains an understanding of the internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal controls.
- The Statutory Auditor evaluates the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management in the financial statements.
- The Statutory Auditor assesses the appropriateness of management's application of the going concern accounting policy and, depending on the evidence gathered, the existence or otherwise of significant uncertainty related to events or circumstances likely to question the company's ability to continue as a going concern. This assessment is based on the information collected up to the date of its report, it being noted, however, that subsequent circumstances or events could call into question the company's ability to continue as a going concern. If the Statutory Auditor concludes that a material uncertainty exists, it is required to draw attention in the audit report to the related disclosures in the financial statements or, if such disclosures are not provided or are inadequate, to modify the opinion expressed therein.
- The Statutory Auditor evaluates the overall presentation of the financial statements and assesses whether these statements represent the underlying transactions and events in a manner that achieves fair presentation.

Report to the Audit Committee

We submit a report to the Audit Committee, which includes a description of the scope of the audit and the audit program implemented, as well as the results of our audit. We also report, as applicable, any significant deficiencies in internal control that we have identified regarding the accounting and financial reporting procedures.

Our report to the Audit Committee includes the risks of material misstatement that, in our professional judgement, were the most significant for the audit of the financial statements and which constitute the key audit matters that we are required to describe in this report.

NOTES

Financial year ended 31 décembre 2025

18.1.4.4 Highlights of the year

The main significant events in 2025 are described below:

On 24 June 2025, Ipsos SA acquired The BVA Family, which represents a significant expansion for Ipsos in France and also strengthens its position in the United Kingdom and Italy. BVA brings its recognized expertise in customer experience monitoring, point-of-sale behavior analysis, and research for government and public services. Its expertise in pack testing is a key strength that can now be rolled out across a much larger geographic footprint by Ipsos.

The 2018 bond issue of €300,000 million was fully repaid on June 23, 2025 and a new €400 million bond issue was put in place on January 22, 2025, for a term of five years.

18.1.4.5 Accounting rules and policies

The financial statements for the financial year ended 31 décembre 2025 have been drawn up in accordance with current French legislation and regulations. These rules are primarily set out in the following texts: French Commercial Code, Decree of November 23, 1983, ANC Regulation 2016-07 of November 4, 2016 on the General Chart of Accounts.

With effect from the financial year beginning on January 1, 2025, the company applies ANC regulation no. 2022-06 of November 4, 2022 amending the General Chart of Accounts. This regulation modernizes the presentation of financial statements and the chart of accounts, in particular by eliminating transfers of expenses and overhauling extraordinary income and expenses. The resulting changes are due to a change in accounting method. For the company, its application resulted only in changes in presentation (new balance sheet, income statement and notes to the financial statements, reclassification of certain items), with no impact on net income or equity. The appendix is now presented according to the new structure resulting from ANC regulation 2022-06, in order to facilitate the readability and consistency of information across the financial statements.

General accounting conventions were applied in line with the principle of prudence, on the basis of the following underlying assumptions: going concern, consistency of accounting policies.

The basic method used to measure items recognized in the financial statements is the historical cost method.

The main policies applied are as follows:

18.1.4.5.1 Property, plant and equipment and intangible assets

Property, plant and equipment and intangible assets are measured at cost.

Depreciation is calculated using the straight-line method over the following estimated useful lives:

o computer software	1 to 3 years
o fixtures and fittings	10 years
o office and computer equipment	1 to 3 years
o office furniture	5 to 10 years

18.1.4.5.2 Long-term investments

The gross amount of equity interests equates to cost less incidental costs.

Receivables from equity interests include medium and long-term loans and advances available for consolidation and due to be capitalized in the future, granted to companies in which the company owns an equity interest.

Equity interests are subject to an overall revaluation at each reporting date to ensure that their net carrying amount does not exceed their recoverable amount, i.e. the higher of fair value or value in use.

Fair value may be based on the share of the subsidiary's equity or revenue and earnings multiples applied to recent transactions, taking into account sales, past or projected profit margins, and economic, financial or industry factors.

Value in use is the present value of future cash flows. Estimates are derived from forecast data used for budgets and plans drawn up by management. The discount rate applied reflects the rate of return required by investors and the risk premium specific to the Group's business. The perpetual growth rate applied depends on the geographical region.

The Group makes acquisitions solely in the field of survey-based research. Consequently, the Group acquires service sector companies, whose value is not estimated on the basis of their property, plant and equipment but on the basis of their current and future position in the research market, in terms of their ability to generate profits and the Group's ability to take advantage of the experience gained in this business.

The company has opted to recognize acquisition costs on equity investments as assets in the entry cost of these investments in accordance with the opinion of the emergency committee of the Conseil National de la Comptabilité (French National Accounting Board) No. 2007-C of June 15, 2007.

18.1.4.5.3 Receivables

Receivables are recorded at face value. Provisions for non-performing receivables are recorded on a case-by-case basis after analyzing information from the debt recovery process.

18.1.4.5.4 Post-employment benefit obligations

Based on a calculation of the post-employment benefit obligations using the retrospective method, it was found they were not material. They are presented in Off-balance sheet commitments (see Note 8.8).

18.1.4.5.5 Marketable securities and own shares

Marketable securities are recognized at purchase cost. A provision is recorded if the average value during the last month is below the purchase value.

Own shares are recognized at their purchase value. A provision is recorded if the value at the reporting date is below the purchase value.

18.1.4.5.6 Foreign currency transactions

Foreign currency transactions are translated at the exchange rate on the transaction date.

Foreign currency receivables, liabilities and cash are translated at the effective exchange rate at the reporting date, except for advances available for consolidation, which are not re-estimated.

Unrealized gains and losses from the translation of receivables and liabilities at the closing rate are recorded under "Translation adjustments" on the asset and liability sides of the balance sheet. Cash and cash equivalents are recorded in the income statement.

A provision for liabilities is set aside for unrealized foreign exchange losses that have not been hedged, except for transactions with sufficiently close due dates, in which case any unrealized gains and losses may be considered as part of an overall foreign exchange position.

In addition, and in accordance with Article 420-6 of the French General Chart of Accounts, no provision is made for foreign exchange losses on loans used to buy equity interests in companies paid in the same currency as the loan.

Interest rate swaps are measured at their market value. Unrealized gains and losses are recorded under profit for the financial year (mark-to-market rule).

18.1.4.5.7 Use of estimates

Ipsos has assessed the consequences of climate risks on its business in the short and medium term and has concluded that the expected impact on its business model and on changes in revenues, margins and the assumptions used to test for impairment of assets is not material.

No changes specifically related to climate risks have therefore been incorporated into the main estimates used by the Group in the context of the financial statements for the year ended 31 décembre 2025.

In addition, Ipsos entities comply with applicable laws in the conduct of their business worldwide, including applicable sanctions and export control laws.

18.1.4.6 Notes to the income statement

18.1.4.6.1 Breakdown of revenue

In thousands of Euros	Revenue – France	Revenue – Export	31/12/2025	31/12/2024

18.1.4.6.3 Income tax

18.1.4.6.3.1 Scope of tax group

Our company, by virtue of a membership for 5 financial years, dated October 30, 1997, renewed by tacit agreement, participates in the Tax Group organized as follows:

- Ipsos SA: Group "parent company"
- Member companies: Ipsos (France), Popcorn Media, Ipsos Observer, Espaces TV Communication, Synthésio SAS

The Ipsos SA tax group tax expense breaks down as follows:

- For member companies: they bear the tax charges for which they would have been liable had they not been part of the tax group;

- For the tax Group parent: it bears the tax charge (or gain) arising from the difference between the Group tax charge and the aggregate tax charges (including the 3.3% contribution) calculated by the member companies.

The tax expense for the Ipsos SA tax group was as follows:

In thousands of Euros	31/12/2025
Tax payable in respect of Ipsos Observer	30
Tax payable in respect of Ipsos France	732

No significant events have occurred since the reporting date.

18.1.4.8.8 Post-employment benefit obligations

The post-employment benefit obligations of Ipsos SA amounted to €20,344 as at 31 décembre 2025.

For defined-benefit plans, the Group estimates its obligations using the projected unit credit method, in accordance with IAS 19 Employee Benefits. This method uses actuarial techniques that look at the employee's expected length of service assuming the employee remains with the Group until retirement, along with future compensation, life expectancy and staff turnover. The obligation is discounted using a discount rate of 3.96%.

18.1.4.10 Free share plans

Each year since 2006, the Board of Directors of Ipsos SA has set up free share plans for French residents and French non-residents who are Ipsos Group employees and executive officers. Before the plan implemented in 2018, these shares were only acquired by the beneficiaries after a vesting period of two years, and provided that the beneficiary was still an employee or executive officer of Ipsos on that date. From 2018, the vesting period was extended to three years.

In May 2025, Ipsos SA delivered 377,926 free shares to employees under the May 2022 free share award plan. The exercise price per share was €45.26.

The free share plans still in force at the beginning of the financial year have the following characteristics:

Grant date	Type of shares	Number of people concerned	Number of shares initially awarded	Vesting date	Number of shares outstanding as at 01/01/2025	Granted during the financial year	Canceled during the financial year	Reclassified during the financial year	Delivered during the financial year	Number of shares outstanding as at 12/31/2025
17/05/2022	Ordinary shares	1,149	443,812	17/05/2025	390,336		(12,410)		(377,926)	-

21/05/2025	Ordinary shares	1,279	413,305	21/05/2028		413,305	(14,470) ¹			398,835
15/09/2025	Ordinary shares	1	11,000	15/09/2028		11,000				11,000
17/12/2025	Ordinary shares	41	17,600	17/12/2028		17,600				17,600
Sub-Total 2025 Plan		1,321	441,905²			441,905	(14,470)			427,435
Total free share awards					1,327,492	450,105	(74,531)	-	(377,926)	1,325,140

¹ This total includes the 11,000 shares initially awarded to Ben Page on May 21, 2025, before being canceled during the past financial year. These 11,000 shares were then awarded on September 15, 2025 to Jean Laurent Poitou when he was appointed Chief Executive Officer.

² It should be noted that this total does not exceed the cap of 1% of the share capital that may be allocated (i.e., a maximum number of 432,032 shares) in accordance with the authorization granted by the 2023 General Meeting for the third year of validity of this authorization, since the 11,000 shares initially awarded to Ben Page were canceled and then awarded to Jean Laurent Poitou during the past financial year (in aggregate, therefore, and after factoring in this cancellation, 430,905 free shares were awarded during the 2025 financial year).

18.2 Interim and other financial information

Not applicable.

18.3 Dividend policy

It is the Company's policy to pay dividends in respect of a financial year in full in July of the following year. The dividend per share is typically around 25% to 40% of adjusted net income per share.

The provisions of the Articles of Association relating to the allocation and distribution of earnings can be found in Section 19.2.2 "Rights, preferences and restrictions attached to each existing share class" of this Registration Document.

For reference, the dividend paid out for the two previous financial years was as follows:

Financial year	Net dividend per share	Amount distributed (millions of euros)
2024	€ 1,85	79.8
2023	€ 1,65	71.3

For FY 2025, the General Meeting will be asked to set the dividend at €2.00 per share.

The ex-dividend date is July 1, 2026. The dividend will be paid on July 3, 2026.

The aggregate amount of the dividend for FY 2025 of €86,301,952 was determined on the basis of 43,203,225 shares in the Company's share capital as at December 31, 2025 and 52,249 shares held by the Company as at the same date.

18.4 Audit of historical annual financial information

The audit reports for FY 2025 can be found in Section 18.1.1 – Statutory Auditors' report on the consolidated financial statements and in 18.1.3 Statutory Auditors' report on the annual financial statements and 18.1.4 Parent company financial statements for the financial year ended December 31, 2025.

The audit reports along with the 2023 and 2024 consolidated and annual financial statements are incorporated into the registration documents for the relevant financial years and can be found on ipsos.com.

18.5 Pro forma financial information

Not applicable.

18.6 Legal and arbitration proceedings

As of the date of this Registration Document, the Group is not involved in any material disputes or lawsuits.

18.7 Significant change in financial position

To Ipsos SA's knowledge there has been no material change in the financial and sales position since the end of the financial year ended December 31, 2025.

18.8 Invoices received and issued but unpaid as of the reporting date of the financial year that have fallen due (table provided for in Article D. 441-4 of the French Commercial Code)

In accordance with Article L. 441-6-1 of the French Commercial Code as specified by Article D. 441-6 of the French Commercial Code, below are invoices received and issued but not paid on the reporting date of the financial year and whose term has expired.

19.1 Share capital

19.1.1 Amount of subscribed share capital and authorized but not issued share capital

As at December 31, 2025, the share capital of Ipsos SA was €10,800,806.25 made up of 43,203,225 shares with a par value of €0.25 each, fully paid up and all of the same class.

There were no capital transactions during the 2025 financial year. As a result, the Company's share capital was unchanged at December 31, 2025.

19.1.2 Shares not representing capital

Not applicable.

19.1.3 Shares held by the issuer or its subsidiaries

As at December 31, 2025, Ipsos SA held 52,249 own shares, representing 0.12% of the share capital, including 28,580 shares under the liquidity contract and 23,669 shares outside the liquidity contract.

19.1.3.1 Summary of the main characteristics of the "2025 Buyback Program"

Between January 1 and December 31, 2025, two share buyback programs were carried out under authorizations granted by the General Meeting to allow the Company to buy back its own shares for up to a maximum of 10% of the share capital:

- The program already in place in the previous financial year, implemented by the Board of Directors on the basis of the authorization granted it by the General Meeting on May 14, 2024 (the "2024 Buyback Program");
- A new share buyback program, identical to the previous one, implemented by the Board of Directors on the basis of the new authorization granted by the General Meeting of May 21, 2025, (the "2025 Buyback Program").

The main characteristics of the "2025 Buyback Program" are as follows:

- The maximum number of shares bought back by the Company during the buyback program may not exceed 10% of the shares in the Company's share capital as at the date of the General Meeting of May 21, 2025, said ceiling being lowered to 5% for shares acquired by the Company to be held and subsequently used in payment or exchange in acquisitions;
- The aggregate amount of such purchases, after expenses, cannot exceed €300,000,000;
- The maximum purchase price under the share buyback program may exceed €80 per share, with a par value of €0.25, excluding transaction costs;
- In no case shall any purchases by the Company cause the Company to hold over 10% of the ordinary shares in its share capital at any time;
- The purchase, sale or transfer of shares may be done at any time, except during a public tender offer for the Company's shares filed by a third party, and by any means, on the open market or over the counter, including through block trades, public tender offers or the use of options (except for the sale of put options) or forward financial instruments traded on a regulated market or over the counter or through the issue of securities convertible, exchangeable, redeemable or otherwise exercisable for Company shares, in accordance with the conditions permitted by market authorities and applicable regulations.

The General Meeting authorized the Company, in accordance with all applicable rules and market practices permitted by the AMF, to buy, hold or sell Company shares to:

- i. Manage the secondary market and share liquidity under a liquidity contract with an investment services provider;
- ii. Grant, sell, allocate or transfer shares to employees and/or executive officers of the Company and/or its affiliates, in accordance with applicable regulations, in particular within the framework of company or Group savings plans, within the framework of shareholding plans for employees of the Company and/or its affiliates in France and/or abroad or within the framework of stock option plans of the Company and/or its affiliates in France and/or abroad, or within the framework of the free allotment of Company shares by the Company and/or its affiliates to employees or officers of the Company and/or its affiliates in France and/or abroad (whether or not in accordance with the provisions of Articles L. 225-197-1 et seq. of the French Commercial Code), and to carry out any hedging operations relating to these transactions in accordance with the applicable regulations;
- iii. Deliver the shares thus purchased to the holders of securities giving access to the Company's share capital upon exercise of the rights attached thereto, in accordance with applicable regulations;
- iv. Retain the shares purchased for subsequent exchange or payment in connection with any external growth transactions;
- v. Cancel the shares thus purchased, in accordance with the authorization granted by the General Meeting of May 21, 2025 in its sixteenth resolution;
- vi. Execute any other action that is or will become permitted by French law or the AMF regulation, or more generally, any action that complies with applicable regulations.

19.1.3.1.1 Purchases, sales and cancellations of own shares by Ipsos SA outside the liquidity contract

On January 1, 2025, Ipsos SA directly owned 23,669 treasury shares outside the liquidity contract.

For the purpose of implementing the 2024 Buyback Program, approved by the General Meeting of May 14, 2024 (outside the liquidity contract), the following transactions were carried out between January 21 and March 12, 2025:

- Between January 21 and 24, 2025 inclusive, purchase of 70,939 shares at a weighted average price of €46.47;
- Between February 27 and 28, 2025 inclusive, purchase of 40,875 shares at a weighted average price of €48.35;
- Between March 3 and 7, 2025 inclusive, purchase of 124,165 shares at a weighted average price of €47.20;
- Between March 10 and 12, 2025 inclusive, purchase of 64,021 shares at a weighted average price of €46.33;

Thus, between January 21, 2025 and March 12, 2025 (inclusive), as part of the implementation of the 2024 share buyback program, Ipsos SA acquired a total of 300,000 shares, in line with the objective of covering employee share plans. Thus, the purpose of these buybacks is to enable Ipsos SA to honor its obligations related to free share award programs for employees of Ipsos SA and Group companies and eligible executive officers of Ipsos SA.

As a result of these purchases in 2025, Ipsos SA owned 23,669 treasury shares as at December 31, 2025 (outside the liquidity contract).

Overview of trading in own shares as at December 31, 2025

As a result of the aforementioned transactions, as at December 31, 2025, Ipsos SA owned 23,669 treasury shares outside the liquidity contract.

These treasury shares are used to meet Ipsos SA's obligations under the employee share ownership plans and other employee share plans.

The Company did not use derivatives in connection with these buyback programs during the year.

19.1.3.1.2 Purchases and sales of own shares under the liquidity contract

A liquidity contract was entered into with Exane BNP Paribas in June 2012, absorbed in 2023 by BNP Paribas Arbitrage, which is now in charge of managing Ipsos' liquidity contract.

Under the liquidity contract, the following transactions were carried out between January 1 and December 31, 2025 (settlement dates).

Trading in own shares under the liquidity contract				
2025	Purchase		Sale	
	Volume	Average price	Volume	Average price
January	8,443	45.34	9,322	45.75
February	8,340	45.85	9,405	46.83
March	12,714	45.07	7,875	45.73
April	14,068	39.95	13,886	40.49
May	10,743	44.16	13,611	44.22
June	6,825	44.39	7,112	44.77
July	21,330	42.01	16,018	42.36
August	4,700	37.75	3,957	38.24
September	5,900	36.12	8,475	36.49
October	8,025	35.27	7,250	35.75
November	3,725	32.04	3,150	32.15
December	3,800	32.57	5,583	33.10
TOTAL	108,613	41.34	105,644	41.59

As at January 1, 2025 and December 31, 2025, Ipsos SA respectively owned 24,859 and 28,580 own shares under the liquidity contract. Trading fees totaled €42,424.00 excluding VAT in 2025.

€302,466 in cash was allocated to the liquidity contract as at December 31, 2025.

Summary of trading in own shares in 2025 (excluding and under the liquidity contract)

Share capital of Ipsos SA as at January 1, 2025 (number of shares)	43,203,225
Treasury shares held as at January 1, 2025	125,469
Number of shares purchased between January 1 and December 31, 2025	408,613

Gross weighted average price of shares purchased	45,496 €
Number of shares sold between January 1 and December 31, 2025	105,644
Gross weighted average price of the shares sold	41,59 €
Number of shares transferred to beneficiaries under free share plans between January 1 and December 31, 2025	377,926
Number of shares canceled during the last 24 months	0
Ipsos SA's share capital as at December 31, 2025 (number of shares)	43,203,225
Treasury shares owned as at December 31, 2025	52,249

Market value of the portfolio at December 31, 2025 (in €)	1 790 051 €

19.1.3.2 Buyback program submitted to the General Meeting of May 20, 2026

It is in Ipsos' interest to continue having recourse to a Share Buyback Program.

To that end, a proposal will be made to the Combined General Meeting of May 20, 2026 to terminate, with immediate effect, the authorization given to the Board of Directors by the Combined General Meeting of May 21, 2025 and to authorize, in accordance with the provisions of Articles L. 22-10-62 et seq. of the French Commercial Code, the implementation of a new share buyback program. This Program would have substantially similar characteristics to the previous program.

This "2026 Buyback Program" will be activated by the Board of Directors of Ipsos SA that will meet following the Combined General Meeting of May 20, 2026, subject to the authorization granted by that same General Meeting.

19.1.4 Convertible or exchangeable securities or securities with warrants

Not applicable.

19.1.5 Acquisition rights and/or any obligations attached to the authorized but unissued capital or on any undertaking to increase the capital

19.1.5.1 Share capital authorized but not issued

19.1.5.1.1 Financial delegations regarding capital increases

All current delegations and authorization pertaining to capital increases were granted by the Extraordinary General Shareholders' Meeting of May 14, 2024 for a period of 26 months, aside from the delegation to award free shares granted by the Extraordinary General Meeting of May 15, 2023 for a period of 38 months.

The delegations enjoyed by the Board of Directors pertaining to capital increases and any use that may have been made of them are summarized in the table below.

The only use of the delegations or authorizations in FY 2025 concerns the delegation to grant free existing ordinary shares or to issue Ipsos SA shares. The Board of Directors used this last delegation to award (i) 413,305 shares to Group employees or executive officers on May 21, 2025 (annual plan), (ii) 11,000 shares to Jean Laurent Poitou upon his appointment on September 15, 2025, and (iii) 17,600 shares to BVA executives following the acquisition of the BVA group ("BVA" plan).

19.1.5.1.2 Summary of current delegations

Delegation	Ceiling(s)	Process for determining the minimum issue price	Date of authorization (resolution)	Use during the financial year	Expiry date
Delegation to award free Ipsos SA ordinary shares	1.30% of the total number of shares in the share capital for the first year, then for the remainder of this authorization 1% each year of the total number of shares in the share capital. The total number of the aforementioned shares is determined each time this authorization is used by the Board of Directors.		May 15, 2023 (23rd resolution)	This delegation was used three times in 2025, with free shares granted on May 21, 2025, on September 15, 2025 to the newly appointed Chief Executive Officer and on December 17, 2025.	July 14, 2026
Delegation of authority to issue Company shares and marketable securities convertible to Company shares, with maintenance of preferential subscription rights (PSR) of shareholders	€5,400,000 for the total par value of all capital increases made under this resolution €540,000,000 for the total amount of issues of marketable securities that can be converted into debt securities + ceilings from the 27th resolution of the General Meeting of May 14, 2024		May 14, 2024 (18th resolution)	None	July 13, 2026

Delegation	Ceiling(s)	Process for determining the minimum issue price	Date of authorization (resolution)	Use during the financial year	Expiry date
Delegation of authority to issue ordinary shares and marketable securities convertible to equity securities through public offerings with waiving of preferential subscription rights	€1,080,000 for the total par value of all capital increases made under this resolution €540,000,000 for the total amount of issues of marketable securities that can be converted into debt securities + ceilings from the 27th resolution of the General Meeting of May 14, 2024	The issue price should at the very least be equal to the weighted average price of Company shares during the three trading sessions preceding the date on which the price is set. This price may be reduced by a discount of up to 10%. For marketable securities convertible into Company equity securities, the issue price will be set such that the sum immediately received by the Company, plus any sum it may subsequently receive, is, for each Company share issued as a result of the issue of these marketable securities, at least equal to the issue price defined above.	May 14, 2024 (19th resolution)	None	July 13, 2026
Delegation of authority to issue ordinary shares and securities convertible to equity securities through offerings referred to in Article L. 411-2 II of the French Monetary and Financial Code with cancellation of preferential subscription rights	€1,080,000 for the total par value of all capital increases made under this resolution €540,000,000 for the total amount of issues of marketable securities that can be converted into debt securities + ceilings from the 27th resolution of the General Meeting of May 14, 2024	The issue price of the shares will be equal to the average opening price of Company shares during the twenty trading sessions preceding the date on which the price is set. This price may be reduced by a discount of up to 10%.	May 14, 2024 (20th resolution)	None	July 13, 2026

Delegation	Ceiling(s)	Process for determining the minimum issue price	Date of authorization (resolution)	Use during the financial year	Expiry date
Authorization to set the price of issues of shares or securities carried out by way of a public offering or an offering referred to in Article L. 411-2 II of the French Monetary and Financial Code, with cancellation of preferential subscription rights	10% of the share capital (assessed on the date of the Board's decision determining the issue price) per annum	The issue price of the shares will be equal to the average opening price of Company shares during the twenty trading sessions preceding the date on which the price is set. This price may be reduced by a discount of up to 5%. For marketable securities convertible into Company equity securities, the issue price will be set such that the sum immediately received by the Company, plus any sum it may subsequently receive, is, for each Company share issued as a result of the issue of these marketable securities, at least equal to the issue price defined in the above paragraph.	May 14, 2024 (21st resolution)	None	July 13, 2026
Authorization to increase the share capital by issuing shares and marketable securities with or without preferential subscription rights through issues under the provisions of the 18th, 19th and 20th resolutions adopted by the AGM of May 14, 2024	15% of initial issue + ceilings of the 27th resolution of the General Meeting of May 14, 2024		May 14, 2024 (22nd resolution)	None	July 13, 2026
Delegation of authority to issue ordinary shares and marketable securities convertible to Company equity securities, in consideration for contributions in kind granted to the Company in the form of equity securities or securities convertible to equity securities	5% of the share capital on May 14, 2024 + ceilings of the 27th resolution of the General Meeting of May 14, 2024		May 14, 2024 (23rd resolution)	None	July 13, 2026

Delegation	Ceiling(s)	Process for determining the minimum issue price	Date of authorization (resolution)	Use during the financial year	Expiry date
Delegation of authority to issue ordinary shares and marketable securities convertible to company equity securities, in consideration for contributions of securities as part of a public exchange offer initiated by the Company	€1,080,000 for the total par value of all capital increases made under this resolution €540,000,000 for the total amount of issues of marketable securities that can be converted into debt securities + ceilings from the 27th resolution of the General Meeting of May 14, 2024	The price of shares and/or marketable securities issued will be set on the basis of laws governing public exchange offers.	May 14, 2024 (24th resolution)	None	July 13, 2026
Delegation of authority to increase the share capital by incorporation of reserves, earnings or premiums	€1,080,000 for the total par value of all capital increases made under this resolution		May 14, 2024 (25th resolution)	None	July 13, 2026
Delegation of authority to issue equity securities and/or marketable securities convertible to Company equity securities with waiving of preferential subscription rights of shareholders in favor of members of Ipsos Group's savings plan	€350,000	The issue price shall be determined under the conditions set forth in Articles L. 3332-19 et seq. of the French Labor Code, with a maximum discount of 20% from the average opening share price over the twenty trading sessions preceding the date on which the decision is taken setting the opening date of the subscription period.	May 14, 2024 (26th resolution)	None	July 13, 2026

19.1.5.2 Stock option plans and free share plans

It is set out below, pursuant to Articles L. 225-184 and L. 225-197-4, paragraph 1, of the French Commercial Code, transactions occurring in 2025 in connection with (i) grants of stock options and (ii) grants of free shares of the Company are reported below.

19.1.5.2.1 Stock option plans implemented

No other share subscription or purchase options have been granted since the IPF 2020 plan (renamed IPF 2 in 2019) implemented in 2012 and which expired on September 4, 2022.

19.1.5.2.2 Free share plans

General presentation and purpose of the plans

Each year, Ipsos issues at least one free share plan for Ipsos Group managers residing in France as well as international managers.

Free shares - Because Ipsos is a "people-oriented" business, its managers are its main asset. It is therefore essential that Ipsos be able to both attract and retain the best talent in a highly competitive industry.

Accordingly, Ipsos has had over many years a compensation policy to incentivize its senior management while keeping total compensation levels reasonable. The Company believes that the best way to accomplish this goal, and to align the interests of our managers with the interests of shareholders, is to emphasize variable compensation.

The variable compensation of the Company's executives consists of two elements: (i) the possibility of obtaining an annual bonus; and (ii) eligibility for a free share award.

The free share grants to Ipsos SA executive officers are also subject to the satisfaction of additional performance criteria, as indicated below.

Free share allocations take place each year, close to the bonus payment date, and are referred to internally as "free shares".

It should be noted that, to enable the Group's subsidiaries to deliver the free shares allocated to their employees, each year Ipsos SA buys (and then sells), subject to rebilling, to said subsidiaries (with the exception of subsidiaries whose registered office is located in China, as from the plans allocated in May 2023), the necessary number of Ipsos shares to carry out the delivery in question, at the average cost price of its purchases on the market.

Thus, with the exception of the award of free shares from May 2023 to employees of the Group's subsidiaries whose registered office is located in China, the award of free shares is only considered free from the perspective of the beneficiary employees. The actual cost is paid and/or borne by the Group's subsidiaries (with the exception of subsidiaries located in China in the case of awards made from May 2023), the local employers of the beneficiary employees. More specifically, the cost of the shares awarded is paid in full to Ipsos SA by the Group subsidiaries that employ the relevant beneficiaries, in accordance with the requirements of the local registration authorities (where applicable), and determined at the vesting date on the basis of: (1) the number of shares held by beneficiary employees who are still employed by the Group at the vesting date; (2) the closing price of the shares at the vesting date; and (3) the exchange rate between the local currency and the euro.

Other awards

- A new wave of the "partnership" program, called "Ipsos Partnership 2024", was launched in early 2024, with the aim of (i) continuing the long-term involvement of executives in the capital of Ipsos, (ii) strengthening the stake in the capital of DT&Partners and (iii) buying back shares from former executives that were until now held by Ipsos SA.

Ipsos Partners is an investment structure created in 2016 (see press release of November 14, 2016), reserved for Ipsos executive officers and senior executives. As at December 31, 2023, Ipsos Partners held a 19% stake in the capital of DT & Partners, alongside the founding Chairman of the Ipsos group, Didier Truchot, who holds 81%.

In January 2024, Ipsos Partners had just over 100 shareholders who invested in two waves, in 2016 and then in 2018.

As part of the "Ipsos Partnership 2024" initiative, nearly 330 executives from around the world chose to invest in the structure, at a total amount of around €18 million. The funds raised enabled Ipsos Partners, firstly, to buy back the shares of the managers who left since 2018 and, secondly, to increase its stake in DT&Partners.

As part of this initiative, the Board of Directors decided, at its meeting of April 10, 2024, that managers' subscriptions to the "Ipsos Partnership 2024" initiative would be matched at 50% by the allocation of Ipsos free shares.

Thus, at this same meeting, the Board of Directors decided to once again use the authorization granted by the Extraordinary General Meeting of May 15, 2023 (23rd resolution), which made it possible in particular to allocate, on one or more occasions, during the first year of validity of this authorization, 1.30% of the total number of shares constituting the Company's share capital, in order to proceed with an additional allocation of free shares before the expiry of the first year of validity of said authorization, i.e. before May 14, 2024.

An additional 140,930 Ipsos shares were allocated instead, on April 30, 2024, to 328 Group managers who invested in Ipsos Partners.

- In relation to the appointment of Jean Laurent Poitou as Chief Executive Officer of Ipsos with effect from September 15, 2025, the Board of Directors, meeting on that same date, decided to award Jean Laurent Poitou 11,000 free performance shares, subject to the rules of the 2025 annual plan and the performance conditions applicable to the Chief Executive Officer, in accordance with the compensation policy for the Chief Executive Officer approved by the General Meeting of Shareholders on May 21, 2025 and set out in section 13 of the 2024 Universal Registration Document.

- In a press release dated June 24, 2025, Ipsos announced the completion of the acquisition of The BVA Family.

This acquisition represents a significant expansion for Ipsos in France and strengthens its position in the UK and Italy. BVA notably brings its recognized expertise in customer experience monitoring, point-of-sale behavior analysis, and research for government and public services. The company also boasts research methodologies that focus on behavioral sciences. Its expertise in pack testing through PRS IN VIVO is a key strength that can now be rolled out across a much larger geographic footprint by Ipsos.

With the aim of retaining the best talent in a highly competitive industry, the Board of Directors decided at its meeting held on December 17, 2025 to once again use the authorization granted by the Extraordinary General Meeting of May 15, 2023 (23rd resolution), which made it possible in particular to allocate, on one or more occasions, during the third year of validity of this authorization, 1% of the total number of shares constituting the Company's share capital, in order to proceed with an additional allocation of free shares before the expiry of the third year of validity of said authorization.

Accordingly, 41 executives from the BVA Family Group were awarded a total of 17,600 shares.

Volume of free share plans

Free shares - The annual free share program is a vast plan that covers around a thousand Group managers worldwide.

Due to the large number of plan participants, the number of shares granted to each individual participant is limited. The CEO of Ipsos SA, also eligible for these plans, has currently received in excess of 0.03% of the Company's share capital per annum under any of these various plans. To illustrate the wide reach of this program, the table below identifies the categories of managers receiving grants and the percentage of their variable compensation in free shares as compared to the base salary, for grants made in 2025.

Categories of beneficiaries	Number of people per category who received free shares	% of total free shares granted in 2025	% of variable compensation in free shares compared to base salary
Executive officer	1	2.55%	64.97%
Members of the GMC* (excluding executive officers)	17	10.70%	32.23%
Partnership Bonus Group (excluding executive officers and members of the GMC)	175	30.55%	14.70%
Other managers	1,127	56.20%	7.79%
Total	1,320	100.00%	

**GMC: Group Management Committee*

The total number of shares granted to Group employees in France and abroad under the 2025 Free Share Plan represented 1% of the Ipsos share capital on the date of the grant.

It should be noted that, in accordance with the twenty-third resolution passed by the General Meeting of May 15, 2023, the total number of free shares that may be granted was 1% of the total number of shares making up the Company's share capital, during the third year of validity of the authorization given to the Board to grant free shares.

Conditions governing free share grants applicable to all beneficiaries

All free share grants by Ipsos are subject to a **continued employment condition**. The beneficiary must in effect continue working for Ipsos Group throughout the vesting period as from the date of grant. The shares will vest at the end of this period.

The **vesting period was extended to three years** as from the plan implemented in 2018. The vesting period was previously two years.

Since the Plan implemented on April 28, 2016 on the basis of the authorization granted by the General Meeting the same day under the new arrangements permitted by the so-called "Macron" Act, free shares granted within Ipsos Group **are no longer subject to a lock-up period**, aside from a specific ownership obligation only applying to executive officers (see below).

In accordance with the 23rd resolution passed at the General Meeting of May 15, 2023, the shares granted to any beneficiary as from the 2023 Plan will only vest, at the vesting date, if a "profitability" performance condition, measured over the entire vesting period, is met, with the criterion used to measure the achievement of this minimum performance condition being that the average net income attributable to the owners of the parent must be positive over the entire vesting period (the "**Minimum Condition**").

The achievement level of this Minimum Condition will be determined by the Company's Board of Directors at the end of the vesting period. It should be noted that, if the Minimum Condition is not met at the vesting date, no shares will be delivered.

The final vesting of the free shares granted by Ipsos to plan beneficiaries (other than those granted (i) to the Chief Executive Officer and the members of the ExCo for the 2023 annual plan and (ii) to the Chief Executive Officer and the members of the GMC for the annual plans defined in 2024 and 2025), are not subject to additional performance criteria. These criteria are not considered appropriate for these executives, for the following reasons: (i) the size of the plan in terms of the number of beneficiaries (approximately one thousand) and the diversity of the markets in which the participants operate (more than 70 countries); (ii) free shares are awarded free of charge to these executives as an integral part of their variable compensation; (iii) for the majority of these executives, they represent only a small portion of their compensation; and (iv) the inclusion of performance conditions (demanding performance conditions are also already set for variable compensation in cash), would have a significant negative impact on Ipsos' efforts to recruit and retain talented executives. It is therefore appropriate to establish other forms of compensation plans that would not have the same effect, in terms of aligning the interests of its executives with those of its shareholders.

Consequently, the annual volume of free share plans usually does not exceed 1% of the share capital per year, and Ipsos also endeavors to mitigate the dilutive effect of these plans by providing beneficiaries with own shares purchased through its share buyback program, rather than by issuing new shares.

Additional conditions applicable to the executive officer of Ipsos SA and the members of the GMC

Performance criteria:

The free shares granted to the Company's Chief Executive Officer and to the members of the GMC are also subject to performance criteria, in accordance with the AFEP-MEDEF Corporate Governance Code.

These performance criteria will be comparable from one year to the next³, assessed over the three financial years preceding the acquisition date. For 2025, three criteria were established:

- A criterion linked to organic growth (40% of shares awarded),
- A criterion linked to the operating margin (40% of shares awarded), and
- A criterion linked to diversity within the management bodies (20% of shares awarded).

³ The performance criteria applicable to each plan can be found in the summary table in Section 13.4 of this Universal Registration Document, table 10.

These criteria are measured over a period based on the vesting period, i.e. a period of three financial years for the last Plan implemented in respect of financial year 2025.

Each year, before the award date, the Board of Directors, on the recommendation of the Appointments and Compensation Committee, reviews the achievement levels of the performance criteria governing the total or partial delivery of said shares two years previously (three years previously since the plan implemented in 2018).

The achievement level of performance criteria and the criteria for granting free shares to executive officers and the members of the GMC under free share plans implemented in respect of FY 2018 to 2022 are indicated in the table below.

Specific holding obligation for executive officers:

The Company's executive officers are also required to hold at least 25% of the shares vesting throughout their term of office as corporate officer.

Free share plan (FSP)	Ratio shares delivered/vested	Ration shares not delivered/canceled
2022 FSP (shares delivered in May 2025)	100%	0%
2021 FSP (shares delivered in May 2024)	100%	0%
2020 FSP (shares delivered in May 2023)	100%	0%
2019 FSP (shares delivered in May 2022)	100%	0%
2018 FSP (shares delivered in May 2021)	100%	0%

Free shares granted in 2025

Free shares - The Company's Board of Directors, at its meeting of May 21, 2025, implemented a new free share plan for the 2025 financial year, based on the authorization granted by the General Meeting of May 15, 2023 in its twenty-third resolution.

It should also be noted that at its meeting of May 16, 2023, the Board of Directors decided to implement a new plan known as "China ESOP" for Chinese employees. It is specified that part of the compensation of certain Chinese employees (i.e. top managers, mainly levels 1 and 2, totaling around 40 people) is remunerated in free shares of the Company, and it was agreed that from 2023, the Chinese employees concerned will receive approximately 2/3 of their variable compensation in Ipsos free shares and will receive 1/3 of their variable compensation through participation in "China ESOP".

The "China ESOP" plan, legally governed by "Rules of Plan: Ipsos China Equity-Unit", includes the main characteristics (with the exception of the specific features provided for in the event of the beneficiary's death or invalidity) of the free share rules of plan, in particular with regard to the requirement of a continuous employment condition since the equity-units allocated to each of the beneficiaries under the terms of this Rules of Plan will only finally vest under a three-year vesting period.

Under the 2025 annual free performance share plan, 402,305 shares were awarded and distributed to 1,278 beneficiaries working for the Group.

Award to the Chief Executive Officer and members of the GMC

11,000 of these shares were awarded to the Chief Executive Officer of Ipsos SA⁴ (i.e. 0.03% of the share capital).

Final vesting of the free shares to be allocated to the Chief Executive Officer and to each of the members of the GMC under the Plan will be subject to (i) the achievement of a profitability condition measured over the entire vesting period, the criterion used to measure the achievement of this performance condition being that average net income attributable to the owners of the parent is positive over the three-year vesting period (the "**Minimum Condition**") and (ii) the achievement of three additional performance conditions, approved by the Appointments and Compensation Committee, described below, one based on revenue growth, the second on the improvement in Ipsos Group's operating margin and the third linked to gender diversity within the governing bodies:

- **Organic growth criterion** (40% of total shares awarded):
 - If the cumulative organic growth rate over three years is at least equal to the rate of the global market research sector as defined and calculated by ESOMAR⁽¹⁾ (traditionally defined global market research – core market/established), aggregated over the same period, all shares will vest.
 - If the cumulative organic growth rate over three years is between 75% and 100% of the cumulative organic growth rate of the market, the number of shares vesting will be between 80% and 100% of the number of shares awarded, determined on a straight-line basis.
 - If the cumulative organic growth rate over three years is under 75% of the cumulative organic growth of the market, no shares will vest.

⁽¹⁾ For the sake of clarity, for the measurement of the growth or decline rate of the global market research market defined and calculated by ESOMAR, reference should be made to the final growth rates available on the date of calculation of the performance conditions for the reference period. For example, in May 2028, if the definitive growth rate calculated by ESOMAR for 2027 was not available, only the rates for 2025 and 2026 would be used.

ESOMAR data used to assess this performance condition will be verified and validated by Ipsos, and more specifically by Internal Audit, with final approval by the Board of Directors, before being used.

- **Operating margin criterion** (40% of total shares awarded):
 - If the operating margin over three years increases on average by 0.2% per year (i.e. 0.6% over the period), all the shares would be vested, in the event of growth in the global economy. In the event of a global economic recession⁽²⁾, the target increase in the operating margin for the year is adjusted downwards by 50 basis points for each 100 basis points of decline in the global economy (+0.2% - 0.5% = -0.3%) for each year of recession (global economic growth as published by the IMF);
 - If the operating margin over three years grows between 0% and 0.2% on average per year, the number of shares vesting would be between 80% and 100% of the number of shares awarded,

⁴ The 11,000 shares initially granted on 21 May 2025 to Ben Page (Chief Executive Officer until 15 September 2025) were canceled during the past financial year. These 11,000 shares were then awarded on September 15, 2025 to Jean Laurent Poitou when he was appointed Chief Executive Officer. This award is subject to the same performance conditions that were established for Ben Page. This allocation was included in an additional plan as decided by the Board of Directors at its meeting of September 15, 2025.

determined on a straight-line basis; in the event of a recession, the growth target is adjusted as described above;

- If the operating margin over three years is lower or does not grow, no share will vest; in the event of a recession, the 0% threshold is adjusted as described above.

⁽²⁾ Global GDP as published by the International Monetary Fund (IMF) will be used to measure growth or decline in the global economy, it being understood that there will be a "recession" when global GDP in year N, as published by the IMF, is declining compared to year N-1.

- **Criterion related to diversity within the governing bodies**⁽³⁾ (20% of the total number of shares):
 - If, on April 1, 2028, the number of women represents at least 50% of the workforce of the governing bodies, all the shares would be vested;
 - If the number of women represents between 49% and 50% of the workforce of the governing bodies, the number of shares vested would be between 80% and 100% of the number of shares awarded, according to a linear increase;
 - If the number of women represents less than 49% of the workforce of the governing bodies, no shares would be vested.

⁽³⁾ The aim of this criterion is to have a balanced representation of men and women on the Group's governing bodies, understood in a broader manner and including the GMC (Group Management Committee), as well as the top levels (levels 1 and 2) of the Group's employees, i.e. approximately 900 individuals.

It is specified that if the Minimum Condition is not reached at the date of acquisition, then no shares will be delivered.

At the end of the vesting period, the Board reserves the right to adjust the objectives to be achieved for these three performance criteria in the event of exceptional events that would have a significant impact on the achievement of these criteria.

Other awards in 2025

- **Plan of September 15, 2025**

In relation to the appointment of Jean Laurent Poitou as Chief Executive Officer of Ipsos with effect from September 15, 2025, the Board of Directors, meeting on that same date, decided to award Jean Laurent Poitou 11,000 free performance shares, subject to the rules of the 2025 annual plan and the performance conditions applicable to the Chief Executive Officer, in accordance with the compensation policy for the Chief Executive Officer approved by the General Meeting of Shareholders on May 21, 2025 and set out in section 13 of the 2024 Universal Registration Document.

Final vesting of these shares is subject to the following performance conditions and similar to the performance conditions described above: (i) a profitability condition measured over the entire vesting period; the criterion used to measure the achievement of this performance condition being that net income attributable to the owners of the parent is, on average, positive over the three-year vesting period (the "**Minimum Condition**") and (ii) three (3) additional performance conditions, the first based on revenue growth, the second based on improvement in Ipsos Group's operating margin, and the third linked to diversity on the governing bodies.

- **BVA Plan dated December 17, 2025**

In a press release dated June 24, 2025, Ipsos announced the completion of the acquisition of The BVA Family.

This acquisition represents a significant expansion for Ipsos in France and strengthens its position in the UK and Italy. BVA notably brings its recognized expertise in customer experience monitoring, point-of-sale behavior analysis, and research for government and public services. The company also boasts research methodologies that focus on behavioral sciences. Its expertise in pack testing through PRS IN VIVO is a key strength that can now be rolled out across a much larger geographic footprint by Ipsos.

With the aim of retaining the best talent in a highly competitive industry, the Board of Directors decided at its meeting held on December 17, 2025 to once again use the authorization granted by the Extraordinary General Meeting of May 15, 2023 (23rd resolution), which made it possible in particular to allocate, on one or more occasions, during the third year of validity of this authorization, 1% of the total number of shares constituting the Company's share capital, in order to proceed with an additional allocation of free shares before the expiry of the third year of validity of said authorization.

Accordingly, 41 executives from the BVA Family Group were awarded a total of 17,600 shares.

Final vesting of these shares is subject to the same conditions governing the free share award applicable to all beneficiaries, i.e. **subject to continued employment** and the **minimum condition** (as described above).

Free shares vesting and delivered in 2025

Free share plan of May 17, 2022

On May 17, 2025, the vesting period of the Free Share Plan implemented three years earlier in respect of FY 2022 expired. On this vesting date, 377,926 shares, out of a total of 443,812 shares initially granted, were finally vested and delivered to 1,149 beneficiaries still with the Group at that date.

In addition, regarding the shares awarded on May 17, 2022 to persons who on that date were also executive officers of Ipsos, the Board of Directors meeting on February 26, 2025 assessed the fulfilment of said conditions.

The final vesting of the shares granted set at May 17, 2025 for the 2022 plan was subject to the achievement of two performance conditions (organic growth and operating margin), measured over a period of three consecutive years:

(i) Organic growth criterion (50% of total shares awarded)

- If the cumulative organic growth rate over three years is at least equal to the rate of the global market research sector as defined and calculated by ESOMAR (traditionally defined global market research – core market/established), aggregated over the same period, all shares will vest;
- If the cumulative organic growth rate over three years is between 75% and 100% of the cumulative organic growth rate of the market, the number of shares vesting will be between 80% and 100% of the number of shares attributed, determined on a straight-line basis;
- If the cumulative organic growth rate over three years is under 75% of the cumulative organic growth of the market, no shares will vest.

Achievement:

Estimated cumulative growth rate of the research market over three years: +14.1% (weighted average for the main companies publishing their results).

2022: 5.3% (ESOMAR)

2023: 4.6% (ESOMAR)

2024: 4.2% (ESOMAR)(estimated)

Ipsos cumulative organic growth rate over three years (system organic growth excluding restatements in Argentina, Lebanon and Venezuela): **10.7%**

2022 organic growth: +5.6%

2023 organic growth: +3.3%

2024 organic growth: +1.8%

Ipsos' three-year cumulative organic growth rate of 10.7% corresponds to 75.9% of the market's cumulative growth rate.

=> This level is between 75% and 100%. The number of shares vesting is thus between 80% and 100% of the number of shares awarded, according to a linear progression, i.e. 80.7%.

=>As a result, the number of shares to be delivered under the organic growth criterion is 5,380.

(ii) Operating margin criterion (50% of total shares awarded)

- If the average operating margin over three years increases by 0.2% per year (i.e. 0.6% over the period), all shares will vest. In the event of a global economic recession, the target increase in the operating margin is adjusted downwards by 50 basis points for each 100 basis points of decline in the global economy for each year of recession (global economic growth as measured by the IMF);
- If the average operating margin over three years grows between 0% and 0.2% per year, the number of shares vested will be between 80% and 100% of the number of shares awarded, determined on a straight-line basis. In the event of a recession, the growth target is adjusted as described above;
- If the average operating margin over three years is less than 13%, no shares will vest; in the event of a recession, the growth target is adjusted as described above.

Calculation:

Ipsos achievement:

2022 operating margin: 13.1%

2023 operating margin: 13.1%

2024 operating margin: 13.1%

Average increase per year between baseline year (2019: 12.9%) and 2024: 0.0667%

=> As the operating margin criterion increased by 0.0667%, 86.66% of the shares were vested.

=> Consequently, the number of shares to be delivered under the operating margin criterion is 5,776.

Consequently, and after noting that (i) the criterion related to organic growth was met at 80.7% and (ii) the criterion related to the operating margin was met at 86.66%, the Board of Directors approved the vesting and delivery of 11,156 shares to Ben Page, Chief Executive Officer, it being specified that Ben Page did not take part in the deliberations and vote on this decision.

At its meeting of March 13, 2025, the Board of Directors also approved the calculation of the achievement of the performance conditions determining the delivery, in May 2025, of free shares under the 2022 annual plan to Laurence Stoclet, who was Deputy Chief Executive Officer on the grant date. As a result, 12,687 shares were delivered to her in May 2025.

Potential dilution

As at December 31, 2025, if the free shares granted but not yet delivered were to be delivered by creating new shares through a capital increase, the maximum potential dilution would be 3.07% (see Summary table below).

Summary tables

Summary table of current free share plans

	Grant date	Number of shares attributed	Number of shares granted during the financial year	Cumulative number of cancellations	Shares delivered	Remaining shares	Delivery date	Potential dilution
Shares granted in 2022	05/17/2022	443,812		(65,886)	377,926	-	05/17/2025	0.00%
Shares granted in 2023	05/16/2023	405,853		(49,836)	-	356,017	05/16/2026	0.82%
Shares granted in 2024	04/30/2024	140,930		(5,306)	-	135,624	04/30/2027	0.31%
	05/14/2024	430,166	8,200	(32,302)	-	406,064	05/14/2027	0.94%
	Total 2024	571,096	8,200	(37,608)	-	541,688	-	1.25%
Shares granted in 2025	05/21/2025	413,305	-	(14 470)(1)	-	398,835	05/21/2028	0.92%
	09/15/2025	11,000	-	-	-	11,000	09/15/2028	0.03%
	12/17/2025	17,600	-	-	-	17,600	12/17/2028	0.04%
	Total 2025	441 905 (2)	-	(14,470)	-	427,435		0.99%
Total		1,862,666	8,200	(167,800)	377,926	1,325,140	-	3.07%

(1) This total includes the 11, 000 shares initially awarded to Ben Page on May 21, 2025, before being canceled during the past financial year.
These 11,000 shares were then awarded on September 15, 2025 to Jean Laurent Poitou when he was appointed Chief Executive Officer.

(2) It should be noted that this total does not exceed the cap of 1% of the share capital that may be allocated (i.e., a maximum number of 432,032 shares) in accordance with the authorization granted by the 2023 General Meeting for the third year of validity of this authorization, since the 11,000 shares initially awarded to Ben Page were canceled and then awarded to Jean Laurent Poitou during the past financial year (in aggregate, therefore, and after factoring in this cancellation, 430,905 free shares were awarded during the 2025 financial year).

Free shares granted in 2025

2025 free share plan	Number of shares	IFRS value (in Euros)
Number of free shares granted in 2025	413,305	14 159 829.30 €
Of which to executive officers * (see details in Table 6 in Section 13.3.1 of the Registration Document)	11,000	376 860 €
The ten employees who are not executive officers receiving the largest number of free shares	37,100	1 271 046 €

*The shares attributed under the 2025 annual free performance share award plan to Ben Page, Chief Executive Officer until September 15, 2025, were canceled during the past financial year.

Additional information on free share awards to executive officers as well as the history of free share awards can be found in Sections 13.3.1 and 13.4 of the Registration Document on executive compensation (see in particular Tables 6, 7 and 10).

19.1.5.2.3 Maximum potential dilution

As at December 31, 2025, if all the unvested free shares were to be delivered through the creation of new shares by way of a capital increase, the maximum potential dilution would be 3.07% (1,325,140 shares).

19.1.6 Options over the share capital of Group members

Please see Note "Commitments to buy out non-controlling interests" to the consolidated financial statements in Section 18.1.2 of this Registration Document.

19.1.7 History of the share capital

The table below details the share capital transactions since 2002.

Date	Transaction	Par value	Gross issue premium	Cumulative par value	Cumulative number of shares
12/31/2002	Capital increase resulting from the exercise of stock options in FY 2002 having led to the creation of 50,400 new shares	€0.25	€259,926	€7,004,597	28,018,388
12/31/2003	Capital increase resulting from the exercise of stock options in FY 2003 having led to the creation of 173,440 new shares	€0.25	€865,268	€7,047,957	28,191,828
12/31/2004	Capital increase resulting from the exercise of stock options in FY 2004 having led to the creation of 205,844 new shares	€0.25	€1,297,392	€7,099,418	28,397,672
11/02/2005	Capital increase without preferential subscription rights resulting from the issue of 5,000,000 new shares	€0.25	€113,750,000	€8,349,418	33,397,672
12/15/2005	Capital increase resulting from the issue of 297,648 new shares in consideration for the MORI share contribution	€0.25	€6,994,729	€8,423,830	33,695,320
12/31/2005	Capital increase resulting from the exercise of stock options in FY 2005 having led to the creation of 168,024 new shares	€0.25	€1,907,668	€8,465,836	33,863,344

Date	Transaction	Par value	Gross issue premium	Cumulative par value	Cumulative number of shares
12/31/2006	Capital increase resulting from the exercise of stock options in FY 2006 having led to the creation of 152,179 new shares	€0.25	€2,113,240	€8,503,881	34,015,523
Board Meeting of 03/20/2007	Recording of the capital increase resulting from the exercise of stock options in January and February 2007 having led to the creation of 29,481 new shares	€0.25	€439,137	€8,511,251	34,045,004
Board Meeting of 03/18/2008	Recording of the capital increase resulting from the exercise of stock options between March 1 and December 31, 2007 having led to the creation of 133,341 new shares	€0.25	€1,985,562	€8,544,586	34,178,345
Board Meeting of 03/18/2008	Recording of the capital increase resulting from the exercise of stock options between January 1 and February 29, 2008 having led to the creation of 3,913 new shares	€0.25	€59,000	€8,545,565	34,182,258
Board Meeting of 03/18/2008	Decision to cancel 457,017 shares (acquired for this purpose under the Share Buyback Program approved by the General Shareholders' Meeting of May 2, 2007) and corresponding reduction in the share capital to €8,431,310	€0.25	-	€8,431,310	33,725,241
Board Meeting of 03/18/2009	Recording of the capital increase resulting from the exercise of stock options between March 1 and December 31, 2008 having led to the creation of 48,299 new shares	€0.25	€757,546	€8,443,385	33,773,540
Board Meeting of 03/18/2009	Recording of the capital increase resulting from the exercise of stock options between January 1 and February 28, 2009 having led to the creation of 3,560 new shares	€0.25	€51,270	€8,444,275	33,777,100
Board Meeting of 02/24/2010	Recording of the capital increase resulting from the exercise of stock options between March 1 and December 31, 2009 having led to the creation of 85,040 new shares	€0.25	€1,387,715	€8,465,535	33,862,140
Board Meeting of 02/23/2011	Recording of the capital increase resulting from the exercise of stock options between January 1 and December 31, 2010 having led to the creation of 268,147 new shares	€0.25	€4,734,812	€8,532,572	34,130,287
Board Meeting of 07/27/2011	Recording of the capital increase resulting from the exercise of stock options between January 1, 2011 and June 30, 2011 having led to the creation of 20,614 new shares, and the delivery of shares following free share grants at that date having resulted in the creation of 118,425 new shares	€0.25	-	€8,567,331.50	34,269,326
Decision of the Chairman and CEO dated 09/07/2011	Recording of the capital increase resulting from the exercise of stock options between July 1 and August 31, 2011 having led to the creation of 4,276 new shares	€0.25	-	€8,568,400.50	34,273,602
Decision of the Deputy CEO dated 09/30/2011	Recording of the capital increase by means of a public offering through the issue of 10,967,552 new shares, raising the share capital to 45,241,154 shares as of this date	€0.25	€197,415,936	€11,310,288.50	45,241,154
Board Meeting of 02/29/2012	Between October 1 and December 31, 2011, 13,401 new shares were issued through the exercise of stock options.	€0.25	-	€11,313,638.75	45,254,555
Board Meeting of 02/27/2013	Between February 1, 2012 and January 31, 2013, 72,032 new shares were issued through the exercise of stock options.	€0.25	-	€11,331,646.75	45,326,587
Board Meeting of 02/26/2014	Between February 1, 2013 and January 31, 2014, 9,648 new shares were issued through the exercise of stock options.	€0.25	-	€11,334,058.75	45,336,235

Date	Transaction	Par value	Gross issue premium	Cumulative par value	Cumulative number of shares
Board Meeting of 10/26/2016	Recording of the capital increase relating to the exercise of stock options between July 1 and September 30, 2016 that resulted in the creation of 107,998 new shares, followed by a capital reduction through the cancellation of the same number of shares resulting from the exercise of options (share capital remained unchanged at the end of the twin transaction)	€0.25	-	€11,334,058.75	45,336,235
Board Meeting of 11/22/2016	Cancellation of 900,000 shares and subsequent recognition of a reduction in the share capital by a par value of €225,000.	€0.25	-	€11,109,058.75	44,436,235
12/29/2016	Capital increase by a par value of €2,219,179 through the issue of 8,876,716 new shares allocated to LT Participations shareholders, followed by a capital reduction through cancellation of the same number of shares (share capital remained unchanged at the end of this twin transaction)	€0.25	-	€11,109,058.75	44,436,235
Decision of the Chairman and CEO dated 12/31/2016	Recording of the capital increase relating to the exercise of stock options between October 1 and December 31, 2016 that resulted in the creation of 62,151 new shares, followed by a capital reduction through the cancellation of the same number of shares resulting from the exercise of options (share capital remained unchanged at the end of this twin transaction)	€0.25	-	€11,109,058.75	44,436,235
Decision of the Chairman and CEO dated 06/30/2017	Recording of the capital increase relating to the exercise of stock options between January 1 and June 30, 2017 that resulted in the creation of 156,344 new shares, followed by a capital reduction through the cancellation of the same number of shares resulting from the exercise of options (share capital remained unchanged at the end of this twin transaction)	€0.25	-	€11,109,058.75	44,436,235
Decision of the Chairman and CEO dated 12/31/2017	Recording of the capital increase relating to the exercise of stock options between July 1 and December 31, 2017 that resulted in the creation of 114,960 new shares, followed by a capital reduction through the cancellation of the same number of shares resulting from the exercise of options (share capital remained unchanged at the end of this twin transaction)	€0.25	-	€11,109,058.75	44,436,235
Decision of the Chairman and CEO dated 06/30/2018	Recording of the capital increase relating to the exercise of stock options between January 1 and June 30, 2018 that resulted in the creation of 61,341 new shares, followed by a capital reduction through the cancellation of the same number of shares resulting from the exercise of options (share capital remained unchanged at the end of this twin transaction)	€0.25	-	€11,109,058.75	44,436,235
Decision of the Chairman and CEO dated 12/31/2018	Recording of the capital increase relating to the exercise of stock options between July 1 and December 31, 2018 that resulted in the creation of 8,447 new shares, followed by a capital reduction through the cancellation of the same number of shares resulting from the exercise of options (share capital remained unchanged at the end of this twin transaction)	€0.25	-	€11,109,058.75	44,436,235

Date	Transaction	Par value	Gross issue premium	Cumulative par value	Cumulative number of shares
Decision of the Chairman and CEO dated 12/31/2019	Recording of the capital increase relating to the exercise of stock options between July 1 and December 31, 2019 that resulted in the creation of 28,920 new shares, followed by a capital reduction through the cancellation of the same number of shares resulting from the exercise of options (share capital remained unchanged at the end of this twin transaction)	€0.25	-	€11,109,058.75	44,436,235
Decision of the Chairman and CEO dated 06/30/2020	Recording of the capital increase relating to the exercise of stock options between January 1 and June 30, 2020 that resulted in the creation of 96,080 new shares, followed by a capital reduction through the cancellation of the same number of shares resulting from the exercise of options (share capital remained unchanged at the end of this twin transaction)	€0.25	-	€11,109,058.75	44,436,235
Decision of the Chairman and CEO dated 12/31/2020	Recording of the capital increase relating to the exercise of stock options between July 1 and December 31, 2020 that resulted in the creation of 14,374 new shares, followed by a capital reduction through the cancellation of the same number of shares resulting from the exercise of options (share capital remained unchanged at the end of this twin transaction)	€0.25	-	€11,109,058.75	44,436,235
Decision of the Board of Directors of 01/12/2022	Recording of the capital increase relating to the exercise of stock options between January 1 and December 31, 2021 that resulted in the creation of 543,466 new shares, followed by a capital reduction through the cancellation of the same number of shares resulting from the exercise of options (share capital remained unchanged at the end of this twin transaction)	€0.25	-	€11,109,058.75	44,436,235
Decision of the Chief Executive Officer on 12/31/2022, upon delegation of the Board of Directors on 10/26/2022	Cancellation of 183,010 shares and subsequent recognition of a reduction in the share capital of a nominal amount of €45,752.50.	€0.25	-	€11,063,306.25	44,253,225
Decision of the Board of Directors on 01/11/2023	Recording of the capital increase relating to the exercise of stock options between January 1 and September 6, 2022 that resulted in the creation of 128,134 new shares, followed by a capital reduction through the cancellation of the same number of shares resulting from the exercise of options (share capital remained unchanged at the end of this twin transaction)	€0.25	-	€11,063,306.25	44,253,225
Decision of the Chief Executive Officer on 09/30/2023, upon delegation of the Board of Directors on 07/25/2023	Cancellation of 1,050,000 shares and subsequent recognition of a reduction in the share capital by a par value of €262,500.00.	€0.25	-	€10,800,806.25	43,203,225

19.2 Memorandum and Articles of Association

19.2.1 Brief description of the corporate purpose

The purpose of Ipsos SA is:

- To conduct market research using surveys, opinion polls, statistical research or any other process with a view to facilitating and organizing the establishment of sales operations, promotions, and the distribution of products and services of all kinds; and to provide studies, surveys, opinion polls, analyses and consultancy services in the political, economic and social fields;
- To research, prepare, organize and implement, either on its own account or for third parties as agent or otherwise, all forms of advertising for all commercial products, including all space buying and selling operations;
- To carry out all types of consultancy activities that may constitute decision-support aids for companies, services or any other organization;
- To identify, obtain, acquire and use all patents, licenses, processes and goodwill relating to the above activities;
- To acquire equity interests of whatever form in all similar enterprises, including by exchange of shares for assets, by the subscription or purchase of shares, bonds or other securities, by becoming an active partner in limited partnerships, by forming new companies or mergers, or by any other means;
- To execute all financial transactions associated with a stock market listing; and
- More broadly, to carry out all civil, commercial, financial and industrial asset or property transactions, relating directly or indirectly to the Company's objects or to all other similar or associated objects.

19.2.2 Rights, privileges and restrictions attached to shares

There are no shares giving special control rights other than the double voting rights allocated to all fully paid-up shares that have been registered in the name of the same shareholder for at least two years.

Double voting rights (Article 10 of the Articles of Association)

Double voting rights relative to the percentage of the total share capital the shares represent are granted as follows:

- For shares that are fully paid-up and have been registered in the name of the same shareholder for at least two years;
- For registered shares that are allocated for free to a shareholder based on existing shares with double voting rights, in the event of an increase in the share capital by capitalization of reserves, earnings or share premiums.

A share loses its double voting rights if it is converted to a bearer share or if its ownership is transferred.

However, the acquired right is not lost if the share is transferred when a deceased shareholder's estate is settled, if a married couple's joint estate is dissolved, or if a gift is made to a spouse or heir.

The double voting right attached to registered shares may be exercised by a registered intermediary if the information provided can be verified to ensure compliance with the conditions required for the right to be exercised.

Each shareholder may waive these double voting rights at any type of General Shareholders' Meeting (Ordinary, Extraordinary, Combined or Special), and for a single Meeting at a time.

The exercise of the option to waive must be renewed at each Meeting where the shareholder wishes to use this option. Waiver may be total or partial, for all or part of the resolutions put to the Meeting.

As at December 31, 2025, 5,925,712 shares carried double voting rights. It should be noted that LT Participations had double voting rights in Ipsos SA. The shareholders of LT Participations were

themselves holders of shares in the company that acquired double voting rights on June 30, 2017. As a result of the merger of LT Participations into Ipsos SA, the Ipsos SA shares delivered in consideration for the merger to the shareholders of LT Participations also acquired double voting rights as from June 30, 2017 for the shares still held in registered form by their holders on that date.

There are no limitations under the Articles of Association regarding the exercise of voting rights, other than the penalty for non-disclosure of any ownership thresholds exceeded.

Appropriation and distribution of earnings

At least five per cent (5%) of the profit for the financial year, less any losses brought forward, must be appropriated to the legal reserve. This deduction ceases to be mandatory when the reserve fund reaches one-tenth of the share capital.

The balance, reduced by all other sums to be held as reserves in compliance with the law and the Articles of Association, and increased by the retained earnings carried forward, represents earnings available for distribution.

The General Meeting may also decide to distribute amounts from reserves available for distribution, specifically indicating from which reserve accounts such distributions are made. The General Meeting may appropriate any sum it sees fit from the earnings available for distribution, to be carried forward as retained earnings or transferred to one or more reserve accounts.

Share transfers

There is no clause in the Articles of Association restricting the transfer of shares.

19.2.3 Provisions that may delay, defer or prevent a change in control

There are no shares giving special control rights other than the double voting rights allocated to all fully paid-up shares that have been registered in the name of the same shareholder for at least two years (see Section 19.2.2 above).

There is no clause in the Articles of Association restricting the transfer of shares.

Voting rights enjoyed by Ipsos shares held by the "Ipsos Shareholding" FCPE (employee savings mutual fund) are exercised by the fund's Supervisory Board in accordance with Article 8.2 (2) of the FCPE's internal regulations.

There are no limitations in the Articles of Association governing the exercise of voting rights, other than the penalty for non-disclosure of any ownership threshold crossings.

20 Material contracts

Other than contracts entered into in the normal course of business, including purchase or sale transactions or those pertaining to the financing activities mentioned in this Registration Document, the Group is not aware of any other major contracts that were entered into by Group companies in the two years preceding the date of this Universal Registration Document still in effect and could contain provisions conferring an obligation or commitment likely to have a significant effect on the Group's business activities or financial position.

In the course of providing services, Ipsos may be required to deliver services globally for the same client. Ipsos' policy is to then enter into global service framework agreements with its key clients. Such contracts cover all the financial and legal conditions as well as the operational rules governing relations between Ipsos and its clients in all the relevant countries. Based on this global framework agreement, orders for services are entered into separately between Ipsos and the client's local subsidiaries so as to describe the services, their financial terms and conditions, as well as the specific rules for each country. However, the principle is that the global framework agreement prevails over service orders and governs all contractual dealings between Ipsos and its client in each country. These framework agreements are typically entered into for a period of three years or for automatically renewable one-year periods.

21 Documents available to the public

21.1	Person responsible for the financial information	472
21.2	Legal and financial documents	472
21.3	2025 annual financial report	472

21.1 Person responsible for the financial information

Mr Olivier Champourlier, Group Chief Financial Officer.

(olivier.champourlier@ipsos.com), 35 rue du Val de Marne – 75013 Paris – France.

21.2 Legal and financial documents

As long as this Universal Registration Document is valid, the following documents can be consulted at the registered office (35 rue du Val de Marne – 75013 Paris – France):

- Ipsos SA Articles of Association;
- all reports, letters and other documents, historical financial information, evaluations and statements prepared by an expert at the request of Ipsos, part of which is included or referenced in this Registration Document;
- historical financial information for Ipsos and its subsidiaries for each of the last three financial years prior to the publication of this Registration Document.

Among these documents, the following are available on the website (www.ipsos.com): Articles of Association, consolidated financial statements and historical financial information for the last three financial years. The reference/registration documents since the Company went public in 1999 are also available online (<https://www.ipsos.com/en/regulated-informations/en>).

The website also contains all publicly available information:

- Internal Rules of the Board of Directors;
- Regulatory information as defined by the AMF;
- Analyst and investor presentations;
- With regard to General Meetings, the Convening Notice including draft resolutions, ways to access the meeting, the results of votes on resolutions and all the documentation to be made available to shareholders in accordance with current regulations;
- Information regarding the composition of the Board of Directors and Executive Committee (GMC).

21.3 2025 annual financial report

A cross-reference table between the annual financial report and this Registration Document can be found in Chapter 22 of this Registration Document.

21.4 2025 Management Report

A cross-reference table between the 2025 Management Report and this Registration Document can be found in Chapter 22 of this Registration Document.

21.5 2025 Corporate governance report

A cross-reference table between the 2025 corporate governance report and this Registration Document can be found in Chapter 22 of this Registration Document.

21.6 Publications in the last 12 months

Date	Press release title
01/09/25	Ipsos is rated investment grade by Moody's and Fitch
01/15/25	Ipsos successfully completes a €400 million bond issue
01/30/25	With the acquisition of Whereto Research, Ipsos becomes the leader in social and government studies in Australia
02/26/25	With the acquisition of Ipec, Ipsos bolsters its Public Affairs activity and consolidates its position in Brazil
02/26/25	High profitability and cash generation despite slower growth in 2024
03/31/25	Ipsos entered into exclusive negotiations to acquire The BVA Family

07/23/25	Return to organic growth in the second quarter in a still volatile environment
08/19/25	Jean Laurent Poitou is appointed CEO of Ipsos
10/23/25	Good performance in the third quarter in a complex environment
12/09/25	Ipsos – Organizational change

21.7 Shareholder and investor information

Ipsos SA communicates with its shareholders at least once a year at its Annual General Meeting. It regularly issues press releases to all business and financial media, reporting its quarterly revenue, interim and full-year results and any major events affecting the Group.

Prospectuses, annual reports and other information memorandums, as well as press releases, are available in French and English on the Group's website (www.ipsos.com) and specifically at:

<https://www.ipsos.com/en/regulated-informations/en>.

and

<https://www.ipsos.com/en/regulated-informations/en>.

At least two analyst meetings are held annually to present the full-year and interim financial statements, and these are generally followed by a series of other presentations in France and abroad.

The Company has been hosting "Investors Days" since 2015.

The Group's executive officers meet very frequently with journalists, analysts and investors who so request (contact: Mr. Olivier Champourlier, Group Chief Financial Officer, Email: olivier.champourlier@ipsos.com).

21.8 2025 Financial Calendar

The calendar below shows the Group's main publication dates and financial events for 2025. Investors are invited to consult the Ipsos website for any updates.

DATE	EVENT	LOCATION / METHOD
February 18, 2025	Publication of 2024 annual results	
February 19, 2025	Presentation of 2024 annual results	Investor Conference - Paris, France
April 17, 2025	Publication of Q1 2025 revenue	
May 21, 2025	Annual General Meeting of Shareholders	Paris, France
July 23, 2025	Publication of H1 2025 results	
July 24, 2025	Presentation of results for the first half of 2025	Investor Conference - Paris, France
October 23, 2025	Publication of Q3 2025 revenue	

The 2026 financial agenda, including in particular the publication of the 2025 annual results, the Annual General Meeting, the quarterly communications and the **Investor Day in January 2026**, is available on the Ipsos website in the [Investors/Calendar](#) section.

Table showing the Company's results over the past five financial years	Article R. 225-102 of the French Commercial Code	7.2	204
Special report on transactions by the Company or associates involving the granting of free shares to employees and executive officers	Articles L. 225-184 and L. 225-197-4 of the French Commercial Code	19.1.4	449
Special report on transactions by the Company or associates involving the stock options reserved for employees and executive officers	Articles L. 225-184 and L. 225-197-4 of the French Commercial Code	19.1.4	449

22.3 Cross-reference table for the Corporate Governance Report provided for in Article L. 225-37 last paragraph of the French Commercial Code

This Registration Document includes all the elements of the corporate governance report referred to in L. 225-37 of the French Commercial Code, as reported in the cross-reference table below.

Section of the corporate governance report	Reference text	Paragraph and chapter No.	Page No.
Corporate governance code			
Reference to a corporate governance code, provisions that may not have been applied and the reasons therefor (application of "comply or explain"), place where this code can be consulted and, as the case may be, rules applied on top of legal requirements	Article L. 22-10-10, 4° of the French Commercial Code	14.4.1	294
Composition, functioning and powers of the Board of Directors			
List of all positions and offices held in any company by each of these executive officers during the financial year	Article L. 225-37-4, 1° of the French Commercial Code	12.1.2	249
Agreements made, directly or through an intermediary, by and between i) as the case may be, a member of the management board or supervisory board, the CEO, a Deputy CEO, a director or a shareholder with over 10% of the voting rights of a company and ii) another company controlled by the former within the meaning of Article L. 233-3, aside from ordinary arm's length agreements	Article L. 225-37-4, 2° of the French Commercial Code (version applicable from January 1, 2021)	14.4.7	330
Summary of current delegations granted by the General Shareholders' Meeting to the Board of Directors or management board with respect to capital increases and the use made of such delegations during the financial year.	Article L. 225-37-4, 3° of the French Commercial Code	19.1.5.1.2	449
Structure chosen for exercising executive power at the Company (Chairman of the Board of Directors or CEO)	Article L. 225-37-4, 4° of the French Commercial Code	14.4.3	295
Restrictions placed on the powers of the CEO by the Board of Directors	Article L. 22-10-10, 3° of the French Commercial Code	14.4.3	295
Conflicts of interest within administrative, management, and supervisory bodies and senior management	Articles L.225-38, L.225-47, L. 225-51-1 and L.225-56 of the French Commercial Code	14.4.3	295
Composition, arrangements for the preparation and organization of the Board's work	Article L. 22-10-10, 1° of the French Commercial Code	14.4.2; 14.4.3	294 ; 295
Diversity policy for the Board of Directors and management bodies	Article L. 22-10-10, 2° of the French Commercial Code	14.4.3	295
Specific arrangements regarding shareholder participation at General Meetings or reference to provisions of the Articles of Association providing for such arrangements	Article L. 22-10-10, 5° of the French Commercial Code	14.4.7	330
Description of the procedure for assessing ordinary arm's length agreements	Article L. 22-10-10, 6° of the French Commercial Code	14.4.7	330
Items that may potentially affect a public offer	Article L. 22-10-11 of the French Commercial Code	14.4.5	329
Compensation of executives and executive officers			
Compensation policy for executive officers	Article L. 22-10-8, I., paragraph 2 and R. 22-10-14 of the French Commercial Code	13.1	252
Information on the compensation policy for executive officers	Article L. 22-10-14 of the French Commercial Code	13.1	252
Total compensation and benefits-in-kind, breaking out fixed, variable and extraordinary items, paid in respect of the office over the past financial year, or awarded in respect of said office with respect to the same financial year	Articles L. 22-10-9, I., 1° and 2° of the French Commercial Code (versions applicable from January 1, 2021)	13.2	266

Section of the corporate governance report	Reference text	Paragraph and chapter No.	Page No.
Information on the compensation of executive officers subject to a general "ex post" vote by the General Meeting	Articles L. 22-10-9, I. and L. 22 10-34, I. of the French Commercial Code	13.3	270
Internal control and risk management procedures			
Main features of the internal control and risk management procedures put in place by the Company relating to the preparation and processing of accounting and financial information	Article L.22-10-10, 7° of the French Commercial Code	14.4.8	323

22.4 Cross-reference table for the annual financial report referred to in I of Article L. 451-1-2 of the French Monetary and Financial Code

In order to facilitate the reading of the annual financial report, the following cross-reference table provides a list of information required by Article L. 451-1-2 of the French Monetary and Financial Code and by Article 222-3 of the AMF General Regulation.

Headings of Article L. 451-1-2 of the French Monetary and Financial Code and Article 222-3 of the AMF General Regulation		Paragraph and chapter No.	Page No.
1.	2025 annual financial statements	18.1.4	424
2.	2025 consolidated financial statements	18.1.2	350

9.	The Certification Report on Sustainability Information	5.4.2.6	187

22.5 Cross-reference tables of the Sustainability Report

22.5.1 Cross-reference table of the Sustainability Report with the provisions of Articles L.232-6-3, L.233-28-4 and R.232-8-4 of the French Commercial Code

Sustainability report	Reference text	Chapter – Section URD
The Company's business model and strategy	Article R. 232-8-4 of the French Commercial Code	5.4.2.1.2
The degree of resilience of the Company's business model and strategy with respect to sustainability risks	Article R. 232-8-4 of the French Commercial Code	5.4.2.1.2.3
The opportunities presented by sustainability issues for the Company	Article R. 232-8-4 of the French Commercial Code	5.4.2.1.2.3

Sustainability report	Reference text	Chapter – Section URD
The company's plans, including actions taken or envisaged and related financial and investment plans, to ensure the compatibility of its business model and strategy with the transition to a sustainable economy, the limitation of global warming to 1.5°C in accordance with the Paris Agreement and the objective of climate neutrality by 2050 as set out in Regulation (EU) 2021/1119 of the European Parliament and of the Council, and, where appropriate, the company's exposure to coal, oil, and gas-related activities	Article R. 232-8-4 of the French Commercial Code	5.4.2.2.1/ 5.4.2.2.2
How the Company's business model and strategy considers the interests of stakeholders and the impacts of its business on sustainability issues	Article R. 232-8-4 of the French Commercial Code	5.4.2.1.2.2
How the Company's strategy is implemented with respect to sustainability issues	Article R. 232-8-4 of the French Commercial Code	5.4.2.1.3
The Company's time-bound sustainability targets and progress towards those targets, including, where appropriate, absolute greenhouse gas emission reduction targets for at least 2030 and 2050	Article R. 232-8-4 of the French Commercial Code	5.4.2.1.3.2 / 5.4.2.2.1.2 / 5.4.2.2.1.3
The role of the management, administrative or supervisory bodies in relation to sustainability issues, as well as the skills and expertise of the members of these bodies or the opportunities available to them to acquire them	Article R. 232-8-4 of the French Commercial Code	5.4.2.1.3.1
Company policies on sustainability issues	Article R. 232-8-4 of the French Commercial Code	5.4.2.2.1.2 / 5.4.2.3.1.1 / 5.4.2.3.2.1 / 5.4.2.3.3.1 - 5.4.2.3.3.2 / 5.4.2.4
Incentives related to sustainability issues granted by the company to members of the management, administrative, or supervisory bodies	Article R. 232-8-4 of the French Commercial Code	5.4.2.1.3.1
The reasonable due diligence procedure implemented by the company concerning sustainability issues and the negative impacts identified in this context, where applicable pursuant to European Union legislation	Article R. 232-8-4 of the French Commercial Code	5.4.2.1.3.6
The main potential or actual adverse impacts, the measures taken to identify, monitor, prevent, eliminate, or mitigate these adverse impacts and the results achieved in this regard	Article R. 232-8-4 of the French Commercial Code	5.4.2.1.2.3
The key risks to the company related to sustainability issues, including its key dependencies, and how it manages those risks	Article R. 232-8-4 of the French Commercial Code	5.4.2.1.2.3

22.5.2 Cross-reference tables of the Sustainability Report with GRI* standards and Global Compact Principles

*The drafting of the Ipsos Sustainability Report was largely influenced by the GRI guiding standards, notably through interoperability between the GRI and the ESRS arising from the CSRD. The GRI standards can be accessed [here](#).

GRI Standards	GRI information and requirements	Chapter – Section URD
GRI 2: General disclosures 2021	2-1 Organization and reporting practices	5.4.2.1
	2-2 Entities included in the organization's sustainability reporting	5.4.2.1.1.2
	2-3 Reporting period, frequency and contact point (2-3-a and 2-3-b)	5.4.2.1
